A big new discovery in cigarette blending

The big thing about Chesterfields is their unique blend. The *Chesterfield blend* is an entirely new combination of tobaccos. This blend is the most important new development in cigarette making in 20 years.

As a result, Chesterfields produce a totally new kind of cigarette enjoyment—they *satisfy!* Just like a "bite" before bedtime *satisfies* when you're hungry.

But with all that, Chesterfields are *MILD*, too!

This new enjoyment (*satisfy*, yet mild) comes ONLY in Chesterfields because no cigarette maker can copy the *Chesterfield blend*.

Oregon Selected To Meet Eastern Team

Pasadena, Cal., Nov. 21.—The football team of the University of Oregon at Eugene was selected last night to play the University of Pennsylvania eleven here New Years day, January 1, 1917, the football committee of the Tournament of Roses association announced.

The athletic authorities of the University of Oregon had accepted previously an invitation to play the Pennsylvania team "if selected" by the tournament of roses committee, which extended on October 17 tentative invitations to five Pacific coast universities and college elevens to meet the eastern aggregation.

W. S. Kienholz, chairman of the committee, said tonight a message received today from Philadelphia stated the university would play no other game in the west than the one arranged for here on News Years day. The Pennsylvania players will start west December 22 and will arrive here December 27, Kienholz stated.

SHE WILL RECOVER

Seattle, Wash., Nov. 21.—Miss Anna Carey, Michigan university graduate who was shot three times by her sister, Mrs. Margaret Hartman, who afterward committed suicide in a fit of temporary insanity Sunday will recover, it was predicted at Lakeside sanitarium today.

U. OF O. SELECTED TO PLAY PENNSYLVANIA

Is Picked As Strongest Team On Coast To Meet Easterners

Pasadena, Cal., Nov. 12.—Again the northwest has been called upon to represent the west in the second annual east-west football championship to be held here New Years day. The Tournament of Roses committee selected the University of Oregon team to meet the Pennsylvania varsity January 1, 1917.

Last year it was the Washington state team that represented the west. It was a victory for the west, the Washington boys trouncing the Brown University team.

Oregon's formal invitation was despatched last night. The northwesterns were chosen because they are regarded as the strongest players in the west in the opinion of the tournament committee men.

Want Coast Conference

Berkeley, Cal., Nov. 21.—A plan for a Pacific coast conference track meet here in May with teams from the coast's seven largest colleges competing, is the plan to be suggested at the Pacific coast conference in Seattle next month by John Stroud, graduate manager of athletics at the University of California. The meeting this year is of unusual interest, as it is expected that Stanford, Washington state college and southern California university will seek admission, and make it possible to more definitely decide coast championships in all athletics.

Object to Third League

Cincinnati, Ohio, Nov. 21.—Garry Herrman frowned today. Ban Johnson's approval of the third major league idea caused the frown. Johnson's plan would make a circuit of the minor league clubs at Baltimore, Torronto, Buffalo, Louisville, Toledo, Milwaukee, Newark and Indianapolis. No provision is made for other clubs in the American association and International league.

"There is no necessity for such a major league at this time," Herrmann commented.

A Profitable Game

Berkeley, Cal., Nov. 21.—Saturday's football game with Washington was the most profitable gridiron contest California has ever played, with a single exception, it was announced today. The total receipts were $24,700, which is $2,000 more than the receipts o. the Washington game last year. The net profit to the Bears was $20,000 having been exceeded only by the last Stanford-California game which netted $21,205.

Thomas Knocked Out

New Orleans, La., Nov. 21.—Joe Thomas is in the hospital today suffering concussion of the brain because Joe Rivers planted his famous right swing from the hip on his jaw in the third round of their scheduled twenty round bout here last night. Rivers was arrested pending developments. The blow landed Thomas on the mat with his feet in the air.

SEEKING CAUSE OF HIGH FOOD PRICES

Grand Jury Investigates Charges of Cold Storage Combine

Chicago, Nov. 21.—Congressman A. J. Sabath of Chicago conferred with United States District Attorney Chas. Clyne on a proposed law aimed at the unprecedented rise in food products.

Sabath said today he had authentic information that there were combines in food commodities such as potatoes, eggs and butter. He is drafting a bill which he believes would prevent such speculation.

Warehouse owners and cold storage men will be hardest hit in Sabath's bill which would regulate the length of time food can be kept in storage. He would also provide for a congressional investigation of the food situation and a special appropriation to enable federal district attorneys to push their fight on speculators.

Subpoenas were being served on two hundred cold storage owners, warehouse and commission men and the retailers of foodstuffs here today. These will appear before the federal grand jury in the investigation just begun by Clyne into the price of food.

Clyne will endeavor to learn whether there is a real shortage in this years crops or whether prices are being inflated by middle men.

Plans were being made today to urge the passage of a state law by the legislature this winter prohibiting speculation in butter, eggs and poultry.

A FEARLESS PHYSICIAN

Such a physician recently remarked: —"The wonderful power of Lydia E. Pinkham's Vegetable Compound over diseases of women is not because it is a stimulant, not because it is a palliative, but simply because it contains the very elements needed to tone up the female system and strengthen the depleted organism." Of course that is so, otherwise it could not succeed as it has.

Why the Journal is popular—It prints the world's news today—while it's news.

ALL ARE SAVED FROM STRANDED STEAMER

Passengers and Crew Taken Off by Crews of Life Saving Stations

Deal, Eng., Nov. 21.—Lifeboat crews from the Deal and Walmer stations today succeeded in rescuing all passengers and members of the crew of the stranded American steamer Siberia.

The Siberia struck the Goodwin sands late yesterday. All through the night the waves mercilessly pounded the vessel, passengers and crew taking to the bridge and waiting for aid that lifeboat crews could not give them in the face of the mountainous seas.

Lifesavers from the Deal, Walmer and Kingstown stations fought all through the night and through most of today to bridge the gap of swirling waters and take the men and women off the ship. Two or three times the lifeboats were capsized in the surf, several life savers narrowly escaping drowning. Late today, however, the Walmer crew succeeded in getting a line aboard the Siberia.

The American vessel was only one of half a dozen that were in dire straits for a time as a result of a tremendous blow that had swept up the channel and the Dover straits Sunday night, continuing with great violence since that time. The Goodwin sands, a strip of shoal extending for about ten miles off the shore of Kent and one of the ocean's most dangerous spots, claimed its usual quota of vessels, but the Siberia was the only vessel of size to be driven on the treacherous sands. She stuck fast and the combers rolled over her.

Pounded by the breakers, the big vessel sank lower and lower into the sands, until today her bridge, on which the two score passengers and crew had cinsecred, was only a little above the level of the highest wave.

ASKS BANK STATEMENT

Washington, Nov. 21. — The comptroller of the currency today issued a call for the condition of all national banks at the close of business on Friday, November 17.

The factory hand that sings at his work lets up with the whistle.
