

GOODES, WORTMAN & KING

BLACK TAFFETA SILKS, worth \$1.35, 75c and 65c this week \$1.19, 64c and 52c a yard.

CLEARING OF WOMEN'S LAST WINTER CAPES \$3.98, \$2.98 and \$1.50 instead of \$9.75, \$7.50 and \$3.00 each.

New Waist Fabrics for Spring

As the uses of the waist have been multiplied, we show a great increase in materials suitable for making them. Today three new lines come forward for the first time.

Creme De Chines

Plain or satin striped. Every new tint is represented in our showing of this graceful waist fabric.

Silk Embroidered Albatross

Helio, gray, pink, blue, cream, cardinal, old rose, reseda and castor. Just opened. First floor annex.

Akola Cloth

A soft, new waist material, medium weight, pure wool, next lighter than flannel. Colors—reseda, old rose, cardinal, gold red, castor, gray and pastel colors. 50c yd Domestic dept.

New Lace Collars and Revers

The proper waist and jacket garnitures for Spring, narrow or wide. Sizes for ladies or children. Prices

90c to \$5 ea

In Arabian lace, plain or gold embroidered. In silk applique, braid and Battenberg. In Renaissance and Oriental. Now ready at the lace counter.

More Allovers

Black gold embroidered laces, applique, chiffon and mousseline de sole in Persian effects. Arabian lace, plain or gold embroidered. Black net with gold, silver or jet spangles.

Narrow Edgings and Headings

In gold threaded Arabian lace.

NEW TODAY, SUMPTUOUS IMPORTED SUITS AND SEPARATE SKIRTS

SUITS. Black, navy, gray, brown, castor and mode. Dainty trimmings relieve them from the rigid lines of the strictly tailor-made suits.

SKIRTS that show the cleverest conceptions of the most skilled foreign modelers. In all-over silk applique, black peau de soie, guipure lace, cut out taffeta, etc.

NEW SHIPMENTS OF TABLE GLASSWARE

The nearest approach to cut glass we've yet shown, but not expensive. Two samples. 8-inch Berry Bowl, 25c. Fruit Saucers, 50c a dozen.

FOR THE FAIR IN 1905

ENDORSEMENT WILL BE ASKED FROM PACIFIC STATES.

Portland Will Send Men to Legislatures at Olympia, Helena, Boise and Salt Lake.

The Legislatures of the Pacific Northwest States will be called on before they adjourn, for an official endorsement of the exposition of 1905. The exposition committee met last evening in the Chamber of Commerce and each member was given the reception the enterprise has been given thus far in its history. J. M. Long stated that every member of the Oregon Legislature had personally expressed his approval of the project, which is to commemorate the Lewis and Clark expedition to this Pacific Coast in 1806. The name of the exposition, Mr. Long said, had not yet been selected, but the "Pacific Coast Centennial" had been suggested as a very manifest and appropriate name for the exposition. The appropriation from the Legislature, had it been the desire of the committee, but all that was asked was a resolution recognizing the event and appointing a commission to take charge of it on the part of the State of Oregon. The appropriation will follow after the City of Portland has pledged \$50,000 to it, by its vote in June, 1902. This portion of the programme is regarded as a foregone conclusion. Representative men will be selected to go to the Legislatures now in session at Olympia, Helena, Boise and Salt Lake City, personally to acquaint the members with the progress of Portland's 1905 enterprise, and ask for official recognition and the appointment of a commission. This work will require considerable tact and a small outlay for personal expenses, but as men known in each state will be selected by the committee in Portland, no difficulty is anticipated. The exposition committee realizes that there is considerable time to work the matter up and bring the exposition to a successful culmination by the Summer of 1905, but no idle periods are allowed for and each day work will be done toward its successful achievement.

SALMON SEASON CLOSED.

Six Weeks of Rest for the Chinook—Preparations for Canning. The open season for fishing for salmon in the Columbia closes tonight, and the river will be closed for fishing until April 15. In preparation for this close season large quantities of salmon have been sent in from down the river, and have been packed in ice. There was quite a run of both chinooks and steelheads last Saturday and Sunday, but it fell off the first day of the week. A lot of silverides also came in from some of the coast streams to the south of the Columbia, and the chances are that there is a pretty fair supply of salmon in cold-storage to last till the fishing season begins, six weeks from now. It is not definitely known whether the fishing season is to close this year on August 19 or 20. The Legislature was asked to extend the time five days, and it is thought this was done and that the season will end hereafter on August 15. There is also to be one close day in the week, from 6 P. M. Saturday to 6 P. M. Sunday. This is not for the purpose of giving the fishermen a chance to go to church, but to give the fish a day of rest and enable them to gain a peg and move up so that the next man above may catch them. The canneries have all had their crews engaged for the season for two or three months, and some of them are beginning to muster their men to get them at work making cans. Some of the canneries have their cans made at the can-factory in Astoria, while others manu-

facture their own cans, with the exception of "key cans." George Beal, superintendent of the Pillar Rock cannery, is in the city, and will take down some 45 men about March 19 to begin manufacturing cans, as he has to have a lot ahead to start in with.

FRUIT PROSPECTS GOOD.

Hood River Expert Expects Great Things This Year. E. L. Smith, of Hood River, president of the State Board of Horticulture, thinks the chances are very good for a heavy crop of fruit in Oregon this year. "The season thus far has been very favorable," he said, at the Imperial yesterday, "but of course there are chances yet to take, as cold rains may ensue after the trees have blossomed. Cold, wet weather prevents the insects from carrying pollen from one blossom to another, and thus the fertilization of the trees is retarded. If we have an average Spring, however, the fruit crop will be enormous." Mr. Smith is very well satisfied with the sale of his last crop of apples, as they netted him a box. His best market was Portland and the Puget Sound cities, though he shipped in all directions. He bases the future prosperity of Hood River on the quality of apples and strawberries and predicts a rapid increase of population in the valley within the next few years. "Fruitgrowing has become one of the prominent industries of Oregon," he said, "and fully \$5,000,000 is invested in the commercial orchards of the state, to say nothing of private orchards attached to the farms and homes of the people. The value of the fruit output last year was \$2,000,000. "Fruitgrowing is the best occupation connected with the soil, as it is healthful, pleasant and means cozy homes to its followers. Fruitgrowing is almost a science now, however, as chemistry and other sciences have been brought to bear to render it a success."

NOT OVER THEIR SCARE.

Omaha Women and Children Still Afraid of Kidnappers. The people of Omaha have not gotten over the scare resulting from the abduction of the Cudahy boy, according to Charles H. Pickett, a merchant of that city, now at the Fort. Mr. Pickett says the women and children are terror-stricken, and on no account could they be induced to go abroad alone after night-fall. The action of the City Council of Omaha in offering \$25,000 reward for the abductors was the result of strong popular sentiment, as even the poor people of the city are anxious to see the kidnapers brought to justice. "In all, there is the sum of \$50,000 placed on Pat Cudahy's head," Mr. Pickett said. "The offer of the had offers \$25,000 for their arrest and conviction, and \$25,000 for Cudahy's unconditional release. This has caused a great deal of work on the part of detectives, and the chances are strongly in favor of the final capture and conviction of the gang, who are by this time well known, though not all located."

HE WAS A "HASHER."

San Francisco Vagrant Finds Portland a Hard Game. A stocky-built lad of about 16 years, comfortably dressed, and looking as if he had been well fed, was skitting around the streets late last evening striking every promising-looking man he met for money to buy a meal. One whom he addressed asked him what a stout, healthy young fellow like him meant by begging on the street, and where he came from. He said he came from San Francisco, and added: "I am a hasher." "The deuce you say," replied the startled citizen, "and do you intend to make hash of me, if I don't give up, or what is a hasher?" "Oh, that means that I work in a restaurant—elling hash."

HE WAS A "HASHER."

"Well, if that is the case ellng yourself

MRS. KINNEY'S WILL.

Though It is Not Legal, Her Wishes Will Be Carried Out. The property of the late Narcissa White Kinney, formerly of Astoria, and recently of Portland, is to be disposed of according to the terms of her will, notwithstanding the instrument was not witnessed as required by statute, and is, therefore, invalid. Mrs. Kinney left a holographic will, which would be good in some states, but is not so in Oregon, without the signatures of two witnesses. The husband, Marshall J. Kinney, has, however, signified his intention to carry out his wife's desires as to the distribution of the estate, and he was yesterday appointed administrator by Judge Coker for that purpose, in response to a petition filed in the County Court. The property is valued at about \$30,000. Mrs. Kinney was president of the Woman's Christian Temperance Union, of Oregon, and that association is remembered among the bequests. The will was deposited for safe keeping in Wells, Fargo & Co.'s Bank, in this city. The principal provisions contained in the document are as follows:

"I wish all my just debts to be paid off if there should be any at the time of my death."

"If Mrs. Mary A. Ball still owes me any part of the note and mortgage which I now hold against her, I wish the note to be given to her, and the mortgage canceled."

"If I still, at my death, own either land or coal of the G. W. White farm, in Mercer County, I wish all that remains to me of the land, and one-half of the coal still remaining to me from that farm, to go to my two single sisters, Margaret A. White and Maria White."

"Of the remaining one-half of the coal under my G. W. White farm, in Pennsylvania, I desire one-half to be given to the Grove City College, where I received much of my education. The remainder of the coal, when converted into cash, I wish to be divided as follows: One-third to the Woman's Board of the United Presbyterian Church, one-third to the home and foreign boards of the Presbyterian Church, and one-third to the Woman's Christian Temperance Union, divided equally between the National W. C. T. U. and the W. C. T. U. of Oregon."

"Of my Oregon property and my land in Washington and my farm in Kansas, I wish my brother, J. W. White; my sister, Eleone J. Roberts; my sister, Sue W. Koonce, and my sister, Mary A. Ball, each

to receive \$500, and if my Pennsylvania property is sold before my death, then I wish my sisters, Margaret A. and Maria White, each to receive out of the balance \$5000 each, and Harriet Kinney to receive \$3000; Narcissa Ball, \$200; Suste Campbell, \$150; Sadie Narcissa White, \$100; Viola Koonce, \$50; Astoria Public Library, \$50; Astoria First Presbyterian Church, \$50; for evangelical work, and the remainder of my property to my husband, Marshall J. Kinney. If my Pennsylvania property is disposed of before my death, I wish my husband to give out of the balance of this property \$200 to the National W. C. T. U. and \$250 to the State W. C. T. U."

"I do not wish to be buried in an expensive coffin, and I wish the decorations at my funeral to be of life immortal. I wish the minister to preach from the text, 'Unto him that loved us and washed us from our sins in his own blood and hath made us kings and priests unto God and his Father, to him be glory and dominion forever and forever.'—Revelations, I, 6."

Disposition is also made of jewelry owned by Mrs. Kinney, the diamond of her engagement ring to be taken from its setting and sold to a jeweler, the proceeds to go toward the support of some Bible woman in heathen lands. Marshall J. Kinney is named as executor. Stott & Stout appeared as attorneys in the case.

Satisfactory to Taxpayers.

PORTLAND, Feb. 27.—(To the Editor.)—Referring to the Beech-street sewer article in The Oregonian of the 25th inst., the taxpayers would like to know what the "satisfactory arrangements" are in that district. Will you please inform us through The Oregonian? L. M. DAVIS.

The "satisfactory arrangement" mentioned in the paragraph referred to by Mr. Davis is the arrangement made by City Attorney Long with the O. R. & N. Co. for a right of way for the outlet of the proposed Beech-street sewer through the company's grounds at Albina, free of cost. No other "satisfactory arrangements" are mentioned in the paragraph.

Sellwood Residents Pay 5 Cents.

Residents of Sellwood and all living south of Holgate street are now paying 5 cents on the Oregon City Railway to and from the heart of the city. The law forbidding car companies from taking more than a 5-cent fare in Portland went into effect several days ago, but a good many continued to hand the conductors the usual 10-cent fare until they learned they were entitled to ride for 5 cents. This puts Sellwood on the same plane with all other Portland suburbs. The prospective increase in the schedule will also come in course of time. Construction is pro-

ONE OF THE MANY INSTRUMENTS

Used by DR. JORDAN. Associated with S. O. Fiset, M. D., (Toronto.)

Dr. McKay Jordan, "Late Consulting Ophthalmologist to the Famous Boston Optical Co. of Eye Specialists, with offices in most of the Eastern metropolitan cities of Canada and United States," with Mrs. Jordan for climatic reasons, was decided to make Portland their future home, and has taken office at 204 1/2 Washington street, next to Cordray's Theater. Dr. Jordan has made the eye his life's study, having spent some 10 months in the old country, in 1867, where he took a special course, and is probably the only oculist in this city to limit his practice exclusively to the eye and its appendages. Many of the following symptoms are caused by a weakened condition of the muscles, misshape or malformation of eye. Nervous head and eye ache, dizziness, pain in the eyes, temples, back and top of head, cross eyes, inflamed eyes and lids, smarting, burning and watering eyes, floating spots and defective vision, etc. No special treatment is advocated; each case has to be met with a knowledge of its own peculiarities and treated by a specialist in that particular branch of the profession. Call and see if you have any of the above symptoms. Note the following!

"Writes the company," immediately after the discovery of astigmatism "malformation of the eye, the cornea or lens of the eye." Many eminent Eye Specialists experimented as to the best methods of estimating the exact degree of the defect and as a result some wonderful instruments have been invented but all more or less inaccurate until HELMHOLTZ devised the MOST WONDERFUL OF ALL INSTRUMENTS KNOWN. "The Ophthalmometer" for accurately measuring all meridians of the eye, used in conjunction with the Ophthalmoscope for viewing the interior of the eye, they are considered by the best authorities as the only reliable means of diagnosing eye defects. These instruments have been used by Dr. Jordan during the past five years and thousands of cases have been quickly and promptly cured, many and beyond all hope of recovery, many of the patients have pronounced their recovery of SIGHT as MERACULOUS, but it is no MERACLE, it is simply the result of SCIENCE, ACCURATELY DIAGNOSING and SCIENTIFICALLY treating all eye complications known to exist as soon as the cause is removed the trouble ceases to exist.

So confident are we in the OUREY METHODS and instruments of our ABILITY to ACCURATELY DIAGNOSING and SCIENTIFICALLY treat all eye complications known to exist as the result of irregular or malformed eyes, we will enter a contract with you to refund ALL money paid us should Dr. Jordan treat your case and fail to relieve your headaches etc. or improve your vision. We know this is a VERY STRONG GUARANTEE. But we also know with such appliances and after the successful treatment of over 21,000 complicated cases that our guarantee means something (Such is the record of our Dr. Jordan) simply the fact that you have dragged yourself until you are sick that others have failed to effect a cure, no criterion, for we know positively that the old methods, of guesswork will not relieve you, and we are fully aware of the fact that Eye complications have baffled the medical faculty of every country until the invention of such appliances as WE now use. The only cure for poor sight, muscular weakness causing Notalgia, head and eye ache, inflamed eyes, floating spots and nervous debility, caused through the eye, results from application of the RIGHT TREATMENT, to the RIGHT DISEASE by the RIGHT DOCTOR at the RIGHT TIME. It is directly to our interest to cure our patients, as no institute of ophthalmology can prosper any length of time unless patients are treated. SKILLFULLY HONESTLY and SUCCESSFULLY.

Our anxiety to cure our patients quickly and permanently, and to obtain their friendship and merit their recommendation is a matter of business principle. By treating patients successfully they become our friends and recommend us to others and their cure always leads to other business and in this manner we are enabled to swell our practice to an enormous magnitude.

Address 350 1/2 Washington Street, Hours—10 to 1, 2 to 6, 7 to 9. Next to Cordray's Theater
