Metal Markets.

NEW YORK, Sept. 12 — The sharp decline in the furnished the chief feature of today's metal market. The demand for tin has been rather light recently, and stocks are liberal. Today's offerings from the far East were heavier than the market could absorb without loss, and spot in declined to 24.75429.65c. There was a decline of fi in the London spot price, making the closing quotations there fizz los, while futures sold down to fils, or fi los lower.

Copper in London declined 2s 6d, with spot at 15.5 1is 3d, and futures at 153 is 6d. The New York market also declined, Lake cleaning at 11.80612.125c; standard, 11.20611.60c; electrolytic, 11.80911.874c, and casting, 11.756

Less was quiet and unchanged here at 44sc, but it is 3d higher in London, closing at 11.

Spelter was unchanged at 515c here, and at 519 Ts 6d in London.

There was an advance in English iron markets. Iron here was steady and unchanged.

Coffee and Sugar.

NEW YORK, Sept. 12.—Coffee—Futures prices unchanged to 10 points lower, and fluctuated a good deal throughout the day; closed steady and not unchanged to 5 points lower. Sales amounted to 45,250 bags, including September at 35.25; November, 35.30g5.35; December, 35.40. Spot Rio quiet; No. 7 invoice, 5%c; mild firm; Cordova, S@11c.

Sugar—Raw steady; fair refining, 3c; centrifugal, 10 test, 3%c; molasses sugar. 2%c; reugal, 96 test, 35c; molasses sugar, 25c; re-

Top Mark for Stock Exchange Sent. NEW YORK, Sept. 12.—High records for took exchange sents have been broken by the

purchase of membership for an unknown West-ern man for \$51,000. In addition to this sum, \$1000 will be the price of initiation. Member-ships were sold seven year sage as low as \$13,-Telegraph Wires in Bad Shape. The telegraph wires in the Northwestern States were crippled last night by forest fires and falling trees and branches, thus curtailing the telegraphic market reports. It is promised that the service tonight will be complete.

Damage to Kentish Hops.

LONDON, Sept. 12.—Experts estimate the damage done to the Kentish hopgrowers by rain and hall yesterday at fully \$500,000.

IMPORTANTCHURCHRULING Tenure of Episcopal Minister Is for Life, Unless Otherwise Agreed.

Grafton has decided that according to the laws of the Episcopal Church when a minister is called to the rectorship of a parish and the call is without limita-tion as to time, the tenure is for life unless terminated by mutual consent, or the passwral relationship is dissolved as

rovided for in the canons.

The decision was in the case of the Rev. Edward M. Frank, rector at She-boygan. The veetry asked for his rea-ignation, but he declined to tender it. A paper signed by 60 parishioners complain ing the Mr. Frank refused to resign and setting forth that he had been neglectful of his parish duties, was then prepared and submitted to Bishop Grafton. Another paper signed by 122 parishioners, asked to have Mr. Frank retained. Bishop Grafton held that as they had shown nothing against Mr. Frank's moral character or found fault with his doc-trines he could not be thus removed. The vestry then by a vote of five to four decided to discontinue the rector's salary.

Mr. Frank still declares that he will remain and Bishop Grafton holds that he can recover for his services in a civil action, and cites cases where such has

BRINGS ABOUT MARKED DECLINES IN NEW YORK STOCKS.

Grangers and Pacifies Are Unfavorably Affected by Reports of Front in Corn Districts.

NEW YORK. Sept. 12.—Call money advanced to 20 per cent shortly before the close of today's market, and the list, which had been heavy throughout, closed with marked declines. Opening prices were lower, though mostly fractional, but the unsettled tone which characterized the day's comparatively moderate transactions was apparent from the outset. London came lower in the absence of New York support, though later there was considerable improvement and a better demand for internationals in that market. Missouri Pacific was the chief sufferer in the early trading, salling off about 2 points and making no recovery. The decline in the grangers and Pacifics was in part due to reports of frost in the corn belt. The selling of Baltimore & Ohlo was accompanied by reports that insiders had discounted the extra stock issues. St. Paul received better support soon after the opening, but in the main stocks which held their own were of the so-called pool class. There was not great pressure against any particular stock, but the early high rate for call money—10 per cent-coupled with the reports that some of the banks were showing discrimination in the matter of collateral, added to the increasing uneasiness. Louisville & Nashville and Reck Island were among the few stocks that reflected firmness at this juncture, the latter selling ex-dividend.

Trading received another check in the second

Trading received another check in the second hour, when call money advanced some more, but no great amount of long stock seemed to be offered. Nevertheless, it was clear that a number of weak accounts were shaken out. There was a rally in the granger group on reports that the frost had done little damage, and at the seme time Manhattan, also selling ex-dividend, was being absorbed in small lots on rumors of closer relations with New York Central. The United States Steel shares were heavy, with little or no svidence of support, but the strength of Union Facific and St. Paul was suggestive of pool support, while the weakwas suggestive of pool support, while the weak-ness of Cheeapeake & Ohio was attributed to

nees of Cherapeake & Ohio was inside seiling.

A further reactionary movement set in during the second hour of the afternoon, when money advanced to 15 per cent. Declines at that time embraced practically all the active issues and brought prices to the lowest level of the day. Maximum declines of 2 per cent were registered by St. Paul, Missouri Pacific, Norfolk & Western and Northwestern, with a % decline in Louisville & Nashville, and even greater losses in the specialties. Announcement of the 20 per in the specialties. Louisville & Nashville, and even greater losses in the specialities. Announcement of the 20 per cent rate in call money was the signal for another selling movement, but partial recoveries were made by St. Paul and Louisville & Nashville. The final dealings brought some liquidation, and the closing as heavy and unsettled. In addition to the net losses already mentioned, net declines of a point or over were made by Aichisen, Baltimore & Ohlo, Chicago & Northwestern, the copper stocks and numerous others. Net gains were the exception, and mestly fractional. London traded in about 15,000 shares, mostly on the buying side, during the decline.

purposes, but these operations will not show tomorrow's bank statement. It was understa tomorrow's bank statement. It was understood that the heavy loss in the surplus reserve had been met by a calling in of loans. Reports of approaching imports of \$6,000,000 to this center and Boston were not confirmed.

The bond market was less active today and

reactionary in sympathy with the depression in stocks. Total sales, par value, \$5,505,000, United States bonds were all unchanged on the last call. STOCKS. The cloring bids were as follows;

FROST IN CORN BELT. Feature of Trading in the Chicago

Grain Pits. CHICAGO, Sept. 12.—A killing frost in half the corn belt ruled the grain pits today. So much precautionary buying in of short corn had been done in anticipation of the frosts that the market was bereft of the exciting feature that otherwise would have characterized the opening. Killing frosts were reported in the the market was bereit of the exciting feature that otherwise would have characterized the opening. Killing_frosts were reported in the Dakotas, Minnesota, Iowa and Nebraska, and lighter frosts in Southern Kansas. At Speciella Present & Will Smith, Chgo Boston & Will Smith, Chgo

for wagmer weather after tonight's probable frosts lopped off much of the corn gain. May was strongest, and closed strong, %c up, at 41%c. The nearer options were supplied to the shorts in sufficient demand, and with the belief that the frost scare was passed, traders allowed prices to close at barely firm figures. September sold as high as 60%c, and closed %c up, at 60c. December sold at 44%c, and closed %c higher, at 45%c%c.

Wheat made some advances early in the day in sympathy with the corn bulge, but after a fairly heavy business, the pit turned heavy, and the close was weak. At the outset buying was general, under the lead of a big elevator and the commission houses. The frosts Northwest, the continuation of the small Spring movement and good clearances were the other bullish incentives. After the initial upturn, the early buyers turned quiet sellers, and the gain and more besides was lost. English cables were lower, but the Continent held firm. St. Louis was a fair buyer here. Inasmuch as the corn market was the leader, the closing slump in wheat was attributed to zome extent to the ease in corn. December opened %G%c to %6%c up, at 60%c60%c, sold to 60c, and closed weak, %c lower, at 60%c60%c. September sold from 14%c down to a weak close, %c off, at 13%c.

Oats had only a small share of the interest today. There were no prominent features, and the small early advances were purely sympathetic. Scattered selling took away the slight early improvement. December closed %c down, at 31%c.

Provisions ruled strong, under the influence of the advancing hog market. January pork closed 20%22%c up; lard, 15c higher, and ribs, 507%c up.

English Crop Damage.

NEW YORK, Sept. 12.—According to reports from all England, the heavy rains of the last few days, coming on top of an exceptionally wet season, have seriously damaged the crops, wet season, have seriously damaged the crops, cables the London correspondent of the Herald. Grain has suffered severely. Owing to the weather, it is of such poor quality that early samples failed to get a bid on the market. With a continuance of the prevailing weather, erable quantity of the wheat can be put on the market. One of the largest agriculturists in Lincolnshire states that, with wheat in its damaged condition, the season would be one of the most disastrous that has been experienced dur-

LONDON, Sept. 12.—Wheat—No. 1 standard. California, 30s; Walla Walla, 28s 3d. English country markets quiet but steady.

LIVERPOOL, Sept. 12.—Wheat steady; No. 1 etandard California, 6s 55. Wheat in Paris firm. Flour in Paris steady. Weather in Eng-land cold and dame.

Man's Insanity Due to Tapeworm. NEW YORK, Sept. 12—After parform-ing an autopsy on the body of Rudolph Haller, laborer, a Coroner's physician has decided that insanity, from which Haller suffered and died, was caused by a tape-worm 60 feet long. Haller's case puzzled the insanity experts at Bellevue. At times he would fall in what appeared to be an epileptic fit. At other times he would apparently be normal. The autopsy showed that the tapeworm had distended the organs and caused such pressure on the tendons and ligaments counseted with the tendons and ligaments connected with the spinal column and spinal cord that the brain was affected.

Miss Kate Shelly in a New Role. LA CROSSE, Wis., Sept. 12.-Miss Kate Shelly, the heroine of many poems and writings in prose, who, when a child, saved a trainload of people from death by creeping over a frozen bridge near Moingona, Ia., in a raging storm and warning the engineer of the danger, has been engaged by the State Insane Heavittal at Chemical by the State Insane Hospital at Cheroke Ia., as a nurse. Miss Shelly is quite old.
