(Continued from First Page.)

which must be rebuilt. Nine teams are hauling piles to the river banks, and it is expected that all the necessary piles will be driven before noon tomorrow on as this is done, the 200 tracklay ers will throw down rails from here to Heppner and a temporary line may reach scene of the cloudburst by Sunday.

Telegraphic connections between Heppner and the outside world were made last night for the first time since the disaster of Sunday afternoon. Owing to the press of business, an expert Western Union operator was sent from Lexington early morning. An equally rapid telegrapher was sent from the dispatcher's office in The Dalles office to handle the Lexington end. On arrival of the commercial man at Heppner, the actumulated dispatches were worked off, and this evening the line is getting into work. ing order.

There are two wire systems between Portland and Heppner-one owned by the telepirone company and the other owned by the Western Union and operated by them in conjunction with the O. R. & N. The cloudburst carried away the Western Union wire between Lexington and Heppper, and the telegraph and rallroad companies could put no messages through Late yesterday the O. R. & N. Co. secured possession of the telephone wire from this point to Heppner. They con nected it here with their telegraph wire and put receiving instruments at the Heppner end, thus making a direct tele-

This is, of course, only a temporary expedient, and the work of repairing the wires used by the Western Union and railroad companies is proceeding apace. E. A. Kimpel, superintendent of tele-graph of the O. R. & N., is in charge of the work. All his energies are being directed toward the hasty erection of a line that will carry some of the business, and so relieve the congested condition of the ex-telephone wire.

"After we get the line up," said Mr. Klippel, "we will go over it again carefully and construct it properly. We can do this without interrupting its service. The first thing to do is to get up a wire of some usefulness. We have a large force of linemen at work, and I hope to have a wire of our own established before Thursday night.

T. W. Goulding, of Seattle, district su-perintendent of the Western Union, is on way here to work, in conjunction with Mr. Kilppel, in the erection of the Tonight six miles of wire are in good condition, and it is boped that the remaining three will be put up tomor row. For the first time in about eight years. Lexington is a full-fledged rallstation. In that period the O. R. & N. Co. has not thought the business warranted the keeping of an agent here but the present emergency has made things different. The big depot, which as stood vacant so long, resounds with clinking telegraph instruments. Busy opplatforms, and at night the waiting-room is filled with dozing people. Fred Hart of Heppner, has been checked in as BENET

The way things are," said Mr. O'Brien "Lexington makes an excellent base of supplies, and we have established a temporary station here."

BODIES FOUND ARE 140. List of the Dead Will Perhaps Reach 250.

HEPPNER, Or., June 17 .- (By Associated Press.)-The latest summing of the situation in Henpmer shows that about 140 bodies been recovered. A list of known people missing, approved by the of the disaster is that many victims, evilocal authorities, shows over 60 who were either maimed or drowned in the wash- stripped absolutely of every stitch of bodies were mangled in the overwhelming | tered, and numerous contusions and abracrash. The procession keeps going in-

termittingly all day.

There has been little work for physiclass to attend the sick. Of some 14 perone who were confiend to their beds with bruises and wounds, one, Abrahamsick, is dend. Mrs. Herbert Bartholomew, who was badly hurt internally and had two ribs fractured, will recover. James Fitz, who was thrashed about in the flood, is up. Fitz's face was beaten to a jelly. He recollects nothing of the awful dash

An Old Man's Peril. Of the few who escaped the fury of the flood, Julius Keithly, 70 years old, had the most thrilling experience, and possesses the clearest recollection of what hap-

pened in an incredible short space of time The brave, sturdy old pioneer has recov strom of waters for a mile and a half down the creek, and is assisting in the "I was upstairs in my house when the

crash came," he said, "and the first thing I knew there was swirling water all around. The house split in two and the roof parted at the comb into two sections All I could see was a sea of water, and trees and houses rolling and tumbling. There was a deafening roaring. I found myself on top of the roof, floating at a dazzling pace. The section whirled around several times. The only fear I had was that one house would tumble over me. I saw my wife in the water within three feet of where I was. I reached out my hand and clasped hers. I called upon her then to help lift herself and jump on the roof with me. She was speechless with fright, but took my hand. I pulled with all my might, but could not raise her. It seemed to me that she was fast, although she did not say so. Then another gigantle eddy thrust us apart, and I went under. I arrived at the surface just in time to recover my breath and fought my way through the debris eddying

around me, "A second time I got upon the roof as I came up right alongside of it. I again saw my wife and she recognized me tried to pull her out but she was dragged down. Mr. Harris was on the roof part of the time with me, and I pulled him out once, but he was dragged down. I kept on the roof and, although several times big timbers and sections of houses came near smashing me, I drifted on for nearly a mile and a half below the town where I was helped out of the eddy when the waters in the main current subsided."

forty Business Houses Wrecken,

Of the 40 business places in the town swept away, demolished or partially wrecked and ruined by water, the largest were Gilliam & Bisbee's machinery warehouse, Garrigues & Sons' warehouse and the opera-house controlled by them, furniture store, Burns Bros." Yeager's grocery store, Noble & Campbell's harness store, a lodging-house kept by A. Adams, Cantwell's bicycle store and Cohen's millinery store.

Where the buildings are not half-crushed and swept away, the contents of the stores are almost completely lost, as they were covered with mud and water. rigues' loss is placed at \$15,000 to \$25,000. Not a trace of the opera-house can be seen, excepting the plane, which was found four blocks from the side of the building. Every farming implement, machinery and vehicles in a 60x90 warehouse in the rear of the main building is lost One mowing machine alone is preserved, and it was bolted to the wall of the main warehouse. The other machinery was in a shed addition in the rear, near the bank of the creek. A tree trunk, roots and all, was driven through the wall of the warehouse.

It is absolutely impossible today to ob tain an estimate from proprietors of business houses of their individual financial losses. Twenty thousand dollars was given as the loss of the firm of Gilliam & Bisbee.

Crowds at the Morgue,

The entire town is in mourning, and the ondition of business is not considered. As the hours pass, the crowd keeping vigil at the doors of the morgue, which in Oddfellows' Hall, grows in numbers. Most of them are patiently watching the incoming bodies, longing and drending to see some beloved face. The crowd of mourning watchers was on duty most of the night, although there was little hope of sought-for ones coming in during hours of darkness. Persons from a distance continue to arrive to sympathize with or join the numbers of reaved. Many pathetic scenes are enacted as lost relatives are found and identified. No hope is entertained that of the missing any will be found alive again. One of the most remarkable facts dently those in the water longest, are Later finds of victims show that the clothing. Some of the bodies are batsearchers in 100-foot drifts from three to bones indicate the horrible manner of sodies were completely nude. It is impossome caskets, the graves of these having sible to walk two blocks without being surviving families were opened and the challenged. Every one abroad is forced bodies were laid in new caskets. Ministers to show a passport. Pedestrians are oron, The Dailes and Pendieton dered indoors or abed, and, as no liquor

ruly element is kept down. It is only by ess that dismost dete order has not followed in the wake of the dreadful calamity. Stealing has been going on, it is reported, but a careful guard is kept of exposed contents of houses and stores. Jewelry and money thefts from bodies of victims have occurred, but as far as possible these ghoul ish practices have been checked and close watch is kept. The greatest need of the town is chemicals, teams and wheelbarrows and hoisting der ricks.

LOSERS BY THE FLOOD. Owners of Buildings That Were

Wrecked or Demolished. HEPPNER, Qr., June 17 .- (Special.)-About 100 dwellings were demolished of wrecked by the cloudburst. The heavies loser is Tom Ayers, who had the finest louse and grounds in town. Mr. Ayers owned five houses close together, and two Chinese laundries, all of which he figures was worth \$17,000, though he spent much more money on them than that. Only a few lone bricks marks the place where stood the most beautiful home in Heppner, and where Mr. Ayers had placed

SALEM COLLECTS FUNDS. Volunteers Were Ready to Help at

Heppner.

SALEM, Or., June 17 .- (Special.)-The citizens of Salem have contributed nearly \$1200 for the aid of the sufferers at Heppner. Of this amount, \$100 was donated by John H. Albert, \$100 by the Knights of Pythias and \$100 by the hondealers. The work of securing subscriptions has been in the hands of a committee composed of H. A. Johnson, J. N. Brown, R. J. Flemmany strongers in the town, and it is town, the greatest volume of water must ing. M. Wiprut, L. R. Stinson and E. Ho-

Conflicting reports have been received here concerning the needs at Heppner. When the dispatch from Representative Phelps to Governor Chamberlain asked that men be sent, 25 residents of Salem volunteered to go. Today a dispatch was received from Mayor Gilliam, of Heppner, saying that no men are needed, and the

men' will not go. Head Consul Falkenberg, of Denver, has telegraphed Professor W. C. Hawley, one of the head managers of the Woodmen of the World, asking authority to appeal to the organization for relief of those suffering in the Heppner disaster, Professo Hawley says that the head managers will undoubtedly give the permission, and that a large sum will be raised. The Woodmen have a considerable balance of the relief fund contributed at the time of the Gal-

veston disaster. Grand Secretary L. R. Stinson, of the Knights of Pythias order, has received word that Grand Chancellor J. W. Maloney, of Pendleton, has issued a call for contributions from all subordinate lodges for reilef work at Heppner.

UMATILLA TOWNS GIVE PREELY.

WIDOW AND DAUGHTER COMING. Late Dr. McSword's Daughter Was

Studying in Massachusetts. WOLLASTON, Mass., June 17 .- (Spe cial.)-Mrs. P. B. McSwords, wife of Dr. McSwords, who was drowned in the Hepp ner flood, and their daughter are in town with L. A. Brown, station agent at Wollaston, and brother of Mrs. McSwords.

The daugter same here four years ago to attend the Quincy High School, and will graduate this month. With her mother she was preparing to return to Heppner when news of the flood came. They will not wait for graduation day, but will start at once for the West.

Dr. McSwords was a native of Ohio, and graduated from the Dartmouth Medical School, serving a term at the Bellevue Hospital clinic and later studying in Ger-

DROWNED IN BIRCH CREEK.

M. F. Cargill Overtaken by Cloudburst While on Way to Heppner. PENDLETON, Or., June 17 .- (Special.)-M. T. Cargill met death in the terrible

rain storm near the headwaters of Birch Creek, in Coombs' Canyon, Monday evening, while attempting to reach Heppner. His body was not discovered until this worked in felays, performing the last is to be had for love or money, the un-

was riding could not be found. The body was terribly bruised. Cargill was a about 20 years old, and lived in this city. The storm on Coombs Canyon Mo

vening was almost a cloudburst. Three teams going from Pendleton to Heppne were forced to turn back, but Cargill attempted to go on and met his death.

A schoolhouse in district 48 was washe own the river, Bilskee's bouse and all inmates were washed three-quarters of a mile down stream. Hall fell as big as wal-

HAILSTONES THAT DO NOT MELT. Singular Phenomenon Observed on

Heaps of Bebris. THE DALLES, Or., June 17 .- (Special.) A number of citizens of this place who accompanied The Dalles' relief train to Heppner on Monday morning returned home today. All report the same sad story of death and destruction, with its heartrending incidents. They also report witnessing the arrival at Lexington of 100 laborers from Portland; also at Heppne Junction the delegations from Sumpter and Baker City, equipped with tools to help clear away the debris and search for the dead, which was the most pressing need in the devastated district.

The most singular condition reported is that every collection and heap of debris is thickly loaded with hallstones which have not yet melted, despite the warm weather stoce the storm.

In addition to the trainload of provis ions, horses, vehicles and rescuers sent out by 'ane Dalles on Monday morning, the relief committee today circulated a petition, raising \$1000 in an hour. Fifteen hundred dollars in all has been raised tonigat.

The bodies of Mr. and Mrs. Dawson Dr. McSwords were brought to this city today, the first two for burial here, the inst-named for shipment to his family in Zanesville O. The body of Mrs. W. A. Saling, formerly Miss Mattie Stroud, of this city, who was

ALBANY RAISES RELIEF FUND. Three Hundred to Be Forwarded to

killed with her husband, has not been re-

covered.

Mayor Gilliam. ALBANY, Or., June 17 .- (Special.)-In reply to his inquiry as to what was est needed by the sufferers of Heppner Mayor W. H. Davis, of Albany, today received the following dispatch:

"Heppner, Or., June 17.-No help needed at present, but money, and that FRANK GILLIAM, Mayor." Mayor Davis immediately circulated a subscription paper which was liberally signed by the business men and citizens generally. The B. P. O. Elks headed the subscription with \$50 and others contrib uted in proportion. This evening about \$300 had been contributed and the work was not completed. The money will be forwarded to Mayor Gilliam immediately.

NEED MEN AND MONEY,

Governor Chamberlain Receives Message From Heppner's Mayor, CORVALLIS, Or., June 17 .- (Special.) Governor Chamberlain received

today the following telegram: "Heppner, Or., June 17 .- Governor Chamberlain: The people remaining in Heppner appreciate your message. We require laboring men and money to pay them. It will take 200 men at work to clean debris. People of the state respond-G. W. PHELPS." ing nobly. Governor Chamberlain suggests that all contributions be forwarded to the Mayor of Portland.

DALLAS RESPONDS VERY QUICKLY. Sends One Hundred and Ten Dollars

to Aid Heppner Sufferers. DALLAS, Or., June 17 .- Mayor J. C. the unfortunate sufferers

wedding ring. The sister-in-law of a man named Harriman, of Pendleton, was uncovered today. He and she lost their lives together. He was a consumptive patient, and was camping for his health in a tent in W. L. Morrow's yard. She was Maud Elliott, and served him as nurse.

Great quantities of hall are yet in the debris. In the opinion of many persons, this element added to the destructiveness of the flood. The ruins are weighted down by tons and tons of unmelted hall How Mr. Lipsett Died.

A pathetic tale is told of the death of W. W. Lipsett. He was floating on a

raft of drift, and pulled Robert Hynds out of danger. After he had done this he said he wanted to take another look for his wife and baby. He walked back on the raft, fell off and was drowned. Joe Kline snatched a rope as he ran from his house to escape. The rope was the means of saving the life of A. Lundell. Kline threw an end of the rope to

Lundell and pulled him out. Mr. and Mrs. Arthur Smith rushed from their house as the flood came on. But turned over to Postmaster C. G. Coad the rain beat so fiercely in their faces and County Clerk U. S. Laughary, who that they took shelter in an outhouse. at once carried subscription papers The outhouse was turned over in the end of two hours had collected the neat of the boards and with his wife escaped. Dead bodies have been disfigured by hogs below town. Sheriff Shutt has ordered farmers to pen up their hoge, on pain of having them shot.

Oscar Minor declared today that he could find fragments of his house and furniture in every heap of wreckage below the site of his home. His loss is probably the largest of any individual's. A cat floated from the heart of town nearly a mile down stream in a heap of It seemed none the worse for wreckage. its experience

Saved by a Tree Limb. Mrs. William Ayers, Jr., rushed from ner house and grasped a branch of a

friendly tree. She held on until the flood

abated and rescue came. Tom Ayer's house took the place of Gilliam & Bisbee's warehouse on the other side of the street. Everything Ayers owned in the town was destroyed. He was one of the largest property-owners.

"When I found the members of my

ONE LUNG

May be gone and yet the remaining lung ous vitality. As a general thing few peo-ple make more use of both lungs than is equivalent to a healthy use of one lung. These facts are all in the favor of the

woman with weak lungs, when disease has a strong grip on them. Many a person living in health to-day has the lungs marked by the healed scars of disease.

Dr. Pierce's Golden Medical Discovery makes weak lungs strong. It eur obstinate, des seated coughs ed or unsk

lungs and which, if neglecttreated, find fatal termination in consumption. "I had been troubled with inpg disease and pleurisy for a number of years and the trouble had almost become

had almost become chronic, writes A. S. Ham, of Howe, Ia, and of medicine from different physicians without much benefit. At last wrote to Dr. R. V. Pierce and got his advice, and began using his 'Golden Medical Discovery.' I have used twenty five bottles. When I commenced taking it I had an appetite, my seed to appetite, my system was completely ran-down, had no ambition to do anything. Now I fiel better than I did before I got sick. Have a good appetite and am able to do my work. I sincerely recommend Dr. Pierce's Golden Medical Discovery to all who are afflicted as I was." Those who suffer from chronic dis-

eases are invited to consult Dr. Pierce, by letter, free All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pleasant Pellets assist the

action of the "Discovery."

mediate family safe," said he, "I was so

rejoiced that money never entered my head." Tom Matlock held onto his wife as long as he could. He never saw her again after she slipped from him.

Elinabeth Matiock saved herself by clinging to the tall of a horse. The animal was lost, but she was swept under a pile of debris. She was rescued after the subsidence of the water,

The house of H. W. Bartholomew was enched away and slid high upon two fallen poplar trees, as if on skids. The child of Mr. and Mrs. E. D. Rood was isolated all night on a jam of drift. Monday morning the child was rescued.

The parents succumbed G. W. Phelps ran into his house at the approach of the torrent. The flood met him inside. He and his family spent the perilous period upstairs. The house held its ground, but was badly damaged. Two Japanese cooks in the Palace Hotel,

One of the women was unconscious when rescued. Heppner had four Japanese, one of whom was drowned. A safe weighing about 1000 pounds was washed through the town a quarter of a

Ben" and Tom Ika, each saved a woman.

DR. TALCOTT & CO.

"WEAKNESS." That condition commonly knows "Weakness" is in reality on of most simple of men's alime. most simple of mon's alime. It and one that yields promptly and complete by to correct treatment. For generalions past physicians have been handing down a mose grown theory to the effect that prematureness, loss of power, etc., are due to nervous derangements brought on through dissipation, and to this day the treatment commonly employed by most physicians and specialists is a nerve-stimulating one that sactles the organs to temporary activity, but which in the end cannot fail to aggravate the real disorder. Weakness' is nothing more than a symptom resulting from a tender, swollen and inflamed condition of the prostate giand. This prostatic disorder is most frequently due to early dissipation or to injury caused by some contracted disease. My treatment is a local one entirely, no stimulants or tonics being employed, and is in every instance promptly effective in restoring the prostate giand to its normal state. As this is accomplished full and complete strength and vigor return. Such a cure is absolute and permanent, and type other method can a like cure be effected. Colored chart of the Organs sent upon application.
