SPIES OUT THE LAND

Secretary to Governor Pardee Inspects Fair Site.

CALIFORNIA MUCH INTERESTED

A. B. Nye Asked by Chief Executive of Sister State to Gather Data of Portland's Centennial, Much Pleased at Prospects.

A. B. Nye, private secretary to Goveraor Pardee, of California, made an investigation of the Lewis and Clark Fair grounds yesterday afternoon. He was accompanied on his tour of inspection by Engineer Oskar Huber and Major Will-lam Hancock Clark. Mr. Nye returned to the city thoroughly satisfied with the plans for the Fair and satisfied that an ideal location had been selected. Though on his vacation trip, and accom-

panied by his wife, Mr. Nye had been requested by Governor Pardee to step in Portland and inspect the Fair site. The Governor will have charge of the disbursement of the fund set aside for the Lewis and Clark Centennial and is very arxious to know the plans of the corporation and the advan-tages accorded the different states which will erect state buildings. California in one of those states which will be so rep-

any one could see at a games that the site for the Fair is all that could be asked," said Mr. Nye at the Portland yesterday, after he had completed his inspection of the grounds. "Of course, a great deal of work will probably be required to put the grounds in first-class condition, but every circumstance con-tributes toward the success of the under-

taking.
"Guild's Lake, lying within the Exposition grounds, and the broad plateau risting from the lake shore, give excellent opportunities for the practice of the landscape architect's art. The low ground
and the peninsula can be utilized to advanture. In fact, I believe the entire vantage in fact, I believe, the entire site is well located for the purpose and the Exposition should be highly success-

"Henry Reed, secretary of the Lewis and Clark corporation, provided me with a blue print of the ground plans, and subsequently I saw myself the proposed location of state buildings. The ground set aside for this purpose is well located, and I think California is assured of securing a good location. a good location.

"Governor Pardee is very anxious to have a state building erected at Portland. The appropriation made by the last Leg-islature is really in his hands, and I be-lieve that he will direct the erection of a state building. The appropriation now available is but \$30,000, but there is no doubt that the next Legislature will add materially to this sum.

"The appropriation bill for the Lewis

and Clark Exposition as originally intro-duced provided for an expenditure of \$90,-600 here. The members of the Legislature, for economical reasons, cut this sum in two, contending at the time that another \$20,000, or so much as might be needed, could be appropriated at the next session. "The California commission in charge of the exhibit at St. Louis has been in-

structed to carefully preserve the exhibits and transfer them to Portland. Since California intends to get together the finest exhibit ever shown in the East. this will provide an excellent nucleus for

our showing at Portland in 1965.
"We have not yet been informed as to the plan that will be followed with ex-hibits at the Lewis and Clark Centennial. In St. Louis, you will remember, the ex-position officials are insisting upon a rigid classification of exhibits. We have not been informed whether the same policy will be followed at Portland, or whether the different states will make their own

"California does not plan to erect an extensive building at St. Louis such as she had at Chicago. I believe we had one of the finest state buildings shown at the World's Fair, but this year most of the money will be spent to collect an excellent lot of exhibits of our resources. It is not certain what we will do in the way of a state building at the Lewis and Clark Exposition, but we shall do the best that there is today in comedy persons the money of a state building at the Lewis and Clark Exposition, but we shall do the best we can.

"Governor Pardee has taken up the" "Governor Pardee has taken up the matter of the St. Louis exhibit upon a purely business basis. He has appointed two commissioners, one a Democrat and the other a Republican, who are thoroughly faurillar with exposition work, and has informed them that they will be given a free rein, but will be held responsible for the appoint of the undertaking. The for the success of the undertaking. The two commissioners have gone to St. Louis to investigate conditions there, and will return with an understanding of what is required of them. Then they will call to their assistance the business men of the

But Difference Is Too Slight to Afford Relief.

Maximum Only Two Degrees Less

Region between Coast Bange and Cascades, practically same temperature. Forecast for today—Partly cloudy and

hot as Sunday. The brick buildings were hot, the pavements were hot, the air was hot, and the people were very hot, indeed. To look at the thermometer and see that it was a shade cooler than the previous day was some relief, but not enough to hurt. So the shirtwaists blossomed and the collars melted.

Valley like a bianket, and the people covered themselves with a sheet. The Valleys of the Regue and Umpqua Rivers were not left out in the cold. It wasn't quite cold enough for Roseburg, where the thermometer registered % degrees. Other towns were right in it, too.

Range and the Cascades at this time is explained in plain words as follows: The air passing over the Columbia plateau under the influence of a northeasterly wind is pushed up over the Cascades and thence down into the Valleys to the westward. The action of failing with a weight pressing upon it has a tendency to condense the atmosphere, and it becomes warmer. It passes down the Valleys to the south and north, and also westward to the Pacific. So Portland got all that was coming to it.

westward to the Pacific. So Portland got all that was coming to it. Forecast Official Beals had predicted that it would be slightly cooler yesterday, and he evidently had some advance in-formation from the sun. It missed it by just two degrees. Everywhere could be heard the question: "I wonder if it's as hot as it was yes-terday?"

Why Weather Was Hot.

Just why a wave of extreme heat should strike the region between the Coast Range and the Cascades at this time is explained in plain words as follows: The

It wasn't, according to the thermom-eter, but the two degrees to the good didn't stop any of the perspiration. But the work of the town went on much the same as ever. During the worst heat of the afternoon a gang of men was engaged in tesring up the asphalt on Washington street. They sweated away in the dust, and looked so warm that the crowd around the corner sought a cooling drink o counteract the effect.

On the plaza blocks the grass was cov-ered with men and women doing their best to keep cool. Across the street a gang of men was laying a cement side-walk. The workingmen looked as cool as

MEN'S DISEASES Successfully Treated

FOR FIFTEEN YEARS

After an experience of fifteen years devoted to the treatment of men's diseases exclusively, we fell fully justified in making the assection that no other specialists have attained an equal degree of success in overcoming these most perplexing of all human aliments. We early recognized as inaccurate and unscientific the methods commonly employed in treating men's diseases, and through careful research and broad experience we have acquired the knowledge and ability that has piaced us foremost among specialists in this branch of medical practice. We have laid aside those ancient and unscientific theories and processes to which others still cling, and have founded all our methods of treatment upon absolute knowledge concerning these diseases. We accept no case for treatment unless we have full confidence in our ability to effect a complete and permanent cure, and in years we have not treated unsuccessfully in a single instance. We invite free consultation.

less upon the deck. It was surmised at once that he had a sunstroke, and he was taken to the hospital. Little can be learned of the man or of his family. The other sallors say they

have only known him as a fellow-saile He was probably about 22 years of age.

THEY MAY RETURN MONEY Portland Policemen Seem to Have

Have Portland's 80 policemen been re-ceiving their salary illegally for the past month? Taking the provisions of the charter into consideration, the answer to this question would seem to be "yes." The charter says that no one in the Auditor.

So far as the records of the Civil Service Commissioners show, no one has ever been appointed to the patrol service, and when the Executive Board asks for another eligible list, it will get the one it received before, and from which it made the appointments. The Commissioners have absolutely no official knowledge that any members of the first eligible list for patrolmen was ever appointed to the service.

somed and the collars meited.

Portland has no monopoly on the sunshine. It struck Southern Oregon and California to the tune of from \$4\$ to 122 degrees. The people of those regions are supposed to be salarmanders, and not webfeet, like Portlanders, but it is doubtful if they stood the heat any better than did the men and women of this town.

The sudden wave of heat seems confined to the district between the Coast Range.

In the sudden wave of heat seems confined to the district between the Coast Range.

In the following figures show unless they be issued in accordance with a printed list furnished by the Commission. This list is to include the names, positions and salaries of all the public servants. No officer or employe of the A. M., 53 degrees; 12 noon, 56 degrees; 1 any warrant or order for the payment of, or pay any salary or compensation to any person in the classified Civil Service who is not certified by the Commission to the Auditor as having been appointed in purand to certified by the Commission to the Auditor as having been appointed in pursuance of this article and of the regulations in force thereunder," says section 119 of the charter. "Any person entitled to be certified as aforesaid may maintain a proceeding by mandamus to compel the issuance of such certificate. Any sums paid contrary to the provisions of this section may be recovered in action in the name of the city from any officer or em-ploye of the city paying the same, or from any officer signing, countersigning,

on his official bond."

"The provisions of the charter seem very full," said Commissioner Courteney yesterday afternoon. "The Commission did ail that it could under the circumstances."

the work, even when his friends noticed that he did not seem in condition to be around. About 3 o'clock he fell sense-

Been Paid Illegally,

municipal civil service shall receive salary warrants unless he be enrolled on a list furnished to the City Auditor by the Civil Service Commission. Thus far no such list has ever been issued to the

Auditor.

But the trouble, it appears, did not lie with the Commissioners. They should have received a list from the Executive Board, notifying them that the appointments had been made, but no list was ever sent to the Civil Service office telling of the appointment of the 60 officers that were put in commission or Man.

The charter is very explicit on the subdrawing or issuing, or authorising the drawing, signing, countersigning or is-suing of any warrant or order for the payment thereof, and from the sureties on his official bond."

We received no communication from the Executive Board, and consequently we

ould besse no lists of patroimen to the

Auditor."

Mr. Sichel, of the police committee of the Executive Board, thought that a special meeting might settle the whole matter. "We could have a special meeting of the board, and then we could properly notify the Commissioners of the appointments."

The state of affairs did not seem to be

known until after he returns home.

Anyway, there was no list in the Commissioners office yesterday. It was called for but it was not forthcoming, and on inquiry, it was ascertained that no list had ever been sent by the Enecutive Board, and as a result no list was ever sent to the Auditor. It is also stated that two of the members of the board were requested to see that a list was sent to the Commissioners, but they either forgot about the request, or they thought it of such small importance that they fulled to mention it in the board meetings.

STATE G. A. R. ENCAMPMENT

Plans of Local for Entertainment of

Visiting Delegates.

Arrangements are being completed for the annual state encampment of the G. A. R., which will be held in Portland from June 24 to 25 inclusive. G. E. Caukin is chairman of the general committee, which is made up of subcommittees from all the Portland posts. Meetings have been held frequently and practically preparations have wen completed. According to the general plan a reception will be tendered the representatives to the encampment, the Woman's Relief Corps and the Ladles of the G. A. R. in the White Temple Wednesday evening, June 25. On that occasion the Male Double Quartet will sing. Mayor Williams will make the address of welcome, and it is expected that Colonel Ormsby, of Salem, will make the response. This will be followed by other exercises, but the main portion of the time will be for reception and social purposes, The delegates will be greeted and made to feel that they are at home in Portland.

Thursday, June 25, the encampment will meet in the G. A. R. Hall Woman's Belief

Thursday, June 25, the encampment will meet in the G. A. R. Hall, Woman's Relief Corps in the Auditorium and the Ladies of the G. A. R. in the A. O. U. W. Hall. Thursday afternoon there will be a pa-Thursday afternoon there will be a parade, and in the evening a general campfire will be held in the G. A. R. Hail for delegates to the encampment, Woman's Relief Corps and Ladies of the G. A. R. Owing to the fact that the capacity of the hall is limited the attendance will be restricted to the members of the G. A. R. and of the auxiliaries. The programme will be informal, full of snap and life.

Beautifully tender are the numbers in which Elsie figures. The orchestration which

THE BEST REASON

FOR BELIEF IN DR. WILLIAMS' PEOPLE.

Mrs. Gosney Tells Why She Has Such Great Confidence in This Famous Remedy,

The state of affairs did not seem to be particularly serious to Mr. W. L. Boine, who has taken a deep interest in the police matters. He simply smiled when he was made aware of the fact that the Auditor had no list.

It is understood that the principal reason for the failure of the Commission to get the list was on account of the large amount of work in the Auditor's office, and of the strangeness of many of the provisions of the new charter. Mr. Devlin is out of the city on his blennial vacation, and he may possibly have sent in a list. Whether he did or not will not be known until after he returns home.

Anyway, there was no list in the Com-"For the best reason in the world," answered Mrs. J. O. Gosney, of Pullman, Wash., when asked why she praised Dr. Williams' Pink Pills so highly.

and all sorts of remedies had failed," she continued. "I suffered horribly with what the doctors called neuralgia of the stomach, and I also was troubled to an unusual extent with the ills which only women experience. Every month I had cramps which nearly drove me wild, and they were so, bad sometimes that my husband had to run for a doctor to give me something to relieve me. Often they would keep me in bed for days at a time, and just before I began talking Dr. Williams' Pink Pills for Pale People my hands used to get numb when I had these spells. I can't tell half of what I went through. The natural functions of my sex ceased and the spells of cramps kept growing more frequent. Dr. Williams' Pink Pills helped me the first week I took them, and after taking them faithfully a while longer I became entirely cured."

Thousands of women have found re-lief from their sufferings in the same way that Mrs. Gosney did. No discovery of modern times has proved such a blessing to women as Dr. Williams' Pink Pills for Pale People, Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health in the exhausted patient when every effort of the physician proves unavailing. They have been shown to be a positive and unfailing specific for all diseases arising from disorders of the blood or nerves, and have cured locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the aftereffects of the grip, palpitation of the heart, pale and sallow complexions and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box, six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenec-tady, N. Y.

The Vital Reason Why SHREDDED BISCUIT

surpasses all other foods.

Shredded Whole Wheat Biscuit is made in the most complete, scientific and hygienic food laboratory in the world.

This laboratory is flooded with sunlight through 30,000 panes of glass and finished in white enamel, marble and mosaic - the veritable home of purity-a place where contamination is impossible.

The wheat is first thoroughly cleansed and all light kernels removed, then thoroughly cooked and spun into thousands of little shreds; each shred containing thousands of little pores; which gives the greatest surface for the absorption of the digestive fluids of any known food ..

This insures perfect digestion and immediate relief from constipation. Order today.
