### **BAD FOR ONION-GROWERS**

BIG CROP IN THIS STATE AND NO OUTLET FOR IT.

Prices in California Rule Half a Cent Less-Strength of the Salmon Market.

turday's trade was as good as could be ax pected on a half-holiday, and price changes were not numerous. Receipts of green produce were not numerous. Receipts of green produce
were not large and it was well, for the demand was light. One car of California grapes
came in, and sold fairly well, as the Oregon
product on the market how is not of the best.
A car of bananas was unloaded Sunday morning, also a car of mixed produce. Yesterday's
"eamers did not have much for the Frontstreet houses. Tomatoes are firm, as most of
the local stock is out of the market. Peaches
are scarce.

Things are not looking well for the onion growers. There is a big 'crop here and no present outlet. California has plenty of onlons and they are selling in San Francisco half a wation for the producer will be a warm Winter in California and a cool one in Oregon. There is not much life yet in the potato mar-

Country produce showed no change Saturday. Oregon eggs were stendy to firm at 30 cents.

Cheese and butter were also firm. Receipts of chickens were too large for the close of the week, and nearly every dealer had to carry over a number of coops.

The grain markets were firm here, but not quotably higher. There was very little doing in wheat, and nothing new reported in freights. The hop market was fairly active and strong at 25625% for choice. No very large sales came to light.

No change was made in the grocery, meat or provision liets Saturday.

provision lists Saturday.

The salman market continues strong. Buying is practically over for the season, but holders firm, to anticipation of a strong Spring de mand. Sockeyes are practically cleaned up. According to an estimate of the San Francisco. Trade Journal the pack of the Alaska Packers' Association and the Pacific Packing & Navigation Company totals 1,882,990 cases, and that of outside canneries 550,000 cases, making the total Alaska pack 2,412,000 cases, against 2,032,838 cases last year. It is reported that the Puget Sound Packers' Association and the Alaska Packers' Association have offered the Canadian government \$250,000 for licenses for 25 salmon traps, to be located on the southeastern coast of Vancouver Island, and for a five-year lease of tidal lands on the Gulf of Georgia. Besides the bonus referred to the combination offers \$2000 per annum rental for trap. It has been stated on good authority, however, that the Canadian government will sell no rights. A report from New York states that there is talk of forming a combination of all the outside salmon canning interests on the Coest. It is understood that it is proposed to capitalise the new company at \$10,-900,000, and that the plans are found to include 16 plants, of which options on 11 plants have been secured by the promoters,

Heavy \$6 55@7 75; mixed, \$6 75@7 75; light. steady in spite of an adverse showing. The strength of Cotton Oil resulted from the belief that a consolication with a kindred company would be of great benefit to it. Only the most favorable comment was heard

regarding the bank statement, and traders were at a loss to account for the selling movement which set in with its appearance. The statement was regarded as a very correct expost tion of local financial conditions. The market closed somewhat unsettled, and very dull. Net changes showed improvement over the pre-vious day, but with the exception of the movements in the special class, this including Colorado Fuel, Consolidated Gas, North American and New York Air Brake, gains were chiefly fractional. The day's business was barely in excess of 200,000 shares.

Sterling exchange was quoted at a slightly higher figure, but no importance was attached to this feature. The nominal rate for call money was 2½ per cent. The Subtreasury paid out \$100,000 for account of San Fran-cisco, and received the same amount for trans-United States 2s and 3s advanced 14 per cent,

RALLIED ON GOOD BUYING. " Wheat at Chicago Closed a Quarter of a Cent Higher.

of a Cent Higher.

CHICAGO, Oct. 25.—The volume of trading in wheat was somewhat smaller than of late. Room bulls who abandoned their lines early released them partially on strong spots toward the close, and while the market was active on the advance, there was enough realizing to hold it steady. The opening was firm on bad weather and strength in corn, followed by a decline on big receipts, and heavy liquidation, along with weakness in corn. Good buying toward the close brought about a raily, and the finish was about steady. December opened unchanged to 15c higher, at 124672%c, sold to 72%c, declining to 71%c, but on the final raily the price went to 72%c, and closed near the top, ice higher, at 124c.

Corn was quiet but firm on fair commission-
