BOISE, Jan. 11.-Friends of senatorial candidates, Shoup and Sweet, have a new element to fear in the contest. The populists may take a hand when the concomes on joint ballot. Tonight Sweet has a majority of one of the republican legis-lators, 19 being pledged to him. The Shoup men refuse to caucus, hoping to gain strength by a defection of Sweet of didates. The Shoup people are accused didates. The Shoup people are accused of bidding for populist votes.

THAT ATHLETIC MATCH. The English tre Determined, and Will Bring It off if Possible.

LONDON, Jan. 16.-The permanent ser retary of the London Athletic Club was shown a dispatch, detailing the reply of Chairman Williams, of the athletic committee of the New York Athletic Club, to the interview with Holman, honorary sec-retary of the London Athletic Club. Mr. Farker said:

cannot at present speak officially but I am sure that, of the dates given, September 12 and September 21, the committee would prefer September 12, for the university members of the team are obliged to go back to their studies at the opening of the term in October. Twelve letters which I have received today have confirmed our previous belief that the meeting in May would be impossible. But thing has to give way in order to arrange for the international meeting and the London Athletic Club's autumn meeting, September 28, therefore, will probably be abandoned. The London Athetic Club will send a team from within the limits of its own membership, and will make the best fight possible. The greatest interest is taken in the match among members of the club, and the onio ion is that too long a period has elapsed without an international contest."

WHE 2:35.3-5.

ST. JOHN'S, N. F., Jan. H.-The ficers of the mail steamer Virginia Lake, which arrived here today, report intense destitution along the northern coast of wfoundland. The steamer recently ried 500 barrels of flour to the north, for distribution among the needy families but as this amount is totally inadequatto meet the widespread starvation exist-ing there, the government will dispatch her off again tomorrow with another sup ply, this being the last opportunity for sending relief to the inhabitants of those until next April. From now until that time they will have to support them selves as best they can. At today's erroices in all the churches many references were made by the preachers to the becasity of their parishioners immediately donating money, clothing or food for the relief of their impoverished brothers, and attention was called to the fact that the resources of the local committees of lief will be exhausted this week, unless more generosity is shown.

TOWN NOW SUBMERGED. Two Feet More of Water Than Last Year, and the Highest in

Searly Thirty Years.

CHEHALIS, Wash., Jan. 13.-Owing to heavy rains and melting snow the Che-halis and Newaukum rivers are now all over the bottoms in this vicinity. The ilroad tracks of the main line and South Bend branch are several inches under water. The lower part of the town is bmerged and many families have been compelled to move. There is two feet more of water than last year, and the water is higher than since 1867. Notwithstanding this, little damage has been don so far. The water is going down.

The Storm in Clackamas OREGON CITY, Jan. 12.-Last night's wind storm moved the house of Mr. Phil-ips, at Gladstone, from its foundation, and only a convenient wood pile prevents: upsetting. The family still occupies the house, which is a rather frail stru ture. A large rock was detached from the bluff in the southern part of town as the local train was going up this morn n, and it fell so near the track that the steps were taken from a car in the trair Telegraph and telephone wires were prorated by the storm, but the telegraph lines were soon restored to working order. Several electric lights were disabled. The tall flagpole at Cataract hosehouse was lown down. The recent rains have brought the river up again, and it is 23 feet above low-water mark below the falls tonight. Above the falls today at oon, the water marked 11.3 feet, and the locks had to be closed to navigation. The The orrow. Already there is some trouble at the electric power-house on account of the high water. A lot of logs escaped from the Gladstone mill boom last night.

Northern Pacific Washout Repaired. TACOMA, Jan. 13. - The washout at Slequa was repaired today, leaving the Northern Pacific's main line entirely open. The wires are down on the tranches to South Bend and Ocosta and the tracks are partly covered by water. They were not operated today. High tide covers the track between South Abdeen and Ocosta. Today's falling temerature has checked the further rising of treams and swamps

SUICIDE OR ACCIDENT.

A Sherman County Farmer Shoots Himself at The Dalles.

THE DALLES, Or., Jan. 13.-John Reins farm-hand from Sherman county and a stranger in town, shot and mortally wounded himself last evening, about 6 o'clock. Some residents of the east end of the city were startled by the sound of the pistol report and rushing out, they found Reins lying in the snow with a revolver in his hand. The ball had en tered his right groin and, ranging ward, lodged against the spine. His first statement to those who found him, was that he had done the deed purposely, but later on, when carried across the stree to Skibbe's, he told the doctor the ing was accidental. He was very He was very drunk at the time, and had been so all day which probably accounts for the conflict-ing statements. The attending physician pronounced his recovery impossible. It is supposed that Reins slipped on the snow causing the weapon to discharge. The in-jured man has no relatives in this vicin-ity. His parents live in Hamburg, Ger-

The warm weather has caused the ice the river to move, and the Columbia now free at this point. The snow is elting rapidly and will soon be gone. As the ground was frozen before the snow came, a good deal of moisture runs off the surface, and does not sink into the soil as much as the farmers desire. Tonight the weather is turning cooler.

The Hon, Robert Mays was chosen to preside, and called on James Shaw, of Oregon City, to state the enterprise. His which he would start the enterprise. His Oregon City, to state the terms upo proposal was that the citizens should do-nate a site and building, and furnish a fund of \$20,000 as capital. This indebtedness, Mr. Shaw would assume and pledge as security the mill with its machinery, besides other property. As the contributors would have a lien on the plant, the chance for loss would be small. The chairman appointed a committee to canvas the town, and see if the amount required can be raised D. M. French, Robert Mays, M. A. Moody, Emil Schanno, M. T. Noian, A. M. Kelsey and Phil Brogan comprise the committee. An active effort will be made at once to raise the sub-sidy. GREEN DOES IT AGAIN. His Second Escape From the Jall in Oregon City.

OREGON CITY, Jan. 12.—Mort Green, held to the grand jury for pussing a \$30 Confederate note, escaped from the jail ere this afternoon, soon after 5 o'c by tearing a hole in the ceiling of the jai and the floor of the recorder's office mmediately above the cage in which the risoners are confined at night. This is he third jail delivery by this route. Green timself did the same trick when con fined here last summer, and the county paid \$50 reward and considerable other ex-pense to have the prisoner returned from The Dalles, where he was finally can tured. The grand jury falled to indict him, and turned him loose, but in a few days he was back in jail under a new charge. After Green had gone, another orisoner went through the same hole with much difficulty, and gave the alarm. The janitor of the courthouse immediately took means to prevent the escape of the only prisoner left. Green is a very slippery rook, and is likely to give the peace ofcers much trouble before he is landed in the penitentiary.

At a meeting of the members of the Baptist church today it was unanimously voted to call Rev. M. L. Rugg, of Salem, to the vacant pastorate here.

FRANCISCANS AGAIN SAT EVERYTHING BAD OF HIM.

The Legislature is Asked to Investigate His Appointment and Devise Means for His Removal.

SAN FRANCISCO, Jan. 12.—Two mon-ster mass meetings were held in this city this afternoon to protest against the apointment of M. A. Gunst as police com-nissioner; to denounce local political cor-uption, and to protest against District Attorney Knight for not causing the arrest of C. P. Huntington. The first two subjects came in for the greater attention from the various speakers. Dr. Elbert Dille addressed the big audience that crowded Odd Peliows' hall to the doors, filling gallery and floor, until there was not a seat left. Held at the instance of the law and order leaves it was a fire the law and order leaves it was a fire not a seat left. Held at the instance of the law and order league, it was a sig-nificant and enthusiastic demonstration, marked by flery speeches and followed to the close by the hearty accord of a gathering wholly in earnest. Dr. Dille com-pared the government of a republic to a

ramid, saying: "Only two things can reach the top-the agle and the lizard-and in city affair It is the reptile that gets there, leaving his slimy trail behind. All the gambler and all the vicious are saying: found our Moses. We've got San Fran-cisco, and a fence around it, and our Moses to lead us into it."

C. O. Brown's message to ex-Governor Markham was read. It was:
"With boss rule, thug rule, corruption
rule and the indifference of good citizens, his has become a government of the worst, by the worst, and for the worst. You have done this to please the liquor men and the gamblers. They have put their brand on you, and you are their man. The mark you have put on yourself is indelible. There is an immortality of infamy. From this hour Governor Markham stands convicted as a man who seeks the approval of the dregs of society. He has thrown a mantle of shame over the closing hours of a wrecked administra-

One leading sentiment ran through all the speeches: "We want a new char-ter." When Dr. Brown was called to the

ter." When Dr. Brown was called to the platform, he said:
"Good will come of the Gunst appointment. Out of it will come a new charter, and we will see to it that the whole miserable police commission is wiped out of existence. We do not want a police dission in fraternity with the gam blers, saloons and brothels. No man has any business on the police commission who has any connection with gambling and pool-selling. This appointment says to the gamblers: Boys, you can go on about your business, and I, as a police com-missioner, will wink my eye on that

Dr. J. C. Smith hoped the people would not go to sleep after one of those spasm of virtue which strike us about once in two years. He wanted a strong and per manent central organization that would hold in view the good government of the city. Attorney Gibson, one of the freeholders, was emphatic in his statement that the approintment of Mose Gunst was one of the most choosious that had been made. He was free to admit that

Gunst has good qualities, saying:
"He is good to his friends. He is very
friendly to his friends, and right here
lies the vice of his appointment. That very element of standing by your friends would come into play, and the arm of the police would be paralyzed. The remedy is a new charter and the placing of the apin an officer residen and within the reach of home

Gilbert Dexter advised the people to let party go to the slogs in municipal affairs, "Mayor Sutro was elected by the people and if every officer was so elected would have a good city government." Another freeholder, Dr. Jerome Ander-son, did not confine himself wholly to

the local situation, but inquired: "Is there any man in this audience who does not know that whoever Collis P. Huntington says shall be senator, will be senator?

Rev. Dr. McClesh wound up the proceed ings with an address conceived in a broad and sympathetic spirit. The chairman of the meeting was L. J. Truman. Mr. Truman, in his opening address, remarked that "when the devil was kicked out of heaven, he was not permitted to name his ith a round of applause. As for Burns, he pointed out:

"It is history that this man was a de-faulter in the only two offices he ever held. Is it not a shame that this man should have the ear of Markham?" Seated on the platform were many prominent ministers and citizens. Finally prominent ministers and citizens. Finally resolutions were adopted favoring the adoption of a new charter; asking that the tenure of police commissioners be lim-ited, and admitting no man to fill the position against whom three responsible citizens shall allege influence of vice. Another resolution, which was adopted, petitions the legislature to investigate the appointment of M. A. Gunst, as police commissioner, and devise means for the removal and prosecution of all officers and attaches of the police department found by their official conduct and business inrest to be unfit for the positions held by

THE SICK AND THE DEAD

Was Very Wealthy at One Time. OAKLAND, Cal., Jan. 13.-Watson Au gust Bray, of Fruitvale, died last night at his home in this city. He was 70 years old. Mr. Bray formerly owned large tracts of land at Fruitvale, besides a great deal of Oakland and San Francisco real estate. He was formerly in business in San Francisco, but retired several years ago. For the last two or three years, he had been an invalid. His sons are grain commission merchants in San Francisco. Bray at one time was very wealthy, but early in the eighties he began to lose heavily in wheat speculations. In 1884, his Fruitvale home, which had cost him \$80,000, was sold at auction for \$20,000.

THE RAGING FRASER

COLD WAVE WILL NOW END THE FLOOD.

Reports Sent Out Were In No Way Exaggerated, and the Damage Already Done Is Great.

VANCOUVER, B. C., Jan. 11.-The highest tide occurred this morning and it is expected that from now on the floods in the Fraser valley will assuage. The presrepresentatives paid a visit to the flood-ed districts at North Arm, at the mouth of the Fraser, this afternoon, and found the reports of damage had not been in the least exaggerated. At 10 o'clock this morning the water was six feet over the main road, which runs alongside a trib utary of the Fraser, and at the time of the visit the water was still three feet over the road, though steadily falling. It is impossible to walk or drive along the greater portion of the road, and boats have been called into requisition. A num-ber of small bridges have been washed out, but the two large bridges are for-tunately undamaged. Many settlers in the lowlands have deserted their houses or are living in the upper stories, for the water in many of the dwellings is thre

feet deep. Samuel Brighouse, a farmer who has resided in the district for the last 30 years says he has never seen such a high tide. His house is surrounded by water and he is only able to get about by boats. He saved his cattle with difficulty. He says the water started rising Friday and each succeeding day it has been higher. The dikes were not built high enough and the water soon came over and swept along the road and fields with great force. The planks on the roads are all floating and it will cost the municipality a large sun for repairs. At Stevenston, the water was higher today, but as the dikes have already burst in so many places, the flood did not do much further damage. Five miles of road there are under water, vary-ing from three to four feet deep. Several canneries are flooded and the land around there is covered with logs and debris washed up by the water. At the deits, the same state of affairs exists, boats being the only means of travel. Westhan island, in the mein channel of the Fra-ser, is almost entirely covered and boats can cross it. At all points at the mouth of the Fraser the water is six inches to a foot higher than during the disastrou floods last spring. The weather is now growing colder. The snow will not melt so fast now, and as the high tides are past, it is thought the worst is over. Luck ily the farmers removed their cattle an stock in time, but they will nevertheles suffer considerable loss from fencing washed away and damage done to

ENGLAND GALE-SWE Much Damage Done Both on Land and at Sea.

LONDON, Jan. 13.-A terrific gale, ac mpanied by a heavy snowfall prevalled throughout the country Saturday nig The cold was intense. Snow drifts some places were 12 feet deep. The mail carts were stopped. The drivers who at-tempted to make their trips suffered ter-ribly. The highways are blocked, and rallway traffic is delayed. The telegraph lines are down in all directions. All the channel steamers were hours late The Cunard line steamer Lucania, from Liverpool yesterday, for New York, ar rived at Queenstown 12 hours late. Sev-eral vessels are ashore on the coast of Wales. The bark Brilliant, from Cuba for Bremen, was driven ashore in Pool's bay, Dorchestershire. Her crew was res-cued by a lifeboat. Some of them were injured. The vessel will probably be a total wreck. It is said two ships foundered on the Humber, and that their crews were drowned. The railway companies' ferry Erie, opposite Hull, caught fire during the storm and was destroyed. A bark was wrecked off Sand Gate, Kent, and the rescue of her crew was accompanied by exciting scenes. The lifeboat men attempted to launch their boat, bu the craft stuck in a snowbank, and it was found impossible to get her into the water. At this juncture a coast guards-man divested himself of his heavy clothng, and, carrying a lifeline, sprang into the boiling surf. Swimming with powerful strokes, he, after a severe struggle, reached the wreck. Then a heavier line was drawn aboard, and soon the crew and their gallant rescuer were safe on shore. Vessels are putting into the road-steads for shelter. Several skaling accidents and a number of deaths from exposure are reported. The snowfall con-
