He also asserted that he did not want to press the claim against Astoria as he thought the place was too small and in the smaller towns claims for damages are investigated more thorough-ly than in larger ones, but Smith insisted that everything was all right. ST. PAUL, July 22-Whisky and syrup were the subjects discussed by the Na-tional Convention of Food and Dairy Commissioners today. R. C. Stowell, an attorney of Lexington, Ky., spoke on the whisky side of the question, and Dr T. B. Waguer, representing corn produc-tion, talked on syrup. Mr. Stowell said that after the whisky was placed in bond it was exactly what it was represented to be as to purity, but after the barrel was opened by the retailer it was not safe to say whether it was pure or not. He said the distillers would like to have a law passed preventing adulteration, and would like to have the Federal Government pass a law requiring the bottling of liquor and pass it through bond in that shape, and by it guarantee such purity.

Dr. Wagner's talk was on "Corn Prod-

ucts," and it was a defense of glu particularly corn syrup. He said that cane and sorghum syrups did not supply one-fifth of the demand, and therefore corn syrup was the necessary substitute.
