Are YOU Bucket Blind?

"Bucket Blind" is a condition peculiar to women who persist in doing their housework in the hardest kind of way. The habit of drudgery, of using the scrubbing brush and the scrub bucket, blinds them to the possibilities of easier and more modern methods-to the comfort that comes with the use of GOLD DUST Washing Powder. Women who use GOLD

> DUST see their homes grow brighter and their work grow lighter, for it cleans everything better, quicker, easier and cheaper than soap or any other cleanser. What is the use of going it blind and being a drudge when you can get GOLD DUST ? Honsework is hard work without it. For greatest economy buy the large package.
