CITY BOOKS WILL BE EXPERTED. Mayor Rowe has appointed Councilman William T. Branch expert to examine the books of the City Treasurer and Auditor, and be has entered upon the discharge of his duties. He will go over the books for the past five or six years, or to the time when they were last examined by an ex-Mayor Storey undertook to provide for this examination of the books before he went out of office, by appointing Wil-liam McKenzie expert. The Council for some reason did not favor this appoint-ment, and passed an ordinance authoriz-ing the committee on accounts and current expenses to appoint an expert to exrent expenses to appoint an expert to ex-amine the books, and another ordinance providing for an appropriation of \$250 to pay for the work. Mayor Storey veloed the ordinance providing for the appoint-ment of an expert, and signed the ordinance providing for an appropriation for paying an expert, and thus had \$250 to pay his appointee. Mr. McKenzie, however, never undertook the job of experting the books, it is said, because he did not consider the remuneration provides sufficient. Mr. Branch is an expert book keeper and has filled the position of City Auditor, so is thoroughly qualified for the

PRESENTED WITH GOLD WATCHES.-Who Columbia to grace a Fourth of July procession? The young women of Portland did not seem inclined to accept these hon-orable positions last Fourth, and the trade committee began to fear that they ould have to send abroad for the neces-ry talent and beauty, but finally Misses ottie M. Sliter and Mamie M. Kiernan kindly came to the rescue, and consented to act, and thus relieved the committee from further trouble. In order that they may understand how highly their serv-ices were sppreciated, General Summers and the parade committee last evening presented each of these young women with a beautiful gold watch, appropriately in-scribed, the same being paid for out of a fund subscribed by the parade committee. It is not likely that there will be any difficulty in procuring a Goddess of Lib-erty or a Columbih for the next Fourth of July narade.

STARR STREET TO THE FRONT .- The contractor for the improvement of Stark street, from Third to Seventh, by laying pavement of vitrified brick, his comneed constructing concrete curbs on block between Sixth and Seventh, a completion of the improvement on Stark street will probably cause many changes there. The street for some time has been neither a business street nor a residence street, and a number of places slong it have given it an air of "disre-spectability." The handsome brick block constructed by H. W. "rbett at the corner of Fifth, and another being erected by A. N. King on the opposite corner and a third to be erected in the same lo callty by J. D. Coleman in the near future, will go far toward making it a business street and causing the removal Chinese and other disreputable haunts between Fifth and Seventh.

IN MASCULINE ATTIRE, -Harly yesterday morning a young woman, giving the staid and demure name of Jane Smith, was brought into the Police Station by Patrol man Mott. She was charmingly attired in masculine costume, and that was the enly offense she had committed against the dignity of the city. From her ap-pearance she had evidently started out in search of the flowing bowl and the crimson wine, and in such a pursuit had deemed spirits and feminine apparel "so inconvenient." When arrested she shed tears, and asked in wonderment, "Is this against the law?" She put up the \$30 cash ball required, and was released. She falled to appear at the time set for her case and her ball was forfeited.

THERE WESTLAMS NEED PROTECTION.— Pedestrian have had many complaints to make about blcyclists and the necessity of being protected from them, but A. Maegly, broker, is of opinion that bicyclists need to be protected from pe-destrians. He was endeavoring to ride his bicycle across the network of streetcar tracks and curves at the intersection of Third and Morrison streets, a day or two ago, and doing his best to keep from being run over by the curs, when two women started to cross Third street. There were cars before them, cars be-hind them, and cars all around them, and they became nervous. One woman finally yelled to the other, "Look out," and she made a jump backward against Mr. Maegiy, upsetting him and falling all over him. Two cars came near making hash of them, but they were extricated and their lives saved but Mr. Maegic's hand their lives saved, but Mr. Maegly's hand was quite seriously injured. North End colored man arrested Mc for resisting an officer and for roaming the streets after hours, was fined \$5 for the first offense and \$50 for the second. When arrested by Patrolman Warner, Brown had resisted the arrest, and the defense attempted to convince Judge Cameron that the arrest had been unlawfully made without a warrant, and that resistance under the circumstances was not unlawful. Judge Cameron differed both on the point of law and the policy of encouraging resistance to po-lice officers, especially in the North End. where the officers were harassed enough y roustabouts.

HEARD NOTHING PROM BIDS.-The persons who submitted the proposals for getare becoming impatient to learn to whom the contract is to be awarded: The bids were sent on to Washington long ago, and the result should have arrived here a week ago, but nothing has been heard from the department yet. J. H. Roberts, who agreed to bring the craft overland to Baker's Bay in 30 days, hopes to secure the contract, for, although his bid was \$25 more than the lowest one, the time named for getting the vessel alloat was 20 days less than that named in the lowest bid.

The time required to put in the new draw will also required to put in the new draw will also cut some figure in the matter. A wooden draw could probably be completed by October 1, while it might take six onths to procure a steel draw and the ners do not like to take the risk of waiting to long.
