Aguinaldo Is Preparing a Manifesto

TO NATIVES OF THE ISLANDS

He Will Urge the Inshrgents to Cease Fighting and Accept American Sovereignty-Not Ready for Publication.

MANILA, April 4.—Aguinaldo has the assistance of Chief Justice Arellano and of Mr. Fisher, General MacArthur's private secretary, in preparing his mani-festo. The work is not completed, and the tenor of its contents is not divulged. the tenor of its contents is not divulged. Chief Justice Areliano had a long conference with Aguinaldo. He says that Aguinaldo is realizing the futility of further resistance, and is desirous of spar-ing the Filipinos additional distress, trusting to the justice and generosity of the American people. The chief of the revolution will urge the insurgents to cease fighting and accept American sovereignty. Senor Areliano says that Agui-naldo's manifesto is not yet prepared for publication, and that he is unable to furnish the text. The officials assert that a formal announcement will be made when anything definite is accomplished. Lieutenant Frederick Boyer, of the Thirty-ninth Volunteer Infantry, Chief Commissary for the second district of the Department of Southern Luzon, has arrived at Calamba, Province of Laguna, where he has been charged with missipportations of these of the provinces of the province of the appropriating 50 cases of bacon and with other irregularities. It is alleged that the shortage in the Commissary depart-ment in Manila aggregates \$185,000. In contrast with the scandals in the Commissary department, the collection and administration of the insular funds are matters for congratulation. The accounts of the new custom-house, internal revenue department and license office have been investigated, and are reported perfectly straight.

HOME RULE IN THE ISLANDS. Acts for the Organization of Munici-

pal and Provincial Governments. WASHINGTON, April 4.—Copies of two important acts of the Philippine Commisimportant acts of the Philippine Commission, providing for the organization of the municipal and provisional governments in the archipelago, have been received at the War Department. The act for the organization of a municipal government does not apply to the City of Manila nor for the settlements of non-Christian tribes, for which special legission is to be enacted. But all pueblas samil be recognized as municipal corporations, adhere to their former names and continue to hold all property rights vested under their former organization. The government proper of each puebla is vested in a President, Vice-President and a municipal Council, to be chosen at day in January next after their election. Councillors elected in 1991 will divide themselves into two classes, the first set vacating their seats on the first Monday in January, 1992, and the second set one year after their successors have been chosen annually. Minicipalities will be divided into four classes those contain. divided into four classes, those contain-ing not less than 25,000 inhabitants to less than 18,000 inhabitants to have 10 Councillors, and those containing less Councillors, and those containing less than 10,000 inhabitants to have eight

The qualifications of electors to choose the officers of the municipal government are that they shall be male persons over 23 years of age, and must have a legal residence in the municipality in which they exercised the right of suffrage for a period of six months preceding the election, and must not be citizens or subjects of any of the foreign powers. They, too, must be a member of the following three classes: Those who, prior to Aug-ust 13, 1898, held the office of Municipal Captain or member of any ayuntamiento; those who own real property to the value of 500 pesos or who pay annually 30 pesos or more of the established taxes. and those who speak, read or write English or Spanish. Those disqualified from voting include delinquent payers of taxes lish or Spanish levied since August 13, 1898; insane or feeble-minded persons; those who violat-ed the oath of allegiance to the United States; those who on or after April 1 were in arms against the sovereignty of the United States, and those who in any way aid or promote the insurrection. The municipal officer in no case shall be an ecclesiastic or soldier in active serv-

The officers in each provincial government are to be a Provincial Governor. Secretary, Treasurer, Supervisor and Fiscal, The Provincial Governors shall be selected by a convention composed of the Councillors of all the municipalities included in the province. The four other hold office during its pleasure. With the exception of the Provincial Fiscal, after March 1, 1902, they shall be selected un-der the provisions of the civil service

PHILIPPINE CIVIL SERVICE. First Annual Report of the Board Received.

WASHINGTON, April 4.—The first annual report of the Philippine Civil Service Board was received here today. It says the civil service act passed before the organization of the board is so explicit that many important posterior which that many important questions which otherwise would have arisen in the preparation of the rules were solved by the passage of the act. The act makes disloyality to the United States as the su-preme authority of the islands a complete disqualification for holding office. Every examined must first take the oath of loyalty. An amendment to the act made January 26 last, to take effect April 1. declares all persons in arms against the United States in the Philippines and all persons aiding or abetting them are in-eligible to hold office. A minimum age limit of 18 years and a maximum of 40 years is fixed for the lower grades. The act provides for the ultimate classification of all positions in the service from laborers to heads of bureaus and offices and the board is empowered to determine the efficiency of present and future Gov-ernment employes. The classification of policemen, firemen and guards at penitentiaries and prisons will be postponed until there are fewer disturbing elements in the islands. This is in line with the opinion of the Military Governor that the present system of selecting these emgent for the Acollan Company

ployes be not departed from. Owing to the urgent need of securing teachers without delay and the large number required gold jewelry.

for these positions, they were excepted from the provisions of the civil service act. It is believed that conditions in the near future will warrant their holpsion. The selection of skilled and unsidled laborers has been left to the heads of the several departments or officers with certain conditions as to certifying the facts on which any removals may be based. While it is believed that the board will in time find it advisable to sceept applications for employment as isborers and to subject applicants to tests of fitness, it is not seen how, under existing conditions this can be done.

The question of ascertaining the fitness of employes now in the service will be considered by the board at the estilest practical date. At the beginning of the civil administration, says the report, it is essential that the service should not be embarrassed by the presence of incompetent employes. The act, while giving preference to natives and soldiers, still safeguards the service by requiring that they shall pass their examinations sufficiently high to have their names certified for appointment. The report says that natives found to have the capacity for positions now held by the Americans should be advanced as rapidly as practicable. The Fillpinos, the report says, have aptitude and a desire for knowledge.

COURTS IN THE PHILIPPINES. New Codes Prepared for Use in the

Islands. MANILA. Feb. 25.—Judge Henry C. Ide, of the Philippine Commission, has just completed the preparation of a new code of court procedure for the islands. A criminal code which is in course of preparation by Commissioner Luke E. Wright, will work in harmony with the civil node's previsions. wright, will work in harmony with the civil code's provisions. There will be no jury trials in any branch of adjudicature, and the practice as to law and equity cases will be similar. The general Span. The new code substitutes new courts for the present courts of first instance and of Juspresent courts of first instance and of Justices of the Peace, consequently vacating present Judges' positions. The following outline of the bill was dictated for the Associated Press today by Judge Ide:

"The judicial system will consist of one or more Justices of the Peace for each or more Justices of the Peace for the Peace for the Peace for the Peace for the Peac

municipality; courts of first instance in each province to be presided over by Judges for a judicial district composed of one or more provinces, and a Supreme Court, to consist of five Judges, including a Chief Justice. There will likewise be such municipal and special courts as may be needed and a notarial system similar to that which prevails in the United States. There is to be an Attor-

United States. There is to be an Attorney-General and an Assistant Attorney-General for the islands, and a prosecuting officer for each province.

"Justices of the Peace will have jurisdiction in civil actions up to the amount of \$100 gold, and in criminal actions where the officeses do not require a penalty exceeding imprisonment for six months or a fine not exceeding \$50.

"The Judges of the Supreme Court have jurisdiction throughout the islands, and

OVERCOME BY GAS.

Five Persons Rescued by a Chicago Woman,

CHICAGO, April 4.—Five persons were overcome by gas in a residence at 340 North State street this evening, and except for a woman's efforts probably would have met death from asphyxiation. The rescuer, Mrs. Mary Kearney, who also was affected by the gas, although slightly, managed to carry the five unconscious women and children into the yard. A physician was summoned, and, after several hours' hard work, he said all would recover, although two were still in a seri-

SERIOUS ILLNESS OF THE FRENCH PREMIER.

M. WALDECK-ROUSSEAU.

PARIS, April 4 .- M. Waldeck-Rousseau passed a very bad night. His physicians on their arrival at 9 o'clock this morning found phiegm beneath the tongue, and decided that an immediate operation was necessary. This was accomplished under chloroform. At noon the patient had improved and was free from fever. The phiegm was accompanied by oedema, which made breathing difficult. There is no doubt that the affection from which the Premier is suffering is more serious than is shown by the medical bulletins, and that the trouble is only temporarily held in check by the operations. This evening's bulletin says:

"The state of the patient is not alarming, and there is every reason to believe that he isbearing without too much suffering the effects of today's painful operation. There is no change in his condition, and his strength is well maintained."

Owing to the Premier's Illness, President Loubet had kindly suggested the unprecedented step of going himself to the Ministry of the interior to preside at a Cabinet council at 6 o'clock this evening, the idea being to enable the Premier to be present without leaving his residence. This suggestion, however, the physicians would not allow to be carried out, and the arrangement was abandoned immediately on the announcement that another operation must be performed at once. The expected Cabinet council at the Elysee had already been

Wood regarding the Platt amendment, General Wood said that the United States Government intended to deal justly by the Cubans, and had no desire to retain possession of the island. He pointed out that the Platt amendment was drawn primarily with the view to protecting a weak nation against out-siders as well as against internal strife, and would not interfere with Cuban independence. He explained that the Washington interpretation of clause 3 of the scheme of relations was that the United States claimed the right to intervene sole-ly for the purpose of preserving the in-dependence of the island, maintaining an adequate force to protect life, property and individual liberty, and completing the obligations imposed by the Treaty of Paris upon the United States. He ex-pressed the opinion that in drawing up treaty many points in the future relations of Cuba with the United States might be explained to meet present ob-

postponed several times.

The delegates retired apparently pleased with the interview. Senor Portuondo said he thought everything would be settled satisfactorily. He was in favor of the ap-pointment of a commission to go to Washington, and expects favorable results from such a step.

ference today with Governor-General League of this city tonight, General Grosvenor spoke at length about the conditions of national affairs and concluded by suggesting an income tax. In speaking

of an income tax, he said:
"I will venture the suggestion that as a matter of equity as between the tax-levying state and the tax-paying people there is no fairer or more equitable tax than that which is levied upon profits and the gains of business or inheritance.

"The framers of the Constitution manifestly intended that the direct tax provided for in that instrument was to be in the nature of a provision by which the National Government, in cases of extremity, might call upon the states to furnish their share of money to relieve the situation, and the advocates of an income tax system at this time are at a loss to devise a system under which and pursuant to the Constitution the asse of an income tax could be made to conform to the Constitution and at the same time do no injustice and not operate as a hardship upon the persons interested, elderation and not for hasty settlement."

TEMPERANCEWOMEN PROTEST

Against Serving Wine at San Francisco Banquet to Mrs. McKinley.

COLUMBUS, O., April 4.-Mrs. Annie W. Clark, of this city, president of the Ohio Woman's Christian Temperance Union, has addressed a formal note to the women of the Ohio Society of California, protesting against the serving of wine at the banquet which the society is to give in honor of the Presidential party at the launching of the battle-ship Ohlo The California society is about evenly divided upon the question. Mrs. Clark's note, which represents the sentiment of 12,000 women, is as follows: "The Ohio Woman's Christian Temper-

ance Union, representing 12,000 women, wish to urge their request that wine shall not be served at the banquet tendered by the Ohio Society of California to Mrs. McKinley and the ladies of the Cabinet. The occasion and guests are representative; the eyes of the entire Nation are upon them; the press and the people will pass judgment.
