Dayton (Rep. W. Va.) then presented the second conference report upon the Naval appropriation bill. The Presidente of the town welcomed the Commissioners, declaring that the people of the province which had been watered with the blood of Americans and Filipinos, earnestly hope for the oblitera-tion of the marks of war, and for the establishment of a peaceful government guaranteeing personai liberty. Judge Taft responded. He said he rejoiced at the fact that the people of the Province of Bulacan no longer misunderstood the ob-jects of the American Government, which solely was to secure for the people the biessings of civil liberty, and to develop their self-governing capacity.
