Secretaries of Western Senators Mentioned in the Case Are Not Liable to Prosecution--Heath May Be Called.

OREGONIAN NEWS BUREAU, Washington, Sept. 15.-From time to time the intimation has gone forth that a former high official of the Postoffice Department is likely to be drawn into the net with Machen, Beavers and others, but never has the high official been named. This intimation, no doubt, applies to Perry Heath, who was First Assistant Postmaster-General under McKinkey, and who held that office during the days when Machen and Beavers successfully operated many of their now exposed grafts. But there is little probability that proof will ever be found of any graft worked by Heath.

Time and time again Postmaster-General Payne has made it plain that nothing incriminating has been found against this former official. Heath, it is true, was a machine politician, a spoilsman almost to an extreme, and it was under his regime that so many political appointments vere made in the Postoffice Department. While there can be little doubt that Heath approved many contracts under which Beavers and Machen secured rake-offs, it has not been shown that he had knowledge of the grafts being perpetrated by his subordinate officials. If he is culpable, it is for failure to detect irregularities in such contracts rather than for complicity. It is rumored that Heath is soon to appear before the grand jury in Washington to testify against Beavers and Machen, but even this rumor is without substantiation.

Again reference has frequently been made to the secretary of a Western Senator who, it is reported, is implicated in postal irregularities. This designation has been construed to apply to two secretaries to Western Senators, but, as in the case of Heath, nothing has been proven which would incriminate either, and they, too, are in little danger of falling into the clutches of the law.

In the one case, reference is made to J. E. Jones, now secretary to Senator Kearns, of Utah. Jones is the man who was appointed by Heath as physician to the letter-carriers in Washington, D. C., and in that capacity drew something like \$1700 a year and rendered practically no pervice. His graft was soon cut off, and there his offense ended.

The other is supposed to be one Robe Brown, who was secretary to "Billy" M. son, up to the time of his recent retir ment. Brewn was at one time an et ploye in the Postoffice Department, 1 severed his connection by request. I has not been in the department for several years, and he will probably not figure in the round-up. Moreover, there is nothing known to intimate that he was guilty of any offense that would bring him within the reach of the law.

BEAVERS' TRIAL IS BEGUN, Ex-Postal Chief Is Worried and His

Attorneys Fight Hard. NEW YORK, Sept. 15.—The preliminary examination of George Beavers, formerly head of the salaries and allowance division of the general postoffice, under the indictments returned against him by the Federal grand jury of Brooklyn, charging him with conspiracy to defraud the Government through complicity with the Brandt-Dent Manufacturing Company, of Watertown, Wis., was commenced toof watertown, wis, was commenced to-day before United States Commissioner Hitchcock. The defendant was repre-sented by his counsel, Morgan & Seabury, who were reinforced by a third lawyer, Max Stauer, who conducted the examina-tion. The defendant, looking worried,

though attempting to appear at ease, sat behind his counsel. The Government side of the case was looked after by Assistant United States District Attorney Wise, General Henry T. Burnett, the United States District Attorney, was also present, but took little part in the examination.

At the beginning of the examination Mr. Stauer moved to dismiss the proceed-ings on the ground that the facts as alleged in the complaint were insufficient and that no proof had been presented for the Commissioners' consideration in sup-port of the indictment and complaint, as required by law. Mr. Stauer read a num-ber of decisions supporting his conten-

WASHINGTON, Sept. 15 .- In accordance with a decision of Acting Attorney-Gen eral Hoyt, declaring that the subpena served on the Postmaster-General yesterday to appear at the hearing in New York today in the case of George W. Beavers, formerly head of the salary and allowances division, Postoffice De-partment, was void, the Postmaster-General designated Postoffice Inspector Lawrence Letherman as his representative at

the hearing. Postmaster-General Payne said today that it was a physical impossibility to comply with the subpens, in any event, aside from the law in the case. The sub-pena, he pointed out, called for papers, documents and records covering years of operation of the department to be pro-duced before the United States Commissioner. WILLIAMS' FATE IN THE BALANCE. Maska Man Wanting 1904 Pair Place Bitterly Opposed by Carter. OREGONIAN NEWS BUREAU, Washington, Sept. 15.-The fate of Louis L. Williams, of Juneau, whose appointment as Alaskan Commissioner to the St. Louis Exposition was recently held up by Secretary Hitchcock because of protests, is still in the balance.

Ex-Senator Carter, who filed the first protest, has renewed his fight on Williams and is determined, if possible, to prevent his ultimate appointment. It is learned at the Interior Department today that while Carter is apparently opposing Williams solely because he is a Democrat, his opposition dates back two years to the time when Williams came down from Alaska and conducted a vicious anti-Carter campaign in Montana. At that time Carter threatened to get even, and so far his protest has been effective. It is also learned that fully a month

before Williams was appointed Carter, hearing of his indorsement at the public meeting at Juneau, filed a protest against him, but this protest was ignored by Assistant Secretary Ryan, as Williams was indorsed by Governor Brady,

When Williams' appointment nounced, Carter telegraphed the President at Oyster Bay, and it was under direction of his superior that Secretary Hitchcock suspended the appointment. Whatever action Hitchcock has taken has been under direction of the President.

EXPECTS NO BIG ROOM IN SILVER. Department Official Denies Philip-

pine Coinage Is to Be Melted. OREGONIAN NEWS BUREAU, Washngton, Sept. 15 .-- Colonel Edwards, Chief of the insular Bureau of the War Department, denied the widely circulated report that the new Philippine coinage will soon disappear in the meiting pot, owing

to the greater value of silver as builion "Until silver sells at 66 or 65%." he said today, "which does not seem to me in the least degree possible, the new coinage is in no danger. I reach this figure by counting in the expense of transportation, melting, refining and casting into bars, all of which go to make up the total cost of reducing the coinage to merchantable shape as bullion.

"The present rise in silver is, in my opinion, merely a reaction from a long period of depression. Looking back over the last six years, the increased use of silver in the arts has been too small to warrant anything of the sort, and the leading continental nations of Europe that use silver in their coinage are not enlarging their purchase. So where is the pretended great use to come from?"

This is an amendment to the law which provides that livestock in transit shall not be confined in care more than 28 consecutive hours.
