HOP PICKING MACHINE IS INVENTED

ONE IS SET UP IN YARDS OF E. C. HORST, NEAR EOLA, AND PICKS 27,000 POUNDS OF CLEAN HOPS IN ONE DAY.

[UNITED PRESS LEASED WIRE.]

Portland, Or., Oct. 12.—(Special to Capital Journal)—A hop picking machine is one of the latest products of inventive genius. Such a contrivance and been set up on the ranch of E. C. Horst, near Eola, Oregon, and does all that could be expected of it. It gathers the hops from the vines, which are thrown into the machine by the wagon load, and seggregates the leaves from the berries.

In one day Mr. Horst, who is a large grower of hops, picked 27,000 pounds of hops on his ranch with this machine. He believes, however, the apparatus will pick 60,000 pounds in a single day when finally perfected. As yet the owner does not consider the machine finished, but is experimenting along lines calculated to reduce the complicated parts of the mechanism.

A number of hop raisers in this state have looked over the machine, and express themselves as confident that it will make great changes in the picking of hops, eliminating the harvest hazard, for it will work rain or shine, and many have expressed a desire to have it set up in their yards.

Mr. Horst says: "As time goes on we hope to simplify it to such an extent that one of the machines will be used on every hop ranch in Oregon. It is slow work making these improvements, and it is expensive. The hops picked by this machine are much cleaner than the highest class of hand picked hops."

It is the belief of the hop growers who have seen the new machine at work that within a very few years it will have superceded the present hand picking system entirely.

FOOT BALL MATERIAL ABUNDANT

THE 'VARSITY TEAM IS DOING HARD PRACTICE WORK AND WILL BE IN GOOD SHAPE FOR SATURDAY'S GAME — THIRD SQUAD ORGANIZED.

The manner in which the students at Willamette University are responding to the call of Dr. Sweetland for football material is remarkable. Last evening the athletic field was literally filled with fellows in football suits and when between 35 and 40 fellows come out in one night, there is sure to be some good bucking practice. Rader and McRae were back in practice last night after their recent injuries in the H. M. A. game. McKnight will be ready for work again today, as he also received a slight injury in the last game. The team is working hard and expects to be in good condition by Saturday.

Today a third squad will be lined up on the football field. This will be the first time in the history of Willamette University that there has been a third team. McIntyre will probably have charge of this bunch, as well as the second team.

THROUGH RATES MUST NOT EXCEED THE LOCAL RATES

[UNITED PRESS LEASED WIRE.]

San Francisco, Oct. 12.—Although the decision of the railway commission that through rates must not be greater between any two given points than a combination of local rates between the same points will not affect any great amount of shipping it is being hailed with joy by some fruit shippers, who will benefit to the extent of several thousand dollars.

There are many shipping points in the state where shippers have to pay more for a through shipment than if they split the shipment between local points, although, as a rule, the through rate is the cheapest. The ruling is said to be in direct opposition to that of the Interstate Commerce Commission which ruled that the shipper must pay the through rate regardless of what the combination of local rates amounts to.

Estacada's school room capacity has been doubled; six teachers are now employed.
