

PEOPLE POURING IN Great Flood of Immigrants for Oregon.

THEY COME 2300 PER WEEK

Railroads Give Cheap Excursions, and Many Homeseekers, Wary of the East, Try Their Luck in the West.

In the judgment of thousands of people who are identified with conditions of life in the Middle West, Horace Greeley's advice, "Go West, young man, and grow up with the country," holds as good today as it did long ago; when it was first given to John B. Grinnell. Mr. Grinnell went only as far as Iowa, which was then about as far west as the eyes of the average Easterner were able to see; but those who are still following the counsels of the eminent journalist do not consider it a far cry even to Oregon. Just now more than 2500 of them are arriving in Portland every week over the "wildcat" route of the Northwestern and Union Pacific, from Indiana and Chicago. V. Z. Bayard, excursion agent of the Hartman Lines, reacted the Union Pacific Monday morning in charge of a party of 19, 12 of whom, after looking at the sights of Portland, embarked on the Southern Pacific for Grant's Pass, near which place they will buy small farms or settle on government lands. They are a combination of money and determination which is all the outfit needed by the modern pioneer, and all of them will do more to develop the much-talked-of resources of the state than nonresident investors controlling 10 times their capital.

All through April they will continue to come. Oregon has been well advertised through the Middle West, and the excursions which the Union Pacific and Northern Pacific are attracting many passengers, some of them home-seekers who will come out and buy out the land for future consideration; but most of them are the opportunists for health. Oregon is the place to make their homes, and who have burred their ships behind them.

In the party that came Monday was a farmer named Thumason, who has purchased a residence in Salem and a farm near that city. He brings with him three carloads of blooded stock, and a family of nine children, and proposes to test to the full the opportunities for health, wealth and wisdom which have been set forth in the railway folder which first attracted his attention to the state. Another immigrant, F. C. Walters, a great railroad employe, who has worked for 45 years in Chicago, has located at Grangeville, near Forest Grove, and will engage in the poultry business. He is the advance agent of 30 or more other-career men who will turn their backs on the city in September, provided Mr. Walters' experiment is attended with success. In and about Chicago are hundreds of other workmen people, who have accumulated a little money, but who are concerned either for themselves or their children in that city. They have read, thought and talked of Oregon, and from them the infectious Western fever is rapidly spreading. These men have gone before. They sent back glowing descriptions of the climate and surroundings of their new homes, and those letters amply confirm the statements of the immigration literature which has been scattered broadcast by the railroads.

At Kent, near Shaniko, a German Lutheran minister from a small town in Indiana has founded a colony which is being rapidly recruited by people from his former residence. Dr. S. B. Frick, who was bound for Kent reached Portland yesterday morning, and more are expected on the next excursion Monday. The rate on these excursions, which are run from Chicago once a week, is \$10 for 100 days, and the rate of \$50 for the round trip is what they have read of the state, desire to come out and see it for themselves before locating. In cases where the individual is followed by conviction very soon after passing the state line. The sight of the green hills and forests of Eastern Oregon, the wonderful scenery of the Columbia River gorge, and the beautiful appearance of Portland usually serve to cast the lot in favor of Oregon, and the home-seeker hastens back to assemble his family and chattels, disposing of what he can dispose of, and turn his back to the West.

While the immigrant excursions which are now filling the streets of Portland and the towns of the Willamette Valley with their thousands, the railroad companies, April 1, there will be little abatement of the stream of people who are coming west during the summer months. Round-trip excursions will be run to the Federation of Women's Clubs, and the Portland convention May 1 to May 8, to the Knights of Pythias convention August 11 to August 22, to the meeting of Foresters of America, in Los Angeles, in the summer, and to the Mystic Shrine's meeting in San Francisco in the fall. All tickets will be sold with return privileges by way of Portland, and already hundreds of people have declared their intention to see this part of the country before going to other points. As the excursion rates are open to every one, there is no doubt that they will be largely taken advantage of by home-seekers.

MEDICOS TO GRADUATE.

Twenty Graduates From University of Oregon School.

The annual commencement exercises of the industrial department of the University of Oregon will be held next Tuesday evening in the Assembly Hall of the Portland High School. Examinations are now being held in the school, and the most successful year on record is being brought to a close. Dean Joseph and his corps of instructors have worked hard to elevate the standard of the curriculum during recent years, and the 20 young graduates who go forth this year are well prepared for their chosen profession.

TO PAY ELECTION BILLS.

County Clerk Sweetland to Distribute Warrants to Judges and Clerks. County Clerk Sweetland was authorized by the County Commissioners yesterday to distribute warrants to the judges and clerks of the primary election. Mr. Sweetland asked what course he should pursue regarding members of the second board, who presented themselves to do the work of counting, but found that it had been completed the day before. The judges stated that those who appeared at 7 o'clock to do the work were entitled to their pay, but those who did not have their names on the books must present bills.

ASKS RELEASE FROM BOND.

John Mock Desires to Act No Longer as E. W. Hart's Surety. At the meeting of the County Commissioners, John Mock, a well-known resident of the Eleventh ward, appeared and judges stated that those who appeared at 7 o'clock to do the work were entitled to their pay, but those who did not have their names on the books must present bills.

JUDGE BROWN OF ALASKA ISSUES RESTRAINING ORDER.

Further Prosecution of Damage Claim Against Western Fisheries Company Checked.

An order issued by Judge Melville C. Brown, of the United States Court, of the District of Alaska, division No. 1, was received in the State Circuit Court yesterday, restraining the further prosecution of the suit of Matias W. Adams against the Western Fisheries Company for \$15,275 damages. M. G. Munly and others are interested in this company, and W. A. Munly and E. S. Seabrook appear as attorneys for the defendant.

MARKET FOR REALTY GOOD

Many Newcomers Stimulate Healthy Demand.

The great influx of immigrants from Eastern States and the general season of prosperity throughout the entire Pacific Northwest has produced a fine effort upon the real estate situation in and about Portland. Although a large majority of the newcomers belong to the agricultural and industrial classes, many of them are small capitalists, and not a few of them have invested their money in Portland real estate, believing that no better investment could have been made. Local speculative "moshans" have many substantial purchases during the last few weeks.

Old real estate dealers, men who have been in the business for 20 years or more, say that the present year is the best on record, and that the volume of business has increased 100 per cent over March of last year. They are confident that the market throughout the entire year, but discredit any idea of a boom or wild-cat speculation.

An Oregonian reporter obtained the following interesting information from prominent real estate men yesterday:

E. A. King, of Montague & King; "Prices are good, and the market firm. The demand for real estate is better than that of any year since 1910."

D. W. Wakefield, of Wakefield, Fries & Co.; "The scarcity of empty dwellings—houses is a sure indication of the good which the new arrivals in Oregon are doing. There are fewer empty houses on our list than ever before. The condition of the real estate market is much better than usual."

N. Rountree, of Rountree & Diamond; "The market is in much better shape than a year ago. I predict a great volume of business during the summer months, and the stability of business is all that could be desired."

David S. Stearns; "My business is double that of a year ago. I do very little business outside the city, for I have my hands full with local business. The outlook for the coming summer is all that could be desired."

A representative of the Title Guarantee & Trust Company said: "There are many inquiries coming in from the East, and the general condition of business is good."

A representative of Hartman, Thompson & Co. says: "Most of our property is in St. Johns, and we are selling a good many of our acre tracts down there. Now that the railroad has reached St. Johns, we predict a great future for this little suburb."
