JOURNAL X-RAYS

Welcome A. O. U. W.

The whole country is full of prunes.

It seems these are real Workmen, and working men and women as well.

Salem's streets are kept better than ever, but they should be polished up still more.

The Workmen have possession of the city, and there's nothing too good for them.

Front porches are popular in other cities besides Canton and Lincoln in these midsummer days.—Inter Ocean.

The hop crop about Salem is proving a disappointment to many. There will be four times as much as was expected.

Strange, that the Cuban expenses have been cut down over $100,000 a month since the recent postal frauds were exposed.

One day the organs prove Bryan a dangerous to make the populists mad and the next day they prove him a Pop. to make the Democrats mad.

Bryan will be officially notified that he is running for President at Indianapolis, notwithstanding the assertion that he did not have full and complete knowledge of the fact.

Some railroad officials go into politics to help their roads, but Mr. Markham, of the Southern Pacific, prefers to make his money in peace in America and does not seem to be afraid of it helping the people accommodate him.

The friends of Buffalo Bill have suggested him as a candidate for vice-president on the ground that he is the best kind of a "rough rider" and a good fellow as well as a bad one. In short, he knows more cowboys than Teddy Roosevelt ever saw.—Eugene Journal.

The Oregonian claims that Croker is strenuously trying to deliver New York's electoral vote to McKinley. Then it says that Croker and Platt are in partnership and call it an unholy combination, but forgets to state that Platt absolutely named Teddy Roosevelt as the vice-presidential candidate.

Today is yours and mine, the only day we have, the day in which we play our parts. What our part may be in the great whole we may not understand, but we are here to play it, and now is the time. It is the part of action and not of whining: it is the part of love and not of hate and not cynicism. It is for us to express love in terms of human helpfulness.—Rev. David Starr Jordan.

THE CHICAGO

Spokane Spokesman Review: The man who is in politics for the offices might just as well be in politics for the money he can get for his vote, so far as the general good is concerned. The spoils-seeker invariably proves to be the bribe-taker and bribe-giver, the embezzler of public funds and the corrupter of voters. These are recent utterances of some of the nominees of the Philadelphia convention. It is scarcely necessary to add that they are not the utterances of Mr. McKinley.

The yellow journals, having been shy on sensations for a day or two, have invented the story that a plot to assassinate President McKinley has been unearthed. The story is pronounced a fake, pure and simple.—Eugene Register.

Why pervert the news? Mr. Odell, the Republican national committeeman of New York, where the news originated, pronounced it too serious a matter to consider lightly. Nearer the truth would be to say that it was a silly attempt to make sympathy for a candidate, but it wouldn't work, and shrewd Mark Hanna called the boy's play off.

FALLING HAIR STOPPED

Baldness Cured by Destroying the Parasite Germ That Causes It.

Baldness follows falling hair, falling hair follows dandruff; and dandruff is the result of a germ digging its way into the scalp to the root of the hair where it sapps the vitality of the hair. To kill that germ is to prevent as well as to cure dandruff, falling hair, and lastly, baldness. There is only one preparation known to do this, Newbro's Herpicide, an entirely new scientific discovery. Wherever it has been tried it has proven wonderfully successful, it can be otherwise because it utterly destroys the dandruff germ. You destroy the cause, you remove the effect.

Bicycle Thief Captured.

The bicycle belonging to Benj. Irving, which was stolen from the hallway of the First National bank building on the afternoon of last Wednesday, was recovered in Albany yesterday, and the thief arrested. A young fellow about 18 years of age giving the name of John Phillips tried to sell the wheel to A. Schmidt, a bicycle dealer. Schmidt had a description of the wheel and identified it at once. Phillips took to his heels but was captured and lodged in jail. Chief of Police Gibson went after him today, and he will be examined on a charge of larceny at 10 a. m. tomorrow.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

An Open Letter.

Macleay, Oregon, June 13, 1900.

Messrs. Mitchell, Lewis & Staver Co., Salem, Oregon.

Gentlemen—I can cheerfully recommend the Champion Binder, Draw Cut Mower and Champion Rake I purchased from you last season, as they are giving the very best of satisfaction. I gave the Binder a thorough test last season. I had 200 acres of oats that was struck well quite badly and they ripened sufficiently to head, but having no header I got five other Binders and put in with my Champion to cut them. The Champion was the only Binder of the six that would elevate the oats and deliver them to the packer without feeding back between upper end of elevator to binder. There were two Deerings, two McCormicks and one Plano, and they were continually bothering when the Champion run right along and in fact its elevator did not choke once all season.

The Draw Cut Mower is the Acme of perfection. It runs easy and light, cuts a full swath, wheels never slip, and there is no side draft or weight on horses' necks when Mower is in motion. Had no break and the machinery did not cost me a cent for repairs. I can recommend them highly to any one that wants a first class machine.

Very respectfully, C. J. SUREAL.

OUR CHARITY TO PORTO RICO.

Charles H. Allen, Governor of Porto Rico, returned to New York on his official yacht a few days ago and submitted to the following interview with a press reporter:

"What became of the funds that were sent for the relief of the starving poor?" he was asked.

"I suppose the individual subscriptions were turned over to the war department and have been distributed, I was the people.

"What was done with the customs receipts which the administration declared should be given back to the people in Porto Rico, tariff law?" asked the reporter.

"I am not prepared to say. I assume the money is still held at Washington," was the answer.

Gen. Allen said he had heard reports of suffering in the southern part of the island and he supposed the government in time would send the accumulating funds there for the relief of the people.

"It is my understanding," he explained, "that the administration intends to refund the customs receipts for a certain period. The amount of these receipts, I believe, is about $2,000,000."

Governor Allen, for a man who is in a position to know a great deal, appears to know very little, or at least is reticent about telling it. However, it is quite plain from his statements that the charities bestowed upon the suffering Porto Ricans by the American people and the government have not been used to good advantage else he would be free to boast of the wonderful improvements. There is too much carpet bagger government in Porto Rico for our boys to believe down there to derive much benefit from charities.—Mountaineer.
