Situation Preceding the Departure of the French Amhassador. CONSTANTINOPLE, Aug. 26 (Monday)

-The situation immediately preceding the departure of the French Ambassador, M. onstans, was:

The Turkish Government was showing disposition to regard the French dein ands as settled by the irade relating to the quays and the Albanian land seizures. The French Embassy, in order to prevent misunderstanding, wrote to Tewfik Pasha, the Minister of Foreign Affairs, yesterday, that France, in addition, expected the settlement of two other claims included in the demand made August 11, and that unless they were conceded before noon, M. Constans would leave and Munir Bey, the Turkish Ambassador to France, would receive his passports. Instead of acceding the Turkish Government asked for 24 hours' delay, and made alternative propositions, which were so unacceptable that M. Con-stans did not reply to them.

CONSTANTINOPLE, Aug. 27 .- During the absence from his post, M. Constans, the French Ambassador to Turkey, who started yesterday for Paris, M. Bapst, Councilior of the Embassy, will act as Charge d'Affaires,

TURKEY'S DOWNFALL PREDICTED. Action of France May Lead to Disraption of Ottoman Government. WASHINGTON, Aug. 27 .- It is feared

in official circles that the withdrawal of the French Ambassador from Constanti. The Frence Amoustador from Constants nople marks the dissolution of the concert of European powers under which the in-tegrity of Turkey was guaranteed. By the freaty of Berlin all the great powers of Europe subscribed to an agreement to sefering from any act that would then

to refrain from any act that would tend to the destruction of the Ottoman Empire. This action was taken to forestall what were conceived to be the designs of Russia to seize Turkish territory, and Russia herself was led to subscribe to the agreement by force of circumstances. Although several times strained, notably by such events as the last war between Turkey and Greece, this pact has so far endured without amendment, but it is apprehended now that if the action of France is carried out to the extreme indicated in the dispatches, each of the other signatory powers will feel obliged in selfotection to disregard the agreement

and press upon Turkey the vast financial and other claims that have accumulated in the past quarter of a century, with a result of disrupting the present Turkish
