## MUCH WATER MAIN

East Side Needs More Supply Pipe.

UPPER RESERVOIR WILL BE USED

Many Business Blocks Are Being Erected Across Willamette-Fraternal Lodges Will Build Halls for Their Own Use.

Much water main will be laid on the East Side the present year. In Albina eight-inch main will be laid on Morris street to Union avenue, on San Rafael street to Union avenue and on Rodney avenue from San Rafael to Russell street. For these lines pipe has been distributed. The contract has been let for the 20-inch main which will be laid on East Stark street from its intersection with East Thirty-Fifth, on East Twenty-Eighth street to Oregon and on to Upper Albina. The last half of this pipe line will be ced to 15 and 16 inches. Residents lively interest in this main, and hope it will soon be put under ground. They fear they will again suffer shortage of water this season as heretofore. It is announced, however, that the pipe will be laid as soon as manufactured. on East Twenty-Eighth street have a very laid as soon as manufactured.

Owing to the heavy increase of dwell-ngs all over the East Side, largely aug-menting the use of water, it will not be long before the Water Committee will be called on to install high service from the upper reservoir at Mount Tabor. At present the entire East Side water sup-ply comes from the lower Mount Tabor reservoir, which up to recent years has been sufficient, but buildings have reached the higher districts in every di-rection. New tracts have been thrown open to the public, and now the pressure on the higher levels is hardly sufficient, and the higher reservoir will likely have to be tapped with a main that will come down disgonally along the Mount Tabor slope through Sunnyside. This pipe line was surveyed when the reservoir was The vast building area east of East Twentieth street has doubled the of consumers, so that the low does not supply sufficient force.

Selected Building Lot. The selection of the lot on the south-ast corner of East Sixth and East Alder recets by Fidelity Lodge, No. 4, A. O. W., for a fraternal hall is regarded as most opportune. The lodge was will-ing to give \$100 for an option on this ground, to expire on the first day of July, a little over two months in which to organize a joint stock corporation and get the company into working order. The price of the lot is \$300, but the lodge cannot hope to secure a building atte under that figure in a good place, and it will have done well when it secures this lot. There is much enthusiasm among the members. Something over 200 shares of the 1000 to be issued have actually been subscribed, and that without much solicitation. Hardly any member will not take one of more shares, which can be carried very easily under the condi-tions proposed. When a certificate of stock is delivered only \$1 per share is paid. It will become a matter of pride on the part of Fidelity lodge to make

this building enterprise go, now that it has been put in motion.

It is proposed to build a purely fraternal hall, without store rooms. The lodge room will be on the second floor and a banquet hall and public function hall will be on the ground floor. All fra-ternal orders must nowadays have such adjuncts, as their social features are the drawing ones. The undertaking is regarded by the members with due con-sideration, and none but thoroughly bus-lness men are to be entrusted with this

The members of the Central Albina Board of Trade are highly pleased over of the prospects of soon being able to street and Mississippi avenue. It is a board of trade building. Its projectors and the stockholders in the building as-sociation are composed of members of the board, and the scheme to put up this building is the work of the Central Al-bina Board of Trade. The building cov-ers nearly the entire let, 190x29 feet, and in situated where the double tracks of avenue branch of the City & Suburban Rallway Company will be built. On the first floor are two store rooms facing the avenue and one small room in the back end facing Shaver street. On the second floor is the hall for the Board of Trade and for local public functions. It is provided with a stage. It is expected that enough rentals will be secured to pay a fair interest on cost of the property. Owing to the ably be little difficulty in keepping the business rooms rented.

Form Building Corporation. Evening Star Grange, No. 27, Patrons of Husbandry, which owns and meets in Multinomah Hall, on the Section Line road, has authorized Master A. F. Miller to name a committee of three on incor-poration for the erection of a two-story hall on the site secured some time since on the Section road a short way from Multnemah Hall. It is proposed to erect a building that will cost about \$2000 on the new grounds. While there is con-siderable diversity of opinion among the ers as to the best methods to adopt ng 25 more applications are expected to be read. The grange owns Multnomah Hall and grounds, valued at \$500, and the new site, valued at \$500, and hence it has a working busis for the new hall. It is proposed to dispose of the Multnomah Hall property and turn the proceeds into the building fund. It is confidently expected that \$500 will be realized, which will leave but \$1500 to be provided for a more the 500 and more. The grange owns Multnomah Among the 200 and more provided for. Among the 200 and more members it is conjectured that enough stock will be quickly subscribed so as to secure the necessary funds to go ahead with the new building. Evening Star is regarded us the banner grange in the state, and has the largest membership. The grounds that were secured for the new building are in the center of a very building are in the center of a very constant. thriving district, and the time is not far distant when a suburban car line will pass that point. Another Sawmill.

F. S. Doenbecher and M. L. Holbrook will erect a sawmill at St. Johns on the north water front. These men purchased a considerable tract of land in that part of Albina several months ago. They own fractional blocks IL I2 and I5 facing own fractional blocks II. It and II. facing the river, and it is on these blocks that the plant will be erected. The St. Johns City Council has been asked to vacate North Front street and several intersecting streets. The petition asking for the vacation of these streets sets forth that they are only suitable for manufacturing purposes and to vacate them will not work a hardship on any interested parties. The location for a sawmill plant is considered excellent, as it has the railway spur on one side and the Willamette River in front. The street committee of the Council is investigating Wilamette River in front. The street will cut be the application. A mill that will cut be tween 50,000 and 75,000 feet of lumber per day will be installed at St. Johns. Plans have not yet matured and cannot be count of that violation. A special committee of the Albina Improvement Association is forming plans in any form or shape must cease at once. Remove all gambling tables, tools and implements of every kind upon the repair to this meeting the committee of the Albina Improvement Association is forming plans for heiding a mass meeting of the citizens of that portion of the city in the interest plans are the provided and in the Albina Improvement Association is forming plans for heiding a mass meeting of the citizens of that portion of the citizens of that portion of the citizens of that portion of the citizens of the Albina Improvement Association is forming plans in any form or shape must cease at once. Remove all gambling tables, tools and implements of every kind upon the relative of the Albina Improvement Association is forming plans in any form or shape must cease at once. Remove all gambling tables, tools and implements of every kind upon the relative of the citizens of the citizens of the second Albina ferry. Preliminary

Another Business Center.

Owners of the block bounded by Union and Grand avenues, East Chy street and Hawthorne avenue, are talking of covering it with buildings. A. G. Rushlight, who owns the corner on Grand and Hawthorne avenues, has aiready started work on the foundation of a frame building. J. S. Foss, Gus Bartman and Gus Kissling, who own the remainder of the block, are figuring on grading down the block and erecting two-stery buildings to cover most of their holding. Buildings will be put up for stores on the first floor and spartments in the upper stories. Iney figure that such buildings will pay well, especially during the Exposition, when apartments will be in great demand. The four owners secured this fine

when apartments will be in great de-mand. The four owners secured this fine block at a bargain from the English owner, the purchase price being stated at 29,000. It was held a few years ago at 45,000. If the owners carry out their plans they will help to build up a busi-ness center at this intersection.

System of Boulevards. There are prospects that the system of boulevards laid out on the Peninsula will be well improved, according to the origi-nal plan. The old City Council of Al-bina was roundly abused as profligates for laying off this system and letting for improvements amo to \$45,000, but events have justified the wisdom of the Council. Much work has been done on the Willamette boulevard. which follows the river mainly to St. Johns. It is in the care of the county, and a roadway is being graveled all the way to St. Johns. The County Commissioners have secured four acres of land for a gravel pit and will gravel the Columbia baselessed house and the Columbia baselessed house are set the columbia. lumbia boulevard, known as the Colum-bia slough. In North Albina, Maryland

Various Building Notes. The Southern Pacific Railway Company this week laid a side track to the build-ing of the rortland Canning Company on Stephen alough, near East Caruthers street. This gives direct railway transportation and eliminates the cost of

street, in Lower Albina, is being repaired by the new owner, J. Muecke, who is a sawmill man. He paid \$500 for the prop-erty. He will spend about as much more before he can hope for returns, as the building was nearly wrecked. In the early days of Albina it was the center of all the business activity, but that was all the business activity, but that was before the building boom had reached into

Upper Albina. The old Albina sawmili is a thing of the past. It has been completely razed and the timbers moved away. This saw-mill was a landmark in Lower Albina. There has been talk of a flour mill being built on the site.

The Portland Manufacturing Company, which operates a veneering factory at St. Johns, has acquired more water-front land between its plant and the electric saw-

mil, and will erect more buildings for manufacturing purposes.

After much delay, work has been started on the improvement of Umatilla ave-nue, through Sellwood, between the river and the Milwaukie road. The old worn-out planks are being removed prepara-tory to the regraveling of the center of the street. No street work has been done in Sellwood for about ten years, and this is the first improvement started. Steps have been taken to get Spokane avenue

have been taken to get Spokane avenue improved in the same way.

During the past week Contractor Ben Smith has made good progress on his Job of pile-driving for the foundation of the main mill building and elevated roadway for the Standard Box Factory at the foot of East Pine and East Ash streets. An elevated roadway has been built on East Water street to East Ash, and work has been started on the foundation of the mill between East Ash and tion of the mill between East Ash and

tion of the mill between East Ash and East Ankeny streets. The incline on which logs will be hauled into the mill from the river was built this week, so as to be ahead of the high water in June. Work on this new mill plant will be crowded as rapidly as possiblé. Considerable activity has been started at the east end of the steel bridge. Mr. Waggoner is completing a two-story business building, on the first floor of which there are four store rooms, while the upper part will be used for furnished rooms. Between 40 and 50 new houses have just been completed at the end of the bridge, and the indications are that a business center will be developed at this point. Improvement of the streets centering at this end of the steel bridge will be helpbeing erected on the corner of Shaver this end of the steel bridge will be helpful in this direction.

#### CHILD LABOR COMMISSION Holds First Meeting and Appoints Officers for Varying Terms.

The Child Labor Commission appointed by Governor George E. Chamberlain for the enforcement of the child labor law passed at the last session of the Legislature, at its first meeting on Bat-urday evening at the office of the Portland Labor Press, elected officers, established headquarters and disposed of the usiness before the board at the present

The election of officers resulted in H. G. Kundret being chosen chairman and Mrs. Millie R. Trumbull secretary and treasurer. The allotment of terms of service resulted as follows: Dr. Stephen S. Wise, one year; H. G. Kundret, two years; Mrs. Sarah A. Evans, three years; Mrs. Belle M. Wright, four years; Mrs. Millie R. Trumbull, five years. The board decided to have their per-

manent headquarters at the office of the State Federation of Labor, corner of Sec-ond and Washington streets, regular meetings to be held at this place on the

first Monday of each quarter. The commission will submit to the State Printer the form of blank for the affi-davit for the parents, setting forth the name, age, date of birth, the residence to build it, they all agree that they must and the school attended by such child. have a new hall. The lodge has now a Printed notices will also be furnished the membership of 215, and at the next meetemployers of child labor, which, according to the new law, must be posted in a conspicuous place, and state that no child under 16 years of age shall be employed between the bours of T p. m. and 6 a. m. for a longer time than ten hours per day, nor more than six days in a week. The notices state that at least 20 minutes must be allowed for noontime, this time not to be included in work.

The law also requires that any one ploying children under 15 years of age shall keep a register in which shall be recorded the name, age, place of birth and residence of each child employed, this register to be open to inspection at all times. The commission will furnish these

registers, in each of which will be printed a copy of the law.

The law does not go into effect until May 21, and on account of the provisions compelling attendance at school during the whole of the school term, modifies the present compulsory education law, which provides for only 12 weeks' attendance.

#### Saloons Must Close Sundays. CENTRALIA, Wash., April 19.—(Special.)—County Attorney Langhorn and Sheriff Urquhart have sent the following

notice to Centralia saloenmen:
The question concerning the opening of saloens on Sunday has reached such a stage that we deem it best for all concerned that hereafter all enleons must remain permanently closed on Sunday, closing to take place promptly at 12 o'clock on Saturday night. We therefore caution you against the opening of your saloon on Sunday, so that it will not be necessary to make any further arrests on account of that violation.

## drawn until the St. Johns Council has acted with reference to vacation of the EDITOR PREACHES ON LIFE

DR. F. A. BISBEE SPEAKS AT FIRST UNIVERSALIST CHURCH,

oston Clergyman Holds That High Moral Principle Is Indispensable in the True Life.

The congregation of the First Univer-salist Church, on East Couch and East Eighth streets, had the pleasure of hearing morning and evening, Dr. F. A. Bis-bee, of Boston, editor of the Universalist Leader, the leading denominational paper, and one of the most prominent clergymen of that church. In the morning he spoke on the subject, "What is Life?" He was introduced by Rev. W. F. Small, the pas-tor, and took up the thread of his discourse at once, holding the attention of

course at once, holding the attention of the congregation to the conclusion.

After detailing the efforts of the chemist to make gold, nearly reaching the solu-tion, and yet failing short of producing the actual metal, Dr. Bisbee said much of the efforts to ascertain the value and pur-poses of the true life had been failures. He spoke of great wealth and the vast in-fluence it save, and told how men were fluence it gave, and told how men were able to command more wealth than some governments, and yet that was not the true object of life. There was still something beyond commercial power. Wisdom rules the world and commands commercial power, and yet, declared Dr. Blabes, it falls short of being all there was of life. There was still something lacking. Dr. Blabes declared with great force that wealth great converges. wealth, great commercial power, influence and great education and technical skill without high moral principle are all a delusion, and fall far short of the true life. President Roosevelt had told the Harvard students, and he will also tell the Western young men and young wom-en, that they must have high moral character, moral principles to succeed at this time, for the commercial world was totime, for the commercial world was to-day demanding and requiring something more than high-class skill. Dr. Bisbee told of the head of a great commercial indus-try in Chicago who gave his Bundays to the conducting of a great Sunday school for young people, and on being asked why he gave his time in that way replied that the great body of young me were failures. he gave his time in that way replied that the great body of young me were failures, not for lack of attainment and skill, but for lack of moral principle and moral character, and he considered he was doing his duty in teaching the young men and young women to develop moral charac-ter. Dr. Bisbee also told of a great de-partment store in an Eastern city which had dispensed with all its detectives. This had been done because instead of watch-ing the employees on the floor of the store. ing the employes on the floor of the store they had been watched at their homes and how they spent their spare time was

At the close of the sermon, Dr. Bisbee met most all the congregation individual-iy. He also spoke in the evening, and this evening will again preach at the First Universalist Church.

#### INVENTED QUARTZ MILL. Enst Side Men Build Machine That

May Revolutionize Reduction. Judge John E. Mayo, C. C. Pratt and Professor Waddell have jointly completed an entirely new quartz mill or ore grinder which seems to be a success. It was built by Judge Mayo, who has worked on it for about three months. The mill completed is a small one, and maye be operated by hand. In size it does not take ye.

pleted is a small one, and maye be operated by hand. In size it does not take up any more room than, a large coffee grinder found in grocery stores.

Although sma., this mill has the capacity of three stamps. There is a cylinder or cone, set between four solid posts, and in this cylinder there is a grinder which is turned by means of cog wheels properly geared. The ore is poured into the cylinder, very much as coffee is put into the hopper of a coffee-grainder. The grinder and cone, made of extremely hard chilled steel, turn in opposite directions and reduce the ore to a substance as fine as duce the ore to a substance as fine as flour. The mill has power enough to re-duce the hardest of stone. Some extreme-ly hard stones were picked up off the street and were reduced to powder. Some silver ore from the Northern Light quartz mine was run through, and was ground mine was run through, and was ground extremely fine. Copper and other kinds of ore were also run through the mill and came out reduced as fine as necessary This is what the builders call a five-inch This is what the builders call a hve-inch mill, but they will at once commence building a 12-inch mill, which will have tree times the capacity of the first one. The inventors expect to have the larger mill when completed set at work at so quartz mine, where it can demonstrate just what it can accomplish. It will take some time to build the larger mill. The invetors are all well known in Portland.

## ASSOCIATION MEETING.

Willamette Congregationalists Meet at the Hassalo-Street Church. The Willamette Congregational Associa-tion will meet in the Hassalo-Street Con-

gregational Church, Tuesday and Wednes day next, when the following programme will be given:

Tuesday afternoon—"What I Would Do and Would Not Do as a Layman," Rev. C. E. Chase; "What I Would Do and Would Not Do as a Minister" F McKercher The Attractiveness of the Ministry for Young Men, Rev. H. A. Stuart; "Popular Preaching," Rev. R. M. Jones, "Elements of Success in Christian Work," Rev. J. J. Staub.

J. Staub.
Tuesday evening—Association sermon,
Rev. E. L. House.
Wednesday morning— "The Christian
Life of a Business Man," S. C. Pier;
"Christian Soldiers," O. Eaton; "World
Evangelization," Rev. J. H. Hershner;
"Sunday School as a Spiritual Power,"
Rev. H. M. Smith.
Wednesday Afternoon, "Young Bessels in

Rev. H. M. Smith.

Wednesday afternoon.—"Young People in
Christian Endesvor," J. A. Rockwood;
"The Y. W. C. A.," Mrs. Herbert W.
Cardwell; "The Y. M. C. A., Lenn HutchInson; "How to Fortify Young Men Against the Saloon," Clyde Stuart; "Wom-an's Home." 2 P. M., in charge of Mrs. L. A. Parker; "A Gleam of the True Re-ligion," Mrs. E. L. House; "Women's Work for Women, Material and Intellectual," Mrs. G. O. Jefferson.

Wednesday evening—"Opportunities of the Pacific University," J. W. Marsch; "Some Winners," Rev. C. F. Clapp.

#### FELL FROM HIS WAGON, Resident of Berthn Met With Acci-

dent While on His Way Home. A singular accident happened to a man named Beno, who lives at Bertha, out on the Slavin road, a few days ago, which nearly cost him his life. He was driving homeward on his wagon along the Slavin road, and when nearing the rock-crusher a dog came out. Beno, who was sitting on the spring seat in the front end of the wagon, reached back with his whip in an attempt to strike the dog. While in this act the spring seat turned with him and he was thrown to the ground, striking the hard surface on his face and shoulder. The team started to

Beno was partly dazed by his fall. His face was badly cut, and the blood flowed freely. By this time some others came slong, and he was helped into a buggy and taken to his home. His shoulder at first was thought to have been broken, but was found only to have been dislocated by his fall. At last accounts he was getting along as well as could be expected.

A woman happened to be driving ely behind him and came to his as-

## WORKING FOR PERRY,

Improvement Association Will Call Mass Meeting of Citisens Soon.

recites;
"Under a section of the constitution providing for the initiative and referendum this law was referred back (bridge and ferry bilis) to the people of the City of Portland to be voted on by them on the first Monday in June, 190, and upon that vote depends whether or not Albina and her people are to be provided with sufficient roadways for the passage of the products of her growing factories and her rapidly increasing population. The members of the Albina Improvement Association, not as an association, but as individuals, have decided to call a mass meeting of the citizens of Albina at some future date, which will be announced in the dally date, which will be announced in the daily papers, for the purpose of formulating a plan of campaign."

It is expected that the date of this mass meeting will be first annual annual this case.

meeting will be fixed and announced this week. It is evident that the citizens of Albina will make a strong effort to get all their votes out in behalf of this second ferry at the June election.

## FOR MEMORIAL DAY.

Portland G. A. R. Posts Have Name

At the meeting of Sumner Post, No. 12 G. A. R. Saturday evening, the following committee on Memorial day was appoint-ed: M. L. Pratt, P. R. Neale, J. A. Brown

ed: M. L. Pratt, F. R. Neale, J. A. Brown, John E. Mayo, H. H. Pierce. All the posts have appointed committees for this purpose, and they will come together soon and start preparations for the usual exercises. M. L. Pratt, state commander, will issue his order for the proper observance of the day this week.

One of the principal features of the day will be the dedication of the soldiers monument in Lone Fir cemetery. The foundation is nearly completed. The Lone Fir Monument Association donated a piece of land 50 feet square for the monument in the central block, and a deed to the site is held in escrow until the monument shall have been completed, when it ment shall have been completed, when it will be delivered to the monument ass

#### East Side Notes.

The new cutoff at Northern Hill, on the St. Johns line, is nearly completed. It is expected that this track may be used some time the present week. It will shorten the distance to St. Johns about

women and children of Montavilla are invited to attend a public meeting in Aylaworth Hall next Wednesday evening, held under the auspices of the Montavilla Board of Trade, to start a cleaning-up campaign. Secretary William De Veny says that the object is to make Montavilla one of the cleanest and most attractive one of the cleanest and most attractive suburbs of Portland.

The Oregon Water Power & Railway Company received two of its 51-foot pas-senger and freight cars from San Francisco this week. The main comparts are intended for passengers, while others are fixed for freight, express mail matter. These cars are intended

mail matter. These cars are intended for the Gresham route. Two others of similar build are soon to follow these.

Rev. H. L. Pratt. who has been pastor of the First United Evangelical Church. East Tenth and East Sherman streets, was appointed presiding elder of the new district formed with Portland as a center. He has entered on his work. Rev. L. M. Boozer, the new pastor of the First Church of Jollet, Ill., is expected to arrive the coming week and enter on his rive the coming week and enter on his work. Rev. J. Bowersox. who was ap-pointed pastor of the Second Church, Fargo and Kerby streets, Albins, has commenced his work there. He is the pio-neer preacher of the United Evangelical Church, and was a member of the Evan-gelical Association before the division. He has been an active preacher in the state for over 33 years.

The store of John Brown, at Rockwood, on the Base Line road, was broken into yesterday morning at about 1 o'clock, and the burgiar narrowly escaped being caught. There was a dance at Rockwood Saturday night, and Mr. Brown closed up his store at 12. He had hardly gone to his home, which is a short distance away, when a man, supposed to be from Montavilla, broke open the front door, and, entering, filled his pockets with chewing gum and other articles. The clerk, John Robinson, returning, must have frightened him away, for Robinson found the fron door open. Seeing that the store had bee broken into, and suspecting who the bu glar was. Robinson seized a pistol an started up the road in the direction the fellow had taken, but the latter made his

Mixed Bowling Teams.

a'he fourth series of bowling contests in the mixed bowling tournament at the Multnomah Club last night was unusu ally interesting. Many of the fair bowlers outbowled their gentlemen friends, much to the chagrin of the latter. Following are the results in class A: Miss Kadderly and Mr. Robertson won two Kaneery and air. Robertson won two from Mrs. Judge and Mr. Dunne, Miss Hardwick and Mr. Weis broke even with Miss Mathena and Mr. Bail. Miss Chemin and Mr. Patterson took two from Miss Unna and Mr. Muehe, Miss Vassy and

Mr. Ford lost two to Mrs. Killingsworth and Mr. Shea. In class B each team won a single game, thus breaking even. Following are the contesting teams: Mrs. Wilson and Mr. Zeller vs. Miss Price and Mr. Mallory;

Miss Burckhardt and Mr. Zan vs. Miss Martin and Mr. Krausse; Miss Zimmer-man and Mr. Brandon vs. Mrs. Mathena and Mr. Slatter; Miss Hegele and Mr. Robinson vs. Miss Venator and Mr.

When the head feels dull and heavy, the skin appears sallow and greasy, and the stomach refuses food, take Carter's Little Liver Pilia. Don't forget this.
