Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless cordial to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable pelvic catarrhal drain, prolapsus, anteversion or retro-version or other displacements of womanly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native, medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle wrapper and attested under oath. Dr Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send a postal card request to Dr. R. V. Pierce Buffalo, N. Y., for his *free* booklet treating of same.

You can't afford to accept as a substitute for this remedy *of known composition* a secret nostrum *of unknown composition*. Don't do it.

HER LEGS CUT OFF IN STREET CAR COLILSION

[United Press Leased Wire.]

San Francisco, Sept. 8.—Two persons today are injured, one probably fatally, as a result of a street car collision last night at Mission street and Cortland avenue. Miss Pauline Wise, 16 years of age, who is not expected to live, sustained a fractured skull, and one foot was completely severed in the crash, and Robert Wessel, aged 20 years, is in a hospital, with both legs broken.

The cars came together during a heavy fog. One car was traveling slowly up the steep grade of Cortland avenue with a heavy load, when the second car, running light, came up rapidly from behind. Before the motorman saw the rear lights of the first car it was too late to stop. The force of the impact and the shrieks of the injured threw the passengers into a panic, and they dashed wildly from the wrecked cars. Both Miss Wise and Wessell were taken to St. Luke's hospital. Today the surgeons at the hospital stated that Miss Wise's remaining foot probably will have to be amputated.

NO CLUE FOUND TO MURDER MYSTERY

[United Press Leased Wire.]

Detroit, Sept. 8.—The police authorities are working hard today to find some tangible clue that will lead to the apprehension of the murder of pretty Mabelle Millman, whose dismembered body was found Monday on the banks of Ecorse creek. It was learned today that the girl had received a money order shortly before leaving Ann Arbor to come to Detroit five weeks ago to visit Martha A. Henning. The police authorities today are seeking the government's permission to investigate the postoffice records.

They are also professing the belief that the young woman submitted to an operation here, and that following her death the body was dismembered by a surgeon and the parts disposed of by another man primarily responsible for the operation.

Miss Henning declares that, although Miss Millman had not made a confident of her, she believed Maybelle to be an upright and honorable girl.

PORTLAND ROSE FAIR TO BE YEARLY EVENT

[United Press Leased Wire.]

Portland, Or., Sept. 8.—Directors and stockholders of the corporation under the auspices of which the recent Portland Rose Festival was held, today declared that they would endeavor to make the festival an annual feature of the city's life. Plans will be submitted for a larger and more elaborate celebration next year.

Among the tentative plans already under consideration is one to hold the festival every year in the period between June 6 and 11, inclusive. It is probable also that aviation contests will mark the festival, and invitations are in the course of preparation to be sent to the Wrights, Glenn Curtiss and other prominent American aeroplanists.

FORTUNE JESTS WITH VENERABLE WOMAN

[United Press Leased Wire.]

Oakland, Cal., Sept. 8.—Mrs. Mary Kendregen, 80 years of age, and for years dependent on the charity of neighbors for her living, is today en route to New York to claim an estate valued at $1,000,000, which was left her by the death of her husband, Jos. Kendregen, from whom she has been separated for 50 years.

The couple were married in the Tombs in New York, in 1855, when he was sentenced following his abduction of her from her home. He later deserted the woman. Before his death in 1907 he had amassed a fortune.

The man died intestate, and Mrs. Kendregan was located in Oakland by means of advertisements which New York attorneys had inserted in various newspapers, in a quest for heirs to the dead man's estate.

The Potter has been taken off the run to North Beach, the season being ended.

Near Death in Big Pond.

It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King' New Discovery brought quick relief and a cure so permanent that I have not be troubled in 12 years." Mrs. Soper lives in Big Pond, Pa. It works wonders in coughs and colds, sore lungs, hemorrhages, la grippe, asthma, croup, whooping cough and all bronchial affections. 50c and $1.00. Trial bottle free. Guaranteed by J. C. Perry.

X-RAYS AND SMILES

Now when Cook's name is mentioned, Mrs. Commander Peary's nose will suddenly point to the north pole, and the bottom of the thermometer will drop out.

* * *

Peary wanted the news telegraphed to all the world "and also to Brazil and Japan." There will be no "Banzias" for Peary in the plum blossom groves of the Mikado's Isles of the Blest, after that slam.

* * *

Professor Davidson, of Berkeley, glowers indignantly through his spectacles and has himself interviewed because Cook neglected to shave himself before landing in Denmark.

* * *

Some of Peary's friends are sore at Cook for discovering the north pole. They say that Peary had been at it so long, it really belonged to him—but still he never staked it out.

* * *

Peary shows himself a man of very small calibre in attacking Cook. He also shows poor judgment, for he creates sympathy for Cook, and contempt for himself.

* * *

Maybe Peary is sore because that job between himself and the New York World, by which he was to gather in the coin, was knocked endwise by Cook beating him to the pole.

* * *

San Francisco's unco-good are having a brain storm over the play "The Girl from Rectors." Yet they will razee their gowns and go to hear "Carmen."

* * *

The western millmen, in an attempt to cheat the government, in filling an order for lumber for the Philippines, cut up a lot of hemlock logs they had culled out as worthless. They proved to be the only lumber sent out that the white ants would not destroy, and the government has ordered more hemlock lumber.

Moral—Always cheat the government if you can. It may be good for it.

NEVADA MAN BUILDS SUCCESSFUL AIRSHIP

[United Press Leased Wire.]

Reno, Nev., Sept. 8.—According to reliable information received here today, Mark Bradshaw, a young mining engineer, of Lucky Boy, has invented an aeroplane in which he recently completed a 12-mile flight near Walker Lake. The aviator flew along the shores of the lake and had intentions of crossing, but the fact that there were no boats in the vicinity to rescue him in case of a mishap deterred him from making the attempt. Bradshaw worked three years to complete his machine.

Flew Against a Tree.

[United Press Leased Wire.]

Brescia, Italy, Sept. 8.—Bleriot, the famous French aviator, who recently piloted his airship across the English channel, narrowly escaped death today when his monoplane collided with a tree at the height of 36 feet. The propeller snapped in twain, but with great difficulty the plucky aeronaut managed to reach the ground uninjured.
