Peri's in Electric Wires. It was claimed at one time that the substitution of electricity for gas and petroleum in lighting would result in a lessening of the danger from fire.

When classed according to causes the list shows that twenty-two fires were due to the contact of telephone, telegraph and other low potential wires with electric light and other high tension circuits.

Vagaries of Our Language. The vagaries of English spelling are well illustrated in the following extract. The words sound properly, but the spelling does not correspond to the meaning required.
