Croisan Helping Geer.

Another evidence of an understanding between Simon and Geer is the fact that Ed Crolsan, Simon's fact licutenant in this county is consulting with Geer's friends, and is receiving their assistance. Croisan is renerally conceded to be the best all-round political worker in the county and makes no secret of his efforts in behalf of Simon. Case of Queer Bed-Fellows.

Croisan's position is an illustration of the old saying that "politics makes queer bed-fellows." Four years ago Croisan bed-fellows." Four years ago Crolsan was Superintendent of the Reform School and worked with his usual vigor against Geer for Governor. Consequently one of Geer's early acts was to aid in the tion of Crolsan's successor. The latter gentleman has had little political iove for Geer since that time, and it is gen-erally supposed that he has forgotten old scores only because it is for Simon's in-

terest for him to do so. So far as Marion County is concerned, Geer could not have made a combination that would have given him a more re-sourceful leader than Croisan. At the same time, Marion County is not a Simon At the county, and the question is, whether the uitimate results will prove the combina-tion a profitable one. Simon's only hope in this county was to get the support of Geer's friends, and if he has any friends in the Marion County delegation in the next Lesislature, it will be through the efforts of the Geer men, working under the directions of Ed Croisan.

Legislative Timber Talked Of.

In this state of affairs, the Legislative slate is certain to cut no small figure in the Gubernatorial fight. Not many names have yet been used in discussing legis-lative matters, probably because both sides are feeling their way carefully be-fore making alliances that might prove embarrassing. Thus far the Simon-Geer people have been heard to speak favorably of J. M. Poorman, W. H. Hobson Henry M. Keene, J. H. Settlemeir and Lot L. Pearce, for seats in the Legislature. anti-Simon-Geer people talk of Dr. J. N. Smith, Nod Looney, Alex Lafoliett, J. S. Ritchie and Abner Lewis. This is not saying that any one of these men wears the collar of any political faction, but it does mean that a man who is satisfactory to the Simon-Geer people will not be satisfactory to the anti-Simon-Geer people, and vice versa. Marion County will have five Representatives, two Senators, and a joint Senator with Linn County. The names mentioned above are only a small part of those that will be the county convention. In addition to those given, the names of Frank Davey, L. J. Adams and C. P. Bishop are heard, but thus far their names have not been identified with either faction.

Where is Tilmon Fordf

A conference that took place last Thursday evening between Tilmon Ford and Governor Geer has been the subject of some political gossip this week. Ford is one of the Republican leaders who is always to be considered in a political cam-palgn, and hence the interest taken in his unusual call at at the Executive Offic -after office hours. Geer and Ford have been political rivals since time imm and Ford has thus far classed with the anti-Geer people in the contest. Those who know present TH Ford's habits say he did not go to the Governor's office without being invited, and that his visit has some political sige. It is known that Ford h been a political ally of H Ed. always been a political ally of Ed. Croisan, and an enemy of Dr. J. N. Smith, always In view of all these facts it is assumed by political leaders that although those who pretend to know say that Geer and Ford met to talk "business," yet the re-sult of the conference will be that Ford will stay out of the Gubernatorial fight,
