Instead of stopping, Keene drove 100 miles at the galt of over 30 miles an hour, and drew up only when the car became almost un controllable. Then it was found that the axle was within the smallest fraction of an inch of being severed.

Keene admitted that "It was as much like sitting on a box of dynamite as anything I have ever tried, but it was an plty I had to withdraw, as really I had not begun to let myself out." Keene's mishap caused the greatest re-

Inquiry Is Termed a Cloak to Hide Differences Between the Ministry and the Colonial Secretary.

LONDON, July 2.-Lord Rosebery, in the House of Lords this afternoon rehe ridiculed Colonial Secretary Chamber-lain's programme, and said he did not believe the government intended to prose-cute an inquiry into the matter. The al-legations that such an inquiry was being made were, said Lord Rosebery, myrely a cloak to screen the irreconcilable differ-ences between the Colonial Secretary and the other members of the Cabinet, and he demanded to know whether the inquiry would be individual or collective, and would be individual or collective, and whether the results would be published. The Duke of Devonshire, Lord President of the Council, said it was impossible now to give the exact scope of the inquiry. Several heads had been suggested by Mr. Chamberlain and Mr. Balfour. The gov-ernment had determined that the inquiry should be full and satisfactory. Lordship declined to enter further upon the subject without a more explicit and longer notice than Lord Rosebery had seen fit to give in precipitating today's discussion. He could say that the position of the government at present was somewhat different from that of Mr. Chamberlain, but they did not conflict. The whole Cabinet had agreed that the time was ripe for an investigation of the possibilities of a closer fiscal union with the colonies.

BOOKER WASHINGTON DISCUSSES TROUBLES OF HIS RACE.

Recent Lynchings Make the Issue National, and in the End Justice Will Prevail.

LOUISVILLE, Ky., July 2-Before an audience which crowded McCauley's Theater to the doors, Booker T. Washing-ton, head of the Tuskegee, Ala., Normal School, tonight delivered an address, in which he said that recent regrettable events in connection with the race ques-tion only went to show that lynch law was not confined to any one section of the country. These events, he said, tend-ed to simplify the race problem by making it national. He admitted that the and trying period of development, and appealed to the negro to be calm and exercise self-control. Among other speakers was W. H. Dr. M. L. Margolis, the professor of Semitic languages at the University of California. At the close of his paper, Dr. Margolis submitted the outline of a reformed Jewish creed, and said:

"If, as reformed Jews, we want to have a creed, we must and shall have a proper ecclesiastical organization. Let us have the synod as the keystone of our church."

Dr. Margolis then offered a motion that a committee be appointed to draw up a reformed Judaism creed, and submit it at the conference with the idea of subfeet has done so through struggle and trial and persecution. No one should seek to close his eyes to the truth that the race is passing through a very se-rious and trying period of its develop-ment, a period that calls for the use of our ripest thought and sober judgment.
"Let nothing lead us into extremes of utterance or action. In the long run it is the race or individual that exercises the most patience, forbearance and self-con-trol in the modst of trying conditions that wins its cause. Let nothing induce us to descend to the level of the mob. In advo-cating this policy I am not asking that the negro set the coward; we are not cowards; the part we have played in de-fending the flag of our country is suffi-

cient evidence of our courage. "The recent outbreaks of the mob em-phasize two lessons, one for our race and one for the other citizens of our country, South and North, for it is to be noted that the work of the lyncher is not confined to one section of the country. The lesson for us is that we should see to it that so far as the influence of parent, school or pul-pit is concerned, no effort be spared to impress upon our people the fact that idleness and crime should cease. We should let the world know on all proper occasions that we consider no legal pun-ishment too severe for the wretch of any race who attempts to outrage a woman "The lesson for the other portion of the Nation to learn is that both in the making and in the execution the same law should be made to apply to the negro as to the white man. There should be meted out equal justice to the black man and the white man.
