REV. W. F. BOYAKIN will preach to-morrow. in the Baptist church in this place, at half past ten

man who will wrong a neighbor can be trusted to take charge of the interests of his county. He sold a portion of his land claim in 1846, to T. Magruder, without the conveyance of his wife as was usual in such cases. I bought the same land of Magruder, and paid him \$5,000, and have since timproved it at great expense to myself, yet Straight, knowing all this, induced the Surveyor General to assign this very land to his wife, that he might deprive me of my just rights, and receive the benefit of mine and my family's labors, and now refuses to perfect my title. His pretence is, that he will not do this, because I am trying to make him pay me another debt, for which I hold him responsible, as one of the Clackamas Milling Company, though I have offered by reference in any fair manner to submit the matter of his responsiblity, and to throw off \$1000 of the award made in my favor by three disinterested men, and have even offered to sell my land. This has been refused; and I have been informed that he has even offered to sell my land, if he could find a purchaser. His idea seems to be, that because I have two just claims against him, one for land and one for logs furnished to the mills.

A woman—to do housework in a private of heavy wax do \$14.000 of the award made in my favor by three disinterested men, and have even offered to sell my land, if he could find a purchaser. His idea seems to be, that because I have two just claims against him, one for land and one for logs furnished to the mills.

A woman—to do housework in a private of heavy wax do \$14.000 of the sward made in family and the wear offered by three disinterested men, and have even offered by the books of the Company, and give up his claim to my land. This has been refused; and I have been informed that he has even offered by the claims against him, one for land and one for logs furnished to the mills.

A woman—to be housework in a private standard predator the control of the claims against him, one for land and one for logs furnished to the mills. I have two just claims against him, one for land and one for logs furnished to the mills of which I believe he was part owner, I must abandon the latter, or be robbed of both -This he calls honorable and right, thus to keep my property, and expects the endorsement of his county for his justification.

The foregoing statements are true, and if denied in time for me to prove them before

P. S .- Since writing the above, I am informed that Mr. Straight has stated that I have refused to leave this matter to men according to his request. I never und retood him to make any such offer to me, as yet but on the contrary I always and estood him to enforce to necede to all such overtures, from me; but if he yet dares to leave it to arbitrainer he will always find me ready.

Who Wants the Silver Cup? WE will give a SILVER CUP, or \$25 in GOLD, to the owner of any Reaping machine who will, at a public trial of reapers, in

machine who will, at a public trial of respers, in presence of regularly chosen and disinterested judges, produce a reaper that will do more and better work than Burrill's Convertible Reaper.

Said trial to occur during the coming harvest, and not more than one reaper of any one kind to be introduced as competitors. Time and place to be agreed on with parties entering for the trial. Below we give a notice of this machine and some of the advantages claimed for it:

"At the trial of reapers in the harvest field in Geneva, New York, in Jaly last, by the judges appointed by the New York State Agricultural Society, aime reapers were entered, and each required to cut about three acres of wheat and two of barley much lodged and tangled, the straw soft and tough, on rough and uneven ground. Every facility was afforded for a full and impartial trial, and examination as to draft, construction and per-

facility was afforded for a full and impartial trial, and examination as to draft, construction and performance; and the first prize was awarded to Thos. D. Burrill for the Best Grain Resper.

The judges, in the report, say: T. D. Burrill's machine performed its work in the most admirable manner; the gavels were well laid, the workmanship and materials excellent. It has no extra wheels or pinions beyond what are simply neces-sary; no reel to beat down and waste the grain, no band wheels, pulleys, belts, straps, or harness to get out of order; simplicity and strength for doing work all day and every day have been the

leading objects.

1st. It cuts grain of all kinds, in all conditions, without clogging, and may be worked either by horses or oxen.
2d. It cuts at any height required by a few

2d. It cuts at any height required by a few moments change.

3d. It discharges the grain in the rear, if preferred, like Hussy's, or at the side, like McCormick's. This change is made by an extra apron, (attached in a moment,) from which the grain is laid in better condition than by any other machine.

4th. It has a balance wheel, which gives a quiet and uniform motion to the machine.

We have a few of these reapers for sale. They will be ready for exhibition on and after April 20th, and the attention of Farmers is solicited to THE BEST REAPER OUT.

Also, 1 Eight Horse Thresher; 2 Two Horse Thresher; 20 dozen Grain Crudles; 30 dozen Grain Seythes; 12 Straw Cutters; 3 Fan Mills.
