THE MARKETS

The following prices for fruits and vegetables are those asked by the wholesaler of the retailer, and not what is paid to the producer. All other prices are those paid the producer. Corrections are made daily.

The local quotation on wheat today is around $2.25. On account of the uncertainty of the market and also the small quantities that are being offered, there is but little buying.

Onions are cheaper and the same may be said of California tomatoes. The market in general is very quiet. Egg houses are going slow waiting to find out what is going to happen in San Francisco.

WOMEN DOING MEN'S WORK

One of the most striking results of the great war in Europe, is the extent to which women are doing the work of men. Travelers to England and France report that practically every able bodied man is in uniform and women by the thousands are engaged in doing men's work—acting as conductors and drivers on the cars and doing all sorts of heavy work besides.

This shows unexpected possibilities in what has been mistakenly called the weaker sex. Women are subject to ailments which men do not have, and when so ailing become weak, helpless sufferers. But a remedy has been found For forty years, Lydia E. Pinkham's Vegetable Compound has been making such women will and strong, and as able to do work as any other woman.
