ASSISTANT TREASURER OF THE UNITED STATES.

# ARE BOOMERS NOW

# Federal Officials Enthusiastic About the West.

### ROOSEVELT SURE OF NEW YORK

Hamilton Fish, Assistant Treasurer of United States, Now Touring Pacific Coast, Talks of Politics and Presidential Timber.

"New York State should give President Roosevelt not less than 10,000 majority," said Hamilton Fish, Assistant Treasurer of the United States, in charge of the Federal sub-treasury at New York, as he sat in the private car of his brother at the Union Depot last night. "Don't you think so?" he appealed to N. W. Stranahan, Collector of Customs for the port of New York. 'Yes, there's no question about that,"

affirmed Mr. Stranahan. "In estimating President Roosevelt's majority at not less than 50.000, I am figuring that the Democrats will nominate the strongest man in their party. Yes, Judge Parker would be a strong man. He is a strong man personally and should be trong man politically. Isn't that so,

Yes," said Mr. Stranshan, "I believe Judge Parker would be one of the strongest men that could be nominated by the

Mr. Stranaban?

After a day of sightseeing and official Inspection in Portland, Mr. Fish, Mr. Stranahan and Mr. Armstrong, Assistant ecretary of the Treasury, were gathered in their private car discussing politics in New York. They are all New Yorkers and in touch with the politics of that city and state, Mr. Stranahan and Mr. Fish being particularly well posted, and, havcaution of well-advised men care ful not to go into details too closely. And neither attempted a positive statement without securing the other's approval. "W. R. Hearst as a candidate for pre

ident?" Mr. Fish repeated. "We laugh at that idea in New York. It's only out-side New York that, you hear Mr. Hearst spoken of seriously as a presidential pos-sibility. No, he has no chance for the nomination, and if he were to run against President Roosevelt in New York-oh, the

President Roosevelt is very popular with the people of New York. There is no question that he will poll a great deal more than his party's strength, and my estimate of a majority of not less than 50,000 is certainly conservative. The 'upstate district will give him at least 125,000 majority. This allows for a Democratic majority of 75,000 in New York and Brook-Now, I cannot understand how the nocrats can expect to get a 75,000 majority in Greater New York. In fact, I believe an estimate of 50,000 majority is liberal enough."

#### Democrats Will Carry City.

"The Democrats will not carry New York City by over 50,000 majority," Mr. Stranahan agreed. "That estimate is certainly liberal."

"I do not know whether any Republican presidential candidate other than Mr. Roosevelt could carry New York or not." continued Mr. Fish. 'That is another question. But I do believe that his popularity will have the effect of greatly incontinued Mr. Fish. creasing the majority the Republicans will have in that state. Morever, he will be strong enough to carry the state ticket

"Qdell? Really, now, I do not know whether Mr. Odell will be the Republican candidate for Governor of New York or not. We will not hold our convention until next year and the matter has not been discussed. Mr. Stranahan can tell you about Mr. Odell and Mr. Pintt," evasively added Mr. Fish when the relations of the two men were suggested.
"There's nothing in the story that Mr. Platt and Mr. Odell have had a disagree-ment," declared Mr. Stranahan, with an air of impatience with the report. "They may have disagreed over certain policies once or twice, but nothing serious has ever occurred and the two men are friendly. They are working in harmony."

"I have no doubt that Seth Low will be renominated and re-elected by the fusion forces in New York," Mr. Fish continued. "He has given a satisfactory administration. It may be true that he has not satisfied the small politicians who have demanded patronage, but one must remember that he was compelled to make certain pledges which had to be redeemed and as a non-partisan Mayor he has been compelled to recognize forces that made it impossible for him to be a spoilsman. He has reformed New York, not as the radicals might want him to do, but in a sensible and thoroughly sat-isfactory manner. His administration has given the people a decided relief from the

ways of Tammany.
"It may be true as you intimate that some dissatisfied leaders of the fusion-Ists will go back to Tammany this year. These are the men dissatisfied because they were not allowed to receive the spoils of office. But on the other hand, the great satisfaction that has been felt over Mayor Low's administration bring him thousands of new votes from Tammany.

I have little doubt but that the pollticians would nominate some man other than Mr. Low if they thought they could elect him. But they realize that Mr. Low is the only man who can defeat Tammany and it must be an anti-Tam

One might not be able to reconcile my two statements that Low will be re-elected and that Mr. Roosevelt will not carry New York City. But you must remember that Mr. Low as a fusion nominee will receive many thousands of Democratic votes that will be cast against Mr. Roosevelt. However, in order to carry New York State a majority in the city is not necessary to the President.

#### Platt in Favor of Low. "I think the fact that Mr. Platt has

stated repeatedly that he is in favor of the renomination of both Mr. Low and Mr. Roosevelt shows how the political leaders of New York feel. There has never been any misunderstanding between Mr. Platt and Mr. Low. I believe Mr. Platt has never asked for more than two or three things from the Mayor, and these have been given him. There is general harmony regarding the renomination of Mayor Low. \ 'I do not know whether Richard Croker

is coming back or not. There has been some gossip to that effect in the newspapers, but I do not know what truth there be in the report. I do not believe Tammany is eager for his return, nor do I believe that Mr. Murphy, the present leader of Tammany, wants him to come back," and Mr. Fish laughed at the idea of restoring leadership to Croker, or sloome extended to the former chief-

"New York is thoroughly dissatisfied with the foctrine of Bryanism," said Mr. Fish again. "Why, the Republicans would come close to a majority of 200,000 if Bryan or one of his licutenants were to be nominated for President by the Democrats. Mr. Cleveland would make a strong run in New York, but can Cleve-land be nominated? I think hot. Mr. Gorman is not as strong as Judge Parker in New York and the other candidates mentioned thus far have no espe

Have the Western Fever.

tend to spend a few days before starting home. As Mr. Fish put it, "we are re-turning home full-fledged Western boom-ers." and those officials who have had anything to do with Western affairs are enthusiastic over the result of their in-

"I went through the Portland custom house today and found everything in ex-cellent condition," Mr. Armstrong stated. There is an increase of \$100,000 in the receipts at Portland for the fiscal year ending July 1, 1993, and I believe the com-ing year will show a corresponding in-crease. A gratifying circumstance is that it has cost less money to collect the receipts of the custom-house this year than ever before. The cost a year ago was about 7 cents for \$1. This year it has been 6 cents.
"I went all through the customs de-

partments and found everything in good condition. The collector takes an active interest in his work and the men under him are well qualified to fill their posi-

"The only change that I think I shall make here is probably to summon the appraiser, General Summers, to the New York conference this year. Congress annually makes an appropriation of \$1000 for these conferences and the President designates the offices which shall be represented. When I return I shall probably request that Portland be represented. When this matter is settled a telegraphic ommunication will be sent to notify the Portland office."

Both Mr. Stranahan and Mr. Armstrong paid a great deal of attention to the manner in which the custom-house was conducted here. Mr. Stranahan commented upon the fact that the local custom house is not confronted with many of the problems that New York meets. For in-stance, he pointed out the fact that there is an absence of smuggling by passengers on incoming steamers. "And," added Mr. Stranahan, "we sometimes collect as much in duties at New York in a single day as they do in a year here." Both customs officials are looking forward with interest to a study of San Francisco work, where the four departments are represented. These are the collector, appraiser surveyor and Navy Department. San Francisco is the only port on the Pacific Coast that has this representation, which is given to but few Atlantic cities outside New York.

# WILL BUILD FERRY.

Executive Board Expects to Award Contract to Local Firm.

Local contractors will be selected to build the Sellwood ferryboat, and a number of builders have already gone over the place where the slips and pontoons will be required with a view of making bids for the work. At the end of two more weeks the special ferry committee of the Executive Board hopes to have plans and specifications prepared in order that the call for bids may be issued.

The legal aspect of the municipal enter-prise is just now consuming its share of attention. With a view of determ just what bearing the claim of U. S. G. Marquam to franchise rights will have, Committeemen Curtis and Nickum have confirmed with City Attorney McNary, who expressed the belief that Marquam has been guilty of laches and accordingly would stand little show in a lawsuit should he see fit to bring legal action against the city. If the case should be before the Circuit Court, or other courts on appeal, it is Mr. McNary's belief that active operations need not be suspended as the city could continue by signing bonds equal to the amount of Marquam's probable loss. He advised the committee that it would be advisable to secure a permit from the Sellwood Real Estate Association for the operation of the ferry as the association still has unquestioned rights. The association has consented to grant the city the permit.

# A Few Inquiries.

A Few Inquiries.

PORTLAND, Sept. 2.—(To the Editor.)—
Under the caption "Stealth of No Avail"
in yesterday's issue, you conclude the
article by saying attempts to evade the
cement sidewalk ordinance are infrequent.
This statement is gratifying to property
owners who desire to comply with the
city ordinances and who have some civic
nride. Still there are a number of depride. Still there are a number of de-linquents who have little regard for ad-joining property, the public in general or

the city laws. r will walk

unsightly wooden sidewalks that disgrace

In this connection I will ask why is the Portland Street Railway Company exempt from putting down approved sidewalks in front of its Washington street property? Why is it allowed to plie rais on the sidewalk which remain undisturbed in one place for a year or npore.

### W. A. N. Chinese Teacher Can Proceed.

MONTREAL, Sept. 9 .- Owing to the efforts of Miss Clark, of New York, Mrs. Loon Luen, the Chinese school teacher, wife of a New York restaurant-keeper, who was detained at San Francisco by order of the United States immigration authorities and brought in bond to Montreal, will be entitled to go to New York, having obtained the requisite passport.

as well as on account of the remarkable results following its mining development. oming from the camp, Mr. and Mrs. Harnon walked thirty-five miles in two days, taking it lelsurely, the weather being fine, preferring this to riding in the stage or by ther methods of team transportation. Measure. Sherman and Harmon are erect-ing a beautiful Summer cottage on Spirit

Lake, which will be the finest and most omfortable home among a considerable umber of like structures being erected during the season. This, with two fine boats, which will be built for them this Winter at the camp of the Mount St. Heiens Consolidated Mining Company, will put them in a position to enjoy the delightful climate, grand scenery and unsurpassable fishing which this region affords. Their mountain ome is located on Spirit Lake, which is six niles long, two miles wide, and 3200 feet above sea level.

Mr. and Mrs. Harmon, Mrs. Coe and H. E. Lee, guided by A. Olson, doubtless the best mountain climber in the district, ascended Mount Elinor, which is about 6000 feet high, lying back of and near the mining camp. From the summit of this mountain which has to be reached through perpetual snow, the scenery is reported by these who saw it to be the finest conceivable. Among the snow-capped peaks which stand up distinctly to view from this point are Mount St. Helens, Mount Rainler, Mount Adams. Mount Hood and Mount Jefferson, while to the west stretch the Olympic Range and Spirit Lake and two smaller bodies of water appear to view. The surrounding scenery is weird and uncommon, and these travelers declare that no one should go into The party of Federal officials left last scenery is well and uncommon, and these travelers declare with for San Francisco, where they inwhich is the leading center of development at present in the district. This camp has this Summer been visited by a large number of others, who like himself are somewhat interested in this great property, all of whom express themselves well pleased with their investments and the work now going on. The face of the Sweden tunnel, which has been drifting in ore for searly 1000 feet, has just broken into a body of ore which is believed to be the beginning of the Norway shoot of very rich mineral, toward which, but in another class of ore, this tunnel has been extending. The Norway is situated upon the same vein 2000 feet higher up the mountain, and is the property which has more than any other given the St. Helens mining district its reputation as a great Fort Collins. No damage was de
