## NEAR SEASON'S END

Trading in Wheat of a Cleaning-Up Nature.

#### GOOD WEEK IN PRODUCE LINES

Activity of the Hop Market Continues-Potatoes and Onions at San Francisco-Local Quotations.

The wheat market is quiet as the end of the trading season approaches. There is a little inquiry from Australia and South Africa, but very little from Europe. The shipping movement continues strong, but what buying and selling is under way is of a cleaning-up nature, Local prices Saturday were about as have been quoted for the past fortnight, 70@Tie for club and 80c for bluestem for export purposes.

are of the opinion that the effect of the large world's production will be much greater in the sound half of the season than in the first. Shipments to Europe have been falling off dur-ing the last few weeks, but with large supplies in South Russia and Manitoba, and prospects of a large exportable surplus in Argentina the offerings during the next two months will probably be on a very heavy basis, and will more than likely cause a bearish pressure on the world's markets, Harvesting in Argentina is progressing rapidly, and estimates of the exportable surplus range from 75,000,000 to 80,-000,000 bushels; offerings are already being made at considerably below American prices.

Australia is still purchasing wheat from both coasts of this country, and authorities claim that fully 200,000 tons of breadstuffs must be imported to meet the deficiencies of the coming harvest. The crop in New South Wales last season was 14,608,705 bushels; this season's crop will not reach 50 per cent of last season's, without it is estimated that import requirements \$467: Will be from 1,500,000 to 2,000,000 bushels. Victoria, which last season produced 12,127,382 bushels, will produce this season about 2,950, 000 bushels; the imports of that state are estimated at over 3,500,000 bushels. South Austra-Ha is in a better position, and will have a surplus of about 4,000,000 bushels for export; last year that state produced over 8,000,000 bush-Queensland, West Australia and Tasmanla will have to import large quantities as the crops are entirely inadequate.

The Winter wheat crop in our own country has been favored by weather conditions, and gives promise of being one of the best on record. But few complaints are heard, and those few are of little consequence. At this early period, however, crop conditions have but little effect upon the market unless the climatic

The week has seen a good movement in all ocal produce lines. The demand has been steady, and perishable stocks have been kept down to a minimum. Carlot and steamer receipts have kept the market sufficiently supplied with heavy and light California vegets bles. Price fluctuations have been small. In try produce, poultry has done well, all arrivals going off at steadily maintained quotations. Butter has also moved well. Eggs are coming in so plentiful that prices are weak. No Eastern eggs are being received, but there are still a good many on the market.

The hop market is in a satisfactory condi-tion, and under the influence of orders from the East, values are showing more strength. The exports and imports at the port of New York for the week ending January 2 compare

## Commissioner Sargent Says They Have Been Largely Removed.

PHILADELPHIA, Jan. 11.-Frank P. Sargent, Commissioner of Immigration, tonight delivered an address to the Jewish Chautauqua on the subject, "Immigration and the Future of Our Country." Mr. Sargent stated that many abuses that formerly existed in the immigration system have almost wholly disappeared, and that under the energetic impulse of President Roosevelt there is much promise of wise and just practices in the future. Continu-

ing, he said: "The large number of persons who seek a home in this country makes it inevitable that at times a few cases of injustice will arise. It is the purpose of the Bu-reau of Immigration to deal fairly with every case that is presented. Ellis Island has been the place for the harboring of vultures who preyed upon the immigrants, and people began to look upon the immigrants, and people began to look upon the place as the hellhole of America. Last April the President placed a gentleman of his own selection in charge at the island. He made a change in the discipline and in the personnel of the officers and introduced

CHICAGO, Jan. 10.—Wheat ruled quiet, but there was a firm tone the greater part of the day, although the market early experienced a little casiness on favorable weather. The news was rather favorable to the built side, and there was much covering by shorts and more or less buying for long account. Reports of heavy rains in Argentina were the main strengthening factor, although firm Liverpool cables had some effect at the start. The market was a very marrow one, and there was little change. some effect at the start. The market was a very narrow one, and there was little change in prices. May opened unchanged to he lower at 70%0.76%c, and ranged between 70%c and 78%676%c, closing he higher at 70%c. Corn was dull and fluctuations in prices were confined within an extremely narrow range. The close was steady, with May he lower at 40%0 43%c.

Will Try to Be a Minstrel. SALEM, Or., Jan. 11.-(Special.)-Albert Disque, a promising young singer of this city, left today for Pendleton, where he will try for a place as vocalist with the Harry Ward minstrel troupe. Mr. Disque possesses a tenor voice of much sweet-ness and his many friends feel confident that he will be successful in getting a
