Bank of England's Anniversary.

LONDON, July 27.—"The Old Lady of Treadwell Street," known otherwise as the Bank of England, is today celebrating her 200th birthday, and from a monetary and high business standpoint she is much further from being "broke" today than she was 200 years ago. As a financial institution it is the greatest in the world, where no personal deposits of less than $2500 are taken, and a corporation account of less than $25,000 is not considered worth the bother of entering on the books. Each anniversary of the Bank of England is made a holiday for its employees and in consequence of this they are today enjoying an outing at the corporation's expense. It takes 1,500 men to attend to all the queer things that go on in this great financial beehive, and they are under a governor, a vice-governor and a board of twenty-four directors. Of the mountain of notes in the "old note office," the weight is ninety-one tons, its value is $8,750,000; if they were laid end to end they would make a ribbon 13,000 miles long, or in a blanket would come extremely near to covering every inch of ground in Hyde Park.

Epworth Camp Meeting.

CINCINNATI, G., July 27.—The annual Epworth meeting scheduled for July, opened at the Epworth Camp Grounds this morning and will continue until August 17th. There are already several thousand people on the grounds, and the indications are that the attendance this summer will be considerably greater than that of any previous year. The program arranged for each day's proceedings is of sufficient interest to hold the attention of those in attendance. Speakers are present from Cleveland, Toledo, Columbus, Detroit, Chicago and Minneapolis.

When the Hair Falls Out accompanied by mucous patches in the mouth, eruptions on the skin, sore throat, copper colored splotches, swollen glands, aching muscles and bones, the disease is making rapid headway, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

S. S. S. is the only safe and infallible cure for this disease, the only antidote for this specific poison. It cures the worst cases thoroughly and permanently.

My Condition Could Have Been No Worse. In the fall of 1897 I contracted Blood Poison. I tried three doctors, but their treatment did me no good; I was getting worse all the time; my hair came out, ulcers appeared in my throat and mouth, my body was almost covered with copper colored splotches and offensive sores. I suffered severely from rheumatic pains in my shoulders and arms. My condition could have been no worse; only those afflicted as I was can understand my sufferings. I had about lost all hope of ever being well again when I decided to try S. S. S., but must confess I had little faith left in any medicine. After taking the third bottle I noticed a change in my condition. This was truly encouraging, and I determined to give S. S. S. a thorough trial. From that time on the improvement was rapid; S. S. S. seemed to have the disease completely under control; the sores and ulcers healed and I was soon free from all signs of the disorder; I have been strong and healthy ever since.

L. W. SMITH, Lock Box 611, Noblesville, Ind.

SSS is the only purely vegetable blood purifier known. $1,000 is offered for proof that it contains a particle of mercury, potash or other mineral poison.

Send for our free book on Blood Poison; it contains valuable information about this disease, with full directions for self treatment. We charge nothing for medical advice; cure yourself at home.

Bernstein and Gardner to Meet.

NEW YORK, July 27.—Joe. Bernstein, of New York, and Oscar Gardner, of Omaha, will meet in a twenty-five round bout at the Broadway Athletic Club this evening. Betting on the event is about at evens in sporting circles, and the admirers of both men are wagering quite heavily on their favorites. The bout will be witnessed by a large crowd.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
