WERE LOTH TO MAY GOOD-BYE.-The officers and cadets of the German training-ship Herzogin Cecilie, which went down river Sunday morning, were panied as far as Knapp's Light, 22 miles, by some 25 of their friends among the German people of Portland, whose friend-German people of Portland, whose friend-ship and esteem they won during their stay in this port. There were about in iadies in the party, and a very enjoyable time was had. Captain Spencer kindly furnished a boat for the use of the party, and spread a nice lunch for them, to which the captain of the ship added champagne. The band of the ship fur-tioned mustic and a folly dancing party nished music, and a jolly dancing party was held 'tween decks, on the ship. The excursion was a regular demonstration. As they passed the Government revenue cutter Perry all on board the ship cheered the Stars and Stripes, flags were dipped in salute, and the band played "Hail, Col-umbia." The flags of all the ships of different nationalities were saluted, and appropriate music played as each was passed, and when these courtesies had been attended to, dancing was resumed. When it came time to separate, both the departing visitors and their friends were in a high state of enthusiasm and there were not a few tears shed when the final know how to shoot ducks. handshakes were taken. The party-climbed down aboard the tug which was Alexander, who is engaged to bring them back, with many an "auf wiedersehen," and many expressions of good will and affection on both sides. It is safe to say that all on board the ship will long remember their sojourn in Portland, and will look forward with pleasure

DREDGE Has to QUIT.—The Port of Portland's dredge, Columbia, which has been deepening the channel at Postoffice bar for about a month, has been obliged to suspend operations on account of the freshet on the Willamette, and the amount of driftwood being carried dcwn. Assist-ant United States Engineer Pagnal, who is in charge, expects to be able to resume operations in a few days, and thinks that the improvement can be completed with 16 days' work. The flood in the Willamette has caused back water at the locks in the Yamhill River, and the water there marks 42 feet above zero on the gauge. A torrent 21 feet in depth was pouring over the lock walls, and at last accounts yesterday water was still rising. River boats with machinery powerful enough ought to be able to climb over the lock now without waiting for the gates to be opened, and unless the water stops rising ocean steam-ers will soon be able to navigate the roaring Yamhill. The flood has prevented Assistant United States Engineer D. B. Ogden from getting over to Umpqua to nake some examinations there, but no ommunication by wire can be had with Umpqua.

Good Duck Shooting.-Sportsmen ger erally enjoyed very good duck shooting last Sunday, much better than for sev-eral weeks, although the day was too fine and bright for this sport. In a few places the water came up so rapidly, and to such a height, as to interfere with the taken along the line of the O. R. & N. sport, but there were ducks everywhere.

Co. in Oregon and Washington, which is soon to be sent East to the Harriman information bursay to be used to advertise this A fine bag was made at Dead Willows, the full limit being shot. The ducks killed mostly mallards, were the finest shot this measure. A number of them weighed in the neighborhood of four pounds each, and one, a whopper, came within two ounces of five pounds. At Morgan's, one another if his gun had been a three-barreled one. There are many ducks about the preserves, and owing to their well worth see being well fed are in unusually fine condition for this late in the season.

MIGHT CLAIM THE REWARD .- A member of the City Council desires attention called to the fact, which is a plain one, that the east half of the block between Mill, Columbia, Fourth and Fifth streets is being made a common dumping ground for garbage and refuse of all sorts. On a building near the north end of the block is posted a placard signed by S. A. Milton, offering & reward for the detection and conviction of any one trespassing on this property. The half block, or the greater part of it, belongs to the Meade estate. It is valuable property, finely situated for residences, and the agent of the Meade estate might have the tin cans, old cement barrels and garbage removed. Three very nice houses have been crected lately on Mill street, oppo-site this property, and three buildings of

Seorge Lamberson, secretary of the State Sorticultural Society, by working all day inday, has completed the index to the society's report to the Legislature. He will go to Salem this morning to arrange with the State Printer for having it printed as soon as possible. He has arranged the illustrations in a duminy copy for the guidance of the binder, and the printed sheets and pictures will be placed in his hands at once. The report is not quite so large as the last one was, but will contain about 200 pages of reading matter and 40 full-page illustrations, 200 pages in all, which is a very good size. The report will be ready for circulation in a short

BABY SEAL IS DEAD .- The baby seal which has been in the pond at the City Park for some time and had grown to be about 2% feet in length died on Sunday. The cause of its death is not known for certain, but from a bruise on the body it is thought that the large old seal in the pond must have burt it. This seal is about five feet long, and is sometimes cross. The skin of the little one will be mounted and placed in the free museum. Colonel Hawkins thinks there will be no difficulty about getting another baby seal for the park, as soon as the salmon fish-ing season opens, for the fishermen fre-quently capture seals of all sizes in nets, neines and traps.

ONLY BOULDERS SURVIVE - Columbia street, between Front and Water streets, is in a fearful condition, being worn out by the heavy traffic to and from the Jefferson-street depot. The block was improved with macadam long ago, when it was usual to begin such improvements with a layer of boulders. Now all the macadam is worn out except these boulders, and heavily-loaded vehicles find it a hard road to travel. The truckmen and teamsters who have to drive heavy loads of wheat, wood, etc., over this bad street would be obliged to any city official or any one else who will have some repairs made there.

MILLS NEVER STOP .- The Portland Woolen Mills in Sellwood have been run-ning day and night, and so getting a sixset product out of three sets of machin-ery. Now the plant is being doubled by putting in three additional sets. By running the whole day and night the net of a 12-set mill will be secured. mill has been in operation about a year, and has proved a success from the start. The product is sold in New York and San Francisco, and is in demand. The mill, when the additional machinery is in, will be the second largest on the Coast, the mill at Oregon City below larger. The output will be raised to 40,000 yards per month. The stock in these mills, amounting to \$100,000, has all been taken, and there is not a share on the market. At the annual meeting of stockholders, held a few days ago, the following officers were elected for the ensuing year: W. P. Olds, president: Captain Gordon Voorbies, first vice-president; Charles Coopey, second vice-president; E. L. Thompson, secretary and manager; Charles Carter, superin tendent. The stock is all owned by Portland capitalists, and in addition to those mentioned includes W. M. Ladd, W. F. Burrell and R. D. Larrabee, of Montana, who is practically a Portland capitalist.

WATCHMEN WERE SPORTIVE. Some of the sportsmen's clubs of this city, who have had poor shooting in their serves of late, have finally tumbled the situation, and by investigation have found that they have been "done up" by the watchmen employed to take care of their preserves. Early in the season one of these fellows was found to be double-shooting the game by selling part of the wheat sent to him to be fed to the ducks and by shooting the ducks that he at-tracted with the remainder of the wheat. He was discharged and a successor em-ployed, who did not sell wheat, but he could not refrain from having some sport himself during the week, when the ducks were just loafing about waiting to be These metters were finally satisfactorily adjusted, and the clubs have enjoyed some good sport ever since. A man who watches a preserve should not

HAD A BOOM OF LOGS ONCE-Robert Alexander, who is engaged in the round timber and other lumber business at Cottage Grove, has been in the city for several days, and is beginning to feel anx-lous in regard to getting away. He has a lot of piling and timber in a boom on the last Saturday, when he last heard from his foreman. Then railroad communica-tion was cut off by the flood, and he could not get back to Cottage Grove. The telephone line went down, and he could not hold communication with the town, and he feels as if something had gone astray. The condition puts him in mind of early days, when there were no railronds or telephones in Oregon. He would then have accepted the situation as a matter of course, and would have waited pa-tiently till the clouds and the floods rolled by. People are not so patient as they used to be.

PROFANITY DIDNY HELP MUCH.-The broken axle of a wagon piled high with cordwood delayed the cars on both the Fifth and the Morrison-street lines last evening, at the time when the down-town crowd was swarming homeward. The wagon was at the corner of Fifth and Morrison streets when the break-down occurred, and though one of the cars pushed with all its power, and the horses ended nobly, a long line of cars filled with hungry people had to wait until the wood was unloaded and the horses could pull the broken wagon out of the way. Accidents of this kind usually happen when every one is in a particular hurry, but no amount of swearing on the part of either the passengers or the carmen helped to unload the wood any faster.

TO HOLD GOOD ROADS CONVENTION .-The impetus given to the work of securing good roads, by the Government convention held in this city last Fall, does not appear to be diminishing. There will be held in Medford on February 13 and 14 a local convention of good roads workers and fruitgrowers, at which time a com-On a plete organization will be effected and officers elected. President Scott and Secre-tary Mager, of the Oregon Good Roads Association, will be on hand to help organize the convention. > FRIENDS BEAR ALL EXPENSE. - The funeral of Thomas Wall, a veteran hack-driver, will be held this morning from Finley's undertaking parlors at 16 o'clock. Wall was born in Portland 24 years ago, and has worked as a backdriver here nearly all his life. He died on Saturday. The expenses of the funeral have been borne by the hack and stablemen of the city, together with a number of hotel men, with whom the veteran driver had many friendships. The interment will be in Lone Fir cemetery.

JURY QUICKLY RETURNS VERDICT OF MANSLAUGHTER.

Result Was Expected by Prisoner and His Friends, but an Appenl Will Be Taken.

A verdict of manslaughter was returned by the jury in the case of John Castro-novo, at 6 o'clock last evening. This ver-dict was about what was expected by the prisoner and his friends, and was received with satisfaction. A few of the most sanguine looked for an acquittal.

Dr. C. F. Candlani, the Italian Consul, is emong the latter, and says an appeal will be taken to the Supreme Court. The Consul asserts also that the interpreter in the case, Peter Jacoy, is a first cousin of the murdered man, Joseph Guglielmo, and was brought here from Spokane by the prosecution because they knew he would give Castronovo the worst of it. The doctor says the interpreter did not put the questions and answers properly. If this is so, objections should have been made while the trial was in progress, and it is doubtful if it will avail now to pro-The attorneys for the prosecution deny that the interpreter was unfair, and say the courtroom was crowded with Italiens, who would have made a demon-

stration if such was the case.

District Attorney John Manning made an able argument for the prosecution, and Dan R. Murphy, attorney for the defense, spoke in an effective manner. John Cordano, now an ex-detective, who arrested Castronovo, assisted materially in the conviction. The penalty for mansiaughter is from one to 15 years in the peniten-

BARRED OUT FREEMASONS. Affidavits That the Savages Guarded

John R. Foster.

Freemasons are not allowed to see John R. Foster, the aged ploneer, of whose person and estate B. G. Whitehouse was apinted guardian by the County Court sev

eral days ago. Homer D. Sanborn filed an affidavit to this effect in the State Circuit Court yes-terday. He states that Dora Savage and her husband, Frank Savage, gave such instructions to the servants in the Fos-ter household. In his affidavit Mr. Sanborn says: "Sophia told me she had orders not to admit Masons. I asked her who so instructed her, and she answered

Mr. Savage.
"I said, 'You will have to be very care ful, Sophia. In the first place, you must ask them and know that they are Mans, and then you can obey your or-

"No one was present except Sophia and myself, and the conversation occurred in the dining-room, just as I was going out

the dining-room into the hall. Thereafter, I had a conversation with Bertha Krugg, an unmarried sister of Sophia, who was then engaged in the house as cook, and asked her if she had the same orders, and she said she had. This conrsation took place as she came out of the pantry. I was standing by the screen

door which leads to the porch."

The affidavit further recites that Dora Savage was living in the house at this time, and has been there since the death of Mrs. Foster in December. Mr. Sanborn has also subscribed to the

following affidavit:
"I, H. D. Sanborn, being first duly sworn, se and say that I am acquainted with John R. Foster, and have been so acquainted for 45 years last past, and during the last 15 months and up to January 11, 1903, I was in almost constant attend-ance upon him in his house in this city. "That I have read the complaint filed in the above entitled cause, and that the alle-gations thereof are true, as I verily be-lieve, excepting as modified hereby.

"That I have been asked to state under oath what knowledge I have tending to support the last sentence of paragraph 8 of said complaint wherein it is alieged in substance that the defendant, for the purposes therein stated, refused to permit the old French City of Quebec, is registive friends and acquaintances of plaintiff to visit him and denied admission to all E. This caused Mrs. Savage to remark that she would not admit any one again in the morning. It will be denied that Masons were refused admittance, and it will be claimed that San-born has a key to the house himself and can let anybody else in.

WILL REMAIN AT LARGE. Defendants in Gambling Cases Not

to Be Tried Immediately.

The gambling cases resulting from the raid made by Judge Hogue and Attorney B. B. Beekman, about one month ago, will not be tried in the State Circuit Court until Henry E. McGinn, attorney for the and will go to Boston tonight, and probprincipal defendants, finishes his labors as a State Senator. Judge Sears made this to reach home in two weeks. ruling yesterday morning.

District Attorney Manning states that he is prepared to proceed with the trial, and may ask Judge Sears this morning to modify his ruling. The deputy District Attorney suggested to the court yesterday that as Mr. McGinn is away, court might appoint counsel to take his place and defend the case, but the court decided not to do such a thing, and held that the defendants are all at lib their own recognizance, and are therefore the Willamette and Columbia Rivers was not particularly inconvenienced because of considered in executive session, but the a month's postponement. month's postponement.

Defendants Are Dissatisfied,

A motion to vacate the decree in the uit of Louisa Schwartz and Anna Gerhardt against their father, Martin Ger-hardt, was filed in Judge Sears' court yesterday. The children sued their father to recover money left them by relatives in Germany, and the decree was in their favor. The motion is based on the ground that at the trial the defendant offered no testimony, because he considered the plaintiffs had made no case, and that plaintiffs are now being allowed to submit further evidence, which cannot be done after a decree has been declared.

Judge Webster has gone to Green River, and there will be no session of the County

Court today.

In Memory of Beecher.

NEW YORK, Jan. 26.-Among the suggestions being considered in connection with the Beecher memorial is one to place in Plymouth Church, Brooklyn, a series of 18 stained-glass windows, to typic the struggle for religious and political lib the struggle for rengitus and pointed in the movement. Some of the scenes sug-gested would be Savonarola preaching re-ligious liberty; Martin Luther posting his defiance of Rome on the doors of his church; incidents in the life of Cromwell and in the French Revolution; Pat-rick Henry exclaiming, "Give me liberty or give me death"; Webster replying to Hayne, and Lincoln at Gettysburg.

Stained-glass experts express the opinion that the Broad-street windows would be admirably adapted to pictorial treatment.
