AMERICA MIFFS CHINA. Regulations for Visitors to 1904 Fair Held to Be Too Strong.

PEKIN, July 2.-The United States Treasury regulations regarding the Chinese visitors to the St. Louis Exposition are bitterly criticised in the native press and it is believed will demoralize China's efforts to take creditable part in the exposition. The press points out that the Chinese visitors will be no better than prisoners throughout their stay.

The official newspaper of Chili Province, whose utterances are understood to be directed by Yuan Shi Ki, the Governor of the province, taunts America with hypo-critical pretense of friendly intercourse and says the politeness with which what is called the most just Nation on earth treath its guests is a warning to Chinese mer-chants and others throughout the empire to seriously reflect if they are contemplating a visit to St. Louis.

The tone of the press has already induced many Chinese to forego the idea of exhibiting at the expecition.

ANOTHER CANCER REMOVED

showing up since the St. Louis Dispensary made the announcement a few days ago that a cancer department had been added to that old medical and surgical institution. People in general believe a cancer meurable (which is correct, if allowed to eat into the gland too far); besides, many quacks have been fooling the public for years: But in the long standing of the St. Louis Dispensary it has established itself in the confidence of the public and it is known that nothing is treated which is incurable.

Furthermore, they DON'T TAKE A DOLLAR until the cancer is satisfactorily removed. Not only cancer, but all diseases of both sexes treated. Consultation
