LETTER RETURNED AFTER FIVE YEARS, --Mrs. Tirzah B. McMillen, wife of Cap-tain James H. McMillen, on Monday rewhich she wrote to a friend in Highland, In this city, on the 25th of April, 1895. She is satisfied that the Postal Department does business on business principles and with thoroughness, if not always with dispatch, but is slightly puszled to under-stand why the return of her note has been delayed over five years, and to imagine where it has been all this time. However it is not to be avvected that Imagine where it has been all this time. However, it is not to be expected that business can be transacted at a rapid rate in a dead-letter office. The note is plainly addressed to Highland, Multno-mah County, Oregon, and there is only one "Highland" in Multnomah County, but this happens to be an addition in the City of Portiand, and perhaps if the letter had been addressed "City" it might have reached its destination in-stead of going off on a fue react remstead of going off on a five years' ram-ble. The envelope is pretty well covered with postmarks, which show that it has gone through the Portland office several times. These stamps range all the way from April 26, 1895, to June 2, 1990, and from April 25, 1895, to June 2, 1990, and there is also a Highland stamp of sp-parently June 5, 1990, and it is informed on the back. "Dead matter. Highland, Clackamas County, Or." As it was stamped at the dead-letter office June 26, 1990 and backstamped at Portland June 30, it seems likely that it has spent in the two years of its absence in most of the five years of its absence in Oregon, but where, it is impossible to conceive, as there are no dead-letter of-fices here. As the note was an invita-tion to dinner it will now be in order for the person invited, Mrs. Minnie Cut-ier, to bring a suit for damages for the loss of an erreliant dinner which can loss of an excellent dinner, which can hardly have been kept hot all these five

WILL USE RAMBOO EXCLUSIVELY .- The while Clearing department has just fin-ished clearing out gutters and clearing bridges and elevated roadways on the East Side, including Sunnyside and Al-bina. Superintendent Hart will now set his force at work on the West Side. He has secured a quantity of split bamboo, and has three machine brooms filled with it, but is meine only one at a time so At, but is using only one at a time, so that they will hold out and enable the men to be kept at work until a further supply of this material can be procured. His regular night force now consists of one machine broom, four carts and four push brooms, and the men necessary to operate them. The impossibility of pro-curing the usual supply of rattan for filling machine brooms has caused much trouble for the street-cleaning depart-ment, not only of Portland, but of all the dtites on this Coast. Steel wire has been tried in its place, but was not satisfactory in some respects, besides being wery costly. Superintendent Hart finds split bamboo the best, as well as the cheapest minterial for this purpose, and has ordered a lot and will use it alto-gether in the future. The bamboo is used for user many more and other ed for very many purposes in China and other countries where it grows, Hun-dreds of things are made of it, from a toothpick to a house or a bridge, and ow it is coming into use here

BEEF CATTLE SCARCE-D. W. Ralston. Sheridan, a well-known stockbuyer, has Just made two trips into the Willam-ette Valley. In search of beef cattle. He suid yesterday that there are virtually no more beef steers in Oregon, and that fat cows must bereafter be sacrificed in obedience to the demand for fresh beef. Even cows are hard to obtain as farm-ers evince a desire to hold on to such stock for breeding and dairy purposes. He will, therefore, be obliged to go as far East as Montana and Wyoming in order to obtain beef cattle for the Port-land and Puzet Sound warkets. He looks and Puget Sound markets. He looks for the searcity to be the rule in Oregon and Washington for about five years, and by that time the farms and dairies of the two states will be able to furnish plenty of beef, at least for the Coast de-mand

OF PUBLIC WORKS,-The new Board of Public Works.-The new Board of Public Works held its first meeting at 4 P. M. resterday, for the purpose of effecting an organization. A. L. Mills was elected president of the board, and it was decided that the regu-lar meetings of the board shall be held by M. S. the first and the first BOARD at 4 P. The property and ten-ants opposite the work were glad to see the old Holladay switch gutters torn away to make room for the two tracks which are to run south on First, as far as the bridge crossing Marquam Guich. The new work is part of the system which is to be extended on the north out Finanders to Seventh and thence to the Terminal grounds. PAID WITHOUT PENALTY .- A number of iquor licenses and a great many vehicle induor licenses and a great many vehicle and other small licenses were paid in yesterday without the 15 per cent penalty being enforced, as the City Attorney has the question of whether the penalty can be enforced on the lith or not under advisement. Only about \$3000 of licenses remain to be paid, on which the pen-alty will be collected. L. C. SORRENON one of the most ex-L. C. QUILT AT NEW COSTON-HOUSE -Quiet prevails about the site of Portland's new APPROVE LOCAL SYSTEM Custom-House at present. Only about Custom-House at present. Only about a dozen men are employed, and these are engaged in clearing away debris or ap-plying the finishing touches to the in-terior fire-proofing. These final proceed-ings will also terminate within 10 days, and then utter alience will reign about the magnificent structure until the con-tracts for the interior finishing and fit-tings shall have been let. The cost of these has been estimated at \$200,000 and NATIONAL CREDIT MEN PRAISE these has been estimated at \$200,000, and bids will probably not be advertised for until the present finished work has been duly accepted by the government, which is likely to occur within a few weeks. Of the army of stone cutters employed on the building for nearly two years, nearly all have gone to Raymond, Madern County, Cal., where the Bentley Construc-tion Company has them at work service The credit department of the Portland Merchants' Protective Association re-ceived generous praise in the last bul-letin of the National Association of Credit Men. In the report of the in-

There are 300 masons now em-ployed at the granite quarries, the stone vestigating and prosecuting committee considerable space was devoted to what is termed a resiprocal reporting system, adopted by the Portland men. An extract being finished to exact dimensions before being sent to San Francisco. The com-pany has found by experience that large bodies of stone cutters can be kept tofrom the committee's report follows: "In Portland, Or., a system which prac-tically amoun's to reciprocal reporting scales of stree cutters can be kept to-gether better at the quarry than in a large city, where temptations are con-stantly alluring the men and interfering with their work. The men themselves, it is said, prefer to work where they can save a larger proportion of their wages, and that is in the counter. is conduind by the credit department of the Meichants' Protective Associaof the Mericantis Protective Associa-tion. The operations of this department are regarded by the members of the Portland Credit Men's Association as-being very effectual in shutting off ex-cess credits. The method employed re-quires the use of four forms. When a member docing to make an involve a

To RATIFY BRYAN'S NOMINATION .- Prep. member desires to make an inquiry re-garding my party in business he fills out a slip prepared for that purpose, and arations are about complete for the rail-fication meeting of the local Democrata, Silver Republicans and Populists, to be out a sup prepared for that purpose, and sends it to the central office. The name of the purty inquired about is immedi-ately circulated among the trade, and a sheet left with each house, upon which the house answering records its num-ber, the amount of total indebtedness (which must include notes and secured account) control of total indebtedness held at Cordray's Theater tomorrow even Ing. A list of the speakers to be heard has been made out by the committee, as follows: George L. Hutchin. Frederick V. Holman, M. A. Miller, Ernest Kroner, C. E. S. Wood, Judge A. S. Bennett, Dell Stuart, L. B. Cox and R. S. Sheri-dan. There will probably be another (which must include notes and secured accounts), mat-due indebtedness, and no-tations as io whatlet the account is new, discounts, is prompt, fair, slow, very slow, C. There will probably be another added, who has not been determined upon yet. Instrumental and vocal music has been provided to diversify the stretches of oratory. Great interest is bestretches of oratory. Great interest is be-ing manifested throughout the city among members of the parties taking part. Last evening a meeting was held in the Burk-hard Hall, on the East Side, by Demo-crata, Silver Republicans and Populists of the Ninth ward fooking to a proper representation of that district. W. E. Robertson has been chosen chairman of the meeting, which position he has agreed to fill. Proceedings open at 8 P. M. ness past due, the number of houses in each line of business that are inter-ested, and the combined amount owing to each different line of trade. In addition to this, however, besides the special report that is sent to the party making the inquiry, a report is also furnished to every member, without respect to whether he has made an inquiry or not,

Assessing County PRECINCTS .-- The field deputies attached to the office of the County Assessor are now at work in the country precincts. The improvements to city real estate have all been gath-ered in, but there is work on the merchandlise assessment yet to perform, and various other things to do. The as-sessment, according to statute, is to be made between March and September, but the County Commissioners may extend the time for a certain period, and some-times are required to do so. Nothing is known as to what the valuation of real estate will be. Assessor Greenleaf, who is at Salem, attending the encampment, stated before election that the valuation would be about the same as in 1810, which was a total reduction of \$12,00,000 from former years, and left the Police and Fire Departments short of funds. Cot TNTY COMMISSIONERS,-A brief meet

ing of the Board of County Commission-ers was held yesterday. The petition of H. S. Stone for the vacation of a street bad in Fairview, on the ground that it had never been opened or used, came up for consideration. A protest against the va-cation was presented by William M. Ladd, executor of the estate of Anna M. Smith, and the Commissioners decided to deny the petition. The bills for the expenses of the late election, for rent of colling places, setting up and removing booths, menis for judges and clerks, etc., were ordered paid. As it will take some time to make out the recessary war-rants, holders of these bills need be in no rush about calling to collect them. Next Monday will be soon enough and by that time County Clerk Holmes will be ready to settle with all of them.
