ABOUT CORNS....

What is a Corn? Physicians call it a Clavus, a calous or horny thickening of the skin, over a joint in a toe, with a central core or "kernel". A corn cut in half would look very much like this:

- A - The Corn
- B - The "Kernel"
- C - Skin of Fluid
- D - Bone
- E - Skin
- F - Joint of Toe

What Produces a Corn? PRESSURE. Not necessarily that the shoe is tight-but while apparently roomy, does, at some position during walking, press upon one spot; the result is a "CORN". Having a Corn. WHAT SHALL I DO FOR IT? Ah! now there is the question. Some people pare them, getting a little temporary relief, but stimulating the corn to twice as rapid growth. Well, here is a clear and colorless fluid called

Willamette Corn Cure
IT WILL REMOVE CORNS AND LEAVE A NATURAL SKIN IN ITS PLACE
For Sale by all Druggists. 25 Cents per Bottle

MARCH TO PRETORIA.
Plans of the British and Boer Generals - Joubert Moving South.

London, Nov. 22.—The reports of heavy fighting at Ladysmith last Wednesday have not been confirmed. On the contrary, the most reliable advices from Estcourt indicate that there was nothing more than a desultory cannonade. Probably the rumor of a serious engagement grew out of the fact that the Boers threw a few harmless shells late Tuesday night, leading to the supposition that an attack was imminent. Nothing, however, happened Wednesday. Beyond the fact that the Boers are daily receiving fresh reinforcements and supplies, there is practically nothing new from the front.

The Boer invasion of Cape Colony continues steadily and rapidly. There are 1,300 Boers at Colesburg, and news has reached East London that Ladysmith, near Alwalal North, has been deserted by the British and now is in the hands of the enemy.

From Delagoa bay come reports of the arrival of more German officers and artillerymen, who have volunteered to serve with the Transvaal forces.

The war office semi-officially asserts that all news received from Africa has been published, with the exception of demands for the renewal of stores, war material and the like.

There is an unconfirmed rumor that more troops have been ordered from India to the Cape.

SMUGGLED PEARLS.

Found in the Old Shoes of a Providence Man.

New York, Nov. 22.—Ten thousand smuggled pearls, of all sizes, some imitation and some genuine gems, were taken to the custom-house today and spread out in Collector Bidwell's office. Tomorrow they will be taken to the appraiser's stores, where the government experts will pass upon their value. The pearls were seized by Special Treasury Agent Theobald, from Francis Bock, a dealer in jewels and gems, of Providence, R. I. Bock arrived on the French liner Bretagne, but preceding him had come a cable message to the customs officials telling that the Providence man had pearls of great price in his possession. To the inspector Bock declared he had nothing dutiable. He declared he was going to Mexico at once, and said nothing about his business in Providence. So special Agent Theobald and the inspectors made a rapid examination into his baggage, and in his pockets.

In Bock's trunks were three pairs of worn shoes, tied together heels and toe, and wrapped compactly in newspapers. Inside each pair of shoes were many packages of half pearls. There were two quarts of gems altogether. A rough estimate of the value of the entire seizure is \$50,000. Bock was taken before United States Commissioner Shields and held in \$5,000 bail. Not being able to secure bail, he was sent to jail.

LABOR CONDITIONS.

Gompers Testified Before the Industrial Commission.

Washington, Nov. 22.—Samuel Gompers, president of the American Federation of Labor, was the only witness before the industrial commission today. Speaking of the union label, Mr. Gompers said there are 37 different organizations now using the label, and that it is growing in popularity very rapidly. He defended the boycott as a legal and proper weapon for workingmen. In reply to a question, Mr. Gompers said that organized labor views trusts simply as their employers. There had been cases in which the organizations had been benefited by combinations of capital. It is too early to decide whether men would be more steadily employed by the trusts than by other employers. He said that these combinations have more influence in securing legislation than has unorganized capital. He took a position against co-operative schemes, saying that experience has proved that laborers have secured no greater advantages under them than under the wage system. He has no fear of the future for organized labor. The condition of labor today is better than ever before, and he attributes the improvement to the influence of organized labor. Mr. Gompers favors an amendment to the constitution fixing a maximum of hours per day for labor. Speaking of the effect of advanced labor legislation in different states he said there would be no backward step.

Big Guns Placed in Position.

Astoria, Nov. 22.—The two big guns that recently arrived at Fort Stevens have been placed in position. As these guns weigh 300 tons each, it required great care to move them.

The common council of Hammond will petition the government to have the name of the postoffice of that place changed to New Astoria.

Child Devoured by a Wild Beast.

Spokane, Wash., Nov. 22.—The bones of Ruth Inman, the 3-year-old child lost in the Big Bend country four weeks ago, were found yesterday a few miles from Creston, where she disappeared. The indications are that a wild animal had carried off and devoured the little one.

General Funston denies that the American soldiers robbed the churches in the Philippines.

Automobiles for Canada.

Toronto, Ontario, Nov. 21.—The National Cycle & Automobile Company completed organization here Saturday. The corporation will have a capital stock of \$2,500,000, and will control in Canada the business and patents of the American Bicycle Company as well as some Canadian concerns.

Vancouver, B. C., Nov. 22.—Today's train carried to Boston and New York 75,000 pounds of halibut from the northern fishing grounds.
