THE MORNING OREGONIAN, MONDAY, MARCH 23, 1903.

FUNSTON IN CHARGE FACTORY IS BURNED PART OF POWER PLANT OF HOTEL PORTLAND BEING OPERATED **ON SEVENTH STREET** Kansas Warrior Commands Fire Does Much Damage on Department of Columbia. East Side. ports in Month of February. CEREMONY LACKS FORMALITY PLANING MILL BADLY WRECKED Seneral Randall, Who Has Been for Wieked Blaze Early Yesterday Morn Two Years at Vancouver, Leaves ing Destroys \$15,000 Worth of for San Francisco, Whence He Property-Firemen Bave Plenty of Work. Goes to the Philippines. The simple coremony of transferring the Fire broke out yesterday morning at command of the Department of the Coan early hour in the pulley manufacturing command of the Department of the Co-lumbla from General Randall to General Funston took place at the department headquarters at Vancouver Barracks yes-terday morning at 10 o'clock. General Randall left hast evening for San Fran-cisco, from which place he will sail in a few days for his new station in the Philipping. establishment of W. M. Parellus on the southwest corner of East First and East Yamhili streets. It spread to the Enter-prise planing mill alongside, owned by Peterson, Rosetine & Jackson, and be-fore the fire was extinguished \$15,000 worth of damage resulted. It was due to the work of the firemen that the fire was confined, and did not sprend to the big warehouses adjacent, Philippines Philippines, General Randall met General Funston in Portland, Saturday evening, and re-turned to Vancouver the same night to see that the necessary preparations for receiving the new commander were caraprend to the big whether amount of hun-dreds of thousands of dollars. When the alarm was sounded calling the depart-ment to the warehouse district, represen-tatives of the big firms hurried to the ried out perfectly, General Funston went over yesterday morning on the electric car, and was escorted to the headquarters cur, and was escorted to the henaquarters at the east of the barracks. It was exactly 10 o'clock when General Randall led General Funston into the main offices and suid simply: "Here is the headquarters of the Department of the Columbia." That was all there was to it, and the rest of the day was spent by the famous little fighter from Kansas in looking over the barracks, and en-joying the matchless Spring day that evidently happened along just to show him that Oregon weather was not so bad after all. As the warm rays of the smilling sun beat down on the parade ground, and shimmered allke on the neat quarters and the waters of the mighty fiver that gives the department its name, General Randall went from house to house bid-ding friends farewell. For nearly two years Vancouver Barracks hat been his home, and the the near the suit on the men scene with quaking hearts. For the first scene with quaking hearts. For the first time there was plenty of water, and for the first time a fire in this district was held in check and quickly extinguished without hurning itself out. The ware-housemen openiy expressed their satisfac-tion and admiration for the firemen-long and short, light or heavyweights. The main building of the pulley fac-tory stood about 75 feet from East District and was a transform strucat the east of the barracks. tory stood about is test from Last First street, and was a two-story struc-ture. On the east side was the boiler-house and in the rear the dry kila, while the office and store stood on the corner of East First and East Yamhill streets. An alarm was struck from box 214, and Chief Campbell soon sent in a call for the big ongine. As the buildings were filmsy and dry as tinder they burned like a flash Gry as under they burned a man a barn. Soon the entire range from the pulley factory to East First street was affame. The Enterprise Planing Mill, which stood alongside the pulley factory, caught, but the firemen drenched it with water, and Vancouver Barracks had been his home

alongshoe the pulley includy, chaight, but the firemen drenched it with water, and prevented the fire from extending to the Harris Ice Machine Factory on East Water and East Yamhili streets. It was a hot fight at this point, but it was soon won. The ice machinery factory was in operation and did not stop. For a time the Christenson Machinery company, south of the blazing building, was endangered, and while the heat was intense the roof caught fire, but was quickly extinguished. The Buffaio Pitts Company's big warehouse on the east side of East First street, was scorched with the heat, but Chief Campbell kept a close watch that it did not catch fire. The ob-ject of the Chief was to confine the flames and prevent their spreading to the Chris-tensen's machinery-house on the south or

and prevent their spreading to the Chris-tensen's machinery-house on the south or to the warehouses on the opposite side of Enst First street, and this was done. It was the first fire in this district on the East Side when the firemen had pienty of water. Three streams were had in from the hydrant on the corner of East First and East Yamhill street. Engines 7 and 1 were stationed at the in-tersection of Bolmont and East First tersection of Bolmont and East First streets and engine No. 3 was placed at East Morrison street. This disposition gave enough streams to flood the burging uildings and effectually protect the sur-oundings. Hose Companies Nos, 2 and truck 4 and chemical 4 were also on

From the pulley building to East First street all the structures were practically burned to their foundations, but the fire-men guarded underneath so the fire did not creep under the elevated roadway in any direction. The building of the En-erprise Planing factory was left standing, out was badly wrecked.

but was baily wrecked. The losses were mainly confined to the stock and machinery. M. W. Parelius, owner and manager of the pulley fac-tory, arrived on the scene after the fire was over and he saw only the ruins of the prosperous plant, which he left intact

and Formal Organization Will Be Perfected Next Month.

There is enother movement on foot to rganize a new church out of the members of the Second Baptist Church at East Sexenth and East Ankeny streets, hast brackin and East Ankeny streets, who are dissatisfied with the conditions and methods of the majority who forced the resignation of Rev. William E. Ran-dall, by a vote of 60 to 65, some time ago. All efforts of the conference of Portland Baptists to bring about a harmonious agreement have failed, and now it is an-nounced that all those who are standing. nounced that all those who are standing by Mr. Randall, numbering about 75 of the influential members, will ask for their

working on the sketch plans for the re-modeling of the prospective Postoffice since Friday, and will mail them tomor-row to the authorities in Washington for approval. Postmaster F. A. Bancroft and United States Marshal W. F. Mathews

docks yesterday seemed to enjoy looking over the vessels which are here, and the river never looked pretifer than it did in the bright sunshine. There was no shipping moving, and none of the vessels were working.

FOREIGN TRADE GROWS. Great Increase in Exports and Im-

WASHINGTON, March 22-The export WASHINGTON, Murch 12.—The export trade of the United States is rapidly re-suming its normal conditions. February figures of the Bureau of Statistics show the largest exports of any February in the history of our commerce, and also show that the exports of the three months end-ing with February were larger than those of the corresponding period of any earlier year. On the import side, the figures also show a continuation of the growth which has characterized the last two years, and the figures of the eight months ending with February suggest that the imports of the United States in the fiscal year 1960 may exceed \$1,000,000, while the export

may exceed \$1,000.000.000, while the export figures seem likely to exceed \$1,400,000.000. In the short month of February alone the exports amounted to \$15,500,106, which is \$12,000,000 in excess of any preceding February, and more than double the figprotection of the second secon

1215.131.474 in the three months ending with February, 1890. Thus, considering either the month of February or the three months ending with February, 1830, the total exports are not only larger than in that period of any preceding year, but practically double those of a decade ago. These large export figures are due in part to the fact that the new corn crop is rapidly entering the markets of the world, to which the United States was able to make but slight contributions last year. to make but slight contributions last year, the corn exportations in February, 190, having been '1.900.000 bushels, against a

SCROFULA

Vancouver Barracks had been his home, and that he says he will come back to it in two years seems to be the most conclusive evidence that he likes the place. It was, therefore, with some slight display of feeling that he visited the homes he knew so well, and finally took the connecting ferry for Portland. A number of officers in uniform, and Genetal Funston himself, were at the slip to see the old warrior off to his new duty. On inquiry, General Funston said: "I am very much pleased with Vancouver. What I have seen has impressed me very much. Ceremony at the change of com-

much. Ceremony at the change of com-manders? Why, there was nothing doing at all. Simple as could be." Again the fact that General Randall Again the fact that General Handall was thinking of the change showed it-self on the trip to Portland. As he stepped on the car, he was respectfully greeted by the motorman, and the salu-tation was returned with thanks. The General sat for a few moments in silence as the car flew by the scenes that had become familiar during the past two years

"There, now," he said with emphasis, "see that fellow's orchard? He knows about trees. See how he's plowed up all that ground so the water can get to the roots. I tell you, too many people expect Nature to do everything. They don't give her any help. Why, there are people up back of Vancouver complain-ing they can't get any prunes from their trees, and they think the trees ought to do it all. No, sir, they won't do it all. But that man knows his work. He al-ways has a good crop, just because he understands." "There, now," he said with emphasi

understands." Again there was a silence, and the General's eyes had a far-away look. "Have a cigar. Don't smoke?" Then with a chuckle: "We'll just see if the old man wants it." and he silpped the cigar slyly into the hand of the motor-man, and was rewarded by a meaning glance. The General looked kindly to the man, and then changed quickly to the green things passing outside the car. "These big vestibules are great aren't

iittle over 1,000,000 hushels in February last year. Cotton exportations show a marked gain over those of last year, the value of cotton exported in February. 1900, being \$17,63,317, against \$24,768,782 in February of last year. Both in quantity and price the cotton exports of February exceed those of February. 1902, the number of pounds exported in February, 1900, being 40,504,789, against 20,514,567 in February last year, while the average price per pound was

while the average price per pound was 23 cents in February, 1905, against 8.3 cents in February, 1902. The following table shows the total ex-ports from the United States in the three

months of December, January and February from 1888 to 1968:

Union ..., of P. Lodge to Build.

UNION, Or., March 22.-(Special.)-The Union Knights of Pythias Lodge, at a recent meeting, decided to erect a com-modious castle hall at once. The building will be 55x100 feet, and two stories high, and will be located on the corner of Main and Dearborn streets. It will be conand Dearborn streets. It will be con-structed of brick, and cost about \$5,000, and when completed will be one of the finest Knights of Fythias halls in the state. The site has been secured and the matter placed in the hands of a committee, with instructions to form a corpora-tion at once and hasten the construc-

Ground Too Dry to Plaw.

SALEM, Or., March 22-(Special.)-Farmers from the hill sections around Salem report that the ground is now too dry for satisfactory Spring plowing. No concern is felt over this condition, however, for drenching rains are yet ex-pected. Orchardists are making the most of this good weather to trim an' spray their trees.

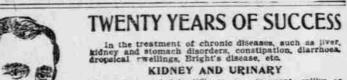

Bad air, poor food, insufficient clothing, dark, damp or crowded apartments are frequent causes of scrofula. Perhaps this explains why the ailment is so common in the poorer sections of large cities. It is but a step from scrofula to consumption and herein lies the great danger. It is just as well to avoid the step.

Scott's Emulsion contains the very . things that nature requires in curing scrofula. The pure Norwegian cod liver oil helps to build up the whole body and enables one to acquire new, healthy, solid flesh: The hypophosphites of lime and soda act as a tonic, replacing the waste and giving strength and new structure where it is most needed.

There is nothing that will do more good in the case of scrofula than Scott's Emulsion.

We'll send you a sample free upon request.

SKETCH OF ARRANGEMENTS FOR

THE TEMPORARY POSTOFFICE.

Will Be Mailed to Washington Tomorrow, and if Satisfactory, Remodeling Contract Will Be Let.

Portland's temporary Postoffice, during the remodeling of the present building. will be in the San Francisco Saving & Loan Society's building, at Sixth and Burnside streets, now occupied by the

Pacific Coast Biscuit Company. C. T. Cramer, a superintendent of construction for the Government, bus been

PLANS ARE NEARLY READY

the prosperous plant, which he left intact the night before. Parelius said he valued his plant at \$000. He had recently put in some new machinery and had considerable atock on hand. The loss seems to be complete. Perhaps some of the machinery may be saved. Mr. Parelius carried \$500 insurance. The main two-story building was the property of the King estate, but the other building more the more the the other buildings were the property of Mr. Parelius. The Enterprise Planing Mill plant-owned by Peterson, Rostine & Jackson-was valued, Stock and machin-ery, at \$500. Mr. Peterson said his firm carried only \$1500. Their loss is mainly on the large slock. Many orders were on hand partly filled, the material being destroyed. The building occupied by the mill is the property of Joseph Paquet. It was only partially destroyed, but being a box huilding was of no great value. At this fire it was shown that the new water main on East First street furnishes an abundant supply, and its presence yester day morning prevented another far-reach ing and disastrous fire in this district, reach

The fire is supposed to have started in the dry klin of the pulley factory. How-ever, Mr. Parellus says that his foreman was at the plant Saturday night at 19 o'clock. At that time there was no fire about the plant. "There is some indication that the fire might have been the work of an incendiary, but there were no developments in that direction yesterday.

U. OF W.'S FINE PROSPECTS Track Athletes and Baseball Players Already at Work.

UNIVERSITY OF WASHINGTON. Senttic, March II.-(Special)-Active prac-tice on the athletic track and baseball diamond began in earnest with the opening of the Spring term.

The prospects for strong aggregations in both branches of these sports have never been brighter. The track squad will include over 40 men, while the candidates for baseball honors will also be close on to that number. Professor Vander Vere will, in all probability, again have charge of the track training, and if an outside baseball coach is not secured by the end of the month, Captain Roscoe Teats will

elf take hold of the practice. the recent indoor meet, Maurice als, a freshman, took the half mile in 2:10 with an case which would have racterized an old record/breaker, sidering that the race was run indoors is laps to the mile, the collegions confident that Tibbals will easily characterized defeat any man in the three Northwest States, if not on the Parific Coast, Wash-Ington's weak place in past years now promises to become one of her strongest. With Scherer and Spidell in the shot put and the hammer throw the 'varsity will always be sure of a number of points. Scherer's record in the shot-put is 37 feet 14 inches. Bartzkes, Ford, Longfellow The Inches. and McCrory will more than, take care of any ordinary bunch of long-distance runners. Harry Lendig surprised every-one recently by vaulting 10 feet 2 inches. Lindeg has been doing no work in this event for the past two years.

shot While in Bad Company.

BUTTE, Mont., March 2.-A Miner spe-cial from Idaho Falls, Idaho, says that Joe S. Brown was shot by an unknown hold-up a few minutes after mildinght less night, at that place, dying an hour inter. Brown was in the company of a wellknown character of the town at the time of the abooting. They had started for the depot, when a man appeared in front of them and another in the rear. An in-stant later the man in front fired, the bul-let piercing Brown's abdomen.

etters this week. Already several pre liminary meetings have been held looking to the organization of a new Baptist Church, and the first Sunday in April a general meeting will be held in the Wood-men of the World Hall for formal organdemand for money is also diminishing and little was heard last week about borrow-ing from New York. The main features of the Berlin stock zation. Meetings will be held in this hall for some time to come, until steps can be taken for erection of an edifice. Rev. Will. Iam E. Randall will undoubtedly be the pastor. It is said that between 70 and 75 market were the strength of industrial securities and the weakness of domestic and foreign loans. Some of the foreign rentes of high denominations remained in good demand. Among industrials, iron members will demand letters from the Second Church next' Thursday evening, and that those who go out have furnished the main support of the Second Church in average of three to four points. The reports regarding the iron trade continu the past, and have put up most of the money for its erection and completion. Just what the effect will be if this wholesale withdrawal provails, is prob-lematical. Those who opposed Mr. Randall and his supporters say that if a new church be started it cannot hope to se-cure recognition in Baptist official circles, and that it will be an outcast, but this taiment of the sales of blooms, milets, etc., abroad. The Koelinisck Zeltung re-ports that the uncovered flome demand for half-rolled goods for the June quarter amounts to from 80,000 to 120,000 toms. Coal shares made a further advance, but threat does not seem to worry the organ-lizers of the new church. Rev. Stanton C. Lapham, who accepted a call to supply the pulpit for a time, was counsel before

the conference for the majority in the controversy. He says, however, he was there to help to heal the trouble. In the moraing Mr. Lapham preached on "The Known and Present Christ." He upon the failure of the North German Lloyd to pay a dividend. Money remained abundant. Loans for the carry-over com-mands 4 per cent. Rates are expected to on "The Known and Present Christ." He handled his subject from a practical point of view. In the evening he spoke on "Childlikeness in Conversion and Chris-tian Character." Mr. Lapham has a flu-ent and pleusing manner of address. He makes practical all the lessons he draws out of the text. He was pastor of Eman-uel Baptist Church for three years, and has preached in most of the Baptist churches in Portland, and is not a stranger to the members of the Second Church. become easier in Anril. Americans and Canadian Pacific were the sole redeeming feature in last week's stock market. There were flurries here and there during the week, the news of the Urugunyan revolution, for instance, causing temporary excitement, but other-wise the whole lists have been lifeless, and there is little hope of improvement Church.

New Brickyards.

Loyal Kern has just broken ground for a large new brickyard on the Section Line road on the Howe ground, half a mile west of the Lower Mount Tabor reservoir. He has considerable space and will put up 2000,000 brick in this yard this sea-son. In his old yard on the Section Line road at East Twenty-eighth street Mr. Kern will turn out 2,000,000 brick, thus which will turn out a comove brick, thus making his total output not less than 4,000,000. There are several other new yards starting up, which, with the old yards, will supply all the brick that can be used this year in Portland.

A Chinese Row.

East Side Notes.

man was slightly cut.

A disturbance brought the patrol wagon vesterday forenoon to the China washuse at 409 East Oak street, run by Goon Sing, but it went away empty. An aged Chimman in the upper portion of the building was set upon by the others and beaten, when he set up a great outery and beaten, when he set up a great outery, causing the neighbors to imagine that a murder was being committed, and the patrol wagon was sent for. The fracas was without serious results. One Chinanum during her life.

sume command of the Department of the Columbia at once, relieving Brigadier-General George A. Randall, who will leave in a few days for San Francisco en route East Side Notes. ' The East Twenty-eighth-Street Improve-ment Association will hold an important meeting this evening in the missionhouse on the corner of East Glisan and East Twenty-eighth streets. An invitation has been issued to all property-owners to be present at this meeting. Important com-mittee reports are expected. A long train of flat cars came in yester-day morning with dirt for the fill on East first street. The load was dumped from the intersection of East Morrison street northward. The filling of Third street is proceeding steadily. Many trainloads of to the Philippines. Being Sunday, the customary salute was omlited and there was no demonstration signalizing the new commander's arrival.

BUSINESS ITEMS.

If Baby Is Cutting Teeth, Be sure and use that old and well-tried remedy, Mrs. Winslow's Southing Syrup. for children icething. It southers the child, softens this guara, allays all pain, curve wind colic and diarrhose.

had in the new building. Owing to the peculiar shape of the build-ing it has been very difficult to arrange the different departments. The dimen-sions are: Forty-two feet on Ankeny street, 134 feet on Sixth street, 56 feet on Burnaide street and 120 feet length of back wall. Mr. Cramer and the Description of Burnaide street and 120 feet length of back wall. Mr. Cramer and the Postoffice offi-cials, however, think that the building, chain, dowever, think that the building, according to the sketch plans, will answer the purpose for the length of time it will be in use very well, and expect to receive the approval of the authorities imme-diately after the plane are negligible. diately after the plans are received at Washington

Owing to the present rate of increase of Owing to the present rate of increase of business in the Postoffice it was desired to secure a building whose facilities would be at least 50 per cent greater than those of the present office. The new building is in every way much better than the pres-ent one, and while some departments will not be greatly improved, the service as a whole will be much better than at the whole will be much better than at the present time. According to the sketch plans, the entire first floor will be used for the Postoffice.

On the second floor will be the offices of Postmaster Bancroft, the assistant postmaster, cashier, railway mail clerks, Dis-trict Attorney, and the money order department

The third floor will be devoted to th United States Courtroom, the offices of the Judges of the District and Circuit Courts, United States Marshal, District and Cir-United States Marshal, District and Cir-cuit Court clerks, prisoners' rooms and toilet. The District Attorney will also be on the fourth floor. He will be provided with a public and a private office, as well as an office for his assistant. The court-room will be two stories in height and will, therefore, take up a large part of the fourth as well as the third floor. A gallery will be constructed on the first floor for the purpose of storing supplies. more for the purpose of storing supplies, while a small room will also occupy a part, as an office for the special delivery

outlook in Venezuela comes clear. The Southern Pacific Ballroad struggie is watched with interest on this side, and has created a certain degree of nervous-The heating and elevator apparatus will occupy the basement, also a "swingroom" for the postoffice cierks. Along one side of the driveway that is out through un-der the building a four-foot platform will

der the building a four-foot platteria win be erected, thus making an II instead of a 15-foot driveway. In case the plans are satisfactory to the department in Washington a contract for the building will be made at once, and the building will be vacated by the Pacific Coast Biscelt Company. This will con-sume nearly two months' time, owing to the heavy machinery that must be moved. the heavy machinery that must be moved. The improvement of the present post-office building will take all of two years, thus making it necessary to handle all the business increase owing to the 1966 Fair through the temporary office. Mr. Cramer will leave for Salem today, where he is superintending the work on the new Salem Postoffice.

The Water Mocossin.

PORTLAND, March 18 .- To the Editor. -Your paragraph on snakes is a little shy on fact. The water mocassin you say is not seen north of Tennessee. My boyis not seen north of Tenneissee. My boy-hood home was in Montgomery County, Illinois, where I have seen many a muddy copper-colored mocassin, which had a way of going straight for a boy in swim-ming. It was generally understood that they could not bite under water, which gave us a fighling chance with them. The mocassin is common along the sluggish etreams comptying into the Mississippi and Wahash rivers as far north as Alton and Terre Haute. C. E. CLINE.

row to the authorities in Washington for approval. Postmaster F. A. Bancroft and United States Marshal W. F. Mathews have made some very valuable sugges-tions during the planning and'are well estisfied with the facilities that will be had in the new building. Owing to the peculiar shape of the build-ing it has been very difficult to arrange the different departments. The dimen-tions are fortunates of the build-the strand to stand up all the way over. Yes, there has been much done since I came here. Look at all this part of the been built up in the time I've been here. "Tree known so many difficult to arrange the different departments. The dimen-tions are fortunates of the build to stand up all the time the been here. "Tree known so many difficult to arrange the different departments. The dimenbeen built up in the time I've been here. "T've known so many line people in this place during my stay, that I don't want to go. But that's the way with the soldier. Makes friends in one place, and then has to move on to another place. Now I've been in the business" a long time, and I'm just getting ready for the Philippines. But it's only for two years, and then I'm coming back. I won't say home for we haven't any I won't say home, for we haven't any home, but I'm coming back to this cilmate." Then with another quiet chuckle, "Twe got all my stuff in a warehouse over in the city, and it'll be already for me when I get back. Yes, in two years I'll be retired and then I will be back to I'll be retired and then I will be back to Portland, yes, I might say back home."

Quiet Day on the Front.

With only about a dozen vessels scat tered from one end of the harbor to the other, the water front presented a quiet and penceful scene yesterday. Unfortu nately for the large number of visitors who wander along the water front on pleasant Sundays, the big fleets of ships and lively scenes along the front come during the bad weather of Winter time. Still the big crowd that was around the

A DOCTOR MEN DO TRUST

Every Patlent Has His Personal Attention

Thirty years of his life have been devoted to the cure of men's weaknesses and discuses. He has cured many thousands of cases right here in Portland, where he has been located for thirty years. By his system of treatment, mental and physical wreeks are made men of glorious manhood. He never fails in effecting a cure when his instructions are carried out. His great pride is in the fact that he wins the respect of his patients. He makes friends of them. He never betrays a confidence. That is why he glories in his work. That is one reason for his success.

He especially invites those who have been treated by other doctors and have not been cured to come and let him tell you why you were not cured. Let me point out to you by the use of the X-Ray the way by which you may recover your health, strength and vigor of mind and body.

YOUNG MEN who are suffering from the effects of indiscretions or Ex-flictions: Nervous and Physical Debility, Varicoccile, Losses, Exhausted Vitality, Confusion of Ideas, Dull and Loss of Brilliancy to the Eye, Despondency, Pim-ples on Face and Loss of Energy, A POSITIVE and PERMANENT cure is AL-WAYS, GUARANTEED by MY "NEW METHOD CURE." You may be in the first stage, but remember you are fast approaching the last. Do not let false pride and sham modesty deter you from attending to your agonizing aliments. Many a bright and naturally gifted young man, endowed with genius, has permitted his case to run on and on, until remorse racked his intellect, and finally death case to run on and on, until remorse racked his intellect, and finally death claimed its victim. Remember that "PROCRASTINATION IS THE THIEF OF TIME.

> Middle-Aged Men who are prematurely old as a result of excesses or indiscretions, and are troubled with too frequent evacuations of the

bladder, often accompanied by a slight smarting or burning sensation, deposits of ropy sediment in the urine, and sometimes small particles of albumen, the color first of a thin or milkish hue and again changing to a dark and turbld ap-pearance, causing nervous debility and loss of vitality, remember this is the second stage of LOST capacity. In all such cases a perfect cure that remains cured is guaranteed in every case taken, and of the thousands treated, both by mail and at the office, not one case but was cured. Always inclose ten two-cent ps, and write the reliable old doctor and pay no attention to circulars and lit-tie pamphiets thrown around.
