#### ACTION OF COMMERCIAL CLUB

Lewiston Wants Request Made of Oregon Members of Congress to Fight Unless Dalles-Celllo Improvement Is Provided For.

PENDLETON, Or., Feb. 4.—The Pendle-Taylor, a member of the association and president of the last Oregon Senate, made a motion that the Lewiston request be returned ungranted. It was unantmously adopted. The Lewiston Club sent a letter saying: "Owing to the community of interests in opening the Columbia River to navigation, we request that you telegraph your Senators and Representatives the subjoined message, a copy of which we have wired the Idaho delegation. We be-lieve it will have the desired effect. All interested towns have been likewise requested." The message of the Lewiston organization follows:

We demand our representatives in Congress to insist on the adoption of Harts' plan for the Dalles-Celilo canal, and some appropriation under the continuous contract system, and to fight the remainder of the bill until granted. The entire Northwest, excepting Portland, is opposed to further appropriation for the mouth of the Columbia River, unless the canal is concurrently provided for."

The sentiment of the Pendleton associathat it would be suicidal to oppose needed improvements at the mouth of the river in the event a Cellio appropriatio was denied by the rivers and harbor committee. The association held its an nual election of officers this evening which resulted as follows: President Leon Cohen; vice-president, Dr. F. W. Vincent; secretary, J. F. Robinson; treas urer, J. R. Dickson, board of managers R. Alexander, J. A. Borie, C. E. Roose velt, Jesse Failing, C. S. Jackson, C. J. Smith, T. C. Taylor, C. B. Wade, Lee

#### COMMENCEMENT EXERCISES OVER Pine Addresses by Visitors and Stodents at Monmouth.

MONMOUTH, Or., Feb. 3.—Commence-ment exercises at the State Normal School, consisting of a musical and literary programme, came to a close last night salutatory address, "Modern Educa-" was delivered by Miss Edvarda Crickson," followed by an address on "Ancient and Modern Homes," by Miss Olive Lambright. Following the rendition of a plane duet was an address by Miss Katle Storts, on "Pestalozzi." The papers presented by the young ladies reflectnuch to their credit, and received hearty applause. The annual address to the class was delivered by Ernest Bross, managing editor of The Oregonian. The speaker urged the necessity for a broad, iberal view of life, especially touching racial hatred, religion and politics, placing at the foundation the cardinal principles of charity and liberty. "The future hope of charity and liberty. "The future hope lies in the environment and training of the youth of our land," said the speaker. The class was especially warned of the danger of too narrow a view of life's possibilities. The address was one of the best ever delivered to any class in the The large audience showed its appreciation of the address by its enthusiastic applause

by S. W. Doughty, in his usual pleasant The school opens the second semester with an increased attendance. The executive committee is in session, transacting the general monthly business,

#### CITY MAY PUT IN LIGHT PLANT. Baker Waiting to See Whether Franchise It Granted Is Accepted.

BAKER CITY, Feb. 4.-The City Council is determined that there shall be some-thing done in the way of public improve-ments this season. It appears that the proposition to pave two of the principal streets will fall because of opposition of the property-owners. The members of the cil evidently feared the paving proposition would fall, so several improve-ment schemes were launched at the time It was decided upon. A survey has been ordered for a sewerage system, and if A. R. Frame, of Portland, does not accept the electric light franchise granted him, the electric light bonds will be sold at once. These bonds were voted by the peo

pic last Spring, for the purpose of erect-ing a municipal electric light plant. The matter has been held in abeyance for several months, pending the consideration of two or three propositions of pri-vate corporations to light the city. A. B. Frame, of Portland, was the last person to make a proposition. It is understood he does not like some of the restrictions placed on him by the ordinance, and is it doubt about accepting the franchise. I he does not accept it the Council will go ahead with the municipal plant,

FIFTEEN MINERS UNDER ARREST ON A CHARGE OF RIOT.

Two Engineers Take Place of Men With Grievance, but Heed Request to Quit Camp.

BAKER CITY Feb. 4.-Sheriff Huntington, of this county, went to the Columbia mine, above Sumpter, this morning with a posse of deputies, and arrested 15 of the miners who were concerned in the movement to expel the Taylor brothers from the camp Sunday night. The Taylors took the place of the two striking en-

the men who comprised the minority, to purchase the interest of Mr. Hayes and his friends. The mine was originally sold by Albert Geiser and associates for \$590, 600 to Mr. Hayes, who had associated with him a number of Pennsylvania capitallats, who are also heavy stockholders in the Standard Oli Company, Mr. Hayes, re-Standard Oli Company, Mr. Hayes re-tained a majority of the stock of the Bo-nanza, and, of course, controled the mine. #### MOTT CALLS MARION COUNTY DEMOCRATS TOGETHER.

THE MEN WHO SECURED CONTROL OF THE PARTY TWO YEARS AGO AFTER A HARD FIGHT.

SALEM, Feb. 4.—Chairman W. S. Mott, of the Marion County Democratic Central Committee, today decided to call a meeting of his committee in this city Saturday, February 15. Since the meeting of the State Central Committee, last week, Marion County Democrats have been conferring regarding party matters, and the announcement of the date for holding the county committee meeting will increase the activity. The management of preliminaries to the coming campaign will be in the hands of Dr. Mott and W. M. Kaiser, the latter being Marton County's member of the Democratic State Central Committee. As this is a strongly Republican county, the chief interest among the Democrats centers in the contest for the control of party affairs. Two years ago the battle was a warm one, and resulted in the selection of Mott and Kaiser as party leaders. Mr. Kalser is a well-known attorney in this city. He is a native of Marion Cour ty, and is enumerated among its wealthy citizens. He has always been a Democrat, and is one of the most effective workers in his party. Dr. Most is a prac ticing physician in Salem, where he has resided about 12 years. He conducted a very vigorous campaign prior to the county election two years ago, and led the Bryan forces in the Fall campaign of 1900

# TO AID OF WILLAMETTE

SALEM VOLUNTARILY PLEDGED \$2500 ON DEBT OF 'VARSITY.

Campaign for Funds Begins Tomor row-President Coleman Will Give the Last \$1000.

SALEM, Or., Feb. 4.-"Christian education is a profitable investment and a good preparation for service in the world's work, was the leading sentiment in to day's deliberations at the educational con vention. Salem people are beginning to realize anew the importance of this truth and are in consequence taking renewed in terest in welfare of Willamette University No effort is being made to solicit funds at this convention, and yet \$2500 has been voluntarily given toward payment of the university's debt. That success will reward the efforts to be put forth in the campaign for funds to begin Thursday is now confidently felt by friends of the school. At all three sessions of the con-vention today large audiences, including many representative business men, greet speakers.

At the forenoon session the address was delivered by Dr. T. B. Ford on the sub ject, "The Duty of the Methodist Epis-copal Church to Higher Education in Oregon." The principal thought was that since higher education tends to aid individual and social progress, it is the duty of the church to support all educations institutions, whether under the control of the state or private corporations, but especially should the church give liberal ssistance to those schools which impar Christian education.

When the afternoon session was called

to order, Bishop Cranston read to the con-vention the editorial in today's Oregonian commending the work of Willamette University, and setting forth the claim which the institution has on the community and church for liberal support. The editorial was accorded a generous round of ap-plause, and a resolution was unanimously adopted thanking The Oregonian for its kind assistance in behalf of Oregon's ploneer educational institution.

Rev. G. H. Bennett of Woodburn, read a

paper on "The Importance of Christian Culture in Our Educational System." He advocated Christian, though not denominational culture in both public and pri-vate schools, and said that atheism tends to anarchy.

Professor J. T. Matthews read a paper on "The Origin, History and Growth of Willamette University," tracing the story of the school from its foundation in the early days as the old Oregon Institute. At the evening session Mayor Bishop presided. In a few introductory remarks he reviewed the benefits derived by Salem from Willamette University, and said it is "up to us" to see that the school shall

prosper.

Dr. McDowell said in his address that higher education may be regarded as duty, necessity, advantage, opportunity or privilege, according to the point of which it is considered. Con-said: "In relation to what one tinuing, he said: may be or do in theworld it should be regarded as a privilege—the privilege of every boy and girl who desires to make every possible preparation for a life of useful service. Education is a debt which the present owes to the future. It is a safe investment, better than real estator 'securities.' In the panic of 1893 many a piece of paper elaborately printed and called 'security' became worthless except as waste paper. A college diploma repre-sents a kind of value that will be worth to cents on the dollar when the sur grows cold and the leaves of the judge-ment-book unfold. Men of higher education who experienced the tempest of 1820 have thrown a few 'things' board, but they did not go down in th Mr. Mills sald that every age incarnates

itself in some man or measure. He ther went on to say: "The thank offering is the representative movement of the Me odist Episcopal Church in this decade, It means not only the gathering of \$20,000,000 for the strengthening of the church, but for the deepening and quickening of its life. Thirteen thousand Methodists in New Hampshire have paid \$200,000 on their conference seminary. A thousand German Methodists in Oregon have given \$20,000 as a thank offering. If new churches and parzonages were counted, as in the move, ment in 1866, we would have \$27,000,000 now for the 20th century offering. Last year I was in 34 different states. Many of the places I visited will be forgotten, but I will hold in memory Salem, because it is to be the home of a dear friend, the Godly and gifted Dr. John H. Coleman, the new president of Willamette Uni-

versity. Bishop Cranston announced that he had just received a telegram from President Coleman, saving that he would pledge the last \$100 of the debt. This was received with applause, which was renewed with vigor, when it was stated that General and Mrs. W. H. Odell have pledged the

# THE ELIXIR OF LIFE.

The Secret of it Revealed.

The old philosophers had a dream that there existed or could be compounded a rejuvenating elixir, by the use of which men could live on and on in youthful vigor and enjoyment. Some thought that there was a fountain of youth to be discovered, and so went far afield to seek it. They failed to find the fountain, but they found new lands. Others shut themselves in secret chambers and with crucible, alembic and retort sought to distil this elixir. They too failed, but they created chemistry. Oaly a few years ago Dr. Brown-Sequard was an-nounced as having at last discovered this precious elixir. But his discovery also failed under test. And yet the elixir

The real elixir of life is the food we eat. All physical life is sustained by food, and food alone. You can't live without eating. But you can eat without living. Because it is not what is eaten which sustains life, but only so much of it as is digested and assimilated. That is why physical weakness and wasting of the body point inevitably to disease of the stomach and its allied organs of digestion

NO MAN CAN BE STRONGER THAN HIS STOMACH.

In a condition of perfect health the measure of a man's strength would be the quantity of nutrition contained in the food eaten. When there is disease of the stomach and its allied organs, the measure of strength is the quantity of nutrition extracted from the food eaten. Disease of the stomach means loss of nutrition, and loss of putrition means mutrition, and loss of nutrition means weakness. That is why weak stomach means weak man. Stomach "trouble" which is spoken of so lightly is often the root of heart "trouble," lung "trouble," kidney "trouble," etc. These are all organs of the body, and when the body as a whole is deprived of nutrition be-cause of "weak" stomach, the organs which make up the body are, of course, the real sufferers.

If this theory is not sound how can we account for the cures of heart, liver, lungs, kidneys, etc., by Dr. Pierce's Golden Medical Discovery, which is es-sentially a medicine for the cure of disease of the stomach and other organs of digestion and nutrition? Such cures are a matter of constant surprise to those who sought only relief from stomach "trouble" and found health for the whole body in the use of the "Golden Medical

"I had been afflicted for four years with what the doctors caled indigestion and liver complaint," writes Mr. J. M. Clark, of Heard, Tenn. "I had tried of getting well. I wrote to Dr. Pierce and he advised me to use his 'Golden Medical Discovery.' I commenced its use at cace, and after using two bottles

of the 'Discovery' and some of Dr. Pierce's Pellets I was able to do a reasonable day's work. When I commenced taking it I weighed 156 pounds, and when I quit I weighed 178. The 'Golden Medical Discovery' is the best medicine for such diseases and to build up the constitution that I ever knew of, and I

take pleasure in recommending it.

"You may publish this if you wish, and if any one doubts it being true if they will refer to me I will write to them myself, and if they will try it they will be convinced."

#### WEIGHT IS THE WITNESS.

There is a witness to the coundness of the cures effected by "Golden Medical Discovery," whose testimony is unim-peachable. It is the witness of weight. There's no sentiment in the scales. No imagination in the pound weights. They deal absolutely with the solid facts of solid flesh. When a man is sick with indigestion and liver complaint he generally loses flesh. When he takes

Golden Medical Discovery" and cures the indigestion and liver complaint his lost flesh is regained. That was the case with Mr. Clark. He gained twenty-two pounds as the result of his cure : twenty-two pounds of solid flesh, not flabby fat.

"For six long years I suffered with indigestion and my liver and kidneys, which baffled the best writes Mr. E. L. Ransell, of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors I grew so bad I could hardly do a day's work. Would have death-like pains in the side and blind spells, and thought life was hardly worth living. I decided to consult Dr.

R. V. Pierce, and his staff of physicians. They said my case was curable and I was greatly encouraged. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' as advised. Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce and his medicines. These words are truths, as I live, so if this testimonial can be used in any way to be of benefit you need not hesitate to use it. I shall stand for the Invalids' Hotel and Surgical Institute as long as life lasts."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, and builds up the body with sound flesh and solid muscle. It is the best of tonics for those in a debilitated and nervous condition, eedily restoring them to vigorous

# A BEAUTIFUL WIFE

What suffering woman would not look younger if she could be freed from the continual distress of female suffering? There are thousands of women in every city whose bleared eyes, wasted faces and expression of hopelessness makes them unattractive, unlovely creatures. Female suffering is irritating them into a frenzy. They can't be happy. They can't be attractive or get anything worth having out of life under such a nervous strain. But relieve them of the painful periods, the suffering and agony, the dizziness and continued distress and a little hope and sunshine enters their lives and an attractive, hopeful, rosy-cheeked woman is the result. This is what

# WINEOFCARDU

did for Mrs. Donoho, according to her husband's statement. He knows that Wine of Cardul made her a "prettier," rosier-cheeked woman, but she alone knows what it is to be relieved from the terrible suffering. The pure Wine will give every suffering woman the same relief. Do you not think it would be worth while for you to take Wine of Cardui and be free of the distress you are unnecessarily suffering now? There is no question about the relief. Go to your druggist to-day and secure a dollar bottle of Wine of Cardui and take it in your own home.

Handley Station, Texas, July 1, 1900.

I must write and thank you for what your Wine of Cardui has done for me. It has given me a beautiful, healthy, rosy-cheeked wife. She looked so much younger and prettier that my friends very often ask me, "Was that your wife who you were with?" When I tell them it was they are surprised. I always tell them Wine of Cardui made the change. I expect to keep Wine of Cardui in my house always.
