CAUSE: REFINERS' COMPETITION

SUCAR IS ON DECLINE

Activity of the Local Hop Market Increases, With Values Stronger -Movement in Citrus Fruits.

The sugar market, after remaining stationar for several weeks, has again become the cen-ter of interest. All grades of the cane and beet product have been reduced 20c a hundred. As for the cause of the decline, the local trade is in the dark, but it is presumed to be due to the competition between Spreckels and the

ource of direct profit in the wholesale grocery source of direct profit in the wholesale grocery business, which will not, it is believed, allow it to stop without protest. The terms under which the refiners have been selling to New York, New Jersey and New England include a fiscount of 15 points from list prices and an additional 1 per cent for cash in seven days, in addition to the special discount of 5 points after 00 days for those who in selling maintain refiners' prices. In all sections, ex-cept those specifically noted, however, this hast 5-point discount is now deducted from the bill, and within the last two weeks another special discount of 5 points has been openly allowed.

NEW YEAR STARTS WELL

ACTIVITY REIGNS AMONG ALL THE INDUSTRIES.

Only Deterrent Features Are the Searcity of Cars and of Fuel-Financial Position Strong.

NEW YORK, Jan. 0 .- Bradatreet's tomorrow

will say: The new year starts aggressively and well. Wholesale distributive trade, it is true, notes The new year starts aggressively and were Wholessie distributive trade, it is true, notes something of the lull usual at this period of the year, but even here the uniformity is broken by advices that salessmen already on the road are receiving good orders for Spring.

the road are receiving good oracis to bytas, and that, in compliance with urgent instruc-tions, shipments of Spring goods are being for-warded liberally. Among the industries activity reigns, the only deterrent features being the scarcity of cars or of fuel, limiting production of iron and steel or curtailing shipments of lumber and grain. Prices a whole show argurasive strength. or curtaining snipments of iumber and grain. Prices as a whole show aggressive strength, present levels being the highest in over two years. Corn and cotton, it is true, have weak-ened, but the only apparent result is that of encouraging and expanding export trade, a movement long anxiously awaited. Eastern shoe manufactures remost that ilberal azmole

movement iong anxiously awared. Lasturn show manufactures report that liberal sample orders are not being followed by solid orders to the extent expected, and shipments are smaller than last year and last week. The searchy of anthractic coal is a cause of large expense. Efforts to keep prices down to a reasonable level seem to have failed, and spe-ulators are recorded in control of the situation

compiled by Bradstreet, shows the bank clear-ings at the principal cities for the weak ended January 8, with the percentage of increase and decrease, as compared with the corresponding week last year: and a family of the Inc. 5.1 2.5 8.7 11.3 Dec

| | |

New England producers of wool were busy on Spring orders, and a few deliveries have already been made, although shipments are light in these lines as yet. Exceptional activity in rubber goods has reduced supplies to an It's in rubber goods has reduced supplies to an unusually low point. Some variaties of leath-er have advanced slightly, and tanners of hem-lock sole have only limited holdings. No new features have appeared in the do-mestic demand for dry goods. The best evont as to cottoms has been the continued buying for export, which has exceeded expectations very largely. The order doth market has ruled

for export, which has exceeded expectations very largely. The print doth market has ruled very firm, with business restricted by the re-merve of sellers, who show no disposition to make concessions. As to woolen goods, the demand for overcoatings for next Fall has not come up to expectations, which may be attrib-uted, in part, to the fact that the season opened unusually enty. Prices are fully mainteined unusually early. Prices are fully maintained at the opening level of the season. Failures for the week number 350 in the United States, against 375 last year, and 24 in Canada, compared with 37 a year ago.

BRITISH FOREIGN TRADE.

Statistics Give Fairly General Satisfaction.

NEW YORK, Jan. 9 .- Statistics of the Brit-NAW IORA, Jan. U.-Statistics of the Brit-ish foreign trade in 1902 have given fairly gen-eral satisfaction, says a dispatch to the Trib-une from London, but the croakers are not est-isfied that the gains will continue. They assert that two-thirds of the increase in imports is wheat, and that one-half of it will be offset this waar but an enclosed of the increase in the offset this year by an enlarged crop in the United King-dom. While this may involve a reduction in imports, it may not affect the price, and there is general opinion that there will be no advance in the chief article of food. Higher prices for sugar are again predicted, but the same fore-casts were made a suprement of solutions. The government has been fortunate in lovying the new duties on grain and sugar under con-ditions of supply which have concessed the taxation from the consumers. It is fully understood here that the peculiar conditions of the understocked American mar-ket explain the spin in pice iron superior have

conditions of the understocked American mar-ket explain the gain in pig iron exports, but meliker statisticians nor merchants venture predictions respecting the iron and steel trade of the United Statnes this year. There is a reasonable expectation that exports of steel ralls and manufactures of iron to Japan and Canada will increase.

SAN FRANCISCO MARKETS. Produce Prices Current in the Bay City. SAN FRANCISCO, Jan. 9.-The flour market somewhat quieter, but prices are well main-ained. Fancy Oregon apples are firmer. Choice Fance, Fance Oregon apples are firmer. Choice Oregon pointoics are steady. Onlong are weak.

From New York.

NEW YORK, Jan. 9.- (Special.)-A little easiness developed today in small prunes, sizes Sos and So-16's ruling weak at 4%c and 3%c respectively, under light demand and full sup-There is a strong tone in 60-70s and 50-60s, with stocks here and near by to arrive con-trolled by two holders. On a firm offer, 6c will buy 50s and 5c is quoted for 60s. Little export movement is noted at the moment. Jobbers report a steady demand for small lots. A feature today was a considerable buying moven i through brokerage interests here of Dregon³ 30-60s for shipment from the Coast. through brokerage interests here of One purchase of four carloads is reported, but the terms of the sale are withheld. Efforts to purchase 30-40s and 40-50s on a Sc f. o. b. basis were reported declined by Coast holders Fink salmon are easy and dull. Lima beans are unchanged.

Henvy Shipments of Citrus Fruit,

Advices from Los Angeles, under date of January 5, say that, according to past indica-tions, there will be considerable more citrus" Substitut shipped out at Southern California this pear than hait. The lemon crop is lighter, but the shoringe will be more than offset by the additional output of eranges. Grovers say oranges are not only more plentiful this year, but the general run of quality is better. This season has been exceptionally favorable for good orange growing, and there have been no serious from to damage the crop. The picking is now well under way, but the growers are not burryibg, as there is no immediate demand for the goods in the Eastern market. Up to last week about 1800 carloads of oranges and vicinity and 1200 carloads from points north of Tehachap i. The season's output from Southern California to save a state is expected to be from 22,000 to 24,000 carloads.
Subardian and the season's output from Southern California to save a state is expected to be from 22,000 to 24,000 carloads.
Subardian and the season's output from Southern California to save a state is a spected to be from 22,000 to 24,000 carloads.
