### NATIONAL LEAGUE MEETING

Republican Meeting Will Probably Be at St. Louis in October.

WASHINGTON, June 27.—President Roosevelt today, among his callers, issued Hamilton Miller, president; William L. Rober, secretary, and James Sheridan, all of Chicago, members of the National League of the United States. They conferred with him briefly regarding the National convention of the league, to be held this autumn at a place yet to be decided upon, as well as regarding the work to be done in connection with the coming campaign. In all probability the convention will meet in St. Louis about October 1. Although the members of the committee would not disclose the details of the conversation, it is known the President favored St. Louis and suggested the names of several prominent men whom he would like to speak on that occasion. A feature of the convention will be the presence of more than two-thirds of the Republican Governors of states, who have signified their intention of attending.

Harvard Crew's New Captain.  
NEW LONDON, Conn., June 27.—William James, Jr., of Cambridge, was today elected captain of the Harvard "varley" crew. He rowed bow this year, and is a 2600 man. He is a son of Professor William James, physiologist of Harvard.

### DIRIGO ON THE ROCKS.

Skagway-Bound Steamer Ashore Near Nainaimo.

VICTORIA, B. C., June 27.—As the steamer Dirigo was leaving Nainaimo this evening on her way to Skagway, with 75 passengers, she ran on what is known as Whalback rock, which is out of the regular course, and remained on the rock for two hours. After she had been floated she was beached near Nainaimo and at low tide will be examined.

### Hopkins in Control.

CHICAGO, June 27.—The reorganization of the Democratic State committee has been effected and resulted in a complete victory for the friends of Chairman John P. Hopkins, who, with Vice-Chairman Boischenstein, Secretary Mounts, and Treasurer Brinton, was re-elected practically without opposition. Chairman Hopkins received the support of 25 of the 32 committeemen present, or represented by proxies.

Wages Voluntarily Raised.  
PITTSBURGH, June 27.—All the unskilled employees of the Carnegie Steel Company, nearly 15,000, have had their wages voluntarily increased 10 per cent. This will make the wages of the lowest laborer \$1 a day.

## TELLS OF '05 FAIR

Mitchell's Great Speech in the Senate.

### PRESENTS OREGON MEMORIAL

Achievement of Lewis and Clark the Greatest in History Along the Lines of Scientific and Military Exploration.

### EXTRACTS FROM SENATOR MITCHELL'S SPEECH.

The purpose of my remarks at this time is to attract the attention not only of the Senate and House of Representatives of the United States, but of the whole country, to the fact that it is the settled determination of the people of the great West, and of the grand Pacific Northwest, as individuals and as states, to join hands in commemorating the centennial anniversary of the achievement of Lewis and Clark by holding a grand industrial exposition at Portland, Or., in the year 1906. It is not our purpose to have in magnitude a Chicago, a Paris or a St. Louis exposition, but it is our purpose and our firm determination to have an industrial exposition of a scale while somewhat less in pretensions than those, yet on a scale which will, by the magnitude and character of our varied products, command the admiration of all who visit it.

In what manner can the 100th anniversary of the crossing of the continent by Lewis and Clark in 1804-5 be as appropriately and conspicuously commemorated, and their names be thus kept forever bright in the world's grand biographical lexicon of immortal names, and on history's enduring pages, as by a grand industrial exposition of the varied products of that section of our common country to which their memorable expedition made an entrance for the builders of physical and moral empire, and for the founders of states?

### Magnitude of Exposition.

"It is not our purpose to have in magnitude a Chicago, a Paris or a St. Louis exposition, but it is our purpose and our firm determination to have an industrial exposition on a scale, while somewhat less in pretensions than those, yet on a scale which will, by the magnitude and character of our varied products, command the admiration of all who visit it. We propose to present for the inspection of the people not only of our own country, but those of foreign countries as well, the varied products of our great Pacific Northwest, which we are sure will elicit not only their astonishment, but their admiration and respect.

"Not now, but at the next session of this Congress, I shall ask, with the confident expectation that it will be surely granted, some proper Congressional recognition of this proposed Exposition, and shall request and appeal to Congress, by the smiles and approbation of Congress, to shall hope to have an Exposition which will appropriately commemorate the great military and scientific exploration of Lewis and Clark. I shall do this, notwithstanding the statement yesterday of the distinguished Senator from Maine, that we ought not again in a generation take any part whatever in any of these expositions, after referring to the expositions at Buffalo and Charleston. I am sure the great patriotic heart of the Senator from Maine will not hesitate, when the time comes and the matter is presented in its true light, and when the demand upon Congress will be in all respects reasonable and modest, to make this one exception, and that we will find him, a distinguished leader of the Senate, of the committee on appropriations, co-operating with the people and the states of the great Pacific Northwest in bringing to a successful conclusion a modest industrial Exposition, commemorative of the great geographical and commercial achievements of Lewis and Clark, which have done so much to open the door to a great future for so many of the citizens of this country, many of whom come from the New England States."

### OREGON LAND BILL PASSES.

Measure to Sell Reservation Lands Now Goes to President.

WASHINGTON, June 27.—Senator Mitchell called up and the Senate passed just before adjournment Representative Moody's bill to provide for the sale of the unsold portion of the Umatilla reservation lands. The bill now goes to the President, and will undoubtedly become a law in a short time. Aldrich objected to the bill, but after Mitchell made an explanation showing the necessity of the legislation the Rhode Island Senator withdrew his objection.

### Right of Way for Bohemia Road.

R. J. Jennings, of Portland, who has been in Washington for several days with business before the Interior Department, left today, assured that a right of way has been granted for the Oregon & Southwestern Railroad into the Cascade forest reserve for a sufficient distance to give adequate outlet to the mines in the Bohemia mining district. The right of way will be secured under a recent act of Congress. The proposed line will be 23 miles long, connecting with the Southern Pacific.

### Oregon Rural Delivery Routes.

On recommendation of Representative Tongue four additional rural free delivery routes are to be established at Jefferson and one additional route at Jefferson, service commencing August 1.

### Tongue Declines Invitation.

Representative Tongue has been invited to deliver the Fourth of July oration at Laurel, Md. Arthur P. Gorman's home, but has declined because of the adjournment of Congress. He previously declined an invitation for the same day at Hilo, Hawaii.

### Bill for Washington Settlers.

Senator Foster's bill which he had passed today, extending the time for making final proof in desert land entries at Albany, affects about 30 persons. The bill has not yet passed the House.

### Canadian Troops Sailed for Home.

DURBAN, Natal, June 27.—About 1000 Canadian troops sailed from here for home today. Two thousand additional Canadians will start for home July 12.

ed, and their names be thus kept forever bright in the world's grand biographical lexicon of immortal names, and on history's enduring pages, as by a grand industrial exposition of the varied products of that section of our common country to which their memorable expedition made an entrance for the builders of physical and moral empire, and for the founders of states?

"The purpose of my remarks at this time is to attract the attention not only of the Senate and House of Representatives of the United States, but of the whole country, to the fact that it is the settled determination of the people of the great West, and of the grand Pacific Northwest, as individuals and as states, to join hands in commemorating the centennial anniversary of the achievements of Lewis and Clark, by holding a grand industrial exposition at Portland, Or., in the year 1906. And in this connection I am pleased to be able to state that indeed great and satisfactory progress has already been made in the direction. Many months ago a corporation for this purpose, materially aided by prominent business men of the States of Washington and Idaho, having for its purpose the promotion of this enterprise. At the head of this corporation, and as its president, is Hon. H. W. Corbett, formerly Senator from that state in this body, and one of the wealthiest and most enterprising business men of the Pacific Coast. He has already contributed largely of his means and is untiring in his efforts in promoting the cause. Already more than \$50,000 in cash has been raised in support of the enterprise. The Legislature of the State of Oregon, nearly 18 months ago, spoke out boldly and emphatically in favor of the great purpose, as is indicated by the legislative memorial just read. The people not only of Oregon, but of all the Pacific Coast States, are enthusiastic in favor of the project of the Pacific Coast, irrespective of party, without a single exception, is earnest, cordial and enthusiastic; our public men are a unit, but not less enthusiastic are the people generally of all classes.

"It is not our purpose to have in magnitude a Chicago, a Paris or a St. Louis exposition, but it is our purpose and our firm determination to have an industrial exposition on a scale, while somewhat less in pretensions than those, yet on a scale which will, by the magnitude and character of our varied products, command the admiration of all who visit it. We propose to present for the inspection of the people not only of our own country, but those of foreign countries as well, the varied products of our great Pacific Northwest, which we are sure will elicit not only their astonishment, but their admiration and respect.

"Not now, but at the next session of this Congress, I shall ask, with the confident expectation that it will be surely granted, some proper Congressional recognition of this proposed Exposition, and shall request and appeal to Congress, by the smiles and approbation of Congress, to shall hope to have an Exposition which will appropriately commemorate the great military and scientific exploration of Lewis and Clark. I shall do this, notwithstanding the statement yesterday of the distinguished Senator from Maine, that we ought not again in a generation take any part whatever in any of these expositions, after referring to the expositions at Buffalo and Charleston. I am sure the great patriotic heart of the Senator from Maine will not hesitate, when the time comes and the matter is presented in its true light, and when the demand upon Congress will be in all respects reasonable and modest, to make this one exception, and that we will find him, a distinguished leader of the Senate, of the committee on appropriations, co-operating with the people and the states of the great Pacific Northwest in bringing to a successful conclusion a modest industrial Exposition, commemorative of the great geographical and commercial achievements of Lewis and Clark, which have done so much to open the door to a great future for so many of the citizens of this country, many of whom come from the New England States."

### WHO THE APPOINTEES ARE.

Both Well-Known Republicans and Hard Party Workers.

W. F. Matthews, commonly known as "Jack" Matthews, has been a resident of Portland since his youth. He was educated in the public schools and the Portland Academy, after which he secured early in life went into business in Marion County. He was for many years a member of the grocery firm of Gilbert & Patterson, at Salem. He has been very successful as a hog grower and is supposed to have made considerable money from that industry. He was a member of the State Senate from Marion County in 1900 and 1901. He aided in the election of George W. McBride to the United States Senate in the former year, and has been recognized as a leader of what is known as the Mitchell wing of the Republican party in Marion County. He was appointed Collector of Customs at Portland in 1898, on the recommendation of Senator McBride. The position pays \$5000 per year.

### UNION PACIFIC STRIKE.

Entire Force of Machinists in Omaha Shops Discharged.

OMAHA, June 27.—The strike position in the Union Pacific shops was complicated when the shops closed tonight by an order which came as a complete surprise to the men. The order discharged the entire force of machinists with the exception of 10 men, a total of 122 receiving their pay and final discharge papers. The order was delivered at the shops while the Machinists' Union committee was in conference with officials at headquarters, and when it was announced that negotiations were in progress and peace was in sight, fifteen men were let out at Armstrong, Kan.

The machinists held a meeting tonight, but positively declined to give out any information. Shops are not affected at other points by this order, and machinists here declared there will be a walk-out of machinists in the shops along the whole system. Today's order makes a total reduction of 800 men at the Omaha shops, and of over 1300 men along the system. Union Pacific officials say the discharges are due to the boiler-makers' strike and the consequent lack of employment for machinists. As they cannot tell when the

### PATTERSON SUCCEEDS HIMSELF

Nomination for Collector of Customs Sent in—Both Men Are Well-Known Republicans and Hard Party Workers.

WASHINGTON, June 27.—Isaac L. Patterson, of Marion County, was today re-nominated Collector of Customs at Portland, and Walter F. Matthews, of Multnomah County, United States Mar-

### INDORSED FOR UNITED STATES SENATOR BY KING COUNTY REPUBLICANS

HAROLD PRESTON, OF SEATTLE.

shal for Oregon. Both Matthews and Patterson were recommended by Senator Mitchell and Representative Tongue, Representative Jones. Moody did not indorse either of them.

The following nominations were sent to the Senate today: Receiver of Public Moneys—Eugene B. Hyde, Spokane. Register of the Land Office—Henry V. Hinman, North Yakima, Wash. Himman was recommended by Representative Jones. Hyde is Senator Foster's appointee.

### Activity of Kilnmen.

HONOLULU, June 27, via San Francisco, June 27.—The latest news from the Volcano Kilnmen indicates little more than the normal state of activity. The volume of smoke and the heat continue to be greater than has been the rule recently. Many people have hurried to the volcano in view of the reports of an outbreak. Governor Dole has made an order requiring all government employes to keep out of politics as far as active campaign work is concerned.

## PRESTON IS NAMED

King County Indorses Him for Senator.

### REPUBLICANS IN CONVENTION

Members of the Legislature Are Instructed to Vote for the Seattle Man as Long as He Stays in the Race.

King County Republicans formally in-

augurated their campaign for Harold Preston, the Seattle attorney, for United States Senator, by pledging their 25 Legislative nominees to vote and work for Mr. Preston. Preston is an anti-railroad man, and led the fight against the lobby at the last session of the Legislature. He made a special, eye-opening speech on his determination to enforce the laws against all illegal combinations of capital. The convention named a complete county ticket.

### SEATTLE, June 27.—At the Republican County convention today, Harold Preston, of Seattle, was indorsed for United States Senator. The following resolution indorsing him, and pledging the support of the Legislative ticket, was adopted unanimously.

Be it Resolved, by the King County Republicans in convention assembled, That the committee hereby indorse the candidacy of Hon. Harold Preston for United States Senator, and hereby pledge him the support of all the Republicans of King County. Be it further Resolved, That all Republicans elected from King County to the State Legislature be, and they are hereby instructed to vote for Mr. Preston for United States Senator until he shall be elected, or shall voluntarily resign, and also to use all honorable means to secure his election.

Mr. Preston was warmly greeted when he took the platform in response to numerous calls. He said: "This is a Republican year. Good times and Republicanism are, and always have been, synonymous terms. The whole country is in sympathy with the Republican party. Every man in the United States respects and reveres President Roosevelt. He stands for the law. If there are laws regulating the trusts—the beef trust, or the railroad trust—he believes in enforcing those laws. Governor McBride of this state, is built on the same lines. So long as he is Governor he will stand for the enforcement of law. You have indorsed his administration in your platform, and in approving his policy have indorsed the election of three Republican Congressmen, a Republican Legislature, and, consequently, a Republican United States Senator.

The business men of Seattle, feeling the need of representation at the National capital, formed a Senatorial club, a club which which numbers, I am told, over 4000 members. The club has two objects—the election of a Congressman to represent Seattle, and the election of a Senator. I entertain certain views regarding the regulation of railway corporations; other members of the club entertain other views, yet we have all worked harmoniously for the achievement of the club's object. Get the Congressman first and the Senator next.

### Legislative Ticket.

The following Legislative ticket was placed in nomination: Thirtieth Senatorial District, Dr. J. J. Smith; Fortieth Representative, Wesley W. Brown, W. H. Clark, M. M. Merrill; Thirty-first Representative, Charles A. Van de Ven; Forty-first Representative, W. A. Carle; George W. Tibbets; Thirty-second Senatorial, O. A. Tucker; Forty-second Representative, Edgar C. Raine, Dr. C. S. Emory; Thirty-third Senatorial, Andrew Henrich; Forty-third Representative, F. W. Comstock, Louis Levy; Forty-fourth Senatorial, George U. Piper; Forty-fifth Representative, James Weir; Irving T. Cole; Forty-fifth Senatorial, W. G. Potts; Forty-sixth Representative, George W. Dilling, G. W. Jeffries; Forty-sixth Senatorial, Richard M. Kinneer; Forty-seventh Representative, Charles S. Gleason, Joseph M. Lyons; Forty-seventh Senatorial, E. B. Palmer; Forty-eighth Representative, Reuben W. Jones, W. H. Lewis.

### TEXAS DROUTH BROKEN.

Heavy Rains Are Reported South of Dallas.

DALLAS, Tex., June 27.—The long drouth rattling in Texas was quite generally relieved today. Heavy rains, as reported from Dallas south to the Gulf, and many sections north, east and west have received portions of the downpour. The corn crop is said to be beyond redemption, but cotton will be saved. There was considerable alarm for the safety of Galveston throughout the day, as a severe gale was reported raging there early this morning, and telegraphic communication was entirely interrupted during the day. It was later learned, however, that no damage had been sustained and that the water was but slightly above normal. At Houston a high wind prevailed, but no serious damage is reported.

### GALVESTON, June 27.—The wind and rain storm which struck Galveston last night continued unabated until this afternoon. The wind held steady from the southeast and reached a velocity of 25 miles in one- and two-minute gusts in the early portion of the morning. The tide was not dangerously high, being but two feet above normal, but the storm, which originated in the West Gulf and passed on the land with its center 150 miles west of Galveston, made itself felt on the island. Tonight the wind is blowing 20 miles an hour, but the Western Bureau states that it will veer to the west by morning and produce clear weather for Saturday. The only damage reported in Galveston was the burning out of 15 motor cars by the water getting into the electric machinery.

### Heavy Hail Storm in Colorado.

DENVER, June 27.—Specials to the Republican say that a heavy hail storm occurred this afternoon in the vicinity of Greeley, destroying small fruits, breaking windows and doing other damage. The wheat crop was also badly damaged. At Deer Trail a heavy plate glass window was broken by the hail.
