Daily Capital Journal.

BY HOFER BROTHERS.

WEDNESDAY, JULY 21, 1897.

A large edition of THE OREGON DAILY goes to new readers all over the state, dedicated to the cause of good government. THE JOURNAL asks all who receive one of these copies to consider well the political situation in Oregon, and remedying the situation in county and state affairs. The politicians may be forgiven for looking at matters from a party standpoint, but American citizens must begin to look out for their country.

The Democratic, People's Party and Silver Republican voters of the state ought to form a clean patriotic Union party. They agree on as clear a line as ever was drawn. They agree on abolition of all forms of issue, on election of senators by direct vote of the people, on Postal Savings banks, on taxing the gross incomes of corporations now untaxed, and what is of greater importance, on greater economy in county and state government.

In Linn County the People's party showed a reduction of over $10,000 in expenses the past year over the preceding year of Republican rule. In Clackamas county the People's party showed a similar reduction in expenses. In Yamhill county, the Union Bimetallic party showed a reduction in all departments. In Clatsop county a Republican county treasurer defaulted for a large sum. In Marion county a Republican administration has plunged the county in debt and only escaped indictment by the last grand jury through party pressure on jurors. Not all county administrations in the hands of Bimetallists will be found perfect, but we can challenge comparison.

The county treasurer of Marion county is a Populist. He publishes a monthly, semi-annual and annual statement of the condition of the county treasury. The semi-annual statement alone is required by law. No one has any doubt but that the money is in his hands. No one believes that he is farming it out to banks. In this respect we believe a higher code of morality prevails among the Silver or Bryan people of Oregon than among the gold standard politicians. There have been and will be Populist defaulters and corruptionists, but we believe the bankrupt politician and defaulting bankers in Oregon are nearly all in the McKinley party. If this city or any of its people have lost money in a busted bank or business, it has been a "sound money" concern and not managed by Populists. But perhaps this will not always be so.

In contrast with this Populist record, to what extent does our Republican state treasurer take the people into his confidence? Not at all. Not even the Oregonian can wring out of him a statement of the condition of the state treasury. There is no doubt over a half million of money is in the keeping of the state treasury. The public are forbidden to know anything about the amount or its whereabouts. Perhaps this is wise. Perhaps it would not be safe to let the people know where their funds are. They might be exposed to the attacks of the midnight burglar or other public enemy, who would be sure to be a Populist. And it is far better for the people if in the end their funds are got away with by a "sound money" Republican than to have them honestly accounted for by "a d—d Populist."

FROM A POPULIST LEADER.

Hon. Thomas Barkman, Mansfield, Cass county, writes:

Now that Bryan has made his trip to the east and the Queen's jubilee has gone into the past, it is well enough for the people to let persons rest for a time and take a look at the situation. The fact that so much fuss could be made over one ruler, while at the same time millions of her subjects are starving, is neither a Christian or sensible prospect to present itself so glaringly before the civilized world. I would not say or do one thing to detract anything from Bryan, but it is not American in principle to exalt the individual so as to obscure matters that are of greater importance than one mere personality can be to the people.

I supported Bryan and suppose I will again, not simply because it was Bryan more than any other man, but because I felt and believed he, if elected, would carry out the principles I feel to be correct. It is the principles that I am interested in far more than the man. In his public avowal of principles he is not near as far along as I would like to see him, but I remember that I supported Lincoln, believing that he would, when the people were ready for it, prove to be an abolitionist at heart and so act, and I was not disappointed in the man. I am just as confident now that Bryan will, when the time comes and the people are ready for their inauguration, step ahead in the right direction, as I was that Lincoln would move in the right direction at the right time. If I thought otherwise I surely could not support him, as free silver with the simple addition of an income tax would lack a great deal of being our redemption from the bondage we are now in. I am so American in my ideas that I could not help putting on as an addendum to the hallelujahs to the queen (and her starving millions) And while the admirers of McKinley are sticking by him without apparently wavering, I can't help the expression of, "Great is McKinley for broken promises!" We all know that it is the common lot of humanity to make blunders, and it is one's duty to excuse them as far as we consistently can, but after a certain point it is our duty to let the individual fall out of the way so that the car of progression can pass unimpeded by. Though we have ostensibly done away with kings, we have allowed individual exaltation that equals in its effect of depression on the common people.

"And when I had heard and seen I fell down to worship before the feet of the angel which shewed me these things. Then saith he unto me, see that thou do it not, for I am thy fellow servant and of thy brethren, the prophets, and of them which keep the sayings of this book. Worship God."

Baby's Second Summer

is the time that tries all the care of the mother and all the skill of maternal management. Baby comfort comes from fat; fat babies have nothing to do but to sleep and grow.

If your baby does not seem to prosper, if he does not gain in weight, you must get more fat there. A few drops of

Scott's Emulsion

each day will put on plumpness; fat outside, life inside, baby and mother both happy.

Your baby can take and relish Scott's Emulsion as much in summer as in any other season.

For sale by all druggists at 50c. and $1.00.

Frank and Open.

Eugene Daily Guard, Dem:

The Oregon Union is the name of a new paper published in Corvallis. It is very frank and open on the political situation and pleads for the Republican party to give the gold Democrats proper recognition. It does not appear to understand that for every gold Democrat carried into the Republican party that political organization will lose ten free silver Republicans when the matter again comes to issue. We give our readers a few choice extracts from this appeal to the "patriotism" of the gold Democrats prefacing the same, however, with the opinion that outside of capitalistic and monied interests very few "gold" Democrats are to entertain.

"The sound money Democrats carried Oregon for McKinley. If the Republicans carry the state next election it must be done by the aid of the same voters. Therefore, it is the part of political wisdom to seek to retain these allies.

"Sound money is what these Democrats voted for, and the Republican party must make sure that the country is to have sound money.

"They would not tolerate free silver in the Democratic party, they will not tolerate even a doubt about it in the Republican party.

"The party at Washington may be relied on to perform its pledges in that regard, but the party in Oregon must not permit it to be questioned whether it is firmly for sound money, otherwise it will lose the sound money Democrats and lose Oregon. There ought to be no reason why the sound money Democrats should not permanently act with the Oregon Republicans.

"Then comes a question of practical politics. Sound money Democrats were patriotic. They had not the hope of political preferment nor the pride of party success as incentives. It is to their credit that they have not sought to be rewarded for their splendid patriotism. Nevertheless it would be a graceful recognition of their services to tender to them a confidence and appreciation implied in the bestowal of important offices. Not for their sake, but for the sake of the Republican party ought this to be done.

"In every county in this state there are sterling Democrats who would add strength to our party and efficiency to the public service.

"And who doubts that we shall need them again? The forces of free silver will surely combine again. When the fight is on again the sound money Democrats must be in our army.

"To insure this we must give some commissions beforehand.

"The free silver Republicans who went from us will not come back again until the fight is over. That is, they will will not be converted from their error until the Republican party shall have demonstrated by practical results the soundness of sound money, and the rottenness of rotten money. This will require a practical demonstration.

"We invite the co-operation of all sound money Democrats in this country to defeat our common enemy."

BASEBALL NOTES.

The hop men and bank clerks entertained a large crowd on Wilson avenue, Tuesday afternoon when they played a game of baseball. The game was called at 4:15 with Doug Minto as umpire. At 6 o'clock after five innings had been played the game was discontinued, the score standing 33 to 10 in favor of the bank clerks. The hop men, who are accustomed to handling nothing smaller than bales of hops, were unable with but few exceptions to find the baseball throughout the game.

Salem Camp No. 118 W. of W. has extended a challenge to the local A. O. U. W. lodge for a match game of baseball, the time and place for such game to be named by the woodmen.

The Salem juniors, this afternoon plays with the boys of the West side at Independence.

Mesdames Harwick and Webb, living two miles northwest of Forest Grove, as they started from home in a cart Saturday, were severely bruised by a kicking horse. One of the women fell over the back of the cart, and, in falling, her foot caught and she was dragged a short distance. The horse was a vicious animal, and its owner later killed it.

"The Twelve Temptations."

"The Twelve Temptations" will be here tonight when it will remain for one night only.

With scenery that is marvelous in extent, beauty and perfection, and teeming with gorgeous, many-hued and dazzling costumes, while the stage is crowded to repletion with handsome and shapely young girls, this wondrous spectacle is found to create its unparalled sensation. There are also many trick acts of the utmost ingenuity, the taste of comical inventions and devices sure to raise cyclones of the heartiest merriment while the grand final transformation "Levy Jones' Locker" is an absolute revelation.

Specialties by The Rennines, John Harty, the Brothers Elliot, Rose Stevens and Harry H. Brown, and Rose Keener will enliven and diversify the splendid entertainment, while Signorina Ferrero and Bassoggio, Italian pennerists, it is said, will appear in the superb solos and variations and bear a corps de ballet that, for youth, good looks, shapely forms and artistic efficiency has not a superior. All who appreciate grand ballets will be delighted by "The Four Seasons," "The Reigning Female Fads," "The National Trio Issues," Shafts of Light (improved), etc., while those who relish terpsichorean conviviality and gracefulness will revel in "Holding on Grandpa's Shoulders," "The Coming Women and the Going Men" and "The French Nurse and Her Charge. Seats on sale at Patton's.

Many a boy starts out in life with the firm determination of conquering the world. He means to achieve success and wealth and fame. His intentions are good, and his will is strong. If he has the bodily strength to carry him through, his efforts will be crowned with achievement. Bodily strength and health are his greatest capital. Without them he can hope for nothing. How many young men and young women are cut off just when the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. Consumption has been considered incurable, and the medical profession has never made a greater mistake than this. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections. There is no reason why the child of consumptive parents need ever have consumption if its blood and lungs are strengthened by the proper use of the "Discovery." All who have any reason to fear consumption, should read the chapters on that disease in Dr. Pierce's Common Sense Medical Adviser. This great medical work of 1008 pages, profusely illustrated, has reached a sale of over 680,000 copies. It will be sent free of charge on receipt of 21 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.
