# HELD FOR TRAIN HOLD-UP

TWO SUSPICIOUS CHARACTERS IN JAIL AT ROSEBURG.

Trainman Believes One of the Sus pects is the Man Who Acted as Lender.

EUGENE, Or., Oct. 20.-Two men sus-pected of being connected with the hold-up of the Southern Pacific train, between Cottage Grove and Eugene, a week ago, are in the city jull. They taily with the description of the principals in the rob-bory. The peculiar large square club re-vealed below the mask and the husky value of the robber who did most of the work in the holden in correspondence of the voice of the robber who did most of the work in the hold-up, are conspicutions char-acteristics of one of the men under ar-rest, and it is said that one of the train-men who faced the robber in the hold-up is preity well satisfied that City Marshal Dilard, who made the arrest, has the

right man in custody. Both men are strangers here. They say they same from The Dalles to Drain. Douglas County, where they were em-ployed three days, arriving here Monday night on a wood train. They soon began to frequent the saloons about town, where iquor was served to them freely at the equest of the officer, who expected to be at the able to secure some direct evidence while the men were under the influence of drink. They were at length arrested and lodged in jail, and gave their names as James Peltmore and Jack Wilson. Upon inquiry at Drain it was found that

two men answering the description of the prisoners worked about a Drain hotel from Thursday until Sunday evening, but did not give their names to apyone at that place, other than one was overheard to address the other as Tom, and they were very quiet in their demeanor. The night clerk at the hotel announced that one of them said something about being at The Dalles and Heppner. They are known to have gone south from Drain, and it is almost certain they are the same men now under arrest and in jail at this place nding an examination. From evidence his possession which Marshal Diliard refuses to give out, considerable assur-ance is felt that he has the right men.

#### Robbers Blew Up a Saloon.

SUMPTER, Or., Oct. 30 .- The rear end of the Gem saloon was wrecked by an explosion last night, with the intention of robbing the place. The pools at the late races were being paid off, and there was a large amount of money on the gambling tables. Some one inside turned out the lights. The men who had charge of the remained at their posts, and the attempt at robbery was thus frustrated.

### MANY STUDENTS ARE COMING IN. Attendance at State University

Promises to Break All Records. UNIVERSITY OF OREGON, EUGENE. Oct. 20.-The number of students at the University of Oregon is increasing rapidly, and will, from all indications, go be-yond that of last year. As the number last year showed an unusually large increase, the membership for the present year will be seen to be very satisfactory. The many opportunities for work this Summer and the high wages offered, together with the remarkably favorable weather, have kept back until late many students who have to work their way through the university. Those students are now coming in more rapidly than last

year at this time. The best indications that the university has seen for some years, as far as stu-dents are concerned, are the following: First, the university is getting more students from Portland than ever before. Students from the largest city of the state, instead of going to Berkeley or Starter Stanford, are, in increasing numbers, turning to the university of their own state. This tendency has its origin, partly at any rate, in the growing conviction that the equipment of the University of Oregon, the character of its teachers and work done, warrant the attention of the best students. Partly, it is the result of the conviction that the student's chances for solid work are very much better in a smaller institution where the crowd of students is not so great as to seriously limit the opportunities for inhoratory work and individual work in recitations nd, the university is getting a betclass of students than ever before. They are better prepared, have had more consecutive training and are capable of a higher grade of work than ever before. The bearing of this upon the gen-eral scholarship standard of the university is evhicat. Third, the university is securing a more student body than for some years. That is, it is getting students who come for a consecutive course of training, for regular, continued, systematic work, without which the best grade of scholarship is impossible. This has been and is now one definite aim of the university, and to secure it the university is very willing to ancrifice for a season mer

time, but that people must not expect. from these few findings, that they will the making ter mining, that the bushel a few years hence. He plans to go on with the experiment in artificial propa-gation next Summer, and in the mean-while is awaiting the results of similar experiments at Keyport, Wash. The State of Washington has appropriated about of Washington has appropriated about \$10,000 for two years' experimentation in this line, and has a large plant at Key-port with extensive buildings and a force of four or five men.

that others will be found from time to

### TO PUSH SALEM'S INTERESTS. Greater Commercial Club Organized

-Officers Elected. SALLEM, Oct. 30.—The "Greater Salem Commercial Club" was organized this evening at a mass meeting of citizens held in the City Hall. The purpose of the club is to represent the commercial inter-ests of the city, encourage immigration and promote industrial development. Of-ficers were elected as follows; President, Henry B. Thleisen; vicepresident, E. A. Pierce; secretary, N. J. Judah; treas-urer, John H. Albert; executive commit-tee, President Thielsen, W. C. Hawley, Walter Lyon, Paul Sroat and J. L. Stock.

The executive committee will report a

constitution and by-laws at a meeting to be held next Monday evening. The meeting this evening was a very harmonious one, and great enthusiasm was manifested. Addresses were made by the newly-elected officers and by Tilmon Ford, Merriman, H. D. Patton, E. Hofer, R. J. Hendricks and others.

His Wife and Money Both Vanish. BAKER CITY, Oct. 30 .- Mrs. Oscar Smith, the white wife of Oscar Smith, the colored porter of a local hotel, has left for parts unknown, and with her has vanished \$500 in cash, which she drew from the bank just before she left the city. She left last Friday evening on the East-bound passenger train. When Smith became satisfied that his wife had really left him, he sold his household goods and took the next train East, determined to overtake her and recover his money.

Sale of Three Prune Crops FOREST GROVE, Oct. 30.-F. Park, Ira Purdin and Adolph Anderson sold their prune crops-free on board-for 3% cents per pound for 40s to 45s and \$% cents per pound for 45s to 50s.

BOHEMIA MINING DISTRICT

New Railway for This Camp-Dividends Paid by Noted Company.

The rallway that will be built from Cottage Grove to the Bohemia district, about 40 miles from that point, will open up a mining district of great richness, Capital has been slow to recognize the spiendid showing made by a number of properties in Bohemia, but capital is always timid, and the lack of proper facil-Ities for bringing ore to the market has prevented the investment of large sums of money. With the completion of the rallway ore can be brought to the smelters at greatly reduced cost. Several hundred thousand dollars has been extracted from the free-milling ores of the Bohemia district, but as depth is attained, base ore predominates, with increased values. The result of persistent work in the Hel-ena mine shows clearly that gold in payquantity, even with present facili-for handling, can be taken from the ing took a final plunge and a turn, which for the moment threatened to roll her comupper ledges. This company, since April 1. 1990, has paid in dividends to stockholders 1904,000, an excellent showing, considering pletely over. She rolled over to the port side very nearly beyond the point of turn. ing back. At the same moment she was the difficulties encountered. There are a number of other properties adjacent to the Helena considered equally as rich.

### TEMPEST MINE SOLD.

last resident General of the department, and since his departure, during the Span-ish-American War, the General's resi-dence has been closed. General Shafter, who was in command of the Departments NOME IS HAVING WINTER MANY ARE PENNILESS AND REIGN of California and the Columbia prior to the arrival of General Randall, resided at San Francisco. This fact that Vancouver Barracks is OF TERROR IS PREDICTED.

This fact that Vancouver Barracks is again to have a resident General is a source of much gratification to cliffens of Vancouver, as well as to Army people. Among the staff officers who ac-companied General Randall and was given a hearty welcome by Vancouver people was Major R. G. Ebert, medical director, who was a Vancouver boy before entering the Army.

Winter had set in in earnest at Nome when the steamer Queen, which arrived from the North today, salled on October 23. The thermometer had been falling for a week, and when the Queen salled a blinding snow storm was raging. The sceamer brought down a number of the more important Nome personages who waited until the last hoats salled. Her passenger list numbered about 800. Only the small steamer Arctic was left at Nome. The Roanoke had left four days ahead of the Queen for Dutch Harbor. Passengers on the Queen report that 500 men were left at Nome, all of whom are penniless, with no means of making a liv-ing during the Winter, and a reign of ter-

## AN OREGON PONEER OF 1853.

THE LATE MRS. ELEANOR SAMSON.

NEEDY, Oct. 30.-Mrs. Eleanor Samson, who died at her home here October 12, was an Oregon ploneer of 1853. She was born in Somerset County, Pennaylvania, November 18, 1818. Her maiden name was Eleanor Boyles. On September 12, 1839, she married Henry Samson, and they moved to Morgan County, Ohio, where they resided five years. From there they went to Cedar County, Iowa. They started across the plains March 31, 1853, and settled in Clackamas Country that Fall. Eleven children were born to them, of whom six are living-W W. H. Samson, of Oregon City; Ova Jackson, of Ely; Mrs. Mrs Ethel Spangler, of Carus: F. M. on, Charlotte Samson and Mrs. Mary E. Hardesty, of Needy,

> The Circuit Court docket was completed today, and contains 229 cases, of which 121 are equity, 39 are law, and 9 are crimina cases. Court convenes next Monday.

The following patents were received at the land office today: Jarvis M. Green, Charles Mattison, William M. Alderman, Charles W. Calkins, Emily N. Stokes, Andrew Niquist, William H. Fouts. which

Bound Over to the Circuit Court. CORVALLIS, Oct. 30 .- Pearl Cooper, charged with assault with a dangerous weapon, for shooting John Post in the arm at a dance at Summit Saturday, had struck amidships by a tremendous sea, which stove in some of the staterooms, broke in the doors of the main saloon a preliminary examination in Justice Holgate's court yesterday afternoon and was bound over to the Circuit Court in \$500 and sent tons of water into the dining bonds. Ball was promptly given. Evidence introduced at the preliminary was to the effect that Cooper shot Post while the lat-ter was fighting William Baldwin. The battle occurred in the house. There was also evidence to the effect that Cooper struck Roy Norton in the face before the other fight began. The defense offered no testimony.

# Circuit Court Adjourns.

PRICE OF SALMON CUT LOWER THAN IT HAS BEEN FOR YEARS AT SOUTH BEND.

state.

Most Fishermen Are Likely to Quit Work-What Cannerymen Have to Say.

SOUTH BEND, Oct. 30.-The price of Barnes. The price has been 5 cents aplece for dog salmon, 10 cents for silver-sides and 15 cents for Fall chinook salmon, but from now on the price will be 3 cents for dog salmon, 5 cents for silver-dog and 10 cents for salmon silversides and 10 cents for large salmon. Prices have not been as low as this for years, and it is not expected that many will fish at these figures, but, as it is now, the run of fish is so heavy that it will take but few fishermen to supply the cannerles. Mr. Barnes asserts that the bottom has fallen out of the salmon mar-ket, and there is no sale for Fall salmon. Thus far the heavy run in this bay has been dog salmon, but now sliversides becoming more plentiful. are

### OREGON ON THE DRYDOCK. The Great Battle-Ship Is to Be Given

a Thorough Overhauling. SEATTLE, Oct. 30 .- The battle-ship Oregon is now in the Government drydock at the Puget Sound navy-yard, where she was taken last Friday to undergo repairs to her keel, which was severely strained when she ran on the rocks some months ago. Later she will be given a general overhauling and painting. More than ordinary care was necessary on account of the strained keel. and for many days prior to the docking extraordinary preparations were made for the reception of the big war vessel. In order that she might rest gently on the blocks, instead of pumping all the water from the dock, as is usually the case, the removal of water was only about six feet. She was then placed in position and two divers entered the water to adjust wodges and blocks care-fully about the keel before any great part of the weight of the battle-ship was allowed to rest. The remainder of the water has since been pumped from the dock, and the damaged part of the hull

### MOLDERS' STRIKE SETTLED. Tacoma and Seattle Unions Get Con-

end.

cessions From Employers. TACOMA, Oct. 30 .- The strike of the Tacoma and Seattle molders' unions, which has been on since June 8, is at an The men returned to work this morning, the Metal Trades Association conceding a 55-hour week, which means of the place where the man killed him-self identified the body as that of a man a Saturday half hollday. Second Vice-President M. J. Keough, of the Iron Mold-ers' Union of North America, who has been here a week assisting in adjusting trict. matters, leaves tonight for Butte, Mont.

#### Walla Walla Brevities.

WALLA WALLA, Wash., Oct. 30 .- The 32d anniversary of the founding of the lish a steam laundry here. This will be Workmen lodge in Walla Walla was celebrated under the auspices of Integrity Lodge, A. O. U. W., last night, About 100 members of the order came from the odges of Workmen at Waltsburg and The programme consisted brief addresses by Grand Master W. E. Russell, of the jurisdiction of Washing-ton; Rev. Lee A. Johnson, Mrs. A. M. Lizenby, of Tacoma, who spoke for the Degree of Honor; recitations, singing, dancing and a supper. Some 300 members of the order and their families participated, and had a very enjoyable time. The Board of Education of Walla Walla has advertised for tenders to supply the new eight-room public schoolhouse with suitable furniture. Bids will be received up to November 19.

### Home for the Walla Walla Club.

The gule rose to 46 miles an hour, and the seas ran mountain high. The culmination, came Monday night, when the ship took to rolling heavily, and just at the hour of change of watch, 4 A. M., she

#### Pacific University Notes.

PACIFIC UNIVERSITY, FOREST Grove, Oct. 20.-At an assembly of the student body held this morning H. E. Thomas, '65, A. C. Gilbert, '65, W. A. Dimick, '02, Irving D. Gibson, '94, E. C. Dye. '94, were elected to serve as a perent auditing committee of student ody finances.

There has been considerable discussion as to the province of officers of the stu-dent body, and previously an organiza-tion known as the Athletic Union, composed of students, had charge of athletics in general. Upon the organization of the student body last your the duties for-merly fulfilled by the officers of the Athletic Union largely devolved upon those of the student body organization, and it is now proposed to abolish the union and have athletics directed by the same power as other student interacts as other student interests.

#### RAINS BENEFITED APPLES.

#### Rogue River Valley Crop Improved in Size and Quality.

ASHLAND, Or., Oct. 30 .- The rains during the entiler part of the present month and the long spell of bright and warm days which followed them proved to be of immense benefit to the apple crop of the Rogue River Valley. Many of the apple trees on which the fruit was not of a trees on which the fruit was not of a strictly first-class marketable condition, on secount of the early dry weather, took on increased vigor, and the fruit they hore was greatly improved in both the and appearance, and the year's crop greatly enlarged thereby. The firm of Olwell Bros., of Central Point who are in all probability the

Point, who are, in all probability, the largest growers of apples in Southern Oregon, have gathered their crop of appics for the senson. It will amount to 40 cars of 600 boxes each, which amount is one of their average crops. Had the rains come a trifle earlier, the output of their orchard would have been doubled. All of the Newtown Pippins grown by the Olweit Bros. have been contracted for the London, England, market, to reach which the cost per car is \$600. During the picking season about 70 men were employed in the Olwell orchards.

### OTSTERS THRIVING AT YAQUINA.

#### Biologist Washburn Says Specimen Sent Him is Product of the Bay.

EUGENE, Or., Oct. 30.-George King, the is in charge of the Eastern oyster plant at Yaquina, recently yonged up a roung Eastern oyster in the presence of Deputy Fish Warden Bultman. The specimen was nearly two inches in di-ameter and in fine condition. It was sent to State Biologist Washburn at Eugene, who pronounced it as being a product undoubtedly of Yaquina Bay, and hably spawned a year ago. Professor Washburn expresses the opinion

STATE JOURNAL IS OUT.

Voluminous One. SALEM, Or. Oct. 30. - The journal of the Senate of the last session of the Ore-gon Legislature has just been issued, and is now ready for distribution. The jour-nal proper, containing the record of the Senate proceedings, occupies 902 pages; the Governor's message occupies 65 pages, and the index to the volume 71 pages, making a total of 1038 pages. This is about as large as a Senate journal ever gets to be in Oregon. It will be remem-bered that the Portland charter bill was amended by striking out all after the first section and inserting a wholly new bill. As all amendments must be published in the journal, the Portland charter bill appears in full in that book. It is the

only charter bill that has that distinction and it takes up 50 pages of the journal. The index to the journal was prepared by A. O. Condit, a Salem attorney, and it appears to be very complete and accurate. By reference to the index all the ballots for United States Senator may be found in a moment. The compliation of the volume was performed under the superision of Secretary of State Dunbar. The House journal is now in the hands /istor

CURES ALL DISEASES OF MEN "It is a crime to experiment with the health of the people," says Dr. J.

"It is a crime to experiment with the health of the people," says Dr. J. Henri Kessler, manager of the Old St. Louis Dispensary at Portland. "If I did not know positively and abso lutely that my pew home treatment will dure all diseases of men, even when all other methods of troatment fail. I would consider I was committing a crime to make such a statement to the public. Nothing is so precious to a man as his health-nothing so horthile as an insane Asylum or the grave. Little ills, if not prompdy cured, often result in obstinate chronic diseases. I know that my new dis-covery is the most marvelous treatment every known, and I intend to give its benefit to the world. I intend that every man, woman and child who comes for treatment shall have it. I propose to tell the sick, absolutely free of charge, if they may be restored to perfect health. I would rather be a benefactor to the size man than to have the wealth of Crogens." The above are remarkable words, but those who know Dr. Kessler, and have tried his treatment, can youch for their absolute truthfulness. He also cures to stay cured VARICOCCELE, STRICTURE, SYPHILTIC

He restores the wasted power of sexual manhood. He also cures to stay cured VARICOCELE, STRUCTURE, SYPHILTIC BLOOD POISON, NERVO-SEXUAL DEBILITY and all associate diseases and weaknesses of man. To these maladies alone he mas earnestly devoted is of the best years of his life. He makes no charge for private consulta-tion, and gives each patient a legal contract in writing to hold for his prom-ise. Is it not worth your while to investigate a cure that has made life anew to multitudes of men? If you cannot call at his office, write him your symptoms fully. His home treatment by correspondence is always success-ful. Address, always enclosing 10 2-cent stamps:

Hoboes broke the seal on the door of a

freight car at the Eugene depot Tuesday night and took therefrom a box contain-ing a large number of rifle cartridges.

Policeman Croner found 11 hoboes in or car and took them to the city lock-up. Many improvements are contemplated on the Golden Standard mine, on Galls Creek, recently purchased from the Kub

crected a number of bunkhouses and other necessary buildings.

It is reported from Brooks that a gang of hoboes, consisting of five men, com-mitted a robbery upon two men on the north-bound freight train near that town. The two victims of the crime were riding in one end of a refrigerator car. On nearing the station at Brooks, five tramps who had occupied another car pounced down on the two men, covered them with

revolvers, and ordered them to come ou on top of the car. One obeyed, but the second man hesitated, when he was seize and jerked out of the car and beaten. The five criminals then proceeded to help themselves to what valuables they could find on their victims. They took two find on their victims. They took two watches and a revolver and \$4.20 from one man, and one watch and \$2 70 from

lis by a Seattle syndicate. Besides get-ting ready to build a telephone line to Gold Hill, the purchasers have recently
