

CALLAHAN NOT GUILTY

ACQUITTED OF COMPLICITY IN THE CUDAHY KIDNAPING.

Judge Severely Arraigned the Jury—Callahan Was Re-arrested on Another Count.

OMAHA, Neb., April 28.—James Callahan was declared not guilty, shortly after 1 o'clock this morning of any complicity in the kidnaping of Edward Cudahy.

The Judge evidently expected another verdict and was greatly disappointed. "It is impossible for me to understand," he said, "how 12 intelligent men could have agreed upon such a verdict after listening to the testimony. The defendant could not have chosen more wisely if he had been selecting his own representatives, and the community could not have made a more unwise selection. This jury is disgraced without the complicity of the court." Callahan, however, will stay in prison, and the defendant expressed a desire to thank the jurors in his own behalf. This the court refused to permit. He said the jury did not deserve any thanks.

Two other counts still hang against Callahan. He was at once re-arrested under these. There is doubt, however, whether the state will be able to bring the case to trial.

Chief of Police Donahue announces that the offer for the apprehension of Patrick Crowley will be withdrawn. He says it is one thing to arrest the culprit and another to convict him. The reward of \$5000 offered jointly by the city and Edward Cudahy, however, will stay in force.

As far as could be ascertained there was no time any serious difference to the opinion of Callahan's innocence among the jury. Three were inclined to favor a verdict of guilty, but were soon convinced by their colleagues that a reasonable doubt existed.

General Cowin, leading the prosecution, says that Callahan will probably be released in the morning. The other charges against him are grand larceny and false imprisonment, are virtually synonymous. The state would be obliged to depend upon the same evidence as that which has already been brought in. There is no doubt in any event whether Callahan could be tried on a charge so closely akin to that on which he has been declared innocent. Counsel for the defense will be guided by this view and Callahan's liberty is practically assured.

DETECTIVES WORK ON CLUES.

McCorrick Kidnaping Case Has Several Developments.

WASHINGTON, April 28.—The detectives engaged in working on the Willie McCorrick kidnaping case, which has been their investigations today. Several features have developed which are regarded as possibly significant. In addition to the slip of paper containing the name of Gertrude, the detectives believe they have another article which will emphasize the value of the original clue. A pen which was given to Gertrude by the kidnaper today, a week before the girl was taken under arrest at that time, and which she says was wrapped in the paper when she found it in the horse stable, was traced to a woman by the name of Gertrude, who is now being held in custody. It is reported tonight that another significant incident was said to have been unearthed by the detectives which may have some relation to the case. This was to the effect that late Friday night while the two gypsy girls were at the house of a woman in the city, a man in a trench coat and cap, and a long dispatch to some point in New Jersey. The gypsy waited two hours for a reply and a boy came to the house and handed the dispatch to the detective that it read: "Impossible. You must wait a while." What the question asked in the dispatch was is now worrying the detectives.

SUSPECTED OF SMUGGLING.

Belgian Prince With Too Many Jewels, Shells and Snuff Boxes.

NEW YORK, April 28.—The prince will say tomorrow that Prince Henri de Croix, of Belgium, who arrived in Hoboken on the Holland-American liner Potsdam yesterday (Sunday) morning, was preparing to leave the pier he was accosted by Customs Inspector Andrew McCort and informed that an examination of his person would be necessary. As a result of that examination, the inspector found a magnificent collection of jewels, snuff boxes, a gentleman's ring, two Angora shawls and three snuff boxes. The prince was not detained and is supposed to have gone to Washington. Three trunks of two valises made up the prince's luggage, and these had been examined and passed by Inspector James Martin, and the prince, thinking the worst with the inspectors at an end, was in the act of taking his departure when McCort detained him and escorted him to the prince's cabin on board the Potsdam, where he was searched. It is shown that the prince is merely on a visit to this country and had no intention of smuggling the articles, which will be returned to him.

Dr. Leech Declared Not Guilty.

MUNCIE, Ind., April 28.—The jury today returned a verdict of not guilty in the case of Dr. Garrett Leech, charged with killing Mary Farwig, of Richmond, by a criminal operation at the instigation of John Diehl, of Anderson, who is now in state prison.

FOREIGN OWNERS OBJECT.

Standard Oil Company May Not Get Texas Lands.

KANSAS CITY, Mo., April 28.—Foreign stockholders of the Fort Arthur Land Company have interposed an objection to the sale of 2000 acres of land owned by Arthur, Tex., negotiated last week, according to local officials that company. Negotiations for the sale of the land, which has around it an end, was between that city and Beaumont were practically consummated in Kansas City last week for a sum said to have been \$500,000. The prospective buyer was W. J. McKee, of Corsicana, Tex., said to be the legal representative in Texas of the Standard Oil Company. The property is in the hands of E. L. Martin, Arthur E. Stillwell and J. McD. Trimble, of this city, ex-owners of the Kansas City, Pittsburg & Gulf Railroad, as trustee. These officials assert that they have full power to dispose of the property. Mr. Martin claims the sale of the land was divided, half interest in the land, but some of the foreign stockholders in the company that were about to give away a good thing. MET FOUR BAD DEFEATS

CHINESE REPULSES REPORTED BY VON WALTERSSEE.

After Stubborn Resistance, Europeans Forced Opponents Back—French Troops Not Engaged.

BERLIN, April 28.—The German War Office has received the following advice from Count von Walterssee: "Pekin, April 27.—Three engagements occurred April 27, and a fourth April 24, at the Great Wall between four columns under General Kettle and the Chinese troops under General Liu. The Chinese were repulsed in all three, and in the fourth, stubborn resistance, forced back over the wall, being pursued as far as Kukuan. Our casualties were four officers wounded, three men killed and 32 wounded. Subsequently the following additional dispatch regarding the four engagements was received from Count von Walterssee: "Pekin, April 28.—The following reports only arrived last night owing to the difficulty of communication: "General Kettle's brigade, reinforced, marched in four columns against the Great Wall, Colonel Ledebur commanding the right wing, then those commanded by Colonel Hoffmeister, Colonel Walther and Major Huhlenfels. Ledebur reached the main body of the Chinese at an engagement near Hui Shan Kwan. Hoffmeister drove back the enemy April 23. The same day, Huhlenfels encountered a strong body of the enemy occupying a position on the heights commanding the pass. The enemy fought stubbornly in a particularly strong position, which was only taken after 21 hours fighting. Huhlenfels and his adjutant Richter were slightly wounded, and Lieutenant Dreweils was severely wounded. A standard-bearer and another were killed and six men severely and 10 slightly wounded.

"Wallmerich attacked and dispersed, April 23, a far superior force of the enemy in a strong position east of the breach of Haecho and effected a junction on the battlefield with the main body under Major Meulmann from Teing Ching, where, taking up the pursuit, he overtook the enemy in a strong position to the south. This was captured and the enemy pursued as far as Kukuan. Wallmerich followed them thither. The enemy suffered severely. Eleven old and two new quick-firers were captured. On the side one of the heights command, were severely wounded and nine slightly wounded. The enemy are everywhere in retreat. General Ledebur was arranged with General Ballouin that the French troops shall occupy Kukuan for the present and secure his left flank. Kettle's brigade is marching by short stages to Pao Tien Fu and Huhlenfels' battalion along the mountain to Peking."

REPORT OF KETTELER.

Differs From Others Concerning German-French Expedition.

PEKIN, April 27.—The report of General Kettle, which has reached here from Kukuan, differs from other reports concerning the German-French expedition previously received. General Kettle's report shows that the Chinese troops did not leave the province until they were forced to do so. The entire brigade commanded by General Kettle met the enemy April 23 and inflicted a crushing loss upon them. The report does not give this loss. The Germans had one officer and three soldiers killed and 32 soldiers wounded. The Chinese were forced to leave the province and were fully demoralized. The French authorities stated that the Chinese crossed the border of the province April 27, in which case they must have subsequently returned. Li Hung Chang says it is impossible to believe that General Liu Kwang Ting would have so flagrantly disobeyed his orders, and another Chinese report of the encounter referred to by General Kettle.

LI CALLED ON LEGATIONS.

Complimented American Stand on Indemnity Question.

PEKIN, April 27.—Li Hung Chang paid return calls to the different legations yesterday and complimented the American stand on indemnity question. He is generally thought among the ministry of the powers that Mr. Rockhill's effort in this connection was successful, though most of them admit that they must be guided in the matter by the instructions they receive from the home government.

CINCINNATI, April 28.—Mrs. Richard Crater, the wife of a house painter, on being unable to keep her husband from a saloon on Ludlow avenue, went to the place today with one of the calimines buckets and a whitewash brush. She calimined him from head to foot in the saloon. He returned to the saloon after she accompanied her home and changed his clothes. She followed him again and the next time calimined the saloon-keeper and his bar fixtures and gave notice that she would repeat the performance to any one selling liquor to her husband.

PARKHURST ON THE SOUTH

Declares Negro Suffrage Was a Blunder—North No Longer Hated.

NEW YORK, April 28.—Rev. Charles H. Parkhurst preached today at the Madison Square Presbyterian Church on topics connected with his recent trip South. He also made an incidental reply to Governor Taft's address on the subject of negro suffrage as having denounced those Northerners who took an interest in the educational matters in the South. Dr. Parkhurst said that the party of Northern people who recently made the trip referred to did it not because they had any special interest in the South as a distinct section, but because they were conscious of the unity which makes the North and South members of each other. The conference held at Winston-Salem, N. C., he said, was characterized by the utmost frankness on both sides and yet from first to last no unemotional word was spoken. Referring to Governor Candler's criticisms, Dr. Parkhurst said they would not have been made had the Governor of Georgia, as the United States Senator from North Carolina, come into direct touch with the personnel of the conference, or for five minutes breathed the atmosphere which the conference exhales. He said that he had no objection to the estimation in which the people of the South and those of the North hold the negro. Dr. Parkhurst said: "The Southerner does not like the negro better than the Northern man does, and the two carry themselves toward the negro with just about the same amount of Christian consideration. The Southerner is not more bigoted than has perhaps this advantage, that he does not make so flamboyant a pretense of loving the negro as the Northern man does. The Southern white man dislikes the negro and owns up to it. The white man in the North dislikes the negro and lies about it." He said further: "The indiscriminate act by which the negroes had conferred on them the right to vote was one of those blunders that is not easy to escape from after once it is committed, but which, in the opinion of the speaker, is not a Northern statesmanship sufficiently intelligent to prevent. The counsel that both the Northern and Southern friends of the negro are giving him, is to keep quiet upon the whole suffrage matter, to keep out of politics, not to talk about the Constitution, not to insist upon his rights, but to attend industriously to the work of getting himself well ready for what God and the country and the future may have in store for him." The address closed by the following general reference to present conditions among Southern people: "The South does not altogether love us, but no one there hates us nearly as much as it would be perfectly natural for them to hate us. They are all glad that slavery is done; they are all glad that they are in the Union. They all glory in the fact that they are in the Union, and they lay flowers upon the graves of the Confederate dead. We belong to them and they belong to us, and every deed of kindness and every word of sympathy spoken; every new commercial return and every interchange of hospitality directly arranged will be a step toward the relations which shall make for the enrichment of our common history."

CANDLER DID NOT SAY IT.

That Help of Yankees to Solve Negro Question Was Not Wanted.

ATLANTA, Ga., April 28.—Governor Candler made a statement to the Associated Press representative at Savannah on the negro question, which were printed in many Northern papers. The Governor says there are many exaggerations in the clipping in the papers which have reached him. "The statement," said the Governor, "that I said that 'the people of the South do not want the assistance of the d-d Yankees in this matter,' as published in some papers, is absolutely false."

STOCK FOR NORTHWEST.

Heavy Movement From Southern Ranges is Probable.

DENVER, April 28.—Stockmen are much interested just now in the probable heavy movement of cattle from the South to the ranges of the Northwest, which will commence within a few days. During the past few days a number of big buyers passed through here headed for Texas to buy cattle, and it is expected, now that rains in the Northwest have assured plenty of grass, that trade though late will be heavy. W. P. Anderson, the well-known livestock statistician, passed through here today after a trip covering the whole Northwest. "The tardiness of transactions between the steer pasture men of Texas and the Northern grazer has been largely due to the uncertainties surrounding the prospects of grazing facilities in the Northwest," he said. "The Spring meetings have been held, and now conditions are known. Recent rains in Montana where the grazing was the poorest has practically assured good grazing for the season, and the disposition seems to be to buy cattle. Conditions seem to favor early Springing of the calves, and an abundance of herbage almost in sight makes the demand for stock cattle strong." As to winter losses, Mr. Anderson says that with the exception of some bad Spring storms affecting a small area in Wyoming, and a strip of country taking in Eastern Colorado, Western Nebraska and Kansas and occupying the great range losses have been the lightest known in years.

Rhode Island Institution Will Go Into Liquidation.

WESTERLY, R. I., April 28.—The Mechanics' Savings Bank, of this city, will not open for business tomorrow. Late this afternoon the following notice was posted: "The trustees of the Mechanics' Savings Bank, owing to the doubtful value of the bank's assets, have decided that it is for the best interests of the depositors that the bank go into liquidation, and action has been taken looking to this result. Pending the granting of authority, no money will be received or paid out." This action came as a great surprise to many of the depositors, who were among small depositors. The estimated amount of deposits is something less than \$100,000, the securities on their face

IGNORED BY CLARK FORCES

Restraining Order in Right of Way Dispute With Oregon Short Line.

SALT LAKE, April 28.—According to a Herald special from Uvada, Utah, Colonel Maxson is in charge of the Clark forces at the disputed right of way near Uvada, was today served with notice by the representatives of the Oregon Short Line in injunction being issued by the United States Court at Carson City prohibiting the San Pedro Company from interfering with the Short Line in its construction of a railroad between Uvada, Clover Valley Junction and Pioche. Colonel Maxson refused to accept service on the ground that the order lacked official identity, and at once dispatched word to his engineers at Pioche to the order. The Clark forces, however, are preparing to yield gracefully to their rivals as soon as the United States Marshal serves official notice, but until that time they will hold every inch of ground they now possess, even at the risk of a fight. In this decision they are upheld by the officials of the Clark Inter-Oceanic, Los Angeles, who have telegraphed them to make no further concessions.

Assistant Chief Engineer Resigns.

TOPEKA, Kas., April 28.—C. D. Purdy, assistant chief engineer of the Atchison, Topeka & Santa Fe railroad, has resigned to accept the position of chief engineer of the St. Louis & San Francisco railroad, with headquarters at St. Louis.

SECESSION IMPOSSIBLE.

Uniform Rank of K. of P. Must Remain in Supreme Lodge.

INDIANAPOLIS, April 28.—Commander-in-Chief James H. Carnahan of the Uniform Rank, Knights of Pythias, said tonight that a secession from the supreme lodge by the Uniform Rank is utterly impossible. He stated that the rumor has its origin in a report of a district meeting held in Cleveland, O., last February.

Early in May, General Carnahan will go on a tour of inspection of the various Uniform Ranks of the country and late in the year will arrive in San Francisco to make arrangements with a number of prominent officers of the national convention and encampment of the Uniform Rank, the latter numbering nearly 60,000 men.

SUGAR BEET INDUSTRY.

Government Official Says Many New Factories Are Contemplated.

WASHINGTON, April 28.—C. F. Saylor, of Iowa, the special agent in charge of the beet sugar investigation of the Department of Agriculture, is in Washington, and has submitted his report to Secretary Wilson. He says this year shows an actual tendency toward the institution of new beet sugar enterprises. Next Autumn, he says, Michigan will have three new factories, and Ohio, Indiana, New York, Colorado, Utah, South and North Dakota and Illinois will install plants making 13 throughout the United States now in contemplation. A conservative estimate, he says, is that there will be 22 beet sugar factories in operation throughout the United States by the end of next Autumn. Everything indicates that the industry is thoroughly established throughout the country. Mr. Saylor says that the sugar trust. The sections of the country that seem most adaptable to the industry are where conditions call for new resources, as in Michigan, where the extraction of the sugar is a new industry in the last three years, largely due to waning of the lumbering industry of that region. There will be 14 factories in operation in California, the leading state in production with 15 factories, including the largest in the world. The immense amount of pulp and paper left after the extraction of the sugar appeals especially to farmers and industries that grow out of farm products.

ENTOMBED MINERS RESCUED

Others Supposed to Be Lifeless.

AURORA, Mo., April 28.—Light, life and air broke in on the five entombed miners at 2 A. M. Two were rescued alive, one was found dead, and the other two are supposed to be lifeless. Grant Shand was mangled by falling rocks and earth and died instantly. "Pain taps on the iron rails announced that two others were still alive. They are William Shane and George Peaster, both large stone masons had Peaster pinned by the foot, in which position he had remained for a day. He was so firmly wedged that it seems that a supporting timber would have to be moved to let him up. This would precipitate the roof on all and could not be considered. Enough of the timber was chipped off, however, to save him. Peaster was nearly famished when he was reached by the workers. When taken out it was discovered that he had a crushed leg and foot but he will probably recover.
