MOSCOW EXCITED.

Riot Began There March 4 and Continued Several Days.

ST. PETERSBURG, March 13, Wednes day .- News comes from Moscow that the city is terribly excited over the riot which al days. It is trustworthily reported that one student was killed and many were severely hurt in the conflict with the po-lice, who arrested 700 persons besides noting the identity of many others. Some say 1500 names were taken. It is stated that the demonstration was directed partially against Grand Duke Sergius Governor-General of Moscow, who celebrate his tenth official anniversary this week.

The students intended making demonstrations against their old enemy Suvor-rine, who celebrated the 25th anniversary of his assumption of the editorship and proprietorship of the Noevoe Vremya this afternoon, by holding a reception which was attended by the leaders of social life in the city, but the police were in the secret and displayed a strong force. The students assembled in consid-

erable numbers, but departed peacefully. There has been a renewal of demon-strations by students in St. Petersburg and in Moscow. In the latter city the students stoned and broke the windows of the palace of the Governor-General, Police and Cossacks are patroling both cit-tes in anticipation of a renewal of the A. M. and adopted 10 resolutions of the disturbances. A seditious proclamation is army budgets; the amounts being urgent-

THUNDERER IN DISGRACE. Publication of Civil List Statement

Will Be Investigated.

LONDON, March 15 .- In the House of Commons today the Chancellor of the Exchequer presented the report of the select committee on the civil list with reference | to to the publication in the Times of the confidential statement on the subject. The report recommends the speaker to take steps, either by the exclusion from the House of the representatives of the Times or otherwise, as he saw fit, to prevent the recurrence of such an offense. The speaker promised to render an early decision in the matter.

A question relative to the Tien Tsin dispatch announcing friction between the Russians and British elicited a confirma-tion from Lord George Hamilton, the Secretary of State for India, who said Russia had claimed the land in dispute by virtue of a concession alieged to have been granted by China since the disturb-ances commenced. A CLASH IMMINENT

Trouble at Tien Tsin Between British and Russians

OVER RAILWAY PROPERTY

All American Troops in China, Except a Small Legation Guard, Are Ordered to Manila-Germans Again Looting.

TIEN TSIN, March 15.-The British and Russians are disputing over the limits cession, and the guards of the two na-tions are in close proximity to each other. The British have been strongly reinforced, and trouble is iminent unless the Russians retire.

British General Hesitates.

PEKIN, March 15,-The Russians at Tien Trin took possession of the raliway siding and armed sentries are now guarding it. General Barrow, second in command of the British forces, hesitates to act, apparently in the absence of General Gazelee, feeling sure that bloodshed would ensue. He had a long consultation today with Sir Ernest Satow. The Russians are jubilant. The American military line has been sold to a private company.

Watting for Instructions. LONDON, March 15.-A dispatch re-ceived here from Tien Tsin by Repter's Telegram Company, dated from that city today at 3:29 P. M., says;

"The Russians are now entrenching in the disputed territory. A company of the Hong Kong regiment, with fixed bay-onets, is in front, while two companies of the Madras Pioneers, under the com-mand of Major Johnson, are held in reserve. Both the Russians and the British are awaiting instructions from their gov-

WITHDRAWAL OF AMERICANS. All But Legation Guard to Leave China by End of April.

WASHINGTON, March 15.—An order was sent to General Chaffee today for the evacuation of China by American troops, leaving only a Legation guard of 150 men. The troops will be removed from China by the end of April, The dispatch to General Chaffee follows: patch to Generol Chaffee follows:

patch to Generol Chaffee follows:

"In reply to your telegram, the Secretary of War directs that you complete arrangements to sail for Manila
with your command and staff officers by
the end of April, leaving as Legation
guard an infantry composed of 150 men,
having at least one year to serve, or
those intending to re-enlist, with full
complement of officers, medical officer,
sustinin hospital corps men, and, if you
think best, a field officer especially qualified to command the guard. Retain and
instruct an officer, quartermasters' struct an officer, quartermasters' partment, to proceed to erect neces-ry buildings for guard according to the plan and estimates you approve. Colonel Charles E. Humphrey, on ar-rival, will make an inspection of quarter-muster department Philippine Islands when he will be assigned to until July, as chief quartermaster at Manila, and Miller ordered to the United States All stores and supplies not required for the Legation guard are to be disposed of in your best judgment; of course servic-able supplies needed in the Philippine Islands will be sent to Manila. The division of the Philippines will furnish supplies for the Legation guard. Mac-Arthur notified."

It was said at the War Department that this closes up the Chinese question so far as the War Department is concerned, as the protection of the Legation can in no sense be taken as occupation of Chinese territory, and the guard can not be used for any other purpose. 'transports Sumner and Indiana will sent to Taku to take the troops to Maniia. These troops consist of the Ninth Infantry, four troops of the Sixth Cav-airy and the light battery formerly commanded by Captain Reilley. Two transports will bring away the 1100 animals which have been used by the army in

LOOTED BY GERMANS. Soldiers Pilinged the Market Town

of Nauming.

PEKIN, March 15.—It was reported at the United States Legation today by Rev. W. S. Ament, of the local staff of the American Board of Foreign Missions, that the Germans had visited the prosperous market town of Nauming 60 miles from Pekin and completely looted it, and that they had also ransacked and destroyed a native Christian Chapel and despoiled women of their trinkets, even taking rings out of their ears and generally ill treat-

ng the natives.

The attitude of M. De Giers, the Rus sian Minister, regarding further punish-ments is delaying the demand of the Min-isters of the powers upon the Chinese and the matter has been referred to the home governments. Mr. Rockhill says that personally he is drawing a clean sheet over additional executions, but that certain high officials throughout the provinces are guilty of most barbarous crimes and that it is generally recognized that these must be numbered if only as that these must be punished, if only as a warning to others. In every case where lemiency is possible, Mr. Rockhill has ad-vocated it, but he has felt that in a few cases lenlency was out of the question. He says M. De Giers had virtually agreed to certain punishments, but the change in his attitude is presumably attributable Russia's annoyance at the of the other powers in the Manchurian affair. At the fatest meeting of Ministers, M. De Giers vehemently declared that he would rather see his right hand cut off than to consent to further decapi-

DEWET IS INSANE.

Statement Made by Prisoners Lately Released.

BLOEMFONTEIN, March 15 .- Prisoners who have lately been released by General Dewet say they think he is a madman, They aver that the terrible fatigues he has undergone, his anxiety and the intensity of his feelings have unbalanced his mind. Apart from this view of Dewet's mental state, some of his peculiarities are that he rarely sleeps within the bounds of his camp. He seeks rest outside with a few trusted followers. Thus the order-lies of his subordinate commanders are frequently unable to find him to receive orders. His secrecy is extreme, He aborders. His secrecy is extreme, He abselutely imparts his plans to no one. Dewet repudiates the peace negotiations
which are going on. He declares openly
to the men that no terms except independence will satisfy him. A recent utterance
attributed to him is that, after the British, he hated the Transvaniers. The
whereabouts of Dewet during the last two
or three days is unknown nor is! known or three days is unknown, nor is it known whether President Steyn is with him.

DEWET AT SENEKAL. Kitchener Makes No Report on

Peace Negotiations. LONDON, March 15 .- A dispatch from Lord Kitchener, issued this moring, is so studiously silent upon the subject of the peace negotiations that it leads to the conclusion that nothing has been accom-plished of a sufficiently definite charac-ter to justify lending official support to the view that the war is over. Nor General French's movements indicate essation of hostilities, although, possibly as no date is given, his captures were made previous to the granting of an ar-mistice. Lord Kitchener's dispatch, which is dated at Pretoria last evening, follows:
"Dewet has reached Senekal on his northward progress. French, in addition to his previous successes, reports 46 Boers killed or wounded, 146 taken prisoners and surrendered, with 200 rifles, 3700 rounds of ammunition, 2400 horses, 2500 cattle and 400 wagons and carts, besides mules and trek oxen. Methuen has arrived at Warrento m Klerksdorp, bringing in prisoners and

TO MAKE IT HABITABLE.

West Const of Africa Will Be Inves tigated From Sanitary Standpoint

LONDON, March 15 .- An important comlittee of the Liverpool, Manchester and Bradford Chambers of Commerce had an nterview with Mr. Chamberlain, on the ubject of rendering West Africa more habitable. The delegates secured a prom-ise that if the Chambers of Commerce will appoint three business men the Government will add a representative of the Colonial Office and scientific expert, and pay the expenses of the whole com-mission, the duty of which will be to in quire into the sanitary conditions of West Africa and other matters on which de pend the prosperity of the British cold nials situated in that part of the world. Mr. Chamberlain said he considered the matter important to all tropical countries, among whom the cost would be appor tioned. He mentioned that during his five years in office he had sanctioned the building of over 500 miles of railroad on the West Coast of Africa.

The Lohn S. Bill.

"Mr. Carnegies's offer to provide library buildings for Greater New York at a cost conditions. If accepted, it will result in the greatest free public library system.

"New York, March 5.-Mr. John S. Blllings, Director New York Public Library; Our conference upon the needs of the greater City of New York for branch Biraries to reach the masses of the peo-ple in every district has convinced me

have found one necessary for every 60,-609 or 70.000 population, then the number is not overestimated. You estimate the costs of those libraries at \$80,000, being \$5,200,000 in all. If New York will furnish sites for these branches for the benefit of the masses of the people, as it has done for the Central Library, and agree in satisfactory form to provide for their maintenance as built, I to provide and equip all the buildings should esteem it a rare privilege to be essary is probably a reasonable one rmitted to furnish the money for the buildings-\$5,200,000. Sixty-five libraries at one stroke probably breaks the record but this is the day of big operations, and New York is soon to be the biggest of ANDREW CARNEGIE. Secretary G. L. Rivers, of the New York Public Library Association, wrote to Mayor Van Wyck, submitting Mr. Car-

negle's letter, as follows:
"New York, March 15.—Robert A. Van Wyck: By direction of the Board of Trustees of the New York Public Library the Board of Astor, Lennox and Tilden foundations, have the honor to hand you herewith a copy of a letter which we received from Andrew Carnegie on the 13th, the day of his sailing for Europe, "You will observe that Mr. Carnegie of-

fers to bear the expense of building a number of branch libraries at an estimat-ed cost of \$5,200,000, provided the city will arnish the necessary land, and provided satisfactory arrangements can be made for all these branches. There are no other conditions, I am instructed that if the city authorities look with favor on the general plan, our Board of Directors will hold itself in readiness to co-operate in every way possible in furthering the beneficent purposes which are the object of Mr. Carnegie's munificent offer. It is understood that Mr. Carnegie's offer is intended to apply to the entire city. The methods and agencies of administering ranches in beroughs other than Manhattan and the Bronx will be left to be settled hereafter.

I am further instructed to say that in nominating Mr. Carnegie's proposal Dr. Billings accompanied it with the following

"In the conferences referred to by Mr.
Carnegle, the suggestions which I have
made related mainly to a free public
library system for the Boroughs of Manhattan and the Bronx. I have stated that such a system should include the great Central reference library, on Forty-second street and Fifth avenue, about 40 branch libraries for circulation, small distributing centers in those public alldings which are adapted to such ourposes, and a large traveling library sys-tem operated from the central building. Each of the branches should contain reading-rooms for from 60 to 100 adults and from 70 to 125 children, and in these rooms should be about 5000 volumes of encyclopedias, dictionaries, atlases and large and important reference books. There should be ample telephone and delivery arrangements between the branches and the central library. To establish this system would require at least five years. The average cost of the branches I esti-mated at from \$15,000 to \$125,000, including sites and equipment. The cost of main-taining the system, when completed, I estimated at \$50,000 a year. The circula-tion of the books for home use alone in these boroughs should amount to more than 5,000,000 volumes per year, and there should be at least 500,000 volumes in the circulation department, with additions of resident the Chinese special embassy of control of a replace worn-out books and to replace worn-

"My estimate that it will take five years essary is probably a reasonable one, if the matter is taken up promptly by the the time could be shortened. No doubt there are some difficult questions as to details to be settled, but there are a number of very competent persons to settle them, and the interests of the masses in every part of the city is so great in seeing that full advantage taken of the opportunity now presented to bring free books almost to the door of every citizen that we feel assured that prompt action will be taken."
