

# Spring Medicine

The best is Hood's Sarsaparilla. It is the best because it does the most good. While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength.

An unequalled list of cures—40,366 testimonials in two years—proves its merit.

**Sarsaparilla**—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolate tablets called Sarsaparilla, as well as in the usual liquid form. Sarsaparilla have identically the same curative properties as the liquid form, besides accuracy of dose, convenience, economy—there being no loss by evaporation, breakage, or leakage. Sold by druggists or sent by mail. C. I. Hood Co., Lowell, Mass.

Mrs. J. F. Gee, 59 Gould Street, Stoneham, Mass., says: "In 25 years experience I have never known Hood's Sarsaparilla to fail, for spring humors and as a general blood purifier; it cures scrofula, eczema, has no equal as a general spring medicine; it gives me genuine satisfaction to say this."

GUARANTEED under the Food and Drug Act, June 30, 1906. No. 324.

**She Had the Fad.**  
Her arm about his neck drew tighter. "And promise me," she said, "that you will write from every foreign city you pass through."  
Shifting her weight to the other knee, he regarded the girl with some slight frown.  
"Do you love me so much," he murmured, "or have you started a picture card album?"

**Ox Yoke Made by Lincoln.**  
A recent rearrangement of the exhibits in the Agricultural Museum of the University of Illinois brought to light an old ox yoke made by Abraham Lincoln, which was presented to the institution in 1871. By order of President Draper the yoke has been inclosed in a glass case the framework of which was made of boards from the old Lincoln home at Springfield, Ill.

# OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the blood cannot be got away.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.

The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

**S.S.S. PURELY VEGETABLE**

Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

The **Rayo Lamp** is the best lamp for all-round household use. Made of brass throughout and beautifully nickelled. Perfectly constructed; absolutely safe; unequalled in light-giving power; an ornament to any room. Every lamp warranted. If not at your dealer's, write to our nearest agency.

# W. L. DOUGLAS \$3.00 AND \$3.50 SHOES

W. L. Douglas shoes are recognized by expert judges of footwear to be the best in style, fit and wear produced in this country. Each part of the shoe and every detail of the making is looked after and watched over by skilled shoemakers, without regard to time or cost. If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and give more value than any other make.

# DAVID WARFIELD'S FIRST STUNT

Spanking has much to do in determining Actor's Course in Life. David Warfield, the actor, tells the following story of a good spanking that he got from his mother, which was something of a turning point in his career. The incident happened in San Francisco, of which city Mr. Warfield is a native.

"If it had not been for a bitter punishment meted out to me by my mother, when I was about 9 years of age," said Mr. Warfield, "I might be doing my best acts on a flying trapeze instead of on the stage, and my most effective 'flights' would have been aerial instead of oral. As a youngster, the height of my ambition was to own a circus and to be its bright and particular star. In fact, I resolved that this ambition should be achieved without further delay. So I summoned a few of my friends, and together we organized a circus in the cellar of my home. My specialty was the trapeze. We had sold quite a number of seats, at a bottle, a horseshoe, old iron, pins, etc., in fact, anything which might be converted into cash at a junkshop after the performance. Then the frightful thought struck me—I had no tights—what was to be done? I crept quietly to my mother's room and stole a pair of white stockings. I drew them over my legs, donned a pair of short trousers—and there I was. "Everything went splendidly till my turn. Then, at a crash of kettle covers made by the solitary member of our 'brass band,' I bounced into the ring, got on the trapeze, made of a broomstick and clothesline, and there I swung gracefully to and fro, for a few moments—and that was as far as I got with my act. My mother did the rest. She had heard the rumpus in the cellar, and came to see what had caused it. I can even now remember her placing my ear in her hand, and being led away.

"How small a thing may thus alter the course of one's career."

"A horse who has always been made to obey quickly will respond to commands from any one, whereas the creature who has been petted and talked to accords, unless hungry, scant attention to any one. We talk to horses altogether too much, and it is a silly and dangerous custom, declares F. M. Ware in a current magazine. He adds that the animal's attention is kept if the rider or driver is silent—the horse's anxiety being always to find out what his master wishes done.

There is, according to an explorer, a large and fierce South American spider which chases men if they come too near its lurking places. On one occasion he was pursued by one. "Riding on an easy trot over the dry grass," he writes, "I observed a spider pursuing me, leaping swiftly along and keeping up with my beast. I aimed a blow with my whip, and the point of the lash struck the ground close to it, when it instantly leaped upon, and ran up the lash, and was actually within three or four inches of my hand when I flung the whip from me."

India's hunting leopard, the cheetah, has a reputation as one of the most gentlemanly of beasts. Three Calcutta visitors to northern India were out on a tramp when they were overtaken by a thunderstorm. They espied a cave in the side of a hill and into it they rushed. When the rain stopped they came out and found a cheetah sitting licking the heavy wet of his waistcoat and his paws. It was his cave; but rather than deprive his visitors of their shelter the polite creature had sat outside in the driving tempest. With a friendly mew and gracefully wagging his tail, the cheetah bade adieu to his guests and walked with dignity into his house.

**Paradoxes of Travel.**  
There are surprises to him who travels, says a writer. There are no onions in Bermuda for the visitor. They are all exported. No tobacco is grown in Egypt. The Khedive has forbidden its cultivation. There are no olive trees on the Mount of Olives. The Turks and tourists have destroyed them. The French do not eat frogs. The Parisian restaurants may be searched for days without finding a single frog.

The Holland cheese is seldom seen at The Hague and Neufchatel cheese is made in New York. Kansas City is in Missouri. The chief justice of the Supreme Court of Egypt is a citizen of the State of Florida, and the head of the anti-Armenian party in the Turkish empire is an Armenian.

Joseph Bonaparte. Joseph Bonaparte fled to America after the hundred days and bought a home in Philadelphia, where he lived in winter, and a mansion in New Jersey, where he passed his summers. He was much liked in this country, but could not make up his mind to stay here, so returned to Europe, hoping to profit by the changes of government in France. He was always disappointed and found himself an unwelcome guest in every country save England. He finally secured permission to live in Italy and died in Florence in 1844.

Whenever some one is particularly disagreeable there are always those who will say: "He has great strength of character."

# For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the strongest Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility.

But even this grand old medicine cannot do its best work if the liver is inactive and the bowels constipated. For the best possible results, you should take laxative doses of Ayer's Pills while taking the Sarsaparilla. The liver will quickly respond, and so will the bowels.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

# A TERRIBLE EXPERIENCE.

How a Veteran Was Saved the Amputation of a Limb.

B. Frank Doremus, veteran of Roosevelt Ave., Indianapolis, Ind., says: "I had been showing symptoms of kidney trouble from the time I was mustered out of the army, but in all my life I never suffered as in 1897. Headaches, dizziness and sleeplessness, first, and then dropsy. I was weak and helpless, having run down from 180 to 125 pounds. I was having terrible pain in the kidneys, and the secretions passed almost involuntarily. My left leg swelled until it was 34 inches around, and the doctor tapped it night and morning until I could no longer stand it, and then he advised amputation. I refused, and began using Doan's Kidney Pills. The swelling subsided gradually, the urine became natural, and all my pains and aches disappeared. I have been well now for nine years since using Doan's Kidney Pills.

**Snow and Rain.**  
The first man to whom it ever occurred to find out how much rain was represented by a given fall of snow was Alexander Brice of Kirkcubright, who in March, 1765, made a simple experiment with the contents of a stone jug driven face downward into over six inches of snow. What he learned was that a greater or less degree of cold, or of wind, when the snow falls, and its "lying a longer or shorter time on the ground," will occasion a difference in the weight and in the quantity of water produced; "but if," he added, "I may trust to the above trials, which I endeavored to perform with care, snow, newly fallen, with a moderate gale of wind, freezing cold, will produce a quantity of water equal to one-tenth part of its bulk." So that a fall of snow of ten inches represents a rainfall of one inch.—London Chronicle.
