### REDUCE HARRIMAN POWERS.

Union Pacific Directors Believe He Has Too Great Control.

New York, April 12.—Some of the directors of the Union Pacific railroad favor a material reduction of the extraordinary powers conferred upon its president, Edward H. Harriman, which make the company a one-man affair.

At present the executive committee has all the powers of the directors when the latter are not in session, and Mr. Harriman has all the powers of the executive committee when that body is not in session. In other words, Mr. Harriman can do as he pleases, except for the few minutes once a week or once a month, when the committee is in session.

He has a power of attorney and could sell the millions upon millions of the securities of other roads owned by the Union Pacific at what price he pleased, or he could hypothecate securities, borrow tens of millions upon them from banks and engage in stock market operations on a colossal scale.

In the hope of appeasing the Union Pacific stockholders and eliminating the public distrust in the securities of the Harriman roads, it is proposed to put some new blood in the executive committee, reorganize the body and adopt resolutions taking away from Mr. Harriman some of the powers which have provoked so much criticism.

Mr. Ballinger agrees with Mr. Bourne that Oregon has suffered unjustly in late years, and he is willing to do everything in his power to place the state on the same footing with all others. He has hopes of disposing of all pending entries during the coming summer, and it is his expectation that a great many will pass to patent in the near future.

The commissioner is rapidly putting the land office on a sound business basis, he himself working until midnight every night at reorganization. He is determined to make the land office a thorough business institution and bring its work up to date.

## FOR OREGON CLAIMS

Commissioner Ballinger to Rush Action on Land Patents.

Washington, April 13.—Land Commissioner Ballinger today assured Senator Bourne of his intention of "raising the lid" in Oregon, meaning that he intended to take up and pass all valid public land entries that have long been under suspension in that state.

A great many entries were held up by the old administration on mere suspicion that there was something crooked about them. There was no actual evidence of wrongdoing or wrong intent on the part of these entrymen. Mr. Ballinger will pass to patent every Oregon entry which, upon examination, appears to be made in good faith, and those entries that are irregular or show evidence of fraud will be examined as promptly as possible and appropriate action taken.

Mr. Ballinger agrees with Mr. Bourne that Oregon has suffered unjustly in late years, and he is willing to do everything in his power to place the state on the same footing with all others. He has hopes of disposing of all pending entries during the coming summer, and it is his expectation that a great many will pass to patent in the near future.
