The Pianola.
 The Pianola occupies a unique position. It has undertaken that which past ages have pronounced impossible, and has won its strongest support from principles revolutionary to accepted standards, and has won its greatest upholders from those who were the greatest upholders of the old theories. It makes piano-playing possible for those who hitherto do not know one note from another; yet it has been accorded a popularity among the musically cultured which is unprecedented in the history of music. Come and hear it for yourself!

Dunne, Collector of Internal Revenue, Special Deputy Mullay, of Portland, and Deputy Ross, of the Seattle office, today seized in various hotels, restaurants and saloons in this city upward of 350 cases of imported champagnes and Rhine wines for alleged violations of the internal revenue laws. The allegations made by them is that the wine was found in the various establishments, without having the revenue stamps required under the law.

Praise for the Germans.
 BERLIN, April 29.—The latest Chinese special to arrive here show that the German troops behaved with the greatest gallantry during the engagements with the forces under General Liu, storming the stronghold of the enemy. The Chinese artillery, although firing splendid guns made in 1884 at the arsenal in Han Yang, aimed badly. The Germans demolished the fortifications near the gates of the Great Wall. They suffered intensely from the heat.

LONG TRIP BEGUN

The President and His Party Start on Their Journey.

LEFT WASHINGTON ON TIME

First Day Took Them Through the Historic Section of Virginia—Today They Will Cross Tennessee.

BRISTOL, Tenn., April 29.—The first day of the President's long tour to the Pacific Coast lay through a historic section in Virginia, across the valleys of the Rapidan and James, in sight of the homes of Madison and Jefferson, up past the necks of Otter, so dear to the heart of the Virginian, into the picturesque Blue Ridge Mountains. The Tennessee line was reached at 10:55 tonight with the arrival of the train at Bristol. The President party received a flattering ovation from the time the train left Washington. Large crowds assembled at every station, the countryside and crossroads each had its little group of watchers straining their eyes to catch a glimpse of the Chief Magistrate as the train whisked by.

If today's reception through Virginia is any indication of what is to occur through the rest of the trip, the President's tour across the continent will be a triumphal one. Some of the people in their eagerness to grasp the President's hand clamored up the train, and some, not so well behaved, failed to grasp the hand extended to them. McKinley, sitting at the window, threw a serviette, an smiling and waving her handkerchief in response to the greetings of the multitudes, created no less enthusiasm than the President.

Every precaution was taken by railroad officials today to guard against the possibility of a mishap of any character. The track, switches and bridges were all carefully inspected by the railroad men before the train reached a given station; everything on the track, passenger as well as freight, was sidetracked and over the Norfolk and Western Railroad today a pilot train in the rear of the President's special. All the members of the party enjoyed the first day of their trip, and the President expressed his gratification over the reception he had received.

THE START FROM WASHINGTON.

WASHINGTON, April 29.—The train that is to carry President and Mrs. McKinley and their party on their long excursion across the continent and back made its start today at 10:30 A. M. on the schedule time, over the Southern Road. Before 10 o'clock many people had congregated about the station, and when the President and Mrs. McKinley arrived, about 1000 people thronged and many persons were congregated on the outside. There was a cheer as the President's immediate party drove up to the station, and a great cheering and waving of the national flag as the train moved out. The President took his position on the rear platform of the Olympia, beside Secretary Hitchcock, and Mrs. McKinley sat in the drawing-room of the private coach which she and the President are to occupy throughout the trip. The train moved out and the President and Mrs. McKinley leaped upon the arm of Dr. Risley, and the other members of the party responded to the greetings which met them at every step. They were accompanied to the train by numerous friends and many persons distinguished in the affairs of the Nation. The train started upon its 10,000-mile journey. The crowd cheered enthusiastically and waved a good-bye. The demonstration was continued until the train left the city, and the crowd extending well to the city limits.

At Charlottesville.

CHARLOTTESVILLE, Va., April 29.—The President's train, with its flag on the pilot of the engine denoting that the Chief Magistrate of the Nation was on board, arrived at Charlottesville on schedule time. The train left Alexandria for Charlottesville. The President and Mrs. McKinley were met by a large crowd of people. The train arrived at Charlottesville at 10:30 A. M. Effect of Mrs. Nation's Visit.

KANSAS CITY, Mo., April 29.—Mrs. Nation's visit to Kansas City two weeks ago and her alleged harsh treatment at the hands of the police have borne fruit. A meeting today of 200 representatives of local churches and temperance societies decided to petition Governor DeCadey to remove Police Commissioners Ward and Gregory unless they shall agree to enforce the Sunday closing law against saloons. A committee was appointed to demand of the commissioners that the saloons be closed and unless they act promptly the church people propose to send a petition signed by at least 10,000 people demanding of the state legislator that he remove the local executive from office.

At the beginning of the trial counsel for the defendant raised a number of technical objections, which were overruled. The hearing of testimony was then begun.

TOO EARLY IN THE GAME.

Hill Is Not Going to Make a Political Trip and Is Not a Candidate.

ALBANY, N. Y., April 29.—Ex-Governor David B. Hill today gave out the following statement: "My attention has been called to the statement that I am going to make a political trip through the West and South either this year or next. I desire to state that I do not contemplate any such trip. When recently advised that an intention was being prepared in the State of Washington and elsewhere requesting me to make such a visit, I immediately replied that I was unable to do so, and that the abandonment of the proposed invitation. "I will state further that I am not a candidate for the Democratic gubernatorial nomination in 1904. I am neither asking for nomination nor expecting it. I regard all suggestions of candidates at this time as premature and inadvisable. No one can tell what can or ought to be done in 1904."

In Favor of Democrat.

TOPEKA, Kan., April 29.—Judge Hazen, in the District Court, today decided the matter of the election in the Parker-Hughes majority contest case in favor of Parker, the Democratic candidate. In face of the returns at the recent city election, Parker received a majority of 11,000 votes, while Hughes received 10,000. The court found an error in the tally sheets which gave Hughes a majority of nine, and it gave him a certificate of election. The attorneys for Hughes have asked for a new trial.

WRECKED THREE-MASTED SHIP DISCOVERED OFF QUEEN CHARLOTTE ISLANDS.

VANCOUVER, B. C., April 29.—The steamer Tees, arriving tonight from the coast of Queen Charlotte Islands, identity of the vessel is at present unknown. The bodies of several sailors are said to have been found near by. The story of the wreck of the Tees, was exceedingly vague. The Indians either could not read the name of the vessel, or were not sufficiently alert to note it, for they could give no clue to the ship's identity. The masts of the craft were broken off short, and she was generally demolished. The theory of the wreck of the Tees is probably, is that the wreck may possibly be the Andrada, which took a pilot off the mouth of the Columbia last December, and has not been heard of since. It is suggested that she may have drifted north to the present location of the wreck. As this is several hundred miles from the spot where the Andrada ran aground, the theory finds few believers.

THE RECORD BROKEN.

Largest Transactions in the History of the New York Stock Exchange.

NEW YORK, April 29.—Transactions on the New York Stock Exchange today were by far the largest in the history of that institution, the total being estimated at 2,700,000 shares. Transactions were so large and the market so active that it was impossible for the reporters to secure a record of all the sales and it is probable that even the large total mentioned is somewhat in excess of the actual. The largest transactions were in United States Steel, 432,500 shares of which changed hands at from 94 1/2 to 95, closing at 94. One hundred and seventy thousand shares of the same stock of United States Steel preferred were sold at prices ranging from 97 1/2 to 98. The activity in Union Pacific throughout the day was very great, the total sales in that stock being 325,000 shares at prices ranging from 104 1/2 to 110. The stock closed at 115 1/2, an advance of 11 points as compared with last Friday's close.

West Caused the Investigation.

WASHINGTON, April 29.—Copies of Manila papers a month old have been received at the War Department, containing stories of the discoveries of irregularities in the matter of commissary stores. It appears from these accounts that Major West, who was sent to Manila to be depot commissary, would not accept charge of the depot until the stores either were shown upon invoice or accounted for. This led to an investigation of the stores of the enlisted men and civilians employed about the commissary storehouse were arrested. The Manila police made the rounds of the city, and found quite a large amount of commissary supplies in different parts. Much of this could be accounted for by the sale of savings on rations, but this saving, it appeared, could not be disposed of to general buyers, for an order in force in the Philippines directed the return to the department of stores of savings, which will be paid for at the rate of cost to the Government. This would be a much less profit than could be obtained by dealing with merchants and contractors. The papers received here simply enlarge upon the cable reports.

AMNESTY PROCLAMATION.

Will Be Extended to July 1—Captain McDonald Wounded.

WASHINGTON, April 29.—It is said at the War Department that the amnesty granted by General MacArthur in a proclamation issued to the Philippines, which expired last Autumn, and was extended by the Philippine Commission to May 1, will be extended again by the Tatt Commission to about July 1, when it is expected that the civil government of the Philippines will be instituted. Captain J. B. McDonald, Third Cavalry, was wounded during a recent engagement with the insurgents in Northern Luzon, but it is understood that his injuries are not serious. The Postoffice Department issued a general order today announcing that hereafter all mail for the Philippine Islands, whether military, civil or official, will be forwarded to San Francisco for despatch by means of steamers sailing from that port.

Italy Sending Us Her Criminals.

NEW YORK, April 29.—The Herald says: "Italy is making of the United States a dumping ground for her criminals and paupers. This fact has been forcibly called to the attention of the local authorities by the arrival in this port of three Italian brigands, whose depredations made them a scourge to the provinces in which they were reared. Despairing of being relieved in any other manner, the merchants upon whom they had preyed made up a liberal purse, with which the three were sent to America, arriving here with money enough in their pockets to enable them to land untroubled. These three outlaws who encountered no obstacles to bar them from

DOZEN BUILDINGS BURNED.

Scores of Families Rendered Homeless at Pittsburg.

PITTSBURG, April 29.—Fire at the corner of Mason and Seventeenth streets, South Side, resulted in a property loss estimated at \$25,000, consumed over a dozen buildings and rendered a score of families homeless. The damage was discovered in the basement of the four-story department store of George E. Lorsch & Brother, and in a very short time the entire building was burning furiously. It was in flames within 30 minutes. A panic ensued among the customers and employes, which resulted in what started at first a report that eight persons had perished. This was happily found to be untrue after the fire had been controlled.

Burning Mine Will Be Flooded.

LA TROBE, Pa., April 29.—The fire at the Dorothy coal and coke plant of the American Coal Company, which started last night, is still burning. Superintendent Rogers and William Gill, who were overcome by smoke, have recovered and no fatalities will result from the explosion. It is known now that all the miners escaped. A pipe line has been laid into the mouth of the pit and the mine will be flooded. The loss to the plant will reach about \$150,000.

Fire in a Chicago Hotel.

CHICAGO, April 30.—Shortly before 1 o'clock this morning, fire broke out in the Revere House, a six-story hotel building, situated at the corner of Michigan and North Clark streets. The fire was got under control in 20 minutes. Loss, \$50,000.

Car Stables Destroyed.

NEW YORK, April 30.—Fire consumed the car stables and 30 cars of the Brooklyn Rapid Transit Company at Flushing and Nostrand avenues, Brooklyn, early this morning. Loss, \$20,000.

Brice, of New York, being the lowest bidder. The contract price is \$70,000. The successful firm will be required to construct, lay and put in operation the entire cable system in 90 days from the date of the award.
