TWO NEW MEN ARE SIGNED

Elsey, Hess and Morris Are Dropped, Anderson and Freeman Join the Team-Club Has Lost Heavily Through Bad Weather.

Manager Ely applied the pruning-knife among the Browns yesterday af-ternoon when he handed around the clicks. In the little yellow envelopes which Elsey, Hess and Sam Morris reelved were notices of their release. The fact that Hess and Elsey got the

ax was not surprising, for it has been known for some time that Hess, on account of his bad hand, would hardly be able to play again this season. The case of Elsey was different. The big firstbaseman has been in disfavor ever since ade a disturbance at the depot the night the team was to have started for Since then Manager Ely has been on the lookout for a new first-base-man and he found him in Buck Freean, who has played first base for Dugdale. Another player well known in Portland, Arthur Anderson, who caught for Jack Grim's team this season, has been signed to help Danny Shea behind the bat. It was the intention of Sam Morris to ask for his release anyway, for he wishes to return to Chemawa school and resume his studies. It was also rumored that Loucks, the pitcher, had been re-eased, but that player was seen at midnight and stated that he had not as yet

seeived any notice of his release. The falling of the ax did not surprise the team a little bit, for they knew that some one had to go, and it was just a question who, for with Manager Eley the management was carrying 18 men, about six more than was necessary. The release of the three players is only a forerunner of others that are to follow for it is the intention of the management trim the team down to the bone be fore it starts south to close the season. From now on the weeding out process will be difficult, for the team is made up of crack players and men that can jump in and play in almost any department In addition to being a good pitcher, Thiel-man is a star outfielder, and he is natrally a valuable man to have on a team. McFarlan also can fit in almost any po-sition, and the same may be said of Buler and Shields.

the signing of Anderson the team will be greatly strengthened. ne of the star backstops in the Pacific National League and was also a star in the Pacific Coast League when he played with Morley last season. He has a good arm for throwing to second, can but well and is a very fast man on the bases. He will be seen in uniform just as soon as he can arrive from Butte, where he has been playing since he became dissatis-fied and was traded to Butte. Freeman is youngster that Dugdale thought a great deal of and in the series that he played with Dug's team on the East Side he made a very favorable impression. He has quite a bit to learn, but under Man ager Ely he should make good. Freeman will take part in the game this after-noon between the Browns and Oakland in case it does not rain. Anderson will arrive either Friday or Saturday. men are in splendid shape, having played

ball until last Sunday.

With the exception of the Los Angeles team the Browns have been the most expensive team in the Const League. When the season opened the payroll was some-thing fierce, and it has been a heavy financial burden ever since. In the first place there was a lot of sickness and in-juries, coupled with several bad investments in players that received money and did not return it nor show up to may. The team started with gold bricks such as the human jellyfish Slagle and Shaf-fer, and a few others who were receiving top-salaries and playing burn ball. The again the rain has not only killed off the attendance, but it has cost the Brown management a tidy sum of money. Be-ginning with the first Sunday game in San Francisco, which was lost on account of rain, the team has been up against some wretched weather. The loss of that Sunday game alone cost the club \$1000. Rain also knocked out a couple of games in Los Angeles on the first series, and \$4000 would not cover losses through the same cause. When the management joined the Pacific Coast League it did not expect to quit the season with money in the treasury, but was hardly prepared to stand the loss it has. At that, not a member of the club whose money has gone into the thing has whimpered about the cost. They are in the game to stay, as was shown last night, when each player retained on the team was furnished with a reservation contract to sign in

case he wished.

Moriey, Ewing, Parke Wilson and Henry Harris have all been using the ax within the last couple of days. Moriey released Pitcher Drinkwater and Catcher Huri-burt. Ewing dropped Pitcher Lee, and Wilson let Speck Huriburt and another player go. Henry Harris has cast Herr adrift, and it is not more than natural to suppose that a number of the Browns will be found taking the toboggan. Just when the releases will be handed out is not known, but it will not be until within a few days of the team's departure for

GET TOGETHER, SAY THE FANS, Senttle Wenry of Two Clubs, and

Wants Them to Unite. If Dugdale is found in Pacific Coast company next season, it will be caused by the newspapers of Scattle. For weeks, res, even months past, the scribes of the Sound city have been pounding upon the "get-together" proposition and they may in the end force Cohen and Dugdale into a compact. It would seem also that the fans of that city are tired of the twoclub proposition and it is doubtful if two clubs will be tolerated there next year. Dugdale maintains that he has secured grounds for next season, for which he has Chicago backing—a thing which the Seattle fans seem to swallow as a bit of

Unless Dugdale has undergone a change of heart since he played here last Sum-mer, he is not dead set against piloting a team in the Coast League. It may be that Cohen and Dugdale will get tegether and if they do, the question naturally arises, what will become of Parke Wilson? The possibility of his being retained as manager is already being discussed and Wilson is out with the statement that, anless the management there is satisfied with what he has done, he will not ask to be retained. Before the season opened in Seattle it looked as if the Pacific Coast would have the edge, but Dugdale and Lucas got next to the sporting scribes of that burg and the boosting of the Pacific Coast took an awful slump. Wilson was handed the hooks at every turn, while Dugdale and Lucas were receiving sugar-coated inforsements. This lasted until the Lucas league began to crumble and the hopors of war went with the victors and there was a rush to get in the Coast

In other words, in all justice, we do not be-lieve Parke Wilson has had a fair chance. If there are to be two baseball teams in town next year, it would be a good thing to retain Manyear, it would be a good time to term to hire ager Wilson and give him free rein to hire whom he pleases and to fire regardless of di-rectorial preference. It was presumed in the beginning that the directors hired Mr. Wilson on account of his ability to manage ball teams, and yet from the beginning he has had to listen to kicks and advice—and to act upon it.

too-from practically every man who had a dollar invested in the business. It cannot be said that Manager Wilson doos not know a baliplayer when he sees him, nor can it be said that he is unable to manage a team. His experience in Denver last year when he came within an ace of winning the rag, and the fact that Denver wanted him back this year, proves that he knows something about the business. If Wilson had had the team that now is his from the beginning, he would have made a very creditable showing, and the fans about town today would have been praising him for being a good manager and great, but as it is the team is in a rut, they are dis-couraged, the public is not in sympathy with them, and Wilson, as a consequence, in the ea-

timation of the fans is no good. imation of the rank is no good.

In discussing the case with the writer Wilson recently said that under no circumstances would be return to Seattle if the directors were not satisfied that he had done his best, were not satisfied that he had done as been, all things considered, this year, and were not willing for him to return. That is all he would say about the matter, other than he would like to come back if his wishes were considered, just to show Seattle what he could do if left

We don't believe Wilson has been given fair deal by any one in Seattle, and for that reason we would like to have him back next year. We have noticed particularly that every man who has played for Parke this season, no matter whether he has jumped or been fired, has had nothing but praise for the quiet fel-low, upon whose bead bushels sof abuse have

> LACK OF INTEREST, Accomplished, by Eugene Gridiron Warriors.

UNIVERSITY OF OREGON, Eugene, Or., Oct. 5 .- (Special.) - Another week of football practice has flitted by and very little has been accomplished. men are practicing enthusiastically, but the old veterans are slow to begin work. Such a spirit on the part of the members of last year's eleven is rapidly discouraging the coach, captain and manager, and is beginning to cause the younger aspirants to attend work irregularly.

The university has excellent material, especially in the line, and the football season never opened more auspiciously, but unless the old men immediately begin to manifest a greater interest in the game Oregon will not put a very strong feam in the field this season. The new material has no incentive to work when the older collegians practice so sluggishly. When asked today how the gridiron work was going, Coach Smith said that he was not pleased at the manner in which the team was supported.

The first game of the season will be played at home, October 17, when the Alumni-Varsity game will be pulled off. The football enthusiasts anticipate that the graduate players will not only cause the collegions to strive harder, but will also enlist the interest of every student. The alumni line-up has not been submit-ted to the local athletic committee as yet, but a strong aggregation is assured.

The schedule of games as submitted to the faculty by Manager Graham is as foi-

FIDDLER COST HOOKIES \$500,000. Twenty-for-One Shot at Chlengo

Was Played All Over the Country. NEW YORK, Oct. 5 .- Morris Park book makers are brooding over the result of the last race on Saturday's programme, The Fiddler won, and if current reports are to be credited at all, the bookmakers here and scores of poolroom proprietors throughout the country wish they had never heard of The Fiddler.

Odds of 20 to 1 were posted at the track against the gelding's chances, because, so far as known, he had never shown form which should have made him at all prominent in the running. Small sums were placed judiciously about the betting ring, so that the odds did not recede. Meanwhile it is alleged that heavy wagers were placed in the poolrooms about the country, and the bets were eagerly snap-ped up, because telegraphic reports from the track showed no change in the odds, and the layers were not at all worried as to the possibility of The Fiddler coming in first.

Members of the bookmakers' association estimate that more than \$500,000 was cleared up on the result As the play at the track is abnormally heavy on Satur day, and the half-holiday crowd generally places much money on "long shots," It is quite possible that the estimaced winnings in this city alone of \$400,000 may be some what near correct. Chicago poolrooms are said to have lost \$100,000; St. Louis, \$100,-000; San Francisco, \$16,000; Louisville, \$15,-000, and smaller sums elsewhere. It is stated that the stewards of the

Westchester Racing Association will begin at once a rigid investigation into the running of the race, and the identity of the winner. The Fiddler was brought here not long ago from the West, and his history until Saturday's race had been rather uneventful, for, generally, he was neare last than first in his races.

SILENCE PROOF ENOUGH. American Counsel in Alaskan Case Holds Britain Understood Treaty.

LONDON, Oct. 5 .- At today's session of the Alaska Boundary Commission Dickinson, of American counsel, Dickinson, of American counsel, con-tinued his argument. He contended that Great Britain's assertion that Vancouver's narrative, which was relied upon by the original negotiators, was not substan-tiated by the evidence submitted by Brit-ish counsel. Vancouver's map was ac-cepted by the United States, but not his narrative, in spite of Attorney-General Finlay's arguing, which Sir Louis Jette, Lieutenant-Governor of the Province of Quebec, and one of the commissioners of Great Britain, supported. Mr. Dickinson contended that the line Portland Channel was always understood to run through the middle of the channel itself, and not along its side. A minute examination of maps then monopolized the proceedings.

Continuing, Mr. Dickinson maintained that the British argument at the best only raised a doubt as to whether "the Portland canal" of the treaty is the "channel" claimed by the United States. If there was any doubt, it must be solved by evidence by the interpretation Great Britain and Russia gave to the meaning of the treaty by their subs acts. Their acts conclusively proved that the identity of the Portland Canal was not only never questioned until 1888 or 1898, but on the other hand it was always shown by the maps and official acts of the governments to be the chan-nel claimed in 1859 by order of Parlia-ment, named the lower part of the dis-puted body of water "Portland Inlet," which was a distinct official declaration on the part of Great Britain recognizing

the United States' present contention.

The Commission will adjourn after the session tomorrow morning so as to enable the members to attend the memorial service for Sir Michael Herbert,

BARBERS PUT TO TEST.

Free Shaves and Haircuts Given by Prentice Hands.

A barber's shop at 684 North Third street, was the Mecca yesterday for all men with long hair that required trimming and faces that needed scraping with a razor, for free shaves and haircuts were given on the occasion of a visit from three representatives of the Oregon State Board of Barbers' Examiners, President J. C. Weis, and Treasurer J. C. Rogers, of this city, and Secretary H. G. Meyers, of Salem. They were in attendance to examine candidates for barbers' certificates, and about 30 eligibles presented them-selves, who all stated they had had three rears' experience as barbers.
A steady stream of customers came dur

the forenoon, but after dinner trade down, and a press gang comwas sent out to do missionary work along Third street. One of the customers re-quiring a shave proved to be under the influence of liquor, and when this was discovered he was "fired" and ordered to get a shave eleswhere. About 30 barbers presented themselves for examination, from this city, Astoria, Albany, Eugene, Salem, The Dalles and other points, At the close of the session, the examiners expressed themselves as being pleased with the work of the fledglings.

A further session will be held today as the same place from 10 A. M. to 5 P. M., when about 20 more candidates will be examined. This evening the examiners leave for La Grande to conduct examina-tions there, and they expect to be able to announce the results of their work Friday

USES CAR TO RUN HIM DOWN New York Officer Then Has His Hands Full Protecting a Negro.

NEW YORK, Oct. 5.-Fearing that a suspected murderer would escape, a police-man from the West Thirty-seventh-street station took possession of an electric car in Seventh avenue, and after a chase of five blocks, during which the car was run at top speed, he overtook the fugitive and arrested him at the point of a revolver. After disarming the man the police-man was compelled to turn his revolver upon an immense crowd of excited men

who wanted to lynch the prisoner.

The shooting was the result of a dispute between negroes over a crap game. The prisoner, William Butler, started the trouble by taking possession of the disputed stake and making off into the street. The other players gave chase and shooting be-gan. The streets were crowded with women and children. One of the pursuers finally overhauled Butler and grappled with him. It is alleged that Butler de-manded his release, and upon the refusal of his captor, Dean Evans, to let go, But-ler fired twice, one of the bullets piercing Evans' heart. There was a panic in the neighborhood among the white persons who were witnesses of the killing, and a lively chase ensued. Butler would have scaped, however, had not the trolley car been utilized.
