EMMETT DRAKE PRESIDENT First Game Will Be Played with Spokane April 14—President Lucas at Work on the Schedule.

Officers Pacific National League Team. President—Dr. Emmett Drake. Vice-President—A. B. Crossman.

"You'll hear from us now," declared the members of the Portland National Baseball League last night. "We're out for business, and we're going to give the Portland people the kind of baseball they want to see."

The first meeting of the stockholders was held last night. Officers and a board of directors were elected, and the work will be pushed from now on.

Manager Jack Grim was at the meeting, and when he came away he was satisfied with the result of the night.

"The board of directors," he declared, "after the meeting, will show where we stand. It will show what kind of people are behind the Nationals.

"We will have a practice game with the Multnomah club on their grounds next Saturday, and we will have a game with the strongest possible local opposition next Sunday.

"Our park," and the manager of the Portland Nationals was really pleased that the park was brought up for consideration. "We are going to have a first-class grandstand, a place below where the men can go when they want to have a quiet smoke and not bother the ladies, a lot of room-in fact all that can be desired."

nomah field for the first game of the season. This far the material for the club team has been of the best quality, though limited. Several of last year's men are no longer in the city, and the places thus made vacant are being filled with new material.

Piwenden Stott, well known on gridiron and diamond, will do his regular stunt behind the bat. He caught three years for the Portland Academy team and this year played the same position on the club team. He plays remarkable ball, and promises to be in as good shape this year as ever.

Bob Williams, the star twirler of last year, is now at Stanford on the varsity nine, and his place will have to be filled with a new man. This far Charley Deament and Floyd Cook are the best men that have turned out. Deament is at Walla Walla, and he is pitched on the nine at Shattuck School, in Minnesota, two years ago.

"In the field a number of men have turned out, among them being Doble and Wickenham, both old men. There are enough new men to get another fielder from, and then the team will be complete. No definite plans have as yet been formulated as to the summer schedule, but it is supposed it will include games with Chemawa and other Valley teams. A trip will probably be taken to Puget Sound and games will also be pulled off at the Chautauque.

McGOVERN YET A GOOD MAN. Young Corbett Says He Has Not Gone West. SAN FRANCISCO, April 6.—"None of those clever men back East will lick McGovern," observed "Young Corbett" yesterday while talking over the great battle of Tuesday night.

"Every bit as good," returned the champion. "If anything, I think he was better. He was as fast, and if anything could hit harder. Don't you think he can't hit? Did you notice that Terry blocked a great deal? He never did that before in his life. In his other battles he went in and gave blow for blow. He changed his style for this fight, and I knew that he would do it. At times he would forget to cover himself and he would go back to his old style. Sam Harris watched him like a hawk and would yell whenever he left any big openings."

"I think you worried him more by your talk than you did by your right-handers," said Edulis. "Before the fight I had a talk with McGovern, and he promised me that he would break whenever I asked him. And I think he meant to do so until you began to tantalize him with your foot-tapping. He played safe on your plan of battle. Terry got the hottest when you said to him in the fifth round: 'Why don't you quit like you did at Hartford?' He wanted to kill him, and how he did sail in to hammer you! Then he got mad again when you said to him: 'You came a long way to get licked.'"

Corbett stated that whatever soreness he had after the fight had left him and he felt as limber as he did before he went into the ring.

SAN FRANCISCO, April 6.—(Special.)—Manager John J. McCloskey returned yesterday from a flying trip East, where he went to sign players for his San Francisco team. There were a few whose names he would not divulge. "I have signed Zezaros, who was with me at Butte last year, to catch," said he. "I have an exchange, but I cannot care to mention his name. For pitchers I have Glendon Young and another man. I don't want to name. At first, I will have Weaver, an old-time hard-hitter, at second. I also have two other men signed. Ely, of National League fame, will play short, and Weed, who was with Portland last year, third. In the outfield I will have Marshall Hill, Houston in center and Perham in right. They are all hitters in the outfield."

McCloskey said the season would open here week from tomorrow. Battle playing the first game. He was out to see the grounds today, and was surprised at the amount of work that had been done. He said that the diamond would eventually be sodded.

THE DUTCH MUST WALK THE DUTCH TIES UP ALL TRANSPORTATION IN HOLLAND.

Practical Protest Against Anti-Strike Laws Paralyzes Traffic—Troops Guard Railroads. AMSTERDAM, April 6.—At a night meeting, the workingmen's committee proclaimed a general strike throughout Holland of labor engaged in transportation both by land and water. All the railroad lines, stations and wharves are troubled and stopped by a revolver shot fired by a soldier today. The man, who was walking on the railroad, was not aware that the strike had been proclaimed, and failed to reply to the soldier's challenge.

The president of the workers' committee of defense in an interview said the strike proclamation involved the entire railroad system and other land transportation of Holland, and the water transportation of the ports of Amsterdam, Rotterdam, Dordrecht and Zaanandam. The strike, he added, was intended as a protest against the anti-strike laws, as well as to support the demand of the railroad men for an increase of wages before the passage of laws made an improvement in position impossible. The president also said the strike would spread to other branches of labor.

The staffs of the shipping companies trading with Holland have stopped work in sympathy with the strikers. Only one train left Amsterdam this morning, and it was protected by troops. A number of gendarmes charged a crowd of strikers during the night. Several were wounded with a sabre. The diamond-cutters have decided to strike in sympathy with the railroad men. A number of gendarmes charged a crowd of strikers during the night. Several were wounded with a sabre.

ALL IDLE AT ROTTERDAM. No Vessels Being Loaded—Troops Capot Reach City. ROTTERDAM, April 6.—A dock laborer, wagon driver and all other engaged in industries connected with the port have joined in the general strike. A formal declaration was issued by the strike leaders here to the effect that the strike was not connected with the question of wages, but was solely against the proposed anti-strike laws. The withdrawal of these laws is demanded. The railroad is guarded by marines, and a sufficient number of employees have remained at work to enable the running of a few trains today between Rotterdam and Amsterdam.

THE HAGUE, April 6.—A general strike of the railroadmen in the Netherlands is being guarded. The government is endeavoring to maintain the foreign mail service by troop-protected trains. One thousand troops are on duty on the Netherlands Railroad in restricted numbers. Queen Wilhelmina, who is at Castle Loo, has signified her intention to return to the Hague immediately if affairs of any kind arising from the strike situation require her presence here. The government hopes the precautionary measures taken will suffice.

RESERVES ARE CALLED OUT. Queen Takes Vigorous Action Against 50,000 Strikers. BRUSSELS, April 7.—It is stated that the Queen of Holland has signed a decree calling out all the military reserves in order to meet the demands of the strike, which now affects 50,000 men.

SPAIN STIRRED TO DEPTHS. Agitation Among Students Now Directed Against Royal Family. MADRID, April 6.—The situation has become graver in the university towns, where the treatment of students has created intense indignation against the government. In Madrid the agitation is gaining ground. AIMED AT KAISER'S SCHEME. Alleged Purpose of Edward's Visit to Rome and Home. NEW YORK, April 6.—Immense significance is attached to the forthcoming visit of King Edward to Rome and Paris, says the London correspondent of the Tribune. One paper goes so far as to declare that the King's tour spells annihilation of the German Emperor's ambitious schemes, as Germany could never dream of risking a quarrel either with England or America since the completion of the United States Circuit Court of Appeals in the Ninth Circuit. The case of the United States Railroad Company et al. vs. the United States. The action was brought to quiet title to land in Southern California in dispute between

the Southern Pacific and Texas & Pacific Railroad Companies, both claiming them under Government grants. The opinion held that the land in controversy was held by the Texas Pacific and not by the Southern Pacific grant.

WASHINGTON, April 6.—The controversy over the water rights owned by the Board of Supervisors of the County of San Diego, California, and which was crystallized in an action brought by the San Diego Water Company, was decided by the Supreme Court of the United States in favor of the county. It was alleged that the rates were so low as to amount to the taking of property without due process of law. The court held that the facts did not sustain this contention.

Tax on Cattle on Indian Land. WASHINGTON, April 6.—The Supreme Court of the United States today affirmed the opinion of the United States Supreme Court of Oklahoma in the case of Sheriff Foster, of Noble County, Oklahoma, vs. L.
