THE PROPER STUFF.

Following is being printed in a number of Oregon papers and has the right ring. It is taken from the Cooper of Salem:

While so many are making and submitting platforms I submit the following:

A tariff for revenue sufficient to meet national expenses with protection to American labor and its products.

The use of both gold and silver as standard money and not the gold standard. And a discriminating tariff against gold standard countries.

No more bonds.

Postal saving banks.

Election of United States senators by direct vote of the people.

Close the gates of Castle Garden against all un-American immigration, and make "Old Glory" the keeper of the peace in the western hemisphere.

Cut off all extravagant legislative appropriations for useless commissions, extra salaries of officials and jobs, or cut the political throat or the man who refuses to do it when he has the opportunity.

This kind of a platform can be understood.

THE REFORMER'S PLATFORM.

Salem's henchman and nominee for state senator, Hon. O. F. Paxton introduced the following resolution, which was unanimously adopted by a rising vote:

"Every candidate nominated by this convention is pledged to the express condition that he will not oppose, but will consent to any reduction which the legislature may see fit to make in his official salary or emoluments.

"The candidates for legislative offices nominated by this convention are firmly pledged to see that proper laws are passed to reduce official salaries, abolish the fee system, reduce wherever possible the number of offices, curtail public expenditures and in every way relieve the people from the present burdensome taxation.

"This convention favors and pledges the Republican party of Multnomah county to the utmost economy in every department of public business.

"We favor the adoption of the necessary constitutional amendments and the enactment of proper laws requiring the registration of voters at primary and general elections."

WOMEN IN METHODISM.

The general conference of the Methodist church will be held in Cleveland, Ohio, in May and will settle the vexed question whether a woman is a layman or not. Behind this is the deeper question whether women are to have any voice in the direction of the church. Originally the affairs of that religious organization were directed by the clergymen exclusively. The progress of the age brought about a peaceful revolution which expressed itself in the constitutional rule that the conference be made up of ministers and laymen. In this country women have long taken a leading part in church work, and in many instances outnumbered the men two to one in membership, five to one in attendance and ten to one in religious labor.

When it came to choosing delegates in many instances women were elected to local conferences as well as to the general conference. The matter has been fought over a number of times and each time the woman's cause has been thrown down by the conservative party of the church. The victories, however, have been marked by no result excepting an increased strength of the defeated. This year they will apparently carry the conference before them. There are no returns in full as yet, but those which have been received show a very heavy and handsome gain for women in every local conference. If the proportion holds true the woman's cause will have a single triumph. A curious feature of the struggle is that the anti-woman's party is led by German Methodists and other foreign churches, while the leaders of the progressive party are almost entirely American.

In order to bring the question directly into issue three women have been elected lay delegates to the coming conference. These are Miss Lydia A. Trimble, who is a missionary in China, and who holds an enviable record as a successful evangelist; Mrs. Jane Bashford, who is the wife of Rev. J. W. Bashford, president of the Ohio Wesleyan university; Mrs. E. W. Parker, wife of Rev. Dr. Parker.

There will be a number of erudite arguments, among which one is expected from Rev. A. J. Kynett, at the conference. His speech in favor of woman's eligibility as a lay delegate, delivered some time ago, was considered the best, most scholarly and convincing within the literature of the subject.

REDUCE LEGAL INTEREST.

A measure of importance to Benton county and every other county would be legislative act the reduction of the interest on county warrants from eight to 6 per cent. The price of farm products has fallen, the wages of laborers on farms have fallen, the profits on every mercantile and mechanical pursuit have been cut down, and it is only fair that interest on money should likewise be pruned. Warrants are nontaxable, and that means at the present rates of taxation a profit of from ten to eleven per cent on them as an investment. It gives to money invested in them, while they draw eight per cent interest power to earn a greater proportion of profit than falls to the lot of business industry.

For years the floating debt of Benton county has been in the neighborhood of $50,000. Paying six instead of eight per cent on the warrants representing this indebtedness would have saved the county annually the handsome sum of $1,000. The measure is worth considering, and ought to meet with popular approval.—Corvallis Times.

Marvelous Results

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Kalamazoo Junction she was brought down with a severe attack of La Grippe, followed by a hard cough and fever, which left her in a wretched condition. Her friends thought she was in the last stage of consumption. I had her take Dr. King's New Discovery, as it was recommended as the best cough remedy, and the result was that she was soon well and able to do her housework. Her husband, who is a druggist, testifies that he sold more of Dr. King's New Discovery during the year than any other cough medicine, and that it was the universal favorite in his trade for all lung troubles. Trial bottles free at Frederick Ragg's drug store. Regular size 50 cents, and $1.00

CROWS LEAVING OUT.

[BY A BYSTANDER.]

Ford would not be a dude congressman.

Like Patti, Binger will appear again.

It's the rich tax dodgers against the taxpayers in Portland.

It is Mayor Winter Tooze of Woodburn, and father of twins.

The Grand Army candidate for congress has not appeared.

The Alaska federal office-holders seem to be running things.

Street corner politics will not reform anything. Let farmers go to work.

Harry Miller is par excellence the "coming pioneer" congressional candidate of the Oregonian gang.

Fred Warnock of the Silverton Appeal, has the courage to be an out and out Mitchell man.

Rhode Island has just chosen her legislature. No one refused to run and all will serve at a salary.

The little newspapers at Portland that make their living off the people are against the Simon gang.

The Vanderbilts and their Mr. Depew are travelling on the coast. Already there is a feeling that times ought to be better.

Jack Cooper is an employe of the Oregon State Prison, but he is not afraid to have opinions and express them. Read Jack's platform.

Pennoyer can still write a good letter, and would make a mayor of Portland who would be known from the Atlantic to the Pacific.

Elect all of Jo. Simon's office boys to the legislature and his partners for senators. Then watch the moral wave of reform sweep over Oregon.

D. Solis Cohen is a good man for mayor of Portland. He is a member of everything under the sun and has no connection with the common herd.

Lane county Republicans want state officials to have some of their constitutional salaries. Does that include the state university professors?

Truitt is for Truitt. Truitt can't throw the Polk vote to anyone he pleases. He will try to throw a few to the winning man and get a plum for Truitt.

Street estimates of Hermann's strength are that he gets 45 to 47 votes on first ballot, and is nominated on third. His champions say he gets there on the first.

By all means make Jim Eddy congressman from Eastern Oregon. He can draw his salary with more grace and give less in return than any other man in Oregon, says Sam Small of the Baker City Democrat.

Make Warren Truitt congressman; he has no "views," and no law practice to interfere with his going. Besides if he isn't sent to congress he'll have to have a federal office anyhow.

County Democratic Convention.

TAXPAYERS AND TAXEATERS.

This was the "slogan" last Thursday. Let ordinary, reasonable, taxpaying citizens—now that the great Republican new party has—know who the taxpayers and taxeaters are.

The men who ran the city, county, and state, are those who carried the Republican primaries Thursday. They do not pay taxes on a cent of the property they possess to say nothing of what they handle corruptly—of what it takes to buy such a paper as the Oregonian, and such a paper as the Oregonian, and such a Bank of Scott and the Oregonian selling out for years and then speaking to an intelligent citizen about taxeaters.

But there is another class of taxeaters, whom Mr. Scott, Mr. Simon, et al, desire to represent. They do they plously pretend they were all on the other side. They got $2.50 each. They go to Portland. A ticket on a down drive for drinks or may be cause that made them crazy most of them were for the taxpayers, for Mr. Simon, for Brother Locke, Brother Grant, Brother Vining, and Larry Sullivan—isn't that a sweet combination. Take the most pious Methodist, the most crazy Salvationist, the most drunken and disreputable tender, the lowest dive-driver, the richest banker in Portland, the meanest politician, the ablest editor, and the most scurrilous scourgers—and all of them were working together for the taxpayers. Well, well, this is the great Republican party of reform and regeneration. We saw what they could and would do Thursday; what in h— will they do if they get a chance in June.

Brothers, friends, citizens, neighbors, Americans, think of it.—Portland Welcome.

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested any more than animals can. The Mount Lebanon Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be eaten with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every suffering dyspeptic make a trial of it. Any druggist can supply it.

In Society

women often feel the effect of too much gayety—balls, theatres, and teas in rapid succession tire them worn out, or "run down," by the end of the season. They suffer from nervousness, sleeplessness and irregularities. The smile and good spirits take flight. It is time to accept the help offered in Doctor Pierce's Favorite Prescription. It's a medicine which was discovered and used by a prominent physician for many years in all cases of "female complaint" and the nervous disorders which arise from it. The Prescription is a powerful tonic for the nerves, especially adapted to women's delicate wants for it regulates and promotes all the natural functions, builds up, invigorates and strengthens.

Many women suffer from nervous prostration, or exhaustion, owing to congestion or to disorders of the special functions. The waste products should be quickly got rid of, the local source of irritation relieved and the system invigorated with Dr. Pierce's Prescription. Do not take the so-called celery compounds, and nervines which only put the nerves to sleep, but get a lasting cure with Dr. Pierce's Favorite Prescription.

"FEMALE WEAKNESS.

MRS. WILLIAM HOOVER, of Bellville, Richland Co., Ohio, writes: "I had been a great sufferer from female weakness. I tried three doctors; they did me no good; I thought I was an invalid forever. But I heard of Dr. Pierce's Favorite Prescription and then I wrote to him and he told me just how to take it. I took eight bottles and now feel entirely well. I could wind on my feet only a short time, and now I do all my work for my family of four."
