He says: "I shall endeavor to give you all the a shall endeavor to give you all the data in my possession, which will be ac-curate, having been noted by men upon the scene after the fire, but, owing to the fact that I am very busy professionally, I cannot take time to write of the disas-Bamage Done at Olympia. OLYMPIA, Wash., Jan 2.-Sixteen inches of snow covered the ground here this morning. The only demage done by it was to sheds covering the capitol build-

I cannot take time to write of the disas-ter in detail, clothing it with rhetoric cal-culated to bring tears of grief and sorrow for the suffering and disconsolata people of Silver Lake. I shall, therefore, note briefly the facts." The following are the facts as stated by Mr. Daly:

The population of Silver Lake and the valley surrounding was about 250. The building that was consumed by the fire contained about 160 people when the fire began. The fire was caused by some one striking his head against a lighted lamp, causing the oil to take fire after it was splased out of the lamp by the jar. Just

at that moment the people became so frightened that another lamp, which was setting on an organ in another part of the room, was thrown to the floor and ex-

ded. The building, being built of pine

AFFAIR AT BLUEFIELDS A Most Annoying International Question Finally Settled. **CLEVELAND'S REPORT TO CONGRESS**

nized the Paramount Sovereignty of the Nicaraguan Government.

WASHINGTON, Jan. 2.-The president sent to the senate today a full report of the Bluefields affair. It shows that the of the bibeheids analy. It shows that the administration has practically succeeded in settling one of the most annoying in-ternational questions that has perplexed this government for 50 years. The con-troversy resulted from the efforts of the United States to open a shorter sea-route to California, through Nicaragua. Great Hritain however maintained a unoter-Britain, however, maintained a protec-torate over the east coast of Nicaragua, and from 1550 until now, the United States and Great Britain have not ceased their contentions over the Mosquito territory but, as shown in the report, the Mos-quitos have finally been completely in-corporated under Nicaraguan sovereignty, and Great Britain has absolutely surren dered all claims and recognized the "para-mount sovereignty of the government of

Nicaragua." Sherman reported the Lodge resolution requesting the president to transmit to the senate all papers relating to the de-livery by the United States consul at Shanghai of two Japanese citizens to the Chinese authorities, and to inform the senate whether these two Japanese were put to death after being tortured. The resolution was agreed to. A number of bills was then introduced, among them being one to amend the laws relating to national banks, and to supply a safe and permanent national currency.

Currency Debate in the House.

WASHINGTON, Jan. 3 .- The house, after calling on the committee for reports, on motion of Springer of Illinois, went into committee of the whole on the cur-rency bill. The debate continued up to the time of adjournment. The general lines on which the debate is to proceed and be brought to a close are practically settled. No rule has yet been framed by the committee on rules, but it is probable that such a rule will be introduced Saturday. It will fix the limit of the five-minute debate and the time for the final vote. While no exact time has been fixed, it is the opinion of Springer, and others di-recting the course of the bill, that Wednesday, January 9, at noon, will be the best time. In the meantime a caucus will undoubtedly be held. Springer thinks a caucus will be held Saturday or Monday night. In that event, a rule will not be presented until the caucus has shown the desire of the majority. One or more substitutes to the Springer bill will be introduced tomorrow, and their introduction will be followed by an attempt, either in caucus or in the house, to have them adopted as democratic measures, prominent democratic member of the house, who talked with Secretary Carlisle today, says the secretary is opposed to having his bill, of which Springer is di-rector, abandoned. He expressed the be-lief that the bill would pass the house. The president, it is said, also thinks it will pass

The Mohican Ordered North. SAN FRANCISCO, Jan. 2. - Admiral Beardslee, commanding the Pacific station, has received a telegram from Wash ington ordering the Mohican, Captain Mullan, from Mare island to Puget sound. The order was wholly unexpected, as it had been supposed, in naval circles, that the first detail for the Mare Island fleet

Marshal Meade, Territorial Secretary Bruce and Attorney-General Henry ap-peared before the jury. It was charged that Governor Hughes' former private sec-retary, Armstrong, had received money from the interpreter funds, but had re-turned it to Governor Hughes Armstrong NOT Sale of the Oregon Pacific Railturned it to Governor Hughes, Armstrong is here from St. Louis, and denies the story. Te instigators of the investiga-tion are said to be Bruce, Henry and Meade. The case has created great exlitement here. PROPOSITION FROM ENGLISHMEN KILLED BY A LIVE WIRE Horses Attached to a Hack Come to It is Stated They Guarantee to Bid at

regomtzin.

Grief on the East Side The wires are down in many places on

both sides of the river, and travel through the dark streets last night and this morn-ing was very dangerous. About 12:15 o'clock this morning a team of horses belonging to the United Carriage Company and attached to a hack, came in contact with a live wire at East Burnside street and Union avenue. One of them was killed instantly and the other badly crip-pled by the electric fluid. The harness was burned from the backs of both horses, but fortunately the driver and passengers in the carriage were not injured. Captain of Police Tichenor at once notified electric companies to turn off the currents in every portion of the city. He found the wires down in three places

Three Buildings Collapse

Up to midnight Officer Austin, of the South-End detail, reported three buildings down on his beat. The first to go was a two-story frame building on Corbett street, near Gaines, owned by Dan Rie arrest, hear Games, owned by Dan Rie-man, and known as Hobkirk hall. The lower part was occupied by a grocery store, and the grocer's family occupied rooms back of the hall, taking up the greater part of the second floor. At 9:40 P. M. the entire building commenced to sway and creek and the family int had sway and creak, and the family just had

sway and creak, and the family just had time to get out, when it pitched forward into the street, a total wreck. Half an hour later the Minnesota Threshing Machine Company's ware-house, at the corner of Fifth and Mont-gomery streets, collapsed, crunhing a number of machines stored there. The building was Mortin and is almost a total building was 100x100, and is almost a total wreck. The loss to the machinery will amount to considerable. L. S. Pease, the resident agent, was notified by the police. About midnight the whole front was orn out of a Chinese washhouse on Harrison street, between Front and Water, by the collapse of an awning. The oc-cupants of the building fiel into the street in great terror. The property is owned by P. G. Baker.

At 1 o'clock this morning the huge wooden awning in front of the Interna-tional hotel, corner of Third and Everett streets, came down with a great crash, partially wrecking the front of the build-ing, and greatly frightening the guests. Other smaller catastrophes were reported at the central police station from time to time during the night. Telephone connection with the East Side was partially cut off, and full reports of the damage done by the great weight of wet snow were not obtainable.

RAKED FORE AND AFT. A Passenger Train's Side Torn Ont

by a Freight Engine.

PASADENA, Cal., Jan. 3.-The Atchiso & Topeka westbound overland train, which arrived here at 9:05 this morning, collided with the engine of a freight train near the depot and sustained great dam-age, the escape of the passengers seeming providential. The passenger train was going at a slow speed down grade between the Pasadena and Raymond stations, when a freight engine, switching cars, failed to leave the main track in time. The engine and five cars of the passenger train struck the freight engine, which was thrown off the track, but not

and fully indersed the confirmation, as he could then proceed in some other man-ner to recover for his clients, presumably against the plaintiff, as prayed for in his petition already on file, J. R. Bryson, at-torney for the plaintiff, had nothing to say. J. K. Weatherford opposed a confirmation at this time, on behalf of the material men. Percy Kelly, of Albany, also opposed, for the reason that the gross inadequacy of the bid, coupled with the many irregularities, intimated fraud and collusion on the part of the bond-holders and the plaintiff to cheat the Oregon creditors out of the debts contracted during the receiver's administration. E. L. Bonner, the purchaser, was also present and desired that the court either con firm or reject, that he might have either the property or his money, when the ap-parent dissatisfaction might be overcome, and he be permitted to go, leaving the matter to the gentlemen who might offer more for the road at another time, Judge Fullerton also received a wire from one Kimball, a large bondholder. to the effect that if a postponement could be had, he would be prepared to offer \$150,000 for the road at a new sale. In passing upon the matter, the court granted a continuance of 15 days for a consummation of the Namh proposition, but stated that if no guarantee was then

Dollars for the Road

CORVALLIS, Or., Jan. 3.-Another chap-ter has been added to the much litigated case of the Farmers' Loan & Trust Com-

pany vs. the Oregon Facilic and the Wil-

amette Valley & Coust railroad com-panies. The matter of the confirmation of the recent sale made by the sheriff to

Bonner & Hammond, the Montana capi-

talists, for \$100,000, came on to be heard today, and, after much argument for and

against, was taken under advisement un-

for confirmation, stating that, as the pro-ceedings seemed to be regular, if was the

duty of the court to confirm it, even though the purchase price was small. This motion was opposed by E. S. Bironaugh, who appeared on behalf of his

firm, and Referee Whalley, who also ap-peared in his own behalf. Both heartily

Nash. This is a proposition made by Eng-

lish capitalists, by wire, to the effect that, if taken under advisement long enough

to give ample time, \$3,000 would be de-

posited with the court as a guarantee that, if a new sale was ordered, \$200,000 or upwards would be bid, and if they

failed to purchase, the deposit to be forfeited. George Bigham also appeared on behalf of 75 of the receiver's employes

and operatives, representing about as many thousand dollars in labor claims,

adorsed a proposition made by Wallis

til January 19. The purchasers were rep-

made, the present sale would be con-firmed. The court will again convene here January 19, to pass upon the objections, and other matters indicated above.

First Experiment in This Country. BALTIMORE, Md., Jan 3.-A syndicate composed principally of New York and hicago capitalists is building a railroad between Crispfield and Tangier sound, the motive power of which is to be furnished by gas generated from gasoline. The sys-tom has been successfully used in Germany, but this will be the first experiment in this country. It is claimed to be much cheaper than electricity, just as effective and no more dangerous. Cars equipped
