GIBLS CHARGE CRIMINAL ASSAULT.—A. M. Christensen and Benjamin Rexdahl had a three hours' hearing before Municipal Judge Cameron yesterday, charged with criminal assault on the complaint of 14-year-old Lucy Bowdre and 16-yearold Annie Strauss. The girls testified that the alleged assault took place in rooms over Christensen's saloon at Tweifth and Glisan streets, on the 6th inst; that they entered the place of their own free will, and that the defendants gave them liquor, until all four were intoxicated. The greater part of the evi-dence is unfit for publication, and the courtroom was cleared of all spectators by Jalior Roberts and Judge Cameron. The case was continued, for argument of counsel. Many of them are shapeless. The lettering of nearly all has been so faded by age that it is a metalt to read. A more serious objection is that the "North" and "South" streets are not distinguished by prefixes, and frequently mail and merchanwrongly delivered, through no fault of letter-carrier or shipper. DERIVATION OF GRAPE-NUTS.

Contains Neither Grapes Nor Nuts.

Thought was applied and experiments conducted for about two years, seeking to perfect a food easy for the intestinal digestion and yet make use of the carbohydrates, albumen and phosphate of potash obtained from the grains. Success came, and luckily the scientific food was found to have a most delicious and delicate sweet, that of the grape sugar to be seen glistening on the granules. That suggested the first part of the now famous name. The last part "Nuts" is purely fanciful, the compound word Grape-Nuts being a coined word, having no ac-tual meaning, a necessary feature to con-form to the rules of the Patent Office on the registration of trade-marks. "Grape-Nuts" is a duly registered trade-mark protecting the most famous food of the day from counterfeiters.

PRESIDENT'S RECEPTION.

Tables a Resolution to Do So by ar Overwhelming Majority-Reasons for the Action.

Organized labor, as such, will have no part in the reception of President Mcwhen he visits Portland next A motion that the Federated Trades Assembly ask the privilege o taking part in the reception was tabled at the federation meeting last night by a decisive vote. The motion was madby Delegate Parker, of the Lumber-Mill Workmen's Union. In making the motion he suggested that the reception was announced as being a non-political one, and expressed as his belief that organized labor should take a prominent part in paying proper respect to the Chief Mag-istrate of the Nation.

Delegate Vermier, of the Cigar-Makers' Union, at once protested. He declared that the men at the head of the reception committee were politicians, and that the more workingmen they could get to join with them, the more they would be able to "swell themselves" about their following. Mr. Vermier's remarks were indorsed by Delegate Frisble, of the Electrical Workers' Union, and a motion to table Mr. Parker's motion prevailed by an overwhelming majority.

A communication was read from the xecutive board of the International Cigar-Makers' Union stating that a number of brands of cigars are on the unfair list, and boycotted by organized labor throughout the United States. The communication also bore the indorse-ment of Samuel Gompers, president of the American Federation of Labor. It was placed on file, and the cigars in question were placed on the Portland

WILL BE NO STRIKE. Street Railway Employes Decide

Against the Proposition. It was learned yesterday from an au-horitative source that the local branch of the Amalgamated Street Rallway Employes of America has concluded not to strike on the lines of the Portland Rallway Company because of the recent ac-tion of the company in discharging cer-tain members of the union. It is said that this conclusion was reached after a report had been presented by a special committee finding that the sole reason for the discharge of the men in question was their membership in the union.

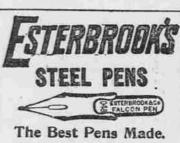

The report, it is said, was adopted, and a resolution passed condemning the Portland Rallway Company. The concensus of belief was, however, that the street railway employes are not strong enough, as an organization, successfully to maintain a strike at this time. The union will be kept up, however, and a constant effort will be made to enlist in its ranks all the street-car employes the city, so that, when trouble again arises, if it ever does, the organization will be strong enough to put up a fight.

CLERKS EARN SALARIES.

of Delinquent Taxpayers to Settle Continues.

The rush of delinquent taxpayers at the County Clerk's office still continues. To use a popular expression, "money is comuse a popular expression, "money is com-ing in in great shape," and the clerks are more than earning their salaries. They are kept on the jump all day, and as the tax rolls, which are heavy, cumbersome books, have to be lifted from one place ple, the boys are thoroughly tired out by the time the closing hour arrives. The Indications are that the County Clerk will succeed in collecting so much of the back taxes that it will be entirely unnecessary to call in the assistance of the brokers, who appear to have so much solicitude for the welfare of the county. All taxes are received without penalties.

A county official, referring to the state ment that at the sale in July to the highest bidder if the brokers do not bid enough the county can bid in the property, re marked that this was sheer nonsense. The county, he said, has already bid in the property, and it would be a useless ac to do so again. He further explained that unless the county made a list of the names of all delinquent taxpayers and the tota amount of back taxes owed by each, it would be impossible for the official reresenting the county to know when suffi-cient was bid by a broker to make it advisable to knock down the property to

is to be sold only once, beginning with the latest year, say 1859. The taxes due by John Jones for this year might be \$5, but Jones might also owe \$100 taxes for

previous years. If the broker bid \$5 for the 1809 tax, and his bid was accepted, all the other deilinquent taxes would be can-celed and the county would be out \$100. Therefore, as stated, the county would have to have an abstract of all of the old taxes due by each delinquent in order to protect its interest, and in a case such as just recited, bid the full amount due for all of the years, as against the bid of the broker for one year. The broker could also bid the full sum, but as a matter of
