WON BY HEAVY BATTING

PORTLAND PLAYERS SHOWERED DIAMOND WITH BASE HITS.

Spokane Touched Up Glendon, But Scored Only Four Runs to Opponent's Eleven.

Heavy batting scored eleven runs for Portland, while the same for Spokane brought only four men over the plate. The game was interesting for the spec but not for the pitchers, win kept guessing throughout the whole e. Two-baggers rained over the diamond, where singles were tapped out to every safe spot on the field. Thielman was touched up for three hits in the brief time that he did act in the box and this, with the fact that he par three men to first in the third, Captain Risley to retire him to a safer region in the field. Pitcher Adams came to the scratch on the slab, and keyed things down for one infling. After that the base hitting proclivities of the Port-for \$5000 a side, best three in five, the lands came to the front again. Spokane retaliated on Glendon, but clever fielding and fast work at critical times held the visitors down to four small runs.

Tinker was put out of the game in the third inning. In the second he sent a hot grounder to Fay, which was well fielded, although the throw was a little be prevented from meeting Boralma and high. Tink-er ran like a deer to second in spite of his sprain, and a runner was substituted for him at that base. He was then re-tired from the game, and Weed came in to third from the field. Salisbury went

n to cover the right garden. For a time it looked as if Spokan would be shut out. In the fourth Hurlburt started out with a single, and Rickey Adams, the next man up, raised the ball for three bases over Brown's head. It was the finest hit of the game, and the

crowd wildly cheered him.

Four straight hits in the seventh scored two runs for Spokane, the other men flying out. In the eighth hits by Fay and Risley scored Thielman, who ook first on an error. Fay, the former third baseman of the Portland Fontellas, held down that base

for Spokane in good stye. He has the speed for a good fielder, and has also developed into a good sticker. The features of the game were the two double plays, by Marshall, who in each cuse cut off base hits, touched secbase, and threw the runners out at

A telegram from Albert J. Hall has been received aboard the steamship for Miss Caroline Hall, saying the sender would come to New York. It was dated "Boston Highlands."

It has been learned that Miss Hall had resided abroad about 10 years, and met her companion, Guissepina Poriana, in Milan, about three years ago. According to the story, Miss Hall decided that men get long better in the world than women, and so adopted male costume. She traveled thus with the other for two years, and as she was an artist, went about the art centers painting and working at her pro-fession. Being a good rifle shot, Miss Hall is said to have entered several tournaments and won prizes

NEW YORK HOP CROP.

Shortage in the Empire State Has Been Exaggerated.

NEW YORK, Oct. 1 .- Hugh F. Fox, who has just returned from a tour of the hopgrowing section up the state, gave to a reporter of the Journal of Commerce his views on the situation there. "The shortage in New York State," he said, 'has been very greatly exaggerated. There is no doubt that a very considerable decrease exists in some of the large growths in Otsego, Oneida and Madisor Counties. The shortage is, however, con-

fined to these counties, and a good many of the smaller growers in these districts have raised more hops than last year, while there is some new acreage which has come into bearing for the first time. The net shortage in New York State will not exceed 3000 bales, in my judgment. "Very few hops have been baled as et," Mr. Fox added, "partly because of the continued dry weather, but principally

for the reason that nearly all growers are now raising silo corn for Winter fod der, and are busy getting it in. The bulk of the crop will not be baled for some weeks yet."

ROOSEVELT AND MITCHELL.

The President Urged to Visit Oregon Next Summer.

WASHIGTON, Oct. 1 .- During his con ference with the President last night Sen-ator Mitchell urged Mr. Roosevelt to visit Oregon next Summer, according to his announced intention. The President lating to the Pacific Coast, and while very familiar with conditions in that section expressed a desire to broaden his knowledge by observation. The conference between Senator Mitchell and the President was largely personal, however. In leav ing the Senator said: "I am glad to see a Western President at last."

Dinner to Chileans.

NEW YORK, Oct 1 .- The visiting Chileans are being entertained at the New York Club by George L. Duval. Among the guests at the club are Senor Infante, Messrs. Matte and Blest, delegates to the Pan-American Congress; Command-ant E. Gonzales, Captain Marlin, Captain Garcia Huidoro, Paymaster Cabeason, Dr. Sepulveda, Lieutenants Borcha, Du-ble and Porez, of the training ship General Baquedano.

Mr. Duvall at a dinner recently proposed the health of his guests, calling them "the Yankees of South America." He credited their standing among the nations to their energy and push, and added that they owed less to foreign assistance than any South American people. The General Baquedano, he said, was a fair specimen of their excellent navy. REIFF'S LICENSE WITHDRAWN.

Whitney Will Withdraw From the English Turf and Croker May Also NEWMARKET, Oct. 1.-The stewards of the Jockey Club today voted to withdraw the license of Lester Reiff, the American jockey, and to warn him off Newmarket Heath. This latter penalty is generally only imposed upon the weich

The action of the Jockey Club followed a hearing of testimony on the accusation of Reiff of suspicious riding of William C. Whitney's De Lacey Friday last, when that horse was second to Richard Croker's Minnie Dee, ridden by J. Reiff, in the race for the New Barnes Plate, Hug gins, Mr. Whitney's trainer, told the stewards that he had not seen anything wrong and that, having trained the horse, he had watched him closely throughout the race, especially finish. Wishard, Mr. Croker's gave similar testimony. Some of the English jockeys and others gave it as their belief that Reiff pulled the horse, Following the anonuncement that Mr Whitney will withdraw from the Eng lish turf, it is said here today that Mr Croker will leave English racing alon after the present season. Wishard, how ever, says he has not received any in on the subject. It is under stood that Corrigan's license will not b renewed next year and under the rule reently adopted no more trainers will be licensed.

Why Whitney Withdraws. NEW YORK, Oct. 1 .- W. C. Whitney n a letter which appears in the Tribun

today, says: "The dominant reason for withdrawing my stable from England is the success of the efforts of late years to raise the standard of racing in this country. Certain gentlemen have devoted most of their time to this work, and I considered it my duty, as one who derives great sat-isfaction from horses, to second their efforts in every way.

"The sending of our best horses abroad depreciates the quality of the sport at home, and diverts needed revenue which should be contributed to enrich our own stakes and encourage breeding here. make an exception in my own mind of th case in which one has an eligible horse win one of the classic races like the Derby, the Oaks or the St. Leger. Winning one of these races reflects cerdit on our breeding, and is properly a matter of pride to Americans. It is not at all unlikely that I may be found trying for one of these again."

Boy Accidentally Shot Bimself,

William Pelky, a 19-year-old boy, ac-cidentally shot himself with a revolver yesterday at Molalla, inflicting a painful wound. He was toying with the weapon and trying to turn the chamber. which contained two empty and three loaded cartridges, when he pulled the trigger too hard and the revolver was discharged, the bullet striking him in the calf of the left leg, and coming out on the opposite side. The bullet was mashed as flat as a 10-cent plece, and was cut out last night. The injured boy brought to this city today and take the Good Samaritan Hospital in Port-Many Salmon Eggs Taken

William W. Smith, water balliff for the Willamette and Clackamas Rivers, was in the city today, and said that 240,000 salmon eggs were taken at the Government hatchery on the Clackamas Sunday night. The Clackamas swarms with salmon, there being more in the river now than for 10 years past. Until a short time ago fishermen were catching salmon just below the rack, and when this was discovered the practice was promptly stopped, as the law prohibits the catching of salmon within two miles of the rack. The offenders were fishing purely for pastime, and were in the habit of anchoring their boats below the rack, and after catching the salmon killing them, which they would throw the fish

WEEKLY CROP BULLETIN.

No Damage From Heavy Rains and Frosts.

The past week in Oregon has been un-

usually wet. The night temperatures were seasonable, but during the daytime the excess in cloudiness caused the temperatures to average about 10 degrees below normal. The maximum temperatures during the week in Western Oregon ranged between 53 and 68 degrees, and the mini-mum between 44 and 52 degrees. In Eastern Oregon the maximum temperatures ranged between 50 and 68 degrees, and the minimum between 32 and 50 degrees. Sharp frosts occurred in Eastern Oregon on several mornings, and an occasional light frost was reported from the west-ern portion of the state. These frosts did no damage of consequence, as the staple crops of the state had been se-cured before they occurred. The rains have been unusually protracted, and they have done some damage to prunes by bursting them and also delayed the work of harvesting the crop, but the benefits derived from the rains have been much greater than the losses. The rivers have all risen to a good boating stage, the ground is now thoroughly saturated and fit for Fall plowing, and a new growth of grass has started in the pastures and or grass and started in the pastifies and ranges. The following is the total rainfall reported at Weather Bureau stations during the week: Astoria, 1.94 inches; Portland, 1.53 inches; Roseburg, 0.84 of an inch; Baker City, 0.83 of an inch. The ground is in excellent condition for Fall powing and sealing the province of sealing the province of sealing the pastific and the pastif Fall plowing and seeding, and this work is now well under way, although it has been more or less interrupted by show-

The harvest of sugar beets is general. The crop is good and the quality is above the average. The sugar factory has started, and is now running night and

a great many apples to fall in the Coast counties, and the crop in that section of the state will be light. No More Crop Bulletins.

High winds during the week have caused

Section Director Edward A. Beals, in this week's circular says: As the stopic crops are now nearly all se-cured, no more weekly crop bulletins will be saued this season. The S-ction Director here-by tenders his thanks to all correspondents for the prompt and efficient services they have rendered. Without these services, the bulletins could not have been issued, and that they have proved of value is attested by the fact of their wide circulation and the constantly in-creasing demand for them from all parts of the United States.

PROSPEROUS GRAND RONDE

Sugar Beet Crop Twice as Large as

Last Year.

J. M. Church, a banker of La Grande, who is at the Portland, thinks his por-tion of Eastern Oregon is keeping well up to the front in the general prosperity of the state. The wheat crop of the Grand Ronde Valley, he says, is a good one this year, and now a fine crop of beets is being harvested. "We have 18,-000 tons this year, against 9000 tons last season," he said, "and the sugar beet industry is an established success. We have found out how to grow them at a profit, and the farmers now know just what kind of soil it takes to produce them best. Light sandy soil in the valley bottoms is the most productive of beets and soil of this class will not 7 per cent on a valuation of \$300 per acre. Many families have recently bear ley, and every member can make hims—
useful in the cultivation of beets. The seed we get from Germany, but the rest of the \$30 per acre expended in raising the beets is for labor. Thus the industry is the means of scattering a large amount of money among the people, to the general prosperity of the community."

Mr. Church thinks the Oregon Legislature made a mistake in refusing the bointy on Oregon-grown beets, as the bointy of Oregon-grown beets, as the oregon-grown beets,

farmers, because the tracts large. "Beet raising cannot be conducted successfully on 300 or 400-acre farms, he said, "but in small tracts the producer who understands his business can make money."

May Change Campground.

The M. A. Ross Post, G. A. R., Pleas-ant Home, will at its next meeting decide where the next encampment will be held Several places are offered, and induce ments are made to get the encampment for C. M. Lake's place, near Troutdale and Gresham. There is also an effort to hold it on the old campground where the encampments have been held for the past five years. If changed to the Lake farm it will be much nearer Portland Members of the Portland G. A. R. posts hope the Pleasant Home post will see way clear to come nearer to Portland they can participate. They say that so they can participate if the encampment be held at Grasham or Fairview they will join, but connet which think of going to Pleasant Home, which is 20 miles from Portland. The future success of the encampments probably depends on the place they will be held

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, dis-courages and lessens ambition; beauty, vigos and cheerfulness soon disappear when the kid-neys are out of order

Kidney trouble has become so prevalent that it is not und common for a child to be born afflicted with weak kidneys. If the child urinates too often, if the

urine scalds the flesh or if, when the child reaches an age when it should be able to centrol the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail

free, also pamphlet tell- Home of Swatup-Root. ing all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

If a Woman

wants to put out a fire she doesn't hear on oil and wood. She throws on water knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sexshe should not add fuel to the fire already burning her life away. She should not take worthless drugs and potions composed of harmful narcotics and opiates. They do not check the disease-they do not cure it-they simply add fuel to the fire. Bradfield's Female

disease and cures the cause. It does not drug the pain, it eradicates it. It stops falling of the womb, leucorrhea, inflammation and periodical suffering, irregular, scarity or painful menatruation; and by doing all this drives away the hundred and one sches and and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others \$1.00 per hottle at any drug store.
