EVERETT HAPPENINGS

The political nightmare that has been so generously fed in Everett for several weeks past has kicked a hole in the straw and is now about ready to crawl into it. Some people have insidiously imagined that there was a big political fight on in Washington, and particularly Snohomish county, but after the first explosion of steam and egg shell ammunition was discharged the honest resident business man, manufacturer and farmer returned to his regular pursuits disgusted with the questionable methods of some of our "ever" dissatisfied citizens.

The Judgeship. In this particular question there is one at issue, and that is the Hon. John C. Denny asks, and that is to view his record which is open to all. The Judge being one of the very broadest of men it would never occur to him to point out the smallness of his enemies. If it did he could ask the public to demand an explanation of these poor, sore-headed prosperity wreckers. They are prosperity wreckers, for they have tried to bring disaster to the only safe, sound element of American life. We, as a people have nothing to complain of as leaders of the state, and as citizens under his official jurisdiction, and we should not lend our ear for a moment, even in a joke, to his enemies. We must each of us fight his enemies, because in so doing we are fighting our own enemies. When we look over the titles and records of these poor, sore-headed prosperity wreckers, they are prosperity wreckers, for they have tried to bring disaster to the only safe, sound element of American life.
