The lowest figures by those competent to judge place the total loss at about \$75,000. From this it ranges up to \$250,000. So far as can be ascertained about 30 derricks were destroyed. The oss on these was comparatively small. Fifteen tanks, some of them filled with oil, were burned out, and they will have to be repaired before they are again serviccable. Odd Recovery of Stolen Jewelry.

NEW YORK, Sept. 12.-Two arrests by detectives today resulted in the re-covery, under peculiar circumstances, of property valued at \$5000, which is alleged to have been stolen from a house in West Twenty-third street a few hours earlier in the evening. William Mc-Namee was the name given by the first prisoner. Upon being searched a large quantity of valuable jewelry was found. Shortly after a man representing him-self as Frank McNamee, brother to the prisoner, entered the station, he, too, was searched. Jèwelry of all sorts was found, together with \$155 in money. About the same time reports were received at police headquarters of the rob-bery in West Twenty-third street. The The woman reporting the loss was at once taken to the station, where she identified the property mentioned.

Attempt to Wreck Trolley Car.

NEW YORK, Sept. 12 .- Two unknown men have attempted to wreck a trolley car on the National Park Line, near Woodbury, N. J. They drove large spikes on the inner side of one rail on a curve skirting a deep ravine. The car, luckily, was moving unusually slow, otherwise many passengers would have been killed. As it was the car left the track and 20 passengers were budly bruised. Some of them discovered two men running away

through the bushes. They were pursued for some distance, but escaped. Robbery is presumed to have been the motive.

Smoke Not a Nulsance.

The committee on health and police held a meeting yesterday and acted upon the petition that the laundry on East Oak street, between Sixth and East Seventh, be declared a nuisance. The only complaint against the laundry was that the smoke was intolerable. The committee visited the laundry and made a full investigation and determined that the smoke, under the provisions of the city ordinance, was not in itself a nuisance and the laundry could not be declared a nuisance. Report to that effect will be made to the Council. The committee on sewers and drainage ed, spread rapidly over the Keith-Ward tract, which is on the outer edge of the field. Immense volumes of smoke were created, and gave the impression that the sea of fire was greater than it really was, finmes shot up through the smoke, forked and jagged like lightning in instances, and in great sheets in other portions. The ground was thoroughly soaked with oil, and until this had been burned off the smoke obscured everything, even creating a fog-like effect in the city, four miles away.

> -Texas Philosophy.

Chicago Inter Ocean. According to a story accredited to Citizen Otls Skinner, in his early stage career he was traveling with a company which did not occupy a special train, through the pay towns of the Southwest. There was a stop-over at Texarcana, and a railroad ating-house dinner was imminent. Every-body rolled off the train, prepared for the worst, and expecting it.

In the window was a citizen, his long length curied across the sill, calmly whittling a fresh pine stick slowly, thoughtfully and resignedly, with his eyes idly wandering once in a while toward a mongrel yellow dog asleep in the sun at his feet.

Suddenly the train arrived, and the bustle and usual confusion attending a rapid transit lunch service aroused the dog. As a darky came out and began to hammer wildly on a gong the dog lifted up his eyes to the sun and howled dismally. The whittling citizen looked at the dog a minute, and then said:

"Shet up! What do you care? You don't have to eat it."
